Subject: **Medical Update**

Hi Hans,

Today Dr. Levin my neurologist increased my medication of Gabapentin from 300 mg twice a day to 600 mg twice a day. I'm not happy about the increase, it already makes me extremely tired but it's supposed to help with the nerve pain in my right arm.

Not sure if you needed to know this but it is a minor change in the medical condition.

Thanks,
Paul
