                    Attached (Latest found from Talarico on response to Baudin MTD.pdf) was the latest working version of Mr Talarico's response to the Baudins Motion to Dismiss I found and incorporates many of the earlier changes I made from the all inclusive email from Talarico.
                    The only reason Mr Talerico sent me (Latest found from Talarico on response to Baudin MTD.pdf) working version was because he was having trouble fitting it within the 15 page limit.
                    When I try to merge what you sent me (Baudin Answer.pdf attached) with what is contained in (Latest found from Talarico on response to Baudin MTD.pdf) using the blocks from what I approved this morning, (Draft ADR Systems Amended Complaint.pdf) also attached, I am having serious issues and getting lost between all the variations and correct story line of the response.
                    My current work in progress is also attached as (NEW MERGED- Baudin Answer copy.txt) I have altered quite a few of the earliest points and you can see where I get lost when I stop using the numbers and go to straight bullet points.
                    Merging all these quickly while trying to keep up with Mom's needs is frustrating and I'm just lost.

Mr Talarico believes this exact argument should be made in the Olsen appeal and asked me to include it in our work for the appeal as well

The only reason Mr Talerico sent me (Latest found from Talarico on response to Baudin MTD.pdf) working version was because he was having trouble fitting it within the 15 page limit. When I try to merge what you sent me (Baudin Answer.pdf attached) with what is contained in (Latest found from Talarico on response to Baudin MTD.pdf) using the blocks from what I approved this morning, (Draft ADR Systems Amended Complaint .pdf) also attached, I am having serious issues and getting lost between all the variations and correct story line of the response. My current work in progress is also attached as (NEW MERGED- Baudin Answer copy.txt) I have altered quite a few of the earliest points and you can see where I get lost when I stop using the numbers and go to straight bullet points. Merging all these quickly while trying to keep up with Mom's needs is frustrating and I'm just lost. Merging all these quickly while trying to keep up with Mom's needs is frustrating and I'm just lost.

My current work in progress is also attached as (NEW MERGED- Baudin Answer copy.txt) I have altered quite a few of the earliest points and you can see where I get lost when I stop using the numbers and go to straight bullet points.
