#### IT IS HEREBY ORDERED, ADJUDGED AND DECREED:

Case:

Paul Dulberg v. David Gagnon, Caroline McGuire and Bill McGuire (McHenry County Case No. 12 LA 178)

Dear Counsel:

With my departure from the case I feel compelled to address the subject of the chain saw that was involved in Mr. Dulberg's injury. Early on in the case a protective order was entered which prohibited Mr. and Mrs. McGuire from destroying or otherwise disposing of the chain saw and any associated documentation. The primary purpose behind the order of protection was to preserve the chainsaw and associated documentation until such time that Plaintiff's counsel could inspect and photographs same.

On March 20, 2013, the chain saw and owner's manual were made available for inspection and photographing. Plaintiff's counsel inspected and photographed the chainsaw. Plaintiff's counsel also secured a photocopy of the owner's manual.

On April 3, 2013, the protective order was modified to allow the Plaintiffs to use the subject chainsaw, owner's manual and associated paperwork in the ordinary course. The order further provides, however, that the owners may not destroy, dispose of, or sell the items without further order of the court.

Given the above, I am concerned about the possibility of a spoliation claim in the event the McGuires destroy, dispose of, or otherwise sell the chainsaw following my departure from the case. Please advise in writing whether you believe there is any reason to maintain the protective order as it currently exists. If not, I believe it makes sense to have the April 3, 2013 version of the protective order vacated.

I look forward to hearing from both of you at your earliest convenience.

Very truly yours,

RONALD A. BARCH

DSC OPERATIVE REPORT

DATE OF OPERATION: 03/10/2004

PREOPERATIVE DIAGNOSIS: Recurrent left ulnar neuritis at the cubital tunnel with ulnar nerve subluxation.

POSTOPERATIVE DIAGNOSIS: Recurrent left ulnar neuritis at the cubital tunnel with ulnar nerve subluxation.

PROCEDURE: Revision of left ulnar neurolysis at the cubital tunnel with anterior transposition.

SURGEON: Scott D. Sagerman, MD

ASSISTANT: John R. Ruder, MD

ANESTHESIA: General.

COMPLICATIONS: None.

TOURNIQUET TIME: 1 hour and 10 minutes.

OPERATIVE FINDINGS: The patient developed symptomatic ulnar nerve subluxation at the cubital tunnel with recurrent ulnar neuritis following previous cubital tunnel release surgery. Exploration revealed marked irristability of the ulnar nerve which easily subluxated anterior to the medial epicondyle with elbow flexion. Scar formation was present surrounding the ulnar nerve within the cubital tunnel.

TECHNIQUE: Consent was signed by the patient, and he was taken to the operating room. General anesthesia was given. The left arm was prepped and draped sterilely. A sterile tourniquet was applied to the upper arm and inflated following exsanguination of the limb.

#### DSC OPERATIVE REPORT, continued

The previous longitudinal scar over the cubital tunnel was incised at the posteromedial aspect of the elbow, and the incision was extended proximally and distally in longitudinal fashion for additional exposure. Under loupe magnification, the subcutaneous tissue was dissected. The branches of the medial antebrachial cutaneous nerve were identified, dissected, and retracted safely. The skin flaps were elevated, and the ulnar nerve was exposed.

Neurolysis was performed to mobilize the ulnar nerve from surrounding scar tissue. The release was carried proximally and to the upper arm. The medial intermuscular septum was excised. The arcade of Struthers were absent. The release was then carried distally into the flexor/pronator musculature. The aponeurosis was divided to mobilize the ulnar nerve. The articular branch had to be divided to allow adequate mobility of the ulnar nerve for anterior transposition. Small horizontal vessels were ligated and divided, preserving the longitudinal blood supply to the ulnar nerve.

The ulnar nerve was then transposed to the medial epicondyle, assuring a straight line course of the nerve. There was no kinking of the nerve either proximally or distally. The transposition was then stabilized using submuscular flap. The flexor/pronator muscle fascia was incised to create a Z-plasty, permitting lengthening of the muscle fascia. The muscle fibers were then divided, with ligation of perforating vessels. The ulnar nerve was placed in the submuscular position, maintaining a thin layer of muscle fibers deep to the nerve. The fascia was then reapproximated in a lengthened position using 3-0 Vicryl sutures, maintaining the ulnar nerve in the transposed position without excessive tension on the nerve. The elbow was taken through a range of motion, and the nerve showed excellent gliding with no visible angulation of the nerve.

The field was irrigated with antibiotic solution. One free end of a cutaneous nerve branch was identified. This was placed deep to the medial arm fascia which was sutured with Vicryl, to prevent symptomatic neuroma formation.

The subcutaneous tissue was reapproximated with buried 5-0 Vicryl sutures, and the skin edges were reapproximated with 5-0 nylon sutures. A sterile bulky gauze dressing was applied followed by posterior plaster splint to maintain the elbow in a flexed position. The patient was awoken, extubated, and transported to the recovery room in stable condition. He tolerated the procedure well. There were no complications.

#### **OPERATIVE REPORT**

Preoperative Diagnosis: Left cubital tunnel syndrome.

Postoperative Diagnosis: Same.

Operation Performed: Left cubital tunnel release.

Surgeon: Scott Sagerman, M.D.

Anesthesia: General. Complications: None.

Tourniquet Time: 38 minutes.

OPERATIVE FINDINGS: The left ulner nerve showed obvious constriction at the distal aspect of the cubital tunnel beneath the cubital tunnel ligaments. The ligament was thickened with several bands of deep layers over the area of nerve compression. The floor of the cubital tunnel was clear. The ulnar nerve did subjuxate slightly over the medial epicondyle at end range of flexion. There was no arcade of Struthers.

PROCEDURE: Consent was signed by the patient, taken to the operating room, general anesthesia was administered. The left arm was prepped and draped sterilely. A tourniquet was inflated on the upper arm following exsangulaation of the limb. A longitudinal incision was made over the cubital tunnel at the posteromedial aspect of the left elbow. Under loupe magnification the subcutaneous tissues dissected, superficial veins were ligated with bipolar cautery. Branches of the medial interprachial cutaneous nerve were identified. These were dissected and gently retracted safely using a vessel loop. The fascia was incised proximal to the cubital tunnel to expose the ulnar nerve. The nerve was dissected distally by dividing the cubital tunnel ligament, until the nerve entered the flexor/pronator fascia of the proximal forearm. The fascia was incised distally and motor branches of the ulnar nerve were seen with normal pedneural fat at this level. Proximally, the nerve was dissected by dividing the arm fascia for a distance of 10 cm proximal to the epicondyle.

The ulnar nerve was inspected, adhesions around the nerve were divided with gentle blunt dissection. The nerve was noted to be constricted at the distal aspect of the cubital tunnel. Following neurolysis, tendon gliding was found to be satisfactory with elbow motion. No other areas of nerve compression were seen.

The field was irrigated with antibiotic solution. The vessel loop was removed. The subcutaneous tissues were reapproximated with 5-0 Vicryl undyed buried sutures. The skin edges were reapproximated with 5-0 and 6-0 nylon sutures. A starile bulky compressive dressing was applied. The tourniquet was deflated, circulation returned to the left hand with normal capillary refili. The patient was

DATE OF SURGERY: 03/10/04

HISTORY OF PRESENT ILLNESS: The patient is a 33-year-old male who reports symptoms of left medial elbow pain and intermittent paresthesias due to ulnar neuritis decubitus tunnel. Previously he underwent decubital tunnel release surgery in October of 2003 which resulted in some improvement in his symptoms, however, due to persistent symptoms he is now being admitted for additional surgery.

PAST MEDICAL HISTORY: Negative.

MEDICATIONS: Naproxen.

ALLERGIES: None.

HABITS: Smoking history is positive.

FAMILY HISTORY: Noncontributory.

PHYSICAL EXAMINATION:

VITAL SIGNS: Stable.

LUNGS: Clear.

HEART: Rate is regular.

EXTREMITIES: The left elbow shows healed surgical scar across the cubital tunnel. Range of motion is satisfactory. Circulation and sensation are intact distally. There is ulnar nerve subluxation at the cubital tunnel and paresthesias with flexion and extension of the elbow. Circulation and sensation are intact distally.

**INSTRUCTIONS**:

Please insert your answer in the space provided following the question. If additional space is needed, so indicate in the space provided, prepare your answer on a separate paper and attach.

1. As of January 1, 2010, the Federal Government is requiring all insurance companies that pay out for injuries, whether it be for at-fault (liability), no fault or medical expense payments from an accident, product liability, workers' compensation or the like, to report whether or not the claimant is a Medicare or Medicaid recipient. A person who is 65 years or older, a person with certain disabilities, or a person with end-stage renal failure may qualify for Medicare. In compliance with that request, we are requesting the following information, which must be updated throughout the claim and will be re-asked upon closing of the claim (pursuant to Supreme Court Rule 213 and the federal law):

Has Plaintiff/Plaintiff's decedent/the minor or disabled adult for which an injury is claimed, received payments or benefits from Medicare or Medicaid? If yes, please provide the name of the recipient, the recipient's gender, the recipient's Medicare Health Insurance Card Number or Social Security Number and the recipient's date of birth. In the case where the Medicare/Medicaid recipient is a minor or disabled adult or for another reason has a guardian, custodian, conservator, or other person who makes his/her medical decisions, please provide the name of the guardian, custodian, conservator, or other person who makes the medical decisions for the minor, disabled adult, or other Medicare recipient. Please be advised that pursuant to federal law these questions must be answered in their entirety or Defendant's insurance company will not be able to issue payments out of the claim. If while this claim is pending, Plaintiff, petitioner, Plaintiff's decedent, or the minor or disabled adult for which a claim of injury is advanced in this lawsuit becomes a Medicare recipient, please update this interrogatory.

#### **ANSWER:**

Under penalties as provided by law pursuant to 735 ILCS 5/1-109 of the Code of Civil Procedure, the undersigned certifies that the statements set forth in this instrument are true and correct, except as to matters therein stated to be on information and belief and as to such matters the undersigned certifies as aforesaid that he/she verily believes the same to be true.

Patient agrees that if a payment is issued to Patient related to Patient's legal claim that the attorney representing Patient will be directed to deposit the check into the attorney's trust account and pay MedChex lien in full before releasing any funds to Patient.

Patient and MedChex further agree that if a dispute of any kind arises related to the procedures funded by MedChex, either MedChex or Patient may elect to have that dispute resolved by binding arbitration under the auspices of the American Arbitration Association ("AAA") such that an enforceable resolution would be determined by one or more neutral arbitrators in lieu of civil court. Patient and MedChex consent that any arbitration would occur on an individual basis using the substantify laws of the state of New York and Patient agrees that class arbitrations and class action lawsuits are not permitted. In the event that a dispute arises, it is agreed that all of the reasonable expenses associated with pursuing arbitration for the prevailing party will be reimbursed by the other party.\*

EXAMINATION: MRI examination of the right forearm without and with intravenous contrast infusion..

Case:

Paul Dulberg v. David Gagnon, Caroline McGuire and Bill McGuire (McHenry County Case No. 12 LA 178)

#### Dear Counsel:

With my departure from the case I feel compelled to address the subject of the chain saw that was involved in Mr. Dulberg's injury. Early on in the case a protective order was entered which prohibited Mr. and Mrs. McGuire from destroying or otherwise disposing of the chain saw and any associated documentation. The primary purpose behind the order of protection was to preserve the chainsaw and associated documentation until such time that Plaintiff's counsel could inspect and photographs same.

On March 20, 2013, the chain saw and owner's manual were made available for inspection and photographing. Plaintiff's counsel inspected and photographed the chainsaw. Plaintiff's counsel also secured a photocopy of the owner's manual.

On April 3, 2013, the protective order was modified to allow the Plaintiffs to use the subject chainsaw, owner's manual and associated paperwork in the ordinary course. The order further provides, however, that the owners may not destroy, dispose of, or sell the items without further order of the court.

Given the above, I am concerned about the possibility of a spoliation claim in the event the McGuires destroy, dispose of, or otherwise sell the chainsaw following my departure from the case. Please advise in writing whether you believe there is any reason to maintain the protective order as it currently exists. If not, I believe it makes sense to have the April 3, 2013 version of the protective order vacated.

I look forward to hearing from both of you at your earliest convenience.

Very truly yours,

RONALD A. BARCH

# MOTION FOR GOOD FAITH FINDING AND FOR ORDER OF DISMISSAL WITH PREJUDICE BY DEFENDANTS BILL McGUIRE AND CAROLYN McGUIRE

Defendants, BILL McGUIRE (aka William McGuire) and CAROLYN McGUIRE (improperly named Caroline), by and through their attorneys, Cicero, France, Barch & Alexander, P.C., hereby move this Court to dismiss all claims against them with prejudice and further request this Court to find that the settlement set forth in this motion was made in good faith and within the meaning and contemplation of the Illinois Contribution Among Joint Tortfeasors Act, 740 ILCS 100/1, et seq. In support of their Motion, Defendants Bill McGuire and Carolyn McGuire state as follows:

- 1. On or about March 15, 2012, Plaintiff Paul Dulberg filed a multiple count complaint seeking damages for personal injuries he generally attributes to a chain saw incident that occurred on or about June 28, 2011, at and upon the premises owned by Defendants Bill McGuire and Carolyn McGuire, known commonly as 1016 West Elder Avenue, City of McHenry, County of McHenry, State of Illinois.
  - 2. Plaintiff generally alleges that Defendant David Gagnon injured him with a chain

saw while working under the supervision and control of Defendants Bill McGuire and Carolyn McGuire. Defendant David Gagnon denies any and all liability for Plaintiff Paul Dulberg's injuries. Defendants Bill McGuire and Carolyn McGuire also deny any and all liability for Plaintiff Paul Dulberg's injuries and further deny that Defendant David Gagnon was under their control and supervision and working or acting as their employee or agent at the time of the alleged chain saw incident.

- 3. On February 1, 2013, Defendants Bill McGuire and Carolyn McGuire filed a cross-claim for contribution against Defendant David Gagnon. The cross-claim for contribution seeks contribution from Defendant David Gagnon for injuries claimed by Plaintiff Paul Dulberg and is based upon the terms and provisions of the Illinois Contribution Among Joint Tortfeasors Act, 740 ILCS 100/1, et seq.
- 4. Plaintiff Paul Dulberg and Defendants Bill McGuire and Carolyn McGuire have negotiated a settlement of all claims which Plaintiff brought or could have brought against Defendants Bill McGuire and Carolyn McGuire. The settlement was negotiated at arm's length over a substantial period of time, and with the advice of counsel on the part of both parties. There is no collusion or fraud on the part of any of the parties to the negotiation.
- 5. Pursuant to Section 100/2(c) of the Contribution Act, an alleged tortfeasor that settles with a claimant in good faith shall be discharged from liability for contribution to any other tortfeasors.
- 6. Defendants Bill McGuire and Carolyn McGuire deny and continue to deny liability to Plaintiff Paul Dulberg and further contest the nature and scope of the injuries Plaintiff Paul Dulberg attributes to the subject chain saw incident.
  - 7. The lump-sum payment of \$5,000.00 to Plaintiff Paul Dulberg by or on behalf of

Defendants Bill McGuire and Carolyn McGuire constitutes adequate consideration for purposes of a good faith settlement under Section 100/2(c) of the Contribution Act.

8. Defendants Bill McGuire and Carolyn McGuire respectfully suggest that the settlement with Plaintiff Paul Dulberg is and was made in good faith within the meaning of the Illinois Contribution Among Joint Tortfeasors Act, 740 ILCS 100/2(c).

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, respectfully pray for the Court as follows:

- (1) For an Order declaring that the settlement between Plaintiff Paul Dulberg and Defendants Bill McGuire and Carolyn McGuire was made and entered into in good faith within the meaning of the Illinois Contribution Among Joint Tortfeasors Act, 740 ILCS 100/1, et seq.;
- (2) For an Order dismissing all civil complaints, cross-claims, counterclaims and contribution claims currently pending against Defendants Bill McGuire and Carolyn McGuire, and arising out of or otherwise connected to the injuries claimed by Plaintiff Paul Dulberg, with prejudice;
- (3) For an Order declaring that any potential future claims against Defendants Bill McGuire and Carolyn McGuire, including, without limitation, claims for contribution arising out of or otherwise connected to the chain saw incident and injuries claimed by Plaintiff Paul Dulberg, are barred;
- (4) For an Order declaring for purposes of Illinois Supreme Court Rule 304(a) that there is no just reason to delay enforcement or appeal of the Dismissal Order; and
- (5) That this Court enter an order granting such further relief as this Court deems just.
