ASSOCIATED NEUROLOGY, S.C.

MITCHELL S. GROBMAN, M.D.
KAREN F. LEVIN, M.D.

July 28, 2011

Mr. Hans Mast
3416 W. Elm Street
McHenry, IL 60050

RE: Paul Dulberg

Dear Mr. Mast,

Mr. Dulberg was previously seen by my associate, Dr. Mitchell Grobman, in 2002 for left ulnar neuropathy, and had surgery and essentially became asymptomatic by 2007 and who had never had difficulty in his right arm. Approximately a month prior to the evaluation, he had been holding a branch for a neighbor when the chainsaw came up and cut his right forearm. He was taken to Northern Illinois Medical Center where they put in inner stitches in the muscle and outer stitches. He originally had very significant pain, but as the pain was getting better, he started noticing that he had numbness in his fifth digit in the inner aspect of his forearm. He had not been dropping things. It was mostly just a tingling and a numb feeling. He denies ever having any right-sided symptoms or right-sided injuries. His examination was significant for a healing scar in the right forearm and for decreased light touch, pinprick, and temperature sensation in the ulnar distribution of the right arm. His strength was normal. Given the distribution, it was felt that this was a branch neuropathy to the sensory nerves. I did have him undergo nerve conductions to make sure that the median and ulnar nerves were all without involvement and they were. I recommended that he see a hand surgeon as well just to be certain that there were no other treatment options for him; however, most likely this was just a sensory branch neuropathy that may improve or may result in permanent numbness in the distribution that he was showing numbness. Mr. Dulberg should followup if any additional symptoms develop or if he wished to try any neuropathic pain treatment if it became painful and not just numb.

Sincerely,

Karen Levin, MD (mdm)

Karen F. Levin, M.D.

MEDICAL SUMMARY PAUL DUHLBERG

9/11/03 Hand Surgery Associates / Dr. Scott Sagerman

9/16/03 Hand Surgery Associates / Dr. Scott Sagerman

Hx: letter to Dr. Grobman. Left arm. N and T in ulnar nerve distrib of left hand. Following mva 3/02. Injections and meds. NCV in 2002 showed ulnar neuopahty on left.

Dx: left cubital tunnel syndrome.

T: surgery

10/28/03 Hand Surgery Associates / Dr. Scott Sagerman

SURGERY: left cubital tunnel release

10/30/03 Hand Surgery Associates / Dr. Scott Sagerman

Hx: eval of left arm. Doing well after surgery. Pain controlled.

T: PT

11/6/03 Hand Surgery Associates / Dr. Scott Sagerman

Hx: left elbow. Sypmtoms improved. Scar tenderness.

T: PT

12/4/03 Hand Surgery Associates / Dr. Scott Sagerman

Hx: Eval of left elbow. Symptoms have improved. Doing well.

Ex: full ROM. Slight ulnar nerve subluxation at cubital tunnel.

T: PT and discussed ulnar nerve transposition.

1/15/04 Hand Surgery Associates / Dr. Scott Sagerman

Hx: doign ok. Ulnar nerve symptoms improved. Still intermittant medial elbow pain. W/ movement.

T: discuss ulnar nerve instabiltiy and surgical options. Seeks second opinion.

1/19/04 Hand Surgery Associates / Dr. John Ruder

Left elbow eval. 2nd opinion.

Imp: favor submuscular transposition surgery.

3/10/04 Northwest Comm Hospital / Dr. Sagermann

Hx:

SURGERY: Revision of left ulnar neurolysis at cubital tunnel w/ ant transp.

3/15/04 Hand Surgery Associates / Dr. Scott Sagerman

Hx Post surgery

3/18/04 Hand Surgery Associates / Dr. Scott Sagerman

Hx: doing well . Pain controlled.

4/8/04 Hand Surgery Associates / Dr. Scott Sagerman

5/6/04 Hand Surgery Associates / Dr. Scott Sagerman

Hx: eval of left elbow. Doing well. Arm feeling better. Strength improved. Pleased with results of surgery.

6/28/11 DATE OF ACCIDENT

6/28/11 Centegra McHenry / Dr. Apiwat Ford

Hx: chainsaw versus right arm 15 min ago. Feeling lightheaded. Accompanied by co-worker.

Xrays: Right forearm: deep tissue laceration at mid forearm.

Dx:

T: no work for 2 days.

7/28/11 Dr. Karen Levin / Associated Neurology

Hx: Seen by Dr. Mitchell Grobman - associate, in 2002 for left ulnar nueuropathy and had surgery and recovered by 2007. No prior problems with right arm. Last

month holding a branch for a neighbor when chain saw came up and cut his right forearm. Taken to ER. Put in stitches in muscle and outer stictches. Originally a lot of pain. Started noticiing numbness in 5th digit. Droping things.

Ex: strength normal. Did NCV study. Normal ncv. Ref to hand surgeon

Imp: Could be branch neuropathy to sensory nerves. Most likely just a sensory branch neuropathy that could improve or result in permanent numbness.

T: referral to hand surgeon.

8/10/11 Dr. Karen Levin

Hx: here for NCV test. Normal. Main median and ulnar nerves normal.

T: To see a hand surgeon.

12/2/11 Mid America Hand to Shoulder /Dr. Marcus Talerico

Hx: right handed dom. Ref by Dr. K levin. For eval of injury to right medial forearm 6/11. Using chain saw when he struck volar medial aspect of right forearm. Large open wound to muscle. Seen in ER. Muscle sewn together. Saw PCP. Noted persistent pain. Intermittant N and T in ring and small fingers. No PT yet. Had EMG 8/11 normal. Uses a mouse for 20 min then pain.

Ex:

Dx: late effect open wound extremeity No evidence of complete injury to ulnar nerve on Exam. Cpts muscular in origin. Maybe superficial sensory problem. No surgical interventtion needed. Ref to OT. Return 4-6 weeks. Review EMG.

12/2/11 Dynamic Hand Therapy

Hx:

Dx: R Forearm laceration w/ wrist flexor weakness, fatigue. No restrictions

T: PT for strengthening and conditioning and pain control

12/6/11 Dynamic Hand Therapy

Hx: chainsaw to forearm, neighbor using chain saw turned around and cut arm. Pain increases and wakes up at night, pain occurs where scar seems adhered to ulnar boarder of ulna.

Ex: healed wound. Mild hypertrophy noted; mild adherence to muscle noted.

Dx: pain, ROM deficits, strength deficits, sign deficits during activities.

T: PT

1/5/12 Dynamic Hand Therapy

Hx: spikes of pain to 9/10 lasts only a few seconds. No functional improvements. Problems pouring coffeee, using mouse, manipulating small objects..

1/6/12 Mid America Hand to Shoulder /Dr. Marcus Talerico

Hx:

Imp: Reviwed EMG which was normal. No evidence of ulnar nerve injury or tendon injury. Maybe some residual soreness but should resolve over time. Contiue PT.

1/30/12 Dr. Karen Levin

Hx: PT asked that he be reevaluated. Still gettting numbness and Ting and burning in spots on ulnar side of hand and arm. Filing for disability.

2/3/12 Open Advanced MRI / Dr. Karen Levin

Hx: trauma with chainsaw. Possible neuroma, nerve impingement or injury to forearm. Possible tendon disruption. Difficulty holding still during image. Pain in forearm and hand w/ weakenss in 4and 5 digits.

Imp: no forearm abnormailty. Does not exclude possible ulnar nerve impingement or injury. But no gross mass seen along ulnar nerve. No obvious muscle abnormality.

2/6/12 Dynamic Hand Therapy

Hx: 10/10 pain w activity, very specific detail. Difficulties holding can, maintaining fist, using RUE very little.

Ex: hypersensitivity

Dx:

T: Pt to be placed on hold until seeks further medical intervention. PT is not

helping his main problem. His SF - FDS appears to be affecting his ulnar nerve every time.

2/13/12 Dr. Karen Levin

Hx: results of MRI. Dk why he has continued symptoms. Dk why when he bends his lttle finger things get worse. Suggested a 3d opinion. Scott Sagerman.

2/27/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: (Firsts visit w/ Dr. S???) Chain saw laceration

Ex: large scar on mid forearm between elbow and innner side of wrist. Positive tinel. Subjective. Sensistivitiy on cubital tunnel on right side. Wrist and elbow motion unrestricted. No atrophy. Flexion normal. MRI normal. NCV (8/11) was normal. Does not rule out possibility of nerve injury.

Imp: right forearm laceration, may be ulnar nerve issues. Wound was a deep laceration. Possible nerve damage.

T: f/u EMG. To test muscle. Dr Levin.

4/2/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: EMG showed no evidence of neuropathy. Normal NCV. There \was no documentation nerve was not functioning normally. Still positive tinel.

4/3/12 Dynamic Hand Therapy

Hx: Pain 10/10 upon completion of FDS..difficulties holding cups or cans, using mouse etc.

Ex: hypersensitivity, decreased edema, numbness over scar and forearm

Dx: sign weakness

T: PT

5/14/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: new complaints: sig increase in arm after raking yard. Pain still occurrs.

Ex: able to grip better. Very little functional improvments. Still problem gripping things and openign lids etc.

Dx: sig sensory deficits noted. Edema increasing today. ROM increased.

T: PT - discuss poss surgery for ulnar neurolysis. Exploratory to see if decompression was necessary. Get second opin by Dr. Biafora.

5/16/12 Dr. Karen Levin

Hx: f/u. spoke to Dr. Sagerman. Strength not improving. Pain is not that bad. Only lasts a few seconds. PT or any activity brings on the pain.

T: Meds

5/17/12 Dr. Biafora

Hx: for second opinion. Chain saw accident to right forearm. Weakness in right hand w/ numbness in right small and ring fingers. Occasional tingling. Shooting pain radiating. Positive Tinel at the cubital tunnel and over the scar. Sign tenderness at scar to deep palpation.

Imp: 1 year status post laceration with potential for dysfunction of the ulnar nerve.

T: recommend surgery for ulnar nerve exploration w neuroysis and include cubital tuennel decompression w/ poss ant transposition. With improve pain not function.

6/1/12 Dr. Karen Levin

Tele Call: gardening over the week and now has increased symptoms.

6/4/12 Dynamic Hand Therapy

Hx: no improvements, grip is decreasing, difficulty opening things etc.

Dx: right forearm laceration of ulnar flexors and nerve

T: go to doc for surgical eval

6/6/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: taking neurontin from Dr. Levin for pain. Concerned with side effects. Symptoms the same. Side effects as well. Pt wants to proceed with surgery. PT lacks progress.

Ex: positive Tinel at cubital tunnel. Forearm scar is stable. W/ tenderness.

T: discussed surgery. This visits diff from last. Last showed PT benefiting. This one shows PT not helping.

6/11/12 Dr. Karen Levin

Tele Call: frequent twinges of pain and discomfort.

7/9/12 Dr. Scott Sagerman / Hand Surgery Associates

SURGERY

Two things to do in surgery: 1) right elbow cubital tunnel release. (Pinched nerve in the elbow)(also done in 2003) 2) scarring of the muscle.

Proc: very dep laceration did reach to the nerves but the muscle fibers actually intact. Nerve was not cut and no visible scarring around the ulnar nerve. This accounts for Pauls symptoms. That the scarring of the muscle accounts for Pauls pain. Cubital tunnel problem was causing the N ant T in the digits. Two independant and separate f indings. CT is not likely related. The muscle scarring is.

7/11/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: doing well. Function increased and symptoms improved. Strength improved. Still some soreness in elbow - normal. No restrictions.

Dx: Cubital tunnel release/

7/16/12 Dynamic Hand Therapy

Hx: Difficulty opening containers such as bottles, tools, lifting, pourinng liquids. Gripping and pulling utensils.

Ex: stitches in place. No drainage, no symptoms of infection. T and Burning in ulnar forearm. L'd elbow forearm, wrists and digits, moderate edema in forearm/wrist/digits

Dx: Ulnar nerve injury - chainsaw on right forearm laceration;

T: moist heat, PT

7/23/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: doing fine

7/30/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: doing well and arm feels much better w/ increased function.

8/27/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: Doing ok. Elbow was sore. In PT. Grip strength increased and hand function better.

9/25/13 Dr. Kathy A Kujawa

Dx: post traumatic dystonia of R hand

T: botox injections for spasms.

10/22/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: feeling better. Function improved. Gaining strength. Sensation in fingers improved. Can grasp objects better. Still difficulty with some activities. Continue HEP.

12/3/12 Dr. Scott Sagerman / Hand Surgery Associates

Hx: eval of right hand and right arm. Still has some weakness and pinch strength and difficulty grasping objects. Doing HEP. **Onset of left elbow symptoms** with no prior trauma.

Dx: left lateral epicondylitis. Deg of the elbow - tennis elbow. Causes are wear and tear and degenerative. Whether due to over compensation b/c of injry -thats a stretch.

3/25/13 Dr. Scott Sagerman / Hand Surgery Associates

Hx: right arm has intermittant soreness - right forearm. Scar stable and mild sensitivity. Padded elbow sleeve for protection. Steroid injection. Unrelated ailment?

8/26/13 Dr. Scott Sagerman / Hand Surgery Associates

Slight intermittant pains in right forearm w/ muscle cramping. Right forearm scar stable w/ no tenderness or sensitivity. Intermitt. Muscle spasms. Referred to neurologist.

RE: ***Bankruptcy Estate of Paul Dulberg, Case No. 14-82297***

Dear Ms. Heeg:

I received your recent correspondence. I am currently representing Paul Dulberg for injuries he suffered when his arm was struck by a chainsaw on June 28, 2011. We are in the midst of discovery. There is no scheduled trial date. At this point, the defense is taking a "no liability" position and therefore, the chance of recovery is uncertain. I believe liability will be extremely difficult. We have calculated Paul's medical expense related to the occurrence as exceeding $60,000. To my knowledge, most of the medical expense is outstanding. However, my belief is that any eventual recovery will be much less.

I will be pursuing settlement negotiations. I am not sure at this time how this case will end up. Happy to speak with you at your convenience.

Very truly yours,

HANS A. MAST

Re: Your File: Paul Dulberg v. David Gagnon, et al
My File: Bankruptcy Estate of Paul Dulberg; Case No. 14-82297

Dear Attorney Popovich:

Paul R. Dulberg filed a Chapter 7 bankruptcy petition on November 26, 2014, and I was assigned as Trustee. (A copy of the Notice of bankruptcy filing is attached for your ready reference.) As Trustee, I am duty bound to collect the Bankruptcy Estate's assets for the benefit of the Debtor's unsecured creditors.

One of the assets of Mr. Dulberg's Bankruptcy Estate is his interest in the personal injury cause of action pending in McHenry County, Illinois. Please note the Bankruptcy Estate's interest in your records.

Debtor has provided to me a copy of the Complaint, but nothing more. At this time, can you please "pull out your crystal ball" and estimate for my Estate the possible result of the pending litigation, the possible timing of its resolution, the extent of any medical liens, and the likely finally distribution to debtor? Also, if the case has sufficient worth, it may be best if the Bankruptcy Estate retains you and your firm to continue the representation (for the benefit of the Bankruptcy Estate.)

I look forward to hearing from you soon.

Very truly yours,

EHRMANN GEHLBACH BADGER LEE & CONSIDINE, LLC

Megan G. Heeg

Attorney for Debtor(s) (name and address): David L. Stretch Law Office of David L. Stretch 5447 West Bull Valley Road McHenry, IL 60050-7410 Telephone number: 815-578-0055	Bankruptcy Trustee (name and address): Megan G Heeg Ehrmann Gehlbach Badger Lee & Considine Pob 447- 215 E First St, Ste 100 Dixon, IL 61021 Telephone number: 815-288-4949

Meeting of Creditors:

Date: **December 30, 2014** Time: **10:00 AM**

Location: **308 West State Street, Room 40, Rockford, IL 61101**

All debtors are required to attend and bring a picture ID and proof of their Social Security Number to the 341 meeting.

Presumption of Abuse under 11 U.S.C. § 707(b)

See "Presumption of Abuse" on reverse side.

The presumption of abuse does not arise.

Deadlines:

Papers must be *received* by the bankruptcy clerk's office by the following deadlines:

Deadline to Object to Debtor's Discharge *or* to Challenge Dischargeability of Certain Debts: 3/2/15

Deadline to Object to Exemptions:
Thirty (30) days after the *conclusion* of the meeting of creditors.

Creditors May Not Take Certain Actions:

In most instances, the filing of the bankruptcy case automatically stays certain collection and other actions against the debtor and the debtor's property. Under certain circumstances, the stay may be limited to 30 days or not exist at all, although the debtor can request the court to extend or impose a stay. If you attempt to collect a debt or take other action in violation of the Bankruptcy Code, you may be penalized. Consult a lawyer to determine your rights in this case.

Please Do Not File a Proof of Claim Unless You Receive a Notice To Do So.

Creditor with a Foreign Address:

A creditor to whom this notice is sent at a foreign address should read the information under "Do Not File a Proof of Claim at This Time" on the reverse side.

MEMORANDUM

TO: File

FROM: Hans

DATE: December 20, 2013

SUBJECT: **PAUL DULBERG**

On December 18, 2013, I called Paul today after an email and we had a long discussion about the McGuire's liability and he seemed to concede and understand that probably based on the testimony there is nothing we can prove against the McGurie's and he is willing to take their $5,000 settlement offer.

SUBJECT: **DISCOVERY DEPOSITION OF DR. MARCUS TALERICO**

CASE: PAUL DULBERG – 10/16/13 Vahl Reporting

As a brief history to this case, this is the case of Paul Dulberg who was injured when a chainsaw cut his right forearm while assisting at a friend's house. He ended up having some numbness and tingling in his pinky and ring finger in that hand as well as some pain and issues involving gripping or holding on to things, which he claims were from this accident. Prior to Dr. Talerico's appointments with Paul, he did go and see Dr. Karen Levin. She then sent him on to Dr. Talerico and then subsequently to Dr. Sagerman. Dr. Talerico ended up seeing him 2 times in his office, 1 being on December 2, 2011 and another on January 6, 2012. Reportedly, there was also a phone call placed to Dr. Talerico's office on June 21, 2012 in which Paul wished to clarify how the chainsaw was being used to him. This is possibly from Paul seeing his medical records. It is unknown as to why he would call 6 months later to discuss it, but in the records, Dr. Talerico noted that Paul was using the chainsaw. It is possible that Paul called to clarify that in those medical records, but there were no other discussions on that date.

FAVORABLE TESTIMONY:

This was not a deposition that produced a lot of good points for our client. Whereas it is documentation of Paul's complaints that he had to his forearm which will come in significant later with Dr. Sagerman's deposition, which is the doctor Paul saw after Dr. Talerico, Dr. Talerico did not provide us with a lot of good opinions with regards to Paul's injuries. However, he did only see him 2 times and as noted to me prior to the deposition, he did not feel he could give anything else to Paul and thought Paul was somewhat of an odd individual. Whereas I don't have any real facts to back this up, it seemed like he was not interested in treating Paul for his injuries.

UNFAVORABLE TESTIMONY:

Overall the doctor simply testified as to what was noted in his medical records which doesn't appear to be too promising for Paul. I should note also that after the deposition, I felt it was somewhat alarming to me and borderline unprofessional that the doctor made a comment in front of myself as well as to the defense counsel as to his suspiciousness of Paul's claims. He gave indications that he did not feel there was really anything wrong with Paul. I did advise him prior to the deposition that Dr. Sagerman's deposition had already been taken and that Dr. Sagerman was clear in the injuries to Paul's forearm which would be causing some of the pain and problems that Paul had. Dr. Talerico advised that he was aware of Dr. Sagerman and certainly did not want to discredit him, however, it

MEMORANDUM

DATE: October 30, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DR. SCOTT SAGERMAN**

CASE: PAUL DULBERG

Jill Tiffany Vahl 847/244-4117

On October 15, 2013, I attended the discovery deposition of Dr. Scott Sagerman regarding his treatment of our client, Paul Dulberg. To review, Paul was injured in a chainsaw accident in which his right forearm was significantly injured and damaged after a chainsaw struck it while helping a friend cut down a tree limb.

FAVORABLE TESTIMONY:

In summary, the doctor was able to tie the forearm pain and symptoms being muscle pain and weakness in gripping and pulling things in his forearm to the accident. It was a deep laceration to his forearm and there was some injury to those muscles and nerves which may have been causing the pain in that area. The surgery to the forearm and treatment of that he felt he could easily relate to the accident.

UNFAVORABLE TESTIMONY:

In contrast to the positive points, the cubital tunnel injuries and subsequent surgeries and treatment that Paul had in his right elbow would be difficult to relate back to the accident and the doctor basically said that it was too far distal from where the chainsaw struck him to have been caused by the accident. Furthermore, any subsequent pain Paul would have had to his left arm would also be a stretch to show that that was somehow related to overcompensate him from the right arm. The doctor did note that it was possible, but I don't know that we can firmly count on his testimony to show that to be a viable claim.

SUMMARY:

On October 15, 2013, I attended the discovery deposition of Dr. Scott Sagerman in Paul Dulberg's case. The doctor identified himself as an orthopedic surgeon with specialties in hand and upper extremities. He did have some recollection of Paul from the numerous treatments of him. This accident occurred on 04/28/11 and the first visit with Dr. Sagerman was on 02/27/12. He does know that he had seen Dr. Sek prior to this as well as Dr. Levin and Dr. Talerico.

The doctor did note that he had seen Paul sometime in the past in 2003 and 2004 when he was diagnosed with cubital tunnel syndrome in his left arm. This is an ulnar nerve condition regarding

MEMORANDUM

TO: File

FROM: Hans

DATE: November 20, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DR. APIWAT FORD**

CASE: PAUL DULBERG

On November 20, 2013, I appeared for the discovery deposition of Dr. Apiwat Ford, who is an ER doctor at NIMC, before court reporter, Margaret Maggie Orton at Vale Reporting Service, 847/244-4117, the transcript was not ordered by our office, but ordered by defense.

Dr. Apiwat Ford is a very cooperative witness. He is very thoughtful and did meet with me before the deposition to talk about the issues in the case. He is the ER doctor and therefore, only saw Paul once and that was the short hours after Paul's accident.

The favorable testimony is as follows:

FAVORABLE TESTIMONY:

1. He only saw Paul once and it was the day of the accident within hours of the injury on June 28, 2011 and Paul gave a history of a chainsaw laceration across the right forearm.

2. The nurse did a triage assessment and he was stable. When he saw Paul, Paul had pain 9 out of 10 and although he had a normal neurological examination, he did have numbness reported in the right fingers, but upon examination he was not able to find any significant abnormalities or compromise neurologically of his right arm or hand.

3. The laceration was 8 centimeters long or 3.5 inches and it went down into the muscle, although he did not measure the depth. He had to stitch 3 interior stitches and 11 exterior stitches. He believes the laceration was more than superficial and it went down into the muscle tissue, but how far into the muscle he doesn't know. It would have gotten into the muscles and possibly - although he doesn't know - into some peripheral nerves but not into the ulnar nerve.

4. He tried to assess initially any type of nerve involvement by doing a neurological examination, but he was not able to discount the fact that there was some nerve involvement that would arise later on or compromise him at some point.

5. On his exam, he did not go into the details of the fingers, numbness or tingling, just did a general neuro exam and found it to be normal. The muscle and tendons were intact, but he did not go into the detail onto how much involvement the laceration had into muscles or tendons.

MEMORANDUM

C: File
Alarie

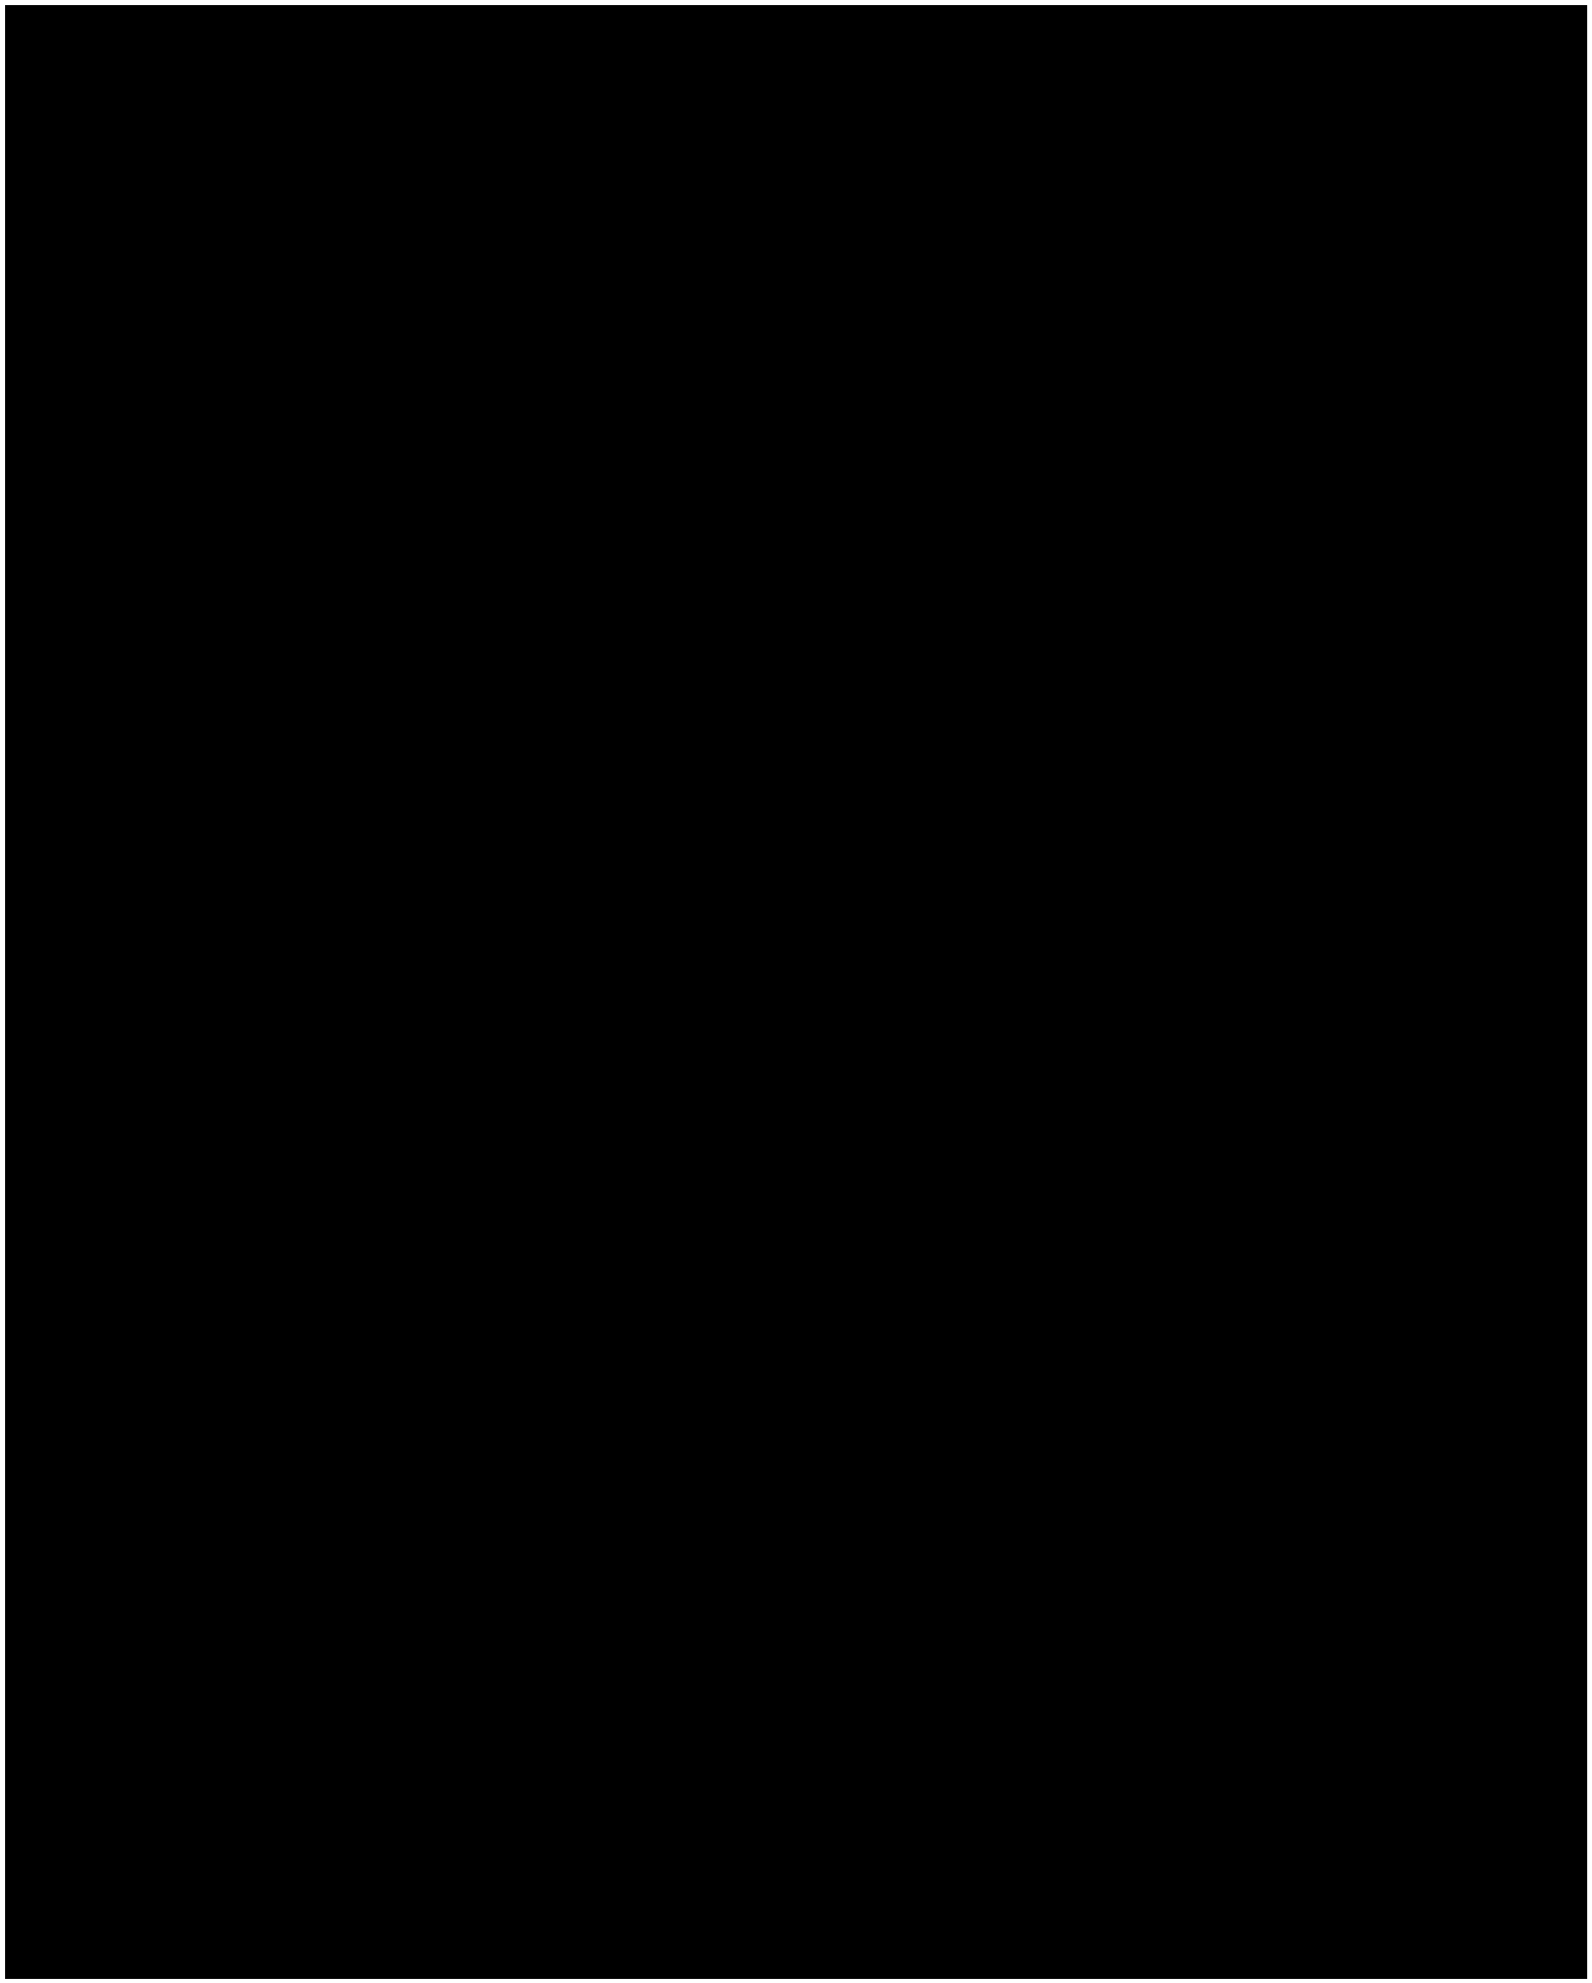
FROM: Bob

DATE: August 1, 2014

SUBJECT: **DISCOVERY DEPOSITION OF DR. KUJAWA**

CASE: PAUL DULBERG

On July 23, 2014, at 1:30 p.m., I attended the discovery deposition of Dr. Kujawa in the case of Paul Dulberg. The deposition was conducted primarily by Perry Accardo and the court reporter was Jill Tiffany with Vahl Reporting and Services out of Lake Bluff and Chicago, 847-244-4117 (Lake Bluff), 312-624-8472 (Chicago).



FAVORABLE TESTIMONY:

1. Dr. Kujawa did very well for us in basically giving us a disability type of issue with Paul and his injuries. Whereas she did only see Paul on one occasion for a primary consultation, but then two other times for botox injection, she did indicate that the type of injury that he suffers will cause neurological type of issues including involuntary muscle spasms of which he was complaining of. She also noted that these will be permanent in nature and he will require an extensive amount of medication and very expensive treatment if he wishes to curtail these.

2. She noted that he would have significant limitations to various activities if he were to try to do them. However, she was not able to give any specifics and did not note in her records what he said his limitations were. She also is very knowledgeable in her testimony of the neurological system and would seem to make a very good witness on the stand in explaining the injuries that he sustained and their end result. The doctor was able to observe objective findings as to Paul's involuntarily spasms and his inability to uncurl his hand or his fingers upon making a fist. She noted that there was no subjective element in that condition which she actually saw that day.

UNFAVORABLE TESTIMONY:

Other then not having all of her medical records in front of her or be able to give specifics as to what Paul could or could not do as a result of this, there was not any significant amount of negative testimony that came from her deposition. She was overall very favorable to us and was able to tie the involuntary spasms as well as the pain that Paul is suffering to the nerve damage and nerve issues directly to the chainsaw accident. She again noted that she felt it would be permanent and he would need expensive medical treatment to have a decent quality of life.

She again noted that she felt it would be permanent and he would need expensive medical treatment to have a decent quality of life.

SUMMARY:

In summary, Dr. Kujawa noted that she only saw Paul on one occasion for an initial consultation on September 25, 2013. He was referred to her by Dr. Sagermann and she knew Dr. Sagermann as being a hand specialist. On that initial visit, she primarily reviewed what is noted in her medical records in that Paul was primarily complaining of involuntary muscle spasms in his right hand as well as significant pain associated with those spasms. She noted that he would report a curling in his hand whereby upon gripping something, his third, fourth and fifth finger would curl up inward along with his wrist. During the examination, she actually instigated this by having him make a fist. Upon doing so, she noted that he could not then uncurl his right hand or his third, fourth and fifth finger. She was very clear in her testimony that this was an objective finding as to her observations and there really is no element of subjectiveness in that at all. Whereas she was not directly able to see the pain he was in, she could tell that he also suffered from pain during that period of spasm. She categorized his ailments as a chronic pain condition that was associated with the spasms. She called the spasms an acquired dystonia. The word acquired is very important as she noted that this is not something that he is born with and that it is usually trauma induced. She would also categorize that such trauma that he sustained would induce such a problem and it is her belief that the cut with the chainsaw is the trauma that induced this dystonia. Dystonia is a fancy word really for involuntary muscle contractions.

The treatment that she put him on is basically botox injections, however, they are very, very expensive. One injection including all fees she estimated would be in the area of $2,000.00 and he would need them approximately every three months. They will not give them sooner than three months or else the body will develop a tolerance for them. He then went back in February, 2014, which we do not have the records for. This visit was for a botox injection which was administered on that day and to her knowledge, there were no complications. He later came back in May for a second one. Whereas she did not have the records in front of her, she knew that there were no complications because if there had been, they would have never had him back in May to give another set of botox injections. She didn't have any specific knowledge on this day as to what his condition was immediately after the injections, but it would take as much as a week and a half after the injection for him to really feel relief. There were some discussions on the initial visit of the cost of these injections and she did refer him to somewhat of an assistance program to see if arrangements could be made for him to afford them. She did say that basically these injections as well as some possible by mouth medications are really the only things right now that she can give to improve his quality of life. These other by mouth medications would include various muscle relaxers and pain medications. She noted that she is not very much in favor of those types of medications but there really is not many options for him.

She had him back in May, 2014, for a second botox injections. She did not have those medical records in front of her and we also do not have those either. Nevertheless, this botox injection was completed at that time and to her knowledge there were no complications. As those are given every three months, she does not know at this point whether or not he has an additional appointment scheduled at any time in August for yet another bout of botox.

When asked of her opinion to a reasonable degree of medical certainty as to whether the chainsaw accident would have provided the trauma that would have caused these injuries, she indicated that in her opinion it was. She noted that whereas she was given information that the arm was "nearly severed" (which was given by Paul), that such an injury could certainly cause enough muscle and nerve damage to cause this type of ailment. As for permanency, the doctor testified that she does believe that this will be a permanent condition for him. She did note however that because of the

fact that he waited almost 18 months after it to come see her may be a contributing factor as to why it is a permanent injury but nevertheless, by the time he did get to her, she did feel that the damage was done and from this point on it will be a permanent injury. He will need indefinite medical treatment, such as botox or medications, to help curtail the pain that he is having. On cross examination, she was asked as to what type of things that may trigger these types of spasms and she noted that due to the fact that we work with our hands, it could be almost anything. It could come at any discriminate time or with any type of actual activity in which he is using him hand. She also noted that it is very possible that they will incur in the middle of the night and when that happens, the pain will be such that it will wake him up out of a sleep at any given time.

She explained the ailment as such, she basically noted that when the nerves and muscles are severed like his seem to be, the nerves will try to rejuvenate themselves on their own. The brain will also try to do that and continue to try to send various messages to the muscles in his hand and in his forearm in order to get them to do something. However, it is not uncommon whatsoever that either the nerves will reform improperly or that the messages from the brain will get mixed up with the wrong nerves and the wrong muscles and therefore you will have the involuntary spasms and for no apparent reason he may have to clinch and make a fist or his hand may move in some way that he did not anticipate. The doctor was very clear and very articulate in her explanation of this and it was quite interesting listening to her explain the relationship between the brain and the neurological system and the muscles and nerves.

Overall, again, she was a great witness for our case for permanency as well as the injuries and ailments that Paul is going to continue to suffer and the very expensive medical treatment that he will need to have a good quality of life down the road. She is currently still trying to treat him and trying to keep his quality of life as best as it can be through the botox and various medications. I did not order a copy of the transcript but it is available as Perry did order a copy.

By copy of this memo to **Alarie**, we need to call 847-981-3630 and ask to acquire those two second dates of records, February and May, for when he received those botox injections.

SUBJECT: **DISCOVERY DEPOSITION OF DR. MARCUS TALERICO**

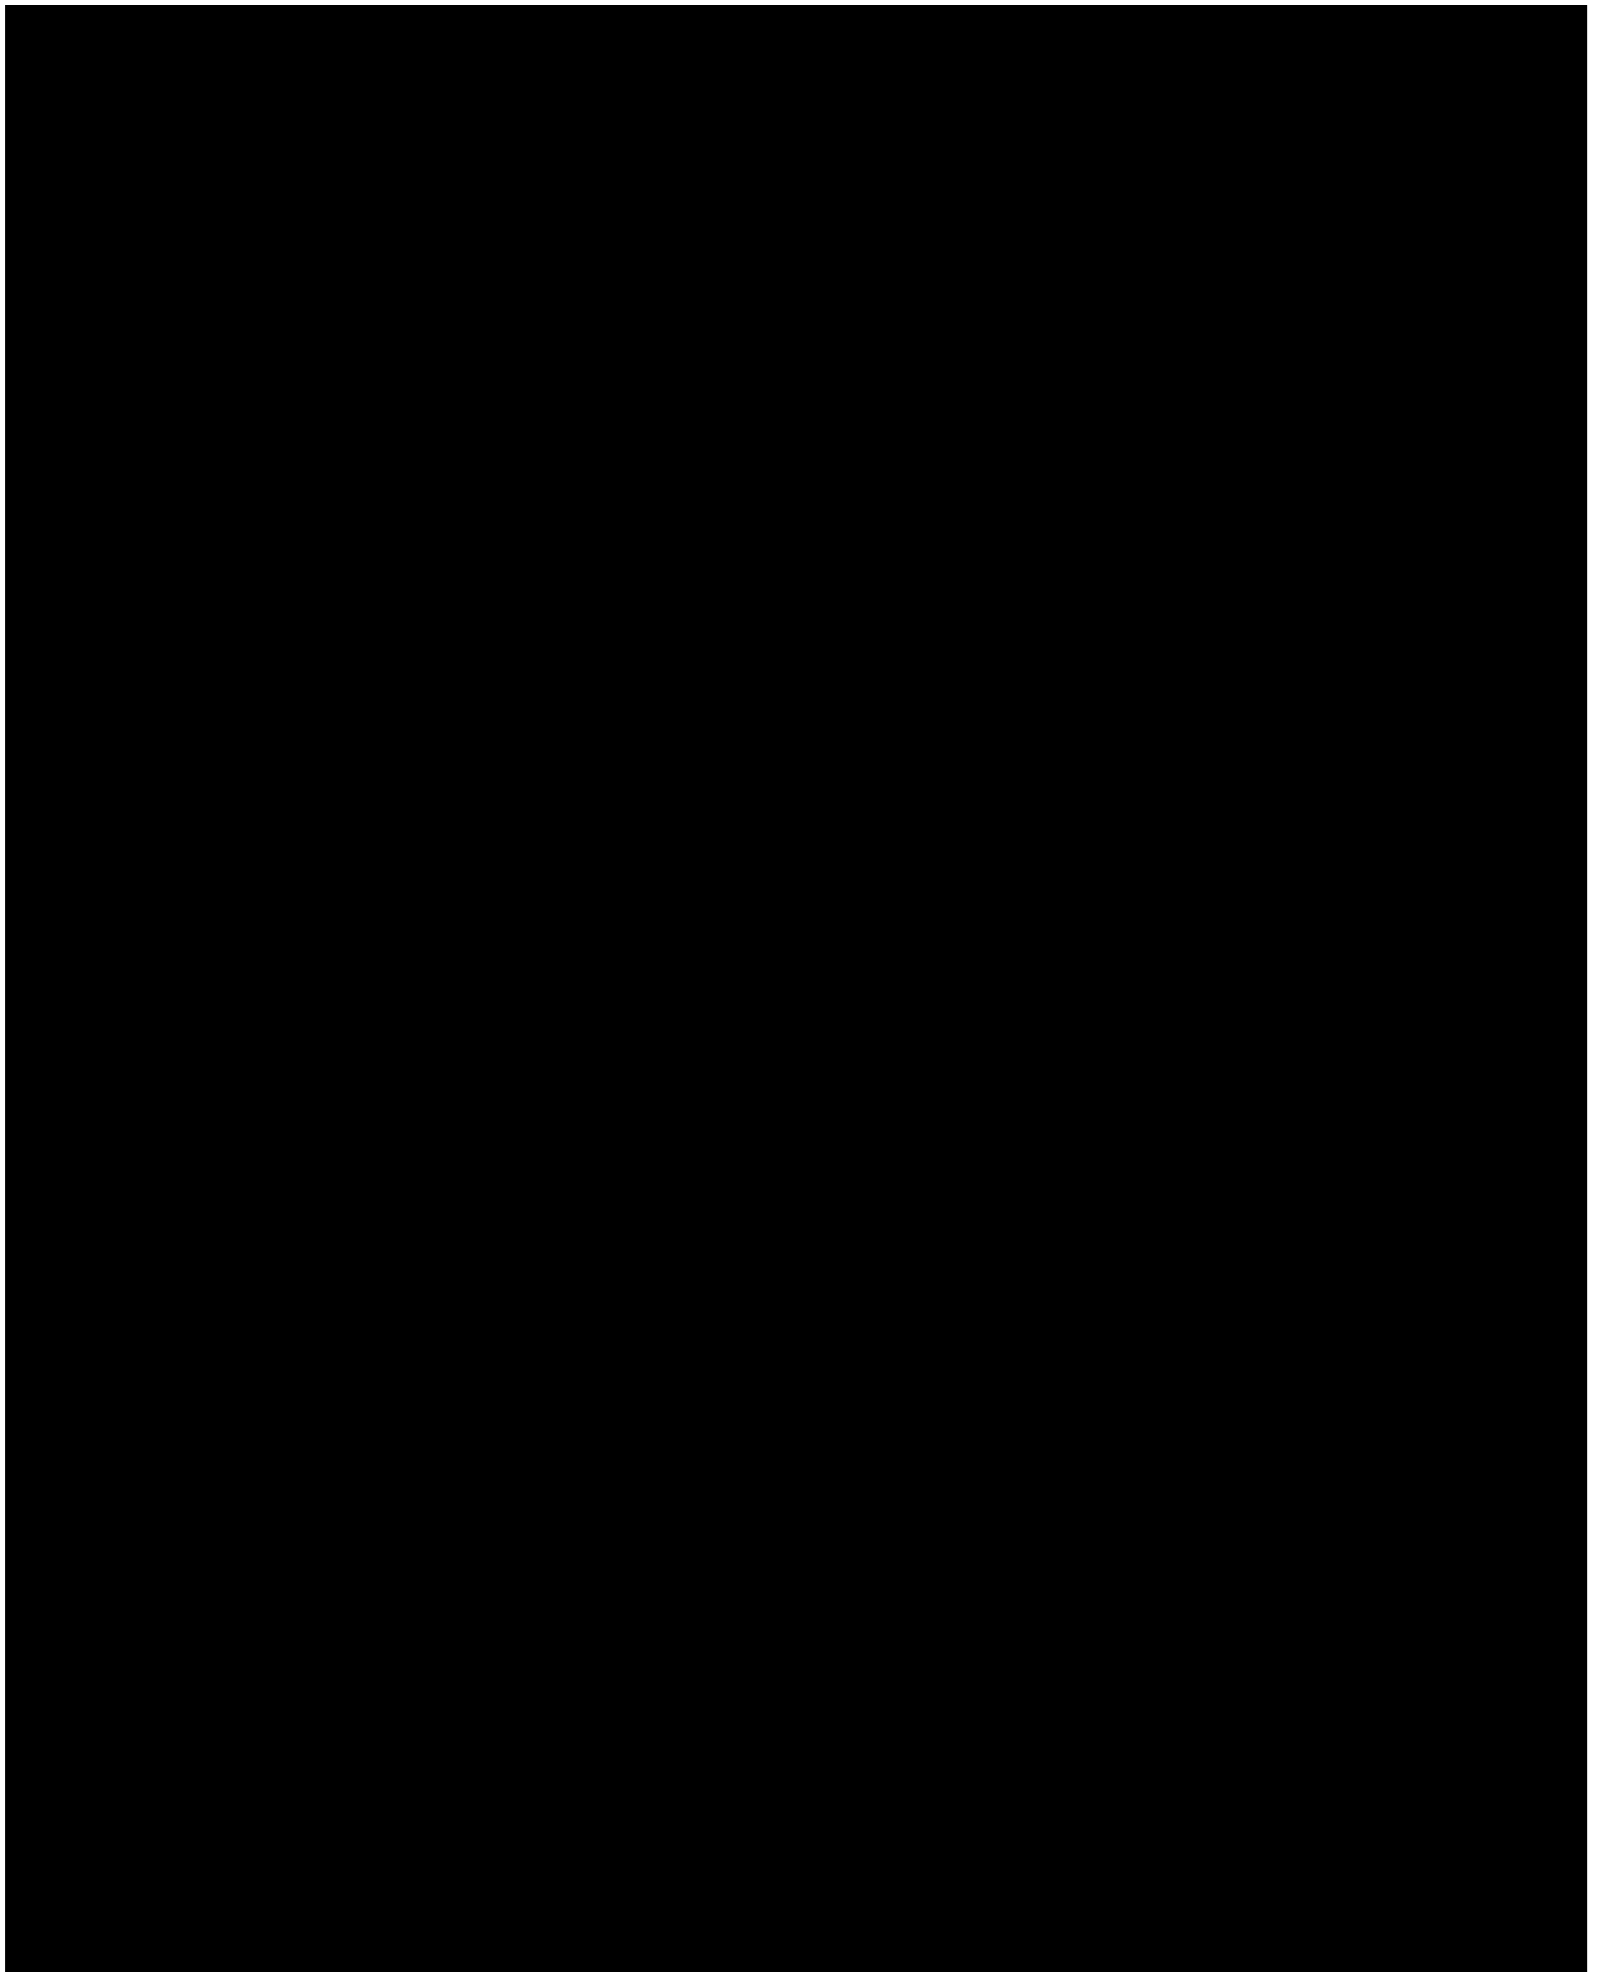
CASE: PAUL DULBERG

As a brief history to this case, this is the case of Paul Dulberg who was injured when a chainsaw cut his right forearm while assisting at a friend's house. He ended up having some numbness and tingling in his pinky and ring finger in that hand as well as some pain and issues involving gripping or holding on to things, which he claims were from this accident. Prior to Dr. Talerico's appointments with Paul, he did go and see Dr. Karen Levin. She then sent him on to Dr. Talerico and then subsequently to Dr. Sagerman. Dr. Talerico ended up seeing him 2 times in his office, 1 being on December 2, 2011 and another on January 6, 2012. Reportedly, there was also a phone call placed to Dr. Talerico's office on June 21, 2012 in which Paul wished to clarify how the chainsaw was being used to him. This is possibly from Paul seeing his medical records. It is unknown as to why he would call 6 months later to discuss it, but in the records, Dr. Talerico noted that Paul was using the chainsaw. It is possible that Paul called to clarify that in those medical records, but there were no other discussions on that date.

FAVORABLE TESTIMONY:

This was not a deposition that produced a lot of good points for our client. Whereas it is documentation of Paul's complaints that he had to his forearm which will come in significant later with Dr. Sagerman's deposition, which is the doctor Paul saw after Dr. Talerico, Dr. Talerico did not provide us with a lot of good opinions with regards to Paul's injuries. However, he did only see him 2 times and as noted to me prior to the deposition, he did not feel he could give anything else to Paul and thought Paul was somewhat of an odd individual. Whereas I don't have any real facts to back this up, it seemed like he was not interested in treating Paul for his injuries.

UNFAVORABLE TESTIMONY:



Overall the doctor simply testified as to what was noted in his medical records which doesn't appear to be too promising for Paul. I should note also that after the deposition, I felt it was somewhat alarming to me and borderline unprofessional that the doctor made a comment in front of myself as well as to the defense counsel as to his suspiciousness of Paul's claims. He gave indications that he did not feel there was really anything wrong with Paul. I did advise him prior to the deposition that Dr. Sagerman's deposition had already been taken and that Dr. Sagerman was clear in the injuries to Paul's forearm which would be causing some of the pain and problems that Paul had. Dr. Talerico advised that he was aware of Dr. Sagerman and certainly did not want to discredit him, however, it

was clear that Dr. Talerico was not a fan of Paul Dulberg as a patient and will not serve as a benefit for us in any testimony that he may give about him.

Dr. Talerico identified himself as Dr. Marcus Talerico and he gave us his CV which was put in as Exhibit No. 1 which is up to date and will be attached to this memo. He described that he is an orthopedic surgeon specializing in hand and upper extremities. He had 2 office encounters with Paul after he was sent to him from Dr. Levin. The first visit was on December 2, 2011 and the second was on January 6, 2012. He had no other visits or treatment of Paul Dulberg.

The first visit was on December 2, 2011. In his deposition, the doctor basically read the history as noted in his medical records. Even though Paul was seen in the emergency room, Dr. Talerico did not get the emergency room records. He said that Paul complained mostly of pain radiating from the laceration site in his forearm and mid forearm as well as numbness and tingling in the pinky and ring finger. He also noted to him grip weakness and loss of endurance in the hand. An EMG had been previously done however he did not have that on that date or noted. Paul was not working at the time as it was noted to the doctor that his job as a graphics person caused him pain in using the mouse. He conducted the exam as noted in his medical records. He noted no tenderness to palpation and noted the exam as relatively normal. He felt that his strength was okay and his wrist and grip strength were also okay. The Froment sign which looks for weakness in the hand was also negative. He also did a Wartenberg test which was positive and described it as an objective finding in which the small finger pulls away from the other fingers in the hand. This did show positive with Paul. Any sensation test that he would have given were normal. As for his diagnostics and assessment, he didn't see any nerve or tendon injury to Paul. He prescribed physical therapy. He felt that the pain Paul was feeling was muscular nature at that time. He noted in his medical records that he did not see the EMG that was done and he would like to obtain that report and have Paul come back once he sees that report. He noted that there is no evidence of a complete injury to the ulnar nerve on the physical exam. Again, he thinks its more muscular in origin. He also felt that he may have some "superficial sensory complaints" as well. He felt that there may be some nerve issues but didn't feel it was significant. He asked Paul to come back after some physical therapy was done and once he obtained those reports. Paul ended up going to 1-2 physical therapy sessions and then came back on January 6, 2012

The next visit was on January 6, 2012. Paul reportedly showed no improvement and the physical therapy didn't help. He told the doctor that he had burning in his forearm and he said it was getting worse. But he had no new complaints. He didn't think that the occupational therapy was helping him. Dr. Talerico did get a copy of the EMG and noted that it was normal. As to whether he was asked about any disability paperwork, the doctor didn't remember any conversation regarding that. The doctor did then give an opinion that he did not think that Paul was disabled. He said there were no objective signs to this. He conducted the same exam on him and felt that it was the same results as the prior exam. He felt that he should continue therapy and really didn't have any other help that he could provide to Paul. He did not note any pain above the laceration on this visit being up in the elbow area. He did note that there wasn't anything radiation also from the laceration up or down his arm. He saw no evidence of an ulnar nerve injury. He noted that he had normal wrist flexor muscles as well. He did note that there was the scar on Paul's arm and that there was a laceration in the muscle belly that had healed. He noted that he did not see any abnormality other then Paul's subjective complaints. Lastly, his opinion is that he did not have any subjective findings to support or justify Paul's complaints.

Dr Kujawa update

From : Paul Dulberg <pdulberg@comcast.net>

Sun, Jun 29, 2014 07:00 PM

Subject : Dr Kujawa update

To : Hans Mast <hansmast@comcast.net>

Hi Hans,

I spoke with dr. Kujawa's assistant Elsie by phone on Friday. I updated her on how the increased dosages of Neurontin/Gabapentin are having an effect on the burning spasms in my arm. I told her that each week that I increased the dose I was able to get a 75-80% reduction in the amount of burning spasms for approximately 2-1/2 to 3 days tops before I adjusted to the new dosage and the beneficial effects wore off. Unfortunately, I also sleep for 2-1/2 to 3 days each time the dosage is increased.
I am now at the recommended level of 1800mg a day and don't have anymore dosage increases scheduled and it's as if I'm not getting any relief again. She said dr. Kujawa wants to keep me at that dosage until our next office visit.
As far as the Botox injections go, I told her this time it definitely had an effect. My hand is now weaker and I can't even my full coffee cup up straight. She said that's what it's supposed to do and that as it wears off the spasms may get stronger and that we will do another round of injections at the 3 month office visit. She also said that I shouldn't be grabbing anything more than a couple of pounds.

SUBJECT: **DISCOVERY DEPOSITION OF DR. KUJAWA**

CASE: PAUL DULBERG

On July 23, 2014, at 1:30 p.m., I attended the discovery deposition of Dr. Kujawa in the case of Paul Dulberg. The deposition was conducted primarily by Perry Accardo and the court reporter was Jill Tiffany with Vahl Reporting and Services out of Lake Bluff and Chicago, 847-244-4117 (Lake Bluff), 312-624-8472 (Chicago).

FAVORABLE TESTIMONY:

1. Dr. Kujawa did very well for us in basically giving us a disability type of issue with Paul and his injuries. Whereas she did only see Paul on one occasion for a primary consultation, but then two other times for botox injection, she did indicate that the type of injury that he suffers will cause neurological type of issues including involuntary muscle spasms of which he was complaining of. She also noted that these will be permanent in nature and he will require an extensive amount of medication and very expensive treatment if he wishes to curtail these.

2. She noted that he would have significant limitations to various activities if he were to try to do them. However, she was not able to give any specifics and did not note in her records what he said his limitations were. She also is very knowledgeable in her testimony of the neurological system and would seem to make a very good witness on the stand in explaining the injuries that he sustained and their end result. The doctor was able to observe objective findings as to Paul's involuntarily spasms and his inability to uncurl his hand or his fingers upon making a fist. She noted that there was no subjective element in that condition which she actually saw that day.

UNFAVORABLE TESTIMONY:

Other then not having all of her medical records in front of her or be able to give specifics as to what Paul could or could not do as a result of this, there was not any significant amount of negative testimony that came from her deposition. She was overall very favorable to us and was able to tie the involuntary spasms as well as the pain that Paul is suffering to the nerve damage and nerve issues directly to the chainsaw accident. She again noted that she felt it would be permanent and he would need expensive medical treatment to have a decent quality of life.

SUMMARY:

In summary, Dr. Kujawa noted that she only saw Paul on one occasion for an initial consultation on September 25, 2013. He was referred to her by Dr. Sagermann and she knew Dr. Sagermann as being a hand specialist. On that initial visit, she primarily reviewed what is noted in her medical records in that Paul was primarily complaining of involuntary muscle spasms in his right hand as well as significant pain associated with those spasms. She noted that he would report a curling in his hand whereby upon gripping something, his third, fourth and fifth finger would curl up inward along with his wrist. During the examination, she actually instigated this by having him make a fist. Upon doing so, she noted that he could not then uncurl his right hand or his third, fourth and fifth finger. She was very clear in her testimony that this was an objective finding as to her observations and there really is no element of subjectiveness in that at all. Whereas she was not directly able to see the pain he was in, she could tell that he also suffered from pain during that period of spasm. She categorized his ailments as a chronic pain condition that was associated with the spasms. She called the spasms an acquired dystonia. The word acquired is very important as she noted that this is not something that he is born with and that it is usually trauma induced. She would also categorize that such trauma that he sustained would induce such a problem and it is her belief that the cut with the chainsaw is the trauma that induced this dystonia. Dystonia is a fancy word really for involuntary muscle contractions.

The treatment that she put him on is basically botox injections, however, they are very, very expensive. One injection including all fees she estimated would be in the area of $2,000.00 and he would need them approximately every three months. They will not give them sooner than three months or else the body will develop a tolerance for them. He then went back in February, 2014, which we do not have the records for. This visit was for a botox injection which was administered on that day and to her knowledge, there were no complications. He later came back in May for a second one. Whereas she did not have the records in front of her, she knew that there were no complications because if there had been, they would have never had him back in May to give another set of botox injections. She didn't have any specific knowledge on this day as to what his condition was immediately after the injections, but it would take as much as a week and a half after the injection for him to really feel relief. There were some discussions on the initial visit of the cost of these injections and she did refer him to somewhat of an assistance program to see if arrangements could be made for him to afford them. She did say that basically these injections as well as some possible by mouth medications are really the only things right now that she can give to improve his quality of life. These other by mouth medications would include various muscle relaxers and pain medications. She noted that she is not very much in favor of those types of medications but there really is not many options for him.

She had him back in May, 2014, for a second botox injections. She did not have those medical records in front of her and we also do not have those either. Nevertheless, this botox injection was completed at that time and to her knowledge there were no complications. As those are given every three months, she does not know at this point whether or not he has an additional appointment scheduled at any time in August for yet another bout of botox.

When asked of her opinion to a reasonable degree of medical certainty as to whether the chainsaw accident would have provided the trauma that would have caused these injuries, she indicated that in her opinion it was. She noted that whereas she was given information that the arm was "nearly severed" (which was given by Paul), that such an injury could certainly cause enough muscle and nerve damage to cause this type of ailment. As for permanency, the doctor testified that she does believe that this will be a permanent condition for him. She did note however that because of the

fact that he waited almost 18 months after it to come see her may be a contributing factor as to why it is a permanent injury but nevertheless, by the time he did get to her, she did feel that the damage was done and from this point on it will be a permanent injury. He will need indefinite medical treatment, such as botox or medications, to help curtail the pain that he is having. On cross examination, she was asked as to what type of things that may trigger these types of spasms and she noted that due to the fact that we work with our hands, it could be almost anything. It could come at any discriminate time or with any type of actual activity in which he is using him hand. She also noted that it is very possible that they will incur in the middle of the night and when that happens, the pain will be such that it will wake him up out of a sleep at any given time.

She explained the ailment as such, she basically noted that when the nerves and muscles are severed like his seem to be, the nerves will try to rejuvenate themselves on their own. The brain will also try to do that and continue to try to send various messages to the muscles in his hand and in his forearm in order to get them to do something. However, it is not uncommon whatsoever that either the nerves will reform improperly or that the messages from the brain will get mixed up with the wrong nerves and the wrong muscles and therefore you will have the involuntary spasms and for no apparent reason he may have to clinch and make a fist or his hand may move in some way that he did not anticipate. The doctor was very clear and very articulate in her explanation of this and it was quite interesting listening to her explain the relationship between the brain and the neurological system and the muscles and nerves.

Overall, again, she was a great witness for our case for permanency as well as the injuries and ailments that Paul is going to continue to suffer and the very expensive medical treatment that he will need to have a good quality of life down the road. She is currently still trying to treat him and trying to keep his quality of life as best as it can be through the botox and various medications. I did not order a copy of the transcript but it is available as Perry did order a copy.

By copy of this memo to **Alarie**, we need to call 847-981-3630 and ask to acquire those two second dates of records, February and May, for when he received those botox injections.

MEMORANDUM

TO: File

FROM: Hans

DATE: November 20, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DR. APIWAT FORD**

CASE: PAUL DULBERG

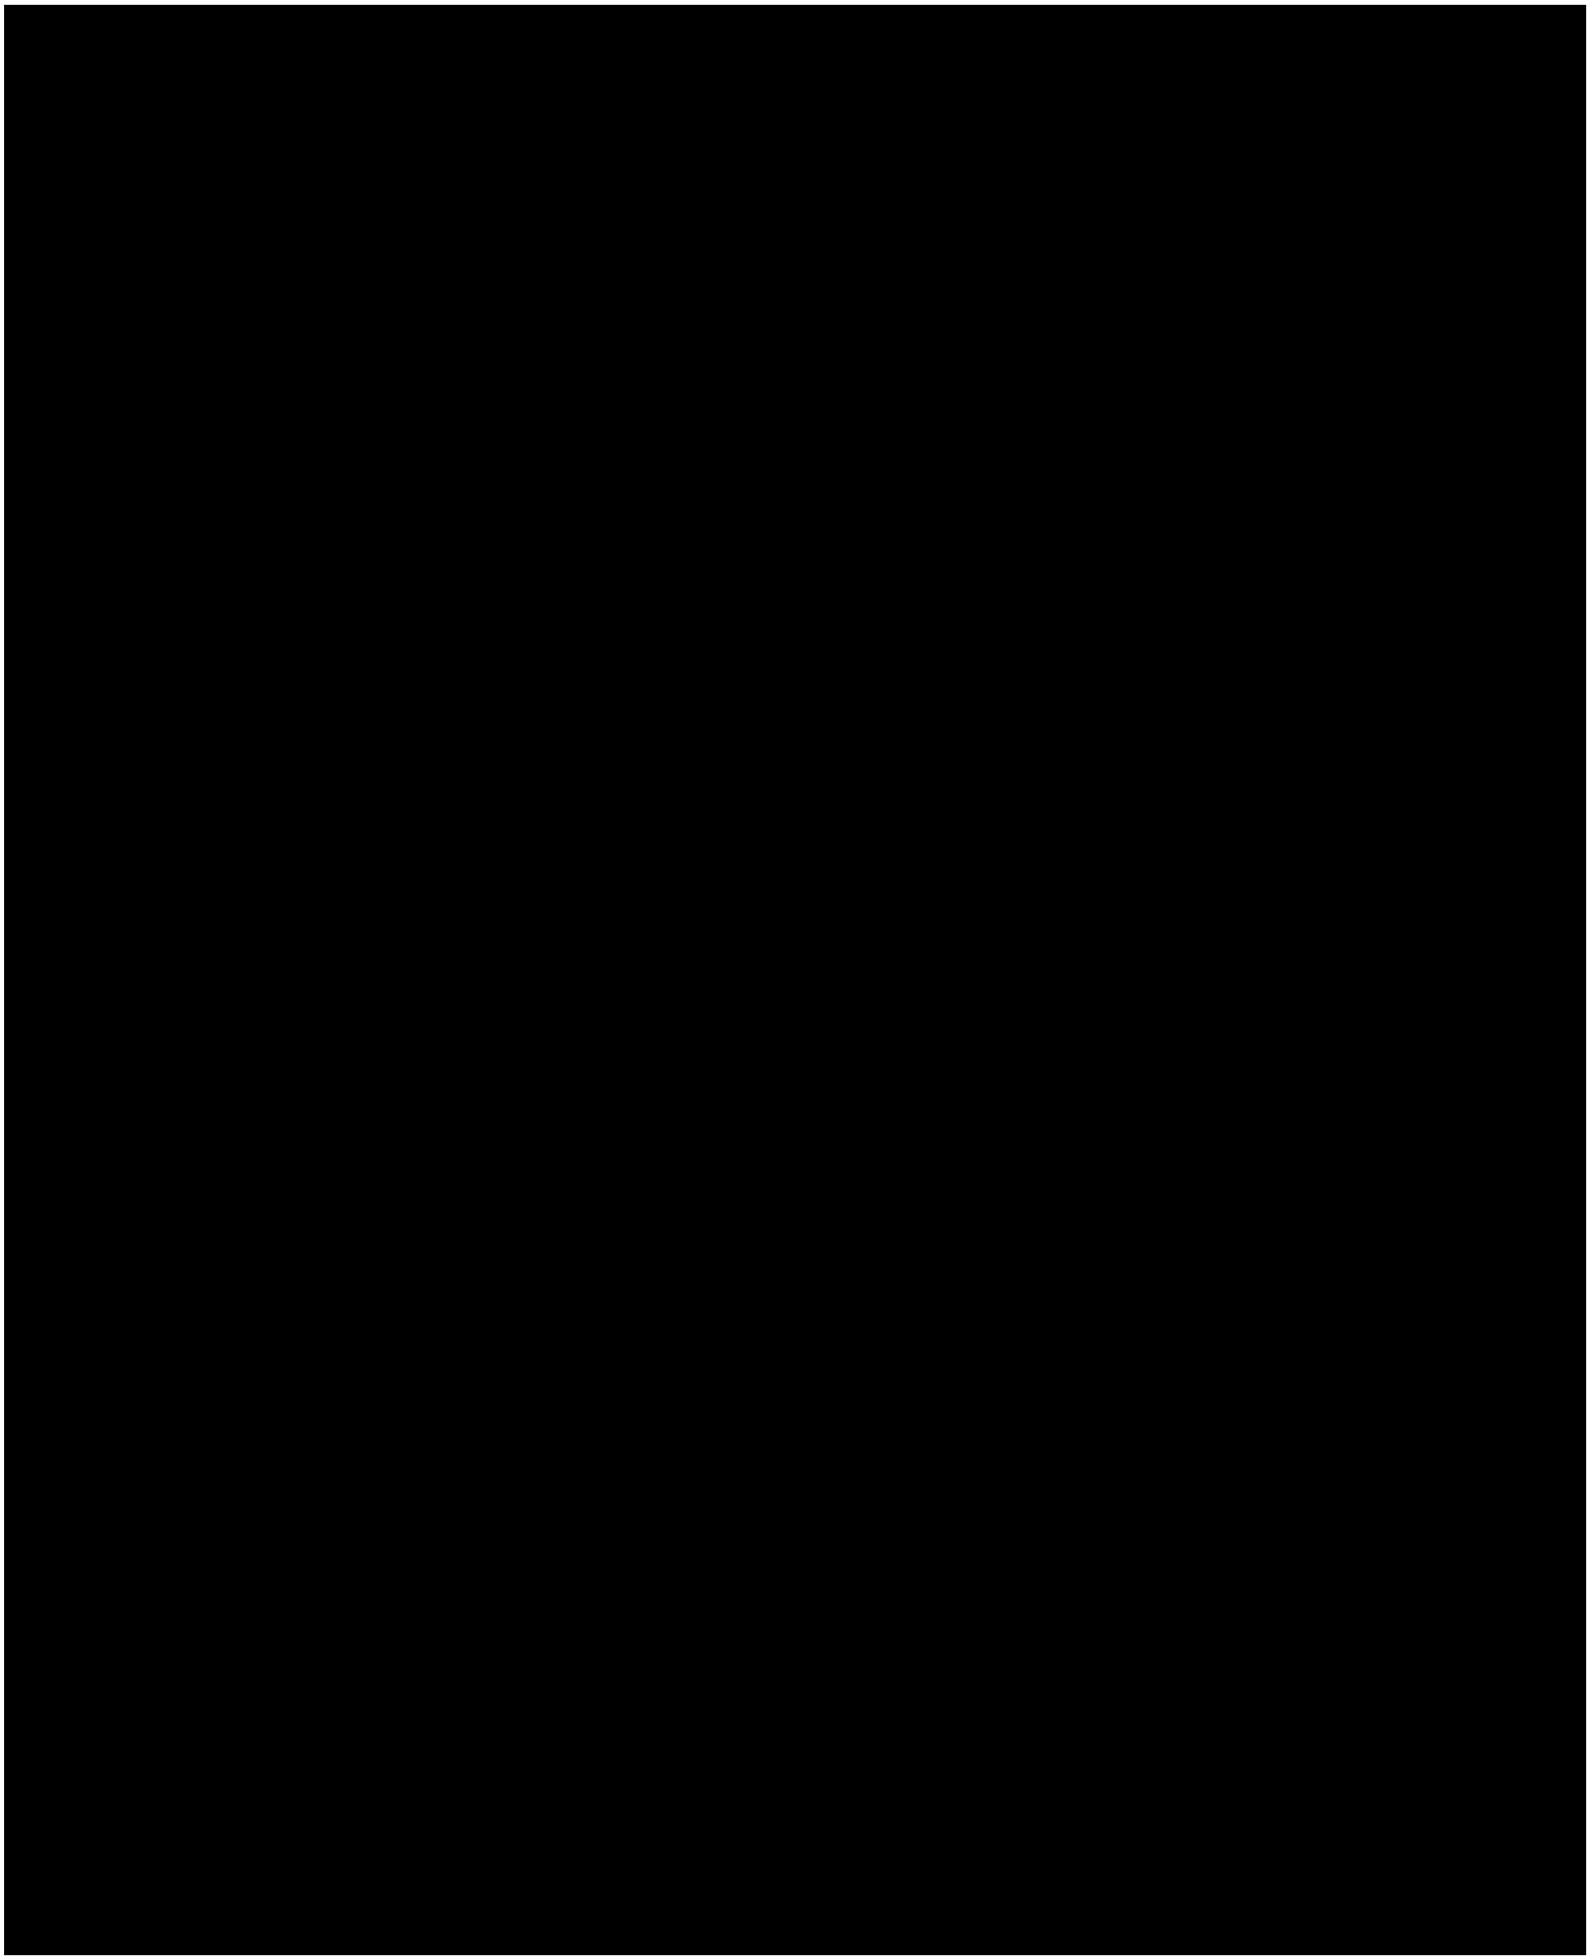
On November 20, 2013, I appeared for the discovery deposition of Dr. Apiwat Ford, who is an ER doctor at NIMC, before court reporter, Margaret Maggie Orton at Vale Reporting Service, 847/244-4117, the transcript was not ordered by our office, but ordered by defense.

Dr. Apiwat Ford is a very cooperative witness. He is very thoughtful and did meet with me before the deposition to talk about the issues in the case. He is the ER doctor and therefore, only saw Paul once and that was the short hours after Paul's accident.

The favorable testimony is as follows:

FAVORABLE TESTIMONY:

1. He only saw Paul once and it was the day of the accident within hours of the injury on June 28, 2011 and Paul gave a history of a chainsaw laceration across the right forearm.



2. The nurse did a triage assessment and he was stable. When he saw Paul, Paul had pain 9 out of 10 and although he had a normal neurological examination, he did have numbness reported in the right fingers, but upon examination he was not able to find any significant abnormalities or compromise neurologically of his right arm or hand.

3. The laceration was 8 centimeters long or 3.5 inches and it went down into the muscle, although he did not measure the depth. He had to stitch 3 interior stitches and 11 exterior stitches. He believes the laceration was more than superficial and it went down into the muscle tissue, but how far into the muscle he doesn't know. It would have gotten into the muscles and possibly - although he doesn't know - into some peripheral nerves but not into the ulnar nerve.

4. He tried to assess initially any type of nerve involvement by doing a neurological examination, but he was not able to discount the fact that there was some nerve involvement that would arise later on or compromise him at some point.

5. On his exam, he did not go into the details of the fingers, numbness or tingling, just did a general neuro exam and found it to be normal. The muscle and tendons were intact, but he did not go into the detail onto how much involvement the laceration had into muscles or tendons.

6. On his exam, he found the wound to be contaminated with dirt and he gave him an anaesthetic, cleaned out the laceration and then stitched it up. It was an irregular and jagged laceration that he had to cut back some skin as well. The sutures were going to be removed 10 days after discharge. He was to return if it got infected, otherwise follow up with his own physician. He was off of work for two days.

MEMORANDUM

C: File

FROM: Bob

DATE: October 30, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DR. SCOTT SAGERMAN**

CASE: PAUL DULBERG

On October 15, 2013, I attended the discovery deposition of Dr. Scott Sagerman regarding his treatment of our client, Paul Dulberg. To review, Paul was injured in a chainsaw accident in which his right forearm was significantly injured and damaged after a chainsaw struck it while helping a friend cut down a tree limb.

FAVORABLE TESTIMONY:

In summary, the doctor was able to tie the forearm pain and symptoms being muscle pain and weakness in gripping and pulling things in his forearm to the accident. It was a deep laceration to his forearm and there was some injury to those muscles and nerves which may have been causing the pain in that area. The surgery to the forearm and treatment of that he felt he could easily relate to the accident.

UNFAVORABLE TESTIMONY:

In contrast to the positive points, the cubital tunnel injuries and subsequent surgeries and treatment that Paul had in his right elbow would be difficult to relate back to the accident and the doctor basically said that it was too far distal from where the chainsaw struck him to have been caused by the accident. Furthermore, any subsequent pain Paul would have had to his left arm would also be a stretch to show that that was somehow related to overcompensate him from the right arm. The doctor did note that it was possible, but I don't know that we can firmly count on his testimony to show that to be a viable claim.

SUMMARY:

On October 15, 2013, I attended the discovery deposition of Dr. Scott Sagerman in Paul Dulberg's case. The doctor identified himself as an orthopedic surgeon with specialties in hand and upper extremities. He did have some recollection of Paul from the numerous treatments of him. This accident occurred on 04/28/11 and the first visit with Dr. Sagerman was on 02/27/12. He does know that he had seen Dr. Sek prior to this as well as Dr. Levin and Dr. Talerico.

The doctor did note that he had seen Paul sometime in the past in 2003 and 2004 when he was diagnosed with cubital tunnel syndrome in his left arm. This is an ulnar nerve condition regarding

compression of the nerve in the elbow. The ulnar nerve is the main nerve behind the elbow in the cubital tunnel area. It extends to the inner side of the hand and provides muscle function to the hand. The symptoms of this syndrome would be numbness and tingling on the inside of the hand, mainly the ring finger and the small finger especially. This is significant as it also notes the same symptoms that Paul had displayed, along with others, in his current treatment with Dr. Sagerman. It is further significant because Dr. Sagerman was not able to tie that cubital tunnel syndrome and symptoms to the chainsaw accident. This earlier treatment in 2003 and 2004 showed the same symptoms and the same type of ailment as he was currently claiming of with his right hand now. The onset of this prior treatment was a motor vehicle accident in March, 2002. The doctor did not have anything else specific regarding that. He noted that the common causes of cubital tunnel syndrome is a compression on the nerve. It may be spontaneous or as a result of injury to the vicinity or it can also be from strenuous activities. As to whether it can be caused simply by repetitive use, he doesn't think so. He noted that these quite type of activities generally cannot create such an ailment. Back then, surgery was done to correct the cubital tunnel and it was successful.

Bring us up to more modern times, in February, 2012, he first came to him for the injury resulting from the chainsaw accident. He didn't really know how it occurred but he does have some history in his medical records. In February, 2009, he did send a letter to Dr. Sek regarding his treatment with Paul which he had on his first visit on February 27, 2012. He noted in that letter that Paul developed symptoms of numbness in the small finger as well as weakness and that he treated it with therapy and had an EMG test and an MRI scan. He noted that he did not have the emergency room notes at that time. Regarding the past medical history, it does note some arthritis as well as cervical disc disease. The doctor did not know much about this but it looked like it was in the neck area. There were various medications that he was on at the time as well and noted that they were for anti-inflammatory, a pain medicine, depression, and for muscle spasms. Regarding his exam on that first appointment of February 27, 2012, the doctor basically read from his notes on that day. He noted there was a large scar on the mid forearm between the elbow and the inner side in the wrist. He noted positive Tinel sign which is conducted by tapping over the nerve area and it will show pain or indicated nerve dysfunction or injury. This is a subjective finding. On the cubital tunnel region on the right side, there was sensitivity there also. Wrist and elbow motion were unrestricted and there were no visible signs of atrophy. He noted that he was able to abduct the small finger which is to pull it sideways from the other fingers. His flexion strength was normal. X-rays showed no fracture. He reviewed the films of the MRI from February 3, 2012 and noticed no abnormalities. The MRI report noted weakness in the ring and small finger. He noted that even though there was nothing abnormal in the images that he was not too exclude the possibility that the nerve was still injured. He noted that just because it's not in the film that there may still be some nerve injuries in and around the point where Paul was complaining. The nerve conduction study was also conducted on August 10, 2011, and there was no evidence of neuropathy. This is a negative finding, however, it does not rule out the possibility of the nerve injury. Same as the MRI report. That being said, it is important to note that simply because these two studies, being the MRI and nerve conduction study, did not show anything abnormal, that does not mean that there is not a nerve injury still present. His impression was that the right forearm was a laceration with probable partial ulnar nerve injury. At the scar area, he noted there was a deep laceration there and there may be ulnar nerve issues. It is possible that the nerve could have been directly damaged. He was showing signs of an ulnar nerve injury and local sensitivity in that area of his forearm. That is further suggestions of such a nerve injury. He then sent him for a follow up for an EMG. This is different from a nerve conduction study in that the nerve conduction study studies and evaluates the velocity of the nerve impulses. An EMG tests the muscle to be indicative of an injury. He wanted the EMG because it

will give a more complete analysis. He felt in his opinion that was warranted. They also brought up surgery at that point as a nerve exploration to expose the area of injury. The EMG was ordered and no work restrictions were put into place. The EMG was done with Dr. Levin on March 13. The next visit with Dr. Sagerman was on 04/02/12.

On 04/02/12, Dr. Sagerman had another appointment with Paul Dulberg in his office. He had the EMG tests which was done by Dr. Levin and it showed no evidence of neuropathy. It also showed that the nerve conduction was within normal limits. At that point, there was no documentation that the nerve was not functioning properly. There was still a positive Tinel sign which is subjective and there is still the abduction of the small finger with a positive Wartenbergs sign. It is noted that he did not wish to pursue surgery at this time but there were some recommendations given for strength exercises and scar management.

The next visit was on 05/14/12 and there were new complaints at this point. Paul was having issues with persistent pain with the use of his arm as well as gripping and squeezing things. There was no change in the symptoms of numbness or tingling in his fingers, but that was not bothersome to him. His function in the arm was limited due to pain symptoms. Upon examination, he found that the Wartenberg sign is still positive and his intrinsic strain is slightly weak. This weakness was of the muscles in the hand that control the fingers. There was also no clawing. This would be an abnormal posturing to the finger due to the muscle issues. This is commonly seen in ulnar nerve injuries. However, there were no signs of clawing in Paul on that date. The discussion was had regarding possible surgery for an ulnar nerve neurolysis. This was more of an exploratory issue to find out what was bothering the nerve and to decompress the nerve. His next visit, he was ordered to follow up with a different doctor, being Dr. Sam Biafora. This was to get a second opinion on his pains and it was suggested by Dr. Sagerman to do this.

The next visit was on 05/17/12 with Dr. Sam Biafora. Dr. Sagerman testified as to what Dr. Biafora had noted in his records which we have. He noted in his records that he was to see Paul for a second opinion after being referred to him by Dr. Sagerman. He noted that Paul sustained a chainsaw injury to his right forearm. He noted that Paul told him that he had a partial nerve injury in the emergency room. On this day he noted weakness in his right hand as well as numbness in his right small and ring fingers at rest with occasional tingling. He also reported a shooting, burning type of pain which radiates proximally and distally from the area of the injury in the proximal forearm. He noted this occurs several times a day at rest and more predictably with use. Upon physical exam, Dr. Biafora noted that there is a positive Tinel at the cubital tunnel through to approximately several centimeters distal to that. There was also transverse swelling and a heeled scar several millimeters in length at the proximal third of the forearm on the ulnar side. He also noted that there is a positive Tinel over the scar and at the most volar radial aspect of the scar. There is also significant tenderness at the scar to deep palpation on its most ulnar and distal border near the ulna. He also noted Tinel over the most volar and radial aspect of the scar radiates into the ulnar digits. He noted there was still positive Wartenbergs signs. He did have good strength and flexation of the small and ring fingers but there is pain at the scar on its most dorsal and ulnar border with resisted DIP flexion of the small finger. His assessment was that he felt there was approximately a 1 year status post the laceration and there was likely a partial ulnar nerve injury with ulnar nerve neuritis. Dr. Sagerman explained this to be that at the site of injury, there was a potential at that location for dysfunction of the ulnar nerve. That would explain some of the symptoms Paul has had and he has been experiencing in the ulnar nerve in his hand as well. Dr. Biafora also recommended surgery and felt that the patient "may benefit from an ulnar nerve exploration with neuroysis". He also noted that he would recommend this also

to include the cubital tunnel decompression with possible anterior transposition. He noted that it will not likely improve the motor deficits in his hand but it may improve the pain that Paul is experiencing in his forearm. He noted that he also had separate and distinct tenderness in the most dorsal ulnar aspect of the wound and it may require exploration of that portion of the scar as well. Paul noted that he wanted some time to think about it before he made a decision and will follow up with Dr. Sagerman in four weeks.

The next visit was with Dr. Sagerman on 06/06/12. He noted that prior Dr. Levin had given him Neurontin to treat the nerve pain that he was having. Dr. Sagerman normally doesn't give that drug and he feels there is problems with side effects and there is a better prescription for him to have. On that date he reported no change in his symptoms despite that medication. However, he is noting some side effects from that medication which may interfere with his functioning. Paul at that time noted he would like to proceed with the surgery that was discussed with Dr. Biafora previously. He also had had additional therapy but it was discontinued due to lack of progress. He went on with the physical examination and noted that the right elbow and forearm was unchanged. There was a positive Tinel sign present at the cubital tunnel without ulnar nerve subluxation. The forearm scar is stable with tenderness and sensitivity to percussion. He indicates he had pain when he was trying to grip things which was localized to the forearm region and resulted in increased numbness in his ring and small fingers as well as weakness in his grip. The surgery was discussed and Paul noted that he feels that any improvement in the symptoms will be beneficial in terms of his arm functioning normal. There was a bit of a discrepancy here between this visit and the last one in which on 05/14 it was noted that physical therapy seems to be getting him some benefit but as of the 06/06 appointment, it is noted that physical therapy is not helpful. The doctor could not explain the difference between the 2 or why that was the case.

Paul then had his surgery on 07/09/12. The doctor noted at that time that prior to the surgery regarding Paul's prognosis, the doctor was very guarded in his prognosis. He didn't really know how much improvement there was going to be as it is hard to predict how much better it is when you don't know the extent of the nerve injury, which is all the more reason why you are going in for the exploration to determine the extent of the surgery.

The surgery was on July 9th. The pre-operative diagnosis was the same and this was an outpatient type surgery. There were 2 things that they were going after in the surgery. No. 1 was the right elbow cubital tunnel issue and release and there was also the pain in the right forearm. Regarding the cubital tunnel release which is done in the right elbow, it did show thickening of the cubital tunnel ligament with scarring of the ulnar nerve to the floor of the cubital tunnel with local constriction. This basically meant a pinched nerve in the elbow area. This was in essence the same type of procedure or injury Paul had suffered back in 2003 and 2004. However, the doctor could not 100% confirm that as he did not have those records. What he found would be consistent with cubital tunnel syndrome and its causes. He did note regarding the surgery to the right forearm that there was a very deep laceration into the muscle which covered the nerves but the muscle fibers were actually in tact. He noted in his report that the site of the previous chainsaw laceration revealed extension to the subcutaneous tissue and fascia overlying the flexor carpi ulnaris muscle. He noted that the nerve was not cut and there was no visible scarring around the ulnar nerve at that level. The findings in this were important for us in that it showed that these were consistent with his complaints. It seemed that from the laceration, what he found would account for Paul's symptoms. He basically went on to discuss the scarring of the muscle and whereas it is maybe difficult to say, he felt the scarring of the muscle may have caused the ailments that Paul was suffering from. He also noted

that as far as the cubital tunnel, that would account for the ailments that Paul was suffering in his ring and pinky finger. These are two separate independent findings at two different sites. In summary as I will go over later, it basically noted that the doctor would tie the injury to the forearm and that weakness and lack of grip to our accident. However, he would not tie the cubital release in his elbow to the accident as he felt it was too distal from where the accident actually occurred.

The next visit was on 07/11/12. There did not seem to be any real issues at that time and the patient was doing well. His function had increased and his symptoms had improved and his strength had increased. He still had some soreness in his elbow and that was normal. As far as restrictions at work, he did not feel that Paul should have any as doing work sitting at a computer.

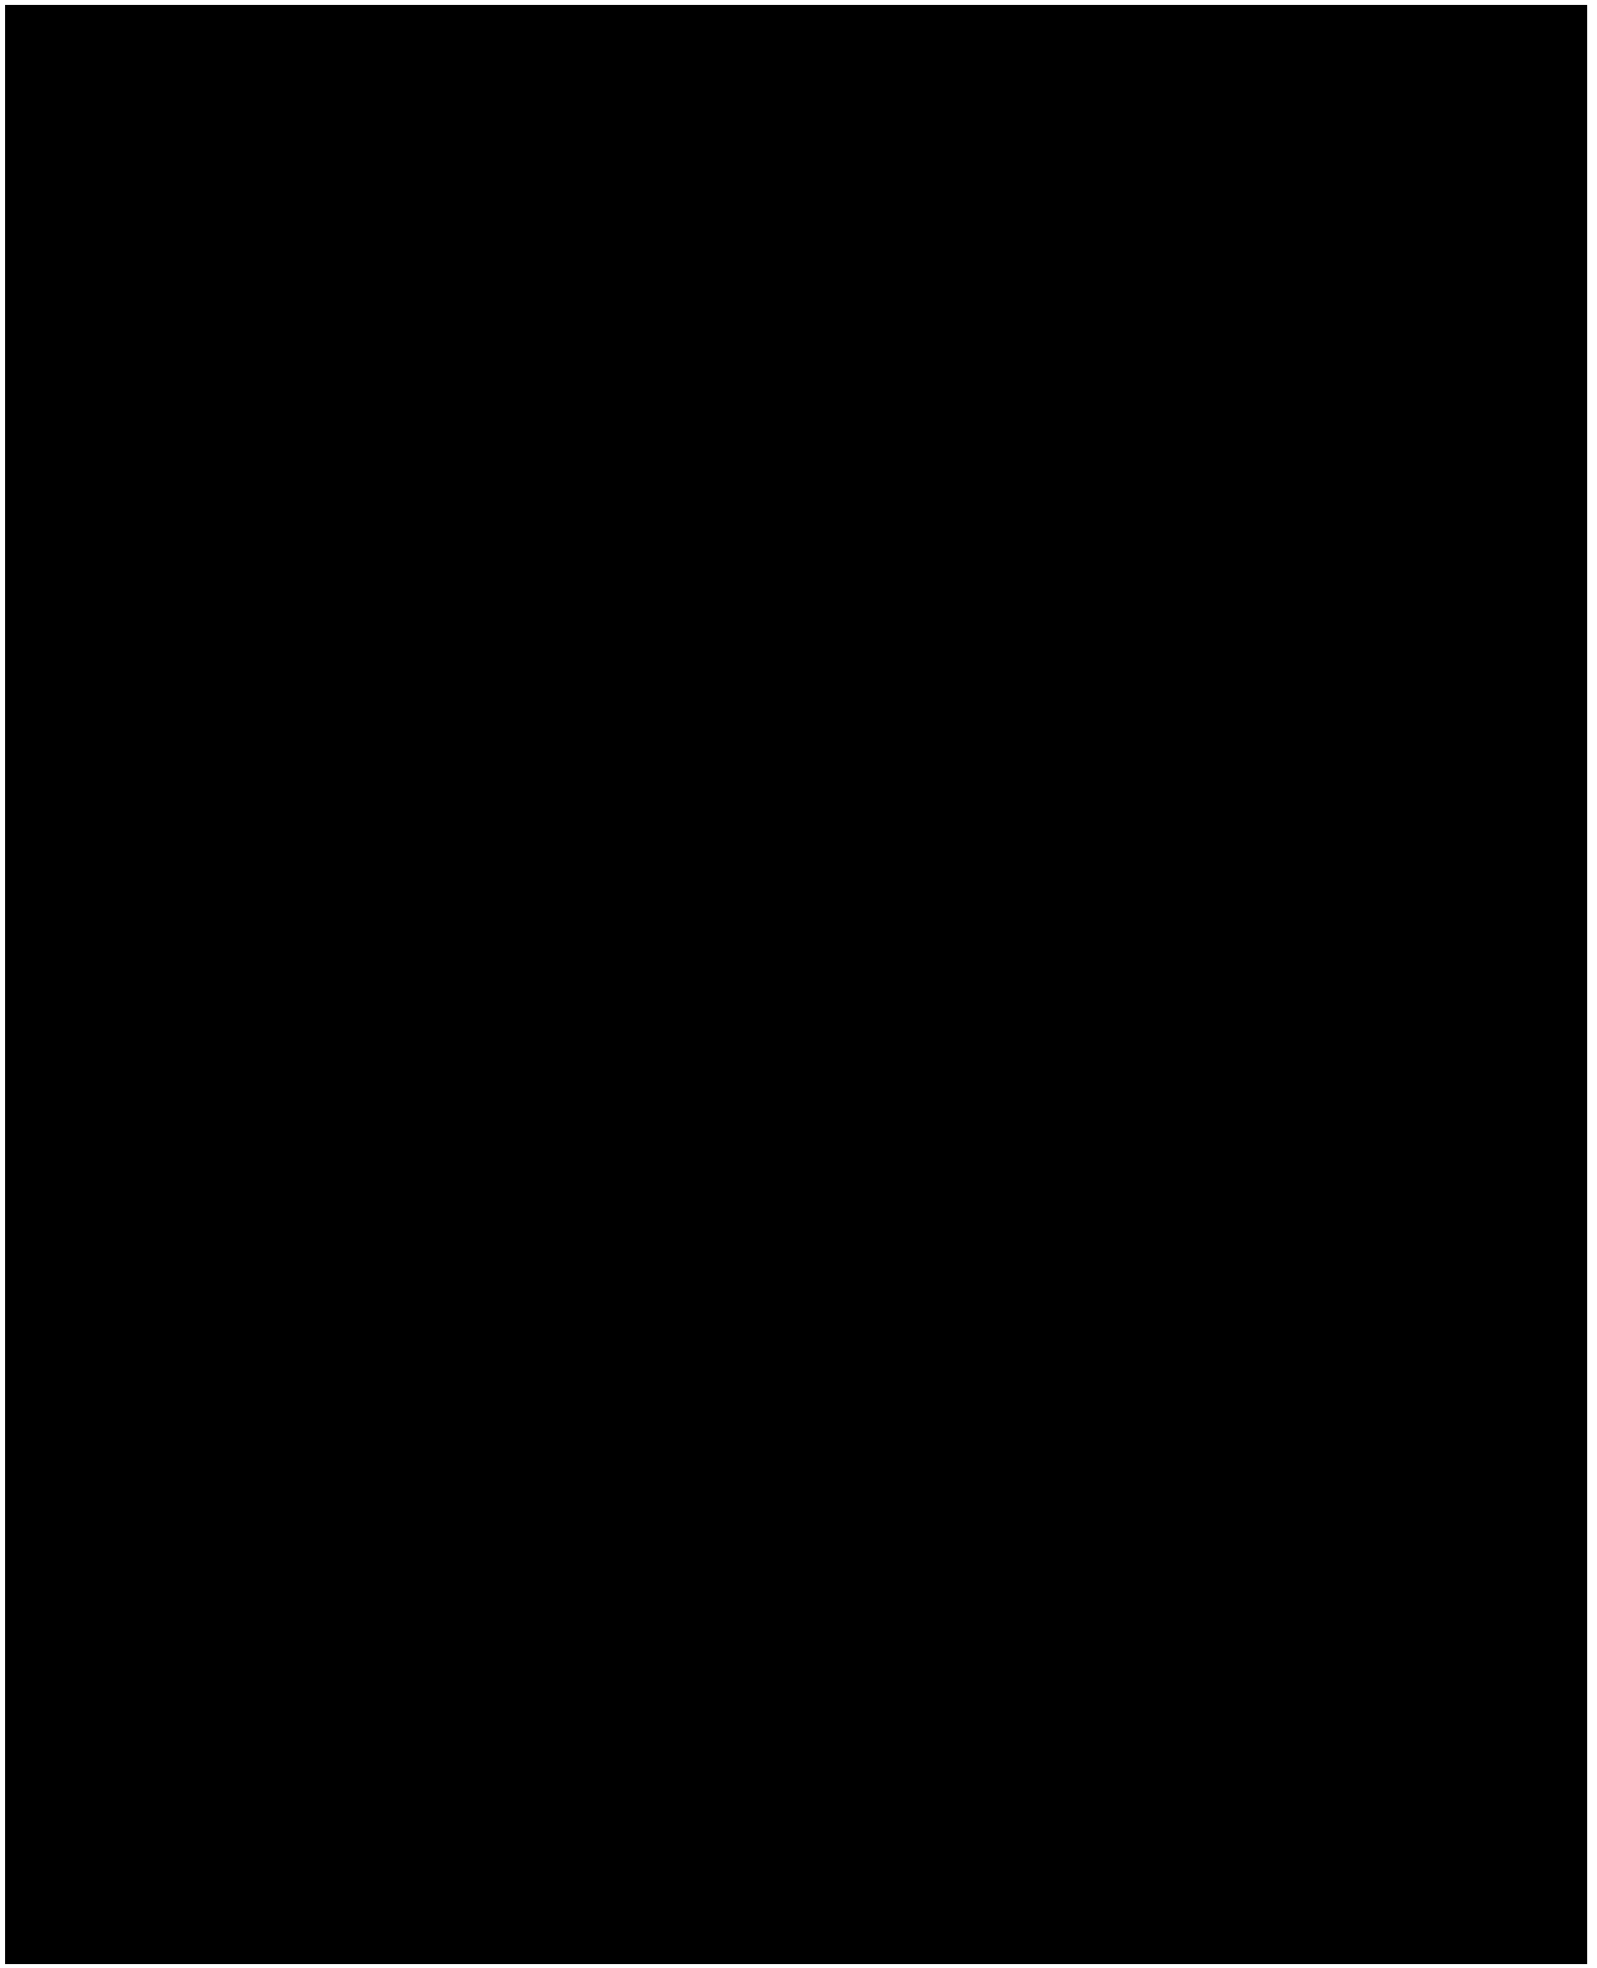
The next visit was on 07/23/12. At that time, Paul seemed to be doing fine.

He then saw him on 07/30/12 and noted also that he was doing well and his arm feels much better and he has increased function and feels that his symptoms have improved.

The next visit was on 08/27/12. On this, he noted that Paul was doing okay and that his elbow was sore and he was participating in therapy. His progress at this time was satisfactory and his grip strength had increased and his hand function had improved. There were no signs of infection or any other issues. He was told to continue his therapy and come back in about 6 weeks.

His next visit was on 10/22/12 and he noted he was feeling better. His function has improved and he is gaining strength. The sensation in his fingers has improved and he is pleased he can now grasp objects better then he did before the surgery. He still has some difficulty with certain activities regarding gripping and pinching of small objects. He was examined and it was noted that he will continue his home exercises as well as those given by his therapist. He can also advance in his activities is as tolerated. He noted on this time that they discussed work activities and that Paul noted he is currently unemployed and plans to pursue disability. They noted the next visit in 6 weeks.

The next visit was on 12/03/12. On this date, he was in for an evaluation of his right hand and right arm. He noted he still has some weakness and pinch strength and difficulty grasping objects. But he is performing his home exercises. It is at this point that he also notices an onset of left elbow symptoms with no proceeding trauma. After an examination, the doctor's impression was that he had a left lateral epicondylitis. This is a degeneration of the elbow which basically is tennis elbow. Causes are normal wear and tear and are degenerative. The fibers lose their strength and it causes issues. This can be caused by blunt trauma or certain actions can cause it also. As to whether it will be caused by over compensation, that would seem to be a stretch, according to Dr. Sagerman. Most of it was the same and this examination was predominantly on the left arm and again, as stated before, he did not really feel that these injuries would be caused by over compensating from the injury he had to his right arm.



The next visit was on 03/25/13 and all is really noted regarding the right arm on this visit is he did have some intermittent soreness in the right forearm area. Nevertheless, the scar was stable and there was mild sensitivity at the most ulnar aspect of it. At the right forearm scar, a padded elbow sleeve was provided for protection and he may follow up on an as needed basis if symptoms worsen. On that date, it looks like he gave a steroid injection, but was not asked significantly about this during the deposition. Again, this seems to be an unrelated ailment.

The next visit was on 08/26/13. On that visit, he did come in for some slight intermittent pains in his right forearm in the muscle cramping area. He noted that the right forearm scar was stable with no focal tenderness to sensitivity. But he did describe intermittent muscle spasms with discomfort despite the medication. Dr. Kathleen Kajawa suspects possible dystonia. He was then referred out to a neurologist.

Regarding the doctor's opinions of his injuries in relation to the chainsaw accident, he noted that the chainsaw injury was a deep laceration of the right forearm. He felt that the injury to the forearm from the chainsaw was definitely related to our accident. He felt also that the surgery to that forearm was also related to the accident and the pain and symptoms that he was feeling in his right forearm would all be relatable to the chainsaw accident. As for the prognosis of that, he felt Paul should remain stable within a certain degree of certainty, the symptoms should remain unchanged as to what he would expect.

Regarding the cubital tunnel syndrome, he did not feel that that was related to the accident. He felt that the injury to the elbow where the cubital tunnel is located as well as the surgical procedure that they did there was too far from the forearm to relate it to the accident. As to whether the injury to the forearm could be some kind of a by-product of the cubital tunnel, he really didn't think so. He felt that the injury from the chainsaw was too distal to the elbow to effect the elbow in the way that they found. The injury would account for the scarring as well as the lack of grip and weakness that he was having in his forearm. However, the cubital tunnel would account more for the numbness and tingling in his fingers and that he could not attribute the accident.

Regarding any disability, as for the forearm, he would have difficult time pushing, pulling or lifting certain things at times. He would have to accommodate for that impairment in doing those activities. He could do some of those things to the extent that his forearm and the strength would allow him to do that. As to whether he can work at all from the forearm injury, he can work as it is tolerated. The doctor did note as to whether that makes him totally disabled would probably not be the case. Especially with the fact that he works at a computer most of the time. As to whether there is any overlap between the injury to the forearm which is relatable and the cubital tunnel which does not seem to be relatable, the doctor did note that you really have to look at the medical records to evaluate which of the charges could be deemed relatable versus not. They are two distinct and separate surgeries and incidents, but nevertheless, there are probably is some overlap between the two of them and there is treatment for both areas on any number of the doctor visits. As to whether the left elbow pain could anyway be related, the doctor felt it would be quite a stretch to do that but it really would depend on what you are doing with your left elbow. He would not commit. After surgery, as to whether he had full disability, it really depended on his function and his abilities to do whatever it is he was being asked to do. Again, as to whether it is a total disability, the doctor felt it was hard to say. But if it was a computer based job and he would not have to do any strenuous work, such as pulling, pushing, lifting, or whatnot, and if he stuck mostly to the computer-based jobs, he doesn't know if he could say he would be totally disabled.

DATE: October 28, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DR. MARCUS TALERICO**

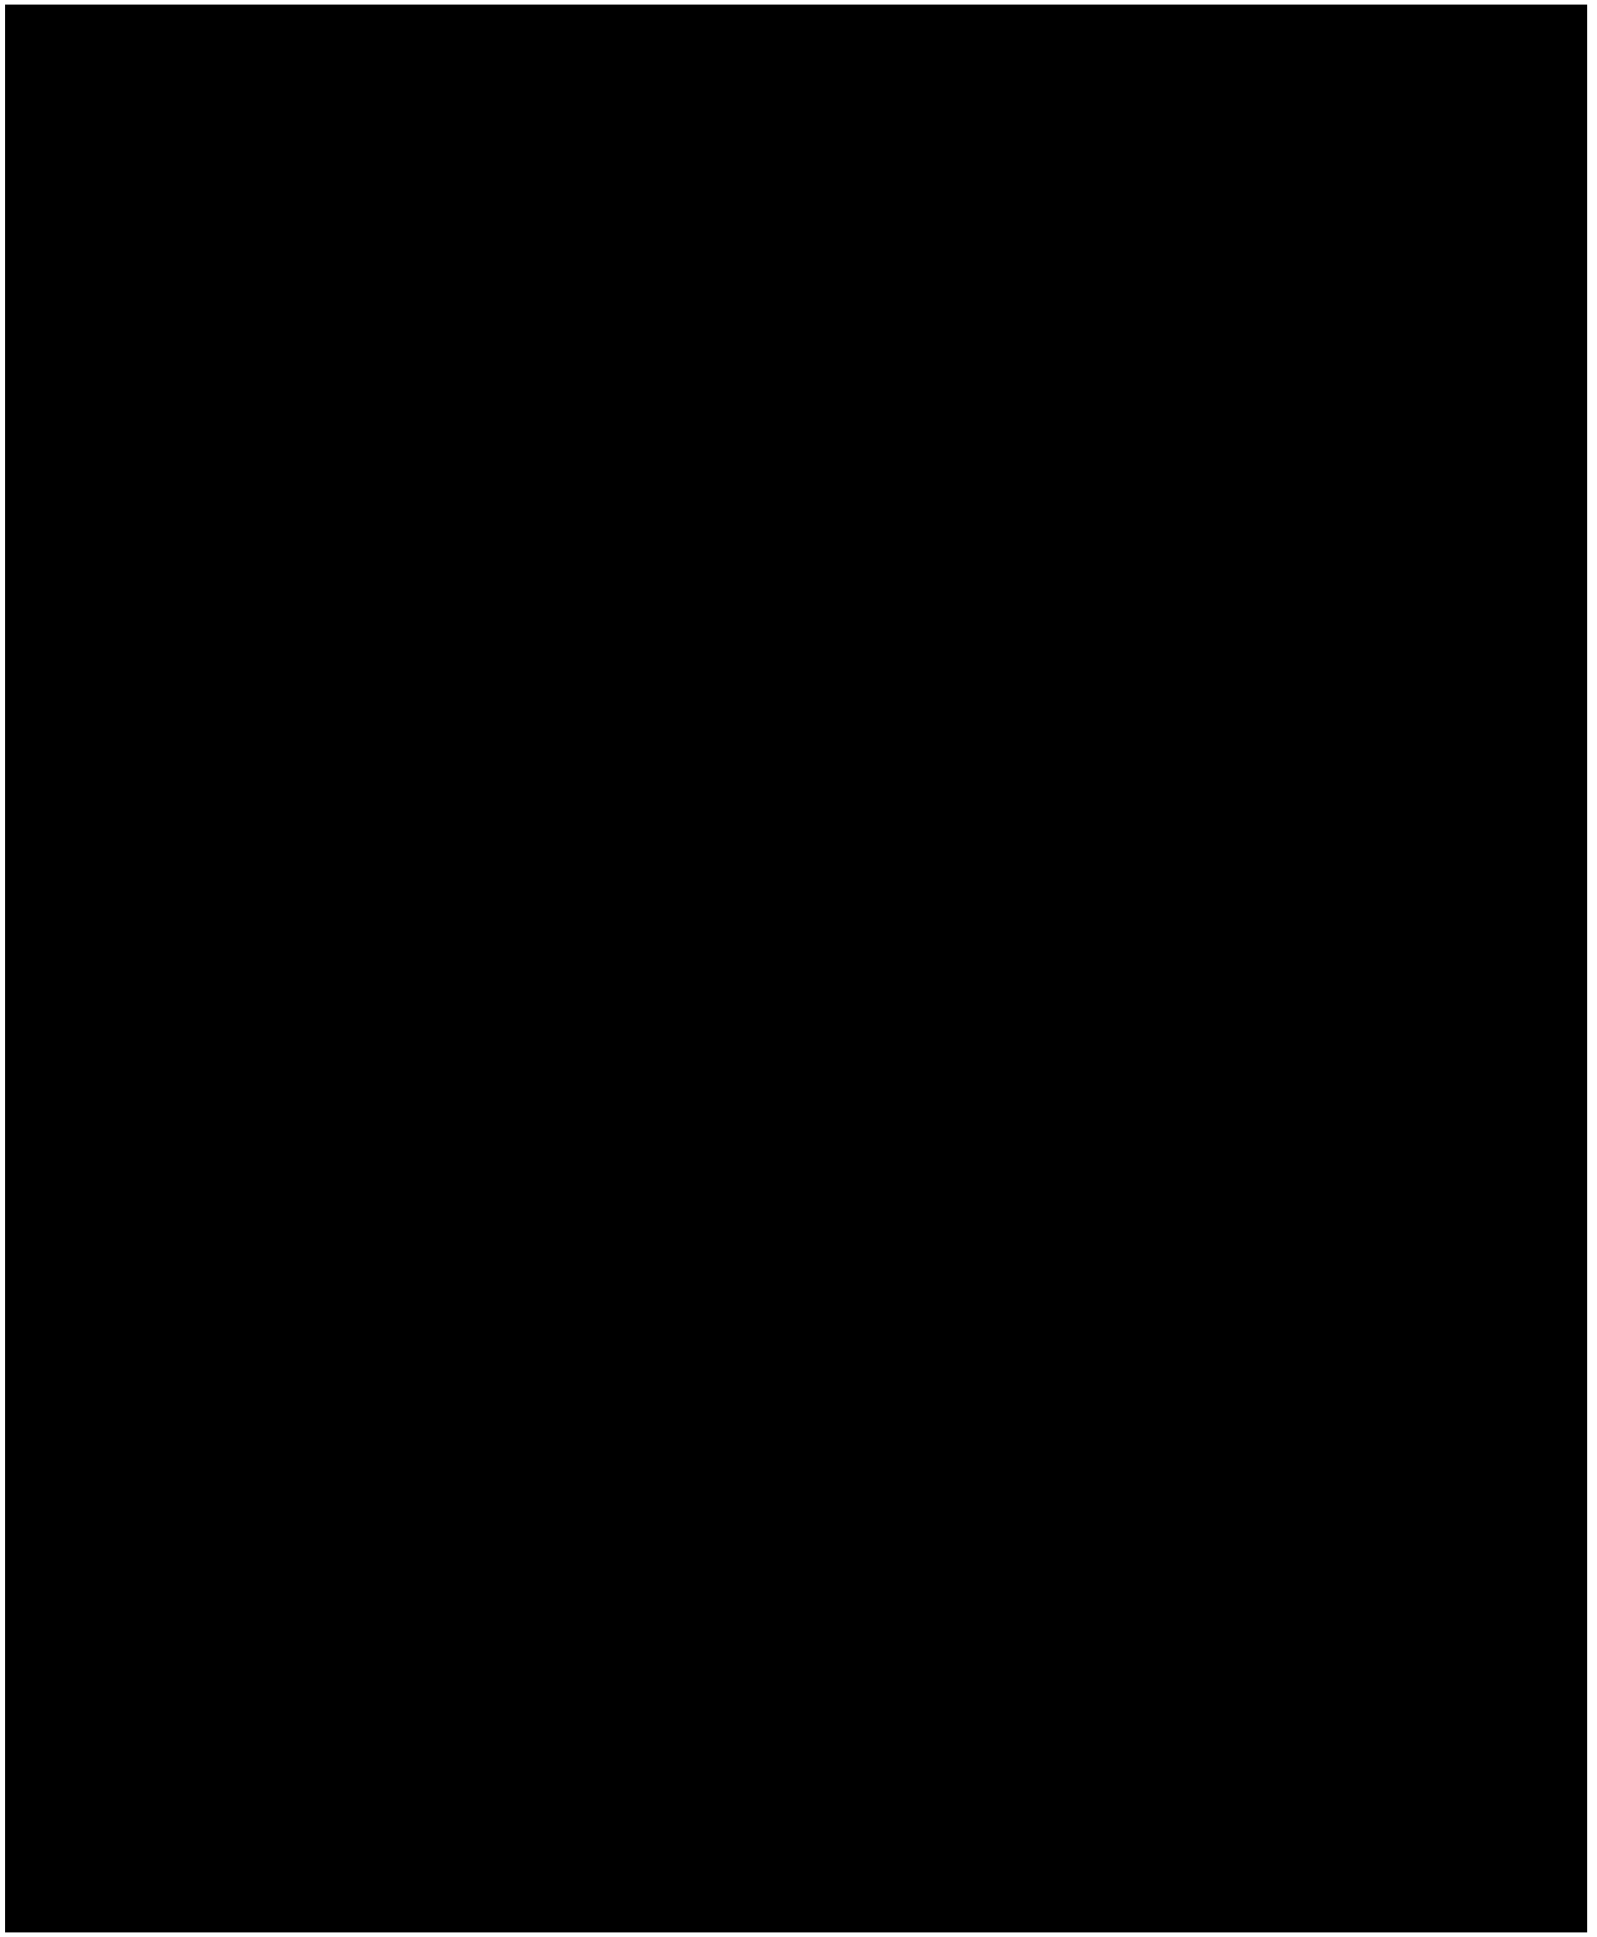
CASE: PAUL DULBERG

As a brief history to this case, this is the case of Paul Dulberg who was injured when a chainsaw cut his right forearm while assisting at a friend's house. He ended up having some numbness and tingling in his pinky and ring finger in that hand as well as some pain and issues involving gripping or holding on to things, which he claims were from this accident. Prior to Dr. Talerico's appointments with Paul, he did go and see Dr. Karen Levin. She then sent him on to Dr. Talerico and then subsequently to Dr. Sagerman. Dr. Talerico ended up seeing him 2 times in his office, 1 being on December 2, 2011 and another on January 6, 2012. Reportedly, there was also a phone call placed to Dr. Talerico's office on June 21, 2012 in which Paul wished to clarify how the chainsaw was being used to him. This is possibly from Paul seeing his medical records. It is unknown as to why he would call 6 months later to discuss it, but in the records, Dr. Talerico noted that Paul was using the chainsaw. It is possible that Paul called to clarify that in those medical records, but there were no other discussions on that date.

FAVORABLE TESTIMONY:

This was not a deposition that produced a lot of good points for our client. Whereas it is documentation of Paul's complaints that he had to his forearm which will come in significant later with Dr. Sagerman's deposition, which is the doctor Paul saw after Dr. Talerico, Dr. Talerico did not provide us with a lot of good opinions with regards to Paul's injuries. However, he did only see him 2 times and as noted to me prior to the deposition, he did not feel he could give anything else to Paul and thought Paul was somewhat of an odd individual. Whereas I don't have any real facts to back this up, it seemed like he was not interested in treating Paul for his injuries.

UNFAVORABLE TESTIMONY:



Overall the doctor simply testified as to what was noted in his medical records which doesn't appear to be too promising for Paul. I should note also that after the deposition, I felt it was somewhat alarming to me and borderline unprofessional that the doctor made a comment in front of myself as well as to the defense counsel as to his suspiciousness of Paul's claims. He gave indications that he did not feel there was really anything wrong with Paul. I did advise him prior to the deposition that Dr. Sagerman's deposition had already been taken and that Dr. Sagerman was clear in the injuries to Paul's forearm which would be causing some of the pain and problems that Paul had. Dr. Talerico advised that he was aware of Dr. Sagerman and certainly did not want to discredit him, however, it

was clear that Dr. Talerico was not a fan of Paul Dulberg as a patient and will not serve as a benefit for us in any testimony that he may give about him.

Dr. Talerico identified himself as Dr. Marcus Talerico and he gave us his CV which was put in as Exhibit No. 1 which is up to date and will be attached to this memo. He described that he is an orthopedic surgeon specializing in hand and upper extremities. He had 2 office encounters with Paul after he was sent to him from Dr. Levin. The first visit was on December 2, 2011 and the second was on January 6, 2012. He had no other visits or treatment of Paul Dulberg.

The first visit was on December 2, 2011. In his deposition, the doctor basically read the history as noted in his medical records. Even though Paul was seen in the emergency room, Dr. Talerico did not get the emergency room records. He said that Paul complained mostly of pain radiating from the laceration site in his forearm and mid forearm as well as numbness and tingling in the pinky and ring finger. He also noted to him grip weakness and loss of endurance in the hand. An EMG had been previously done however he did not have that on that date or noted. Paul was not working at the time as it was noted to the doctor that his job as a graphics person caused him pain in using the mouse. He conducted the exam as noted in his medical records. He noted no tenderness to palpation and noted the exam as relatively normal. He felt that his strength was okay and his wrist and grip strength were also okay. The Froment sign which looks for weakness in the hand was also negative. He also did a Wartenberg test which was positive and described it as an objective finding in which the small finger pulls away from the other fingers in the hand. This did show positive with Paul. Any sensation test that he would have given were normal. As for his diagnostics and assessment, he didn't see any nerve or tendon injury to Paul. He prescribed physical therapy. He felt that the pain Paul was feeling was muscular nature at that time. He noted in his medical records that he did not see the EMG that was done and he would like to obtain that report and have Paul come back once he sees that report. He noted that there is no evidence of a complete injury to the ulnar nerve on the physical exam. Again, he thinks its more muscular in origin. He also felt that he may have some "superficial sensory complaints" as well. He felt that there may be some nerve issues but didn't feel it was significant. He asked Paul to come back after some physical therapy was done and once he obtained those reports. Paul ended up going to 1-2 physical therapy sessions and then came back on January 6, 2012

The next visit was on January 6, 2012. Paul reportedly showed no improvement and the physical therapy didn't help. He told the doctor that he had burning in his forearm and he said it was getting worse. But he had no new complaints. He didn't think that the occupational therapy was helping him. Dr. Talerico did get a copy of the EMG and noted that it was normal. As to whether he was asked about any disability paperwork, the doctor didn't remember any conversation regarding that. The doctor did then give an opinion that he did not think that Paul was disabled. He said there were no objective signs to this. He conducted the same exam on him and felt that it was the same results as the prior exam. He felt that he should continue therapy and really didn't have any other help that he could provide to Paul. He did not note any pain above the laceration on this visit being up in the elbow area. He did note that there wasn't anything radiation also from the laceration up or down his arm. He saw no evidence of an ulnar nerve injury. He noted that he had normal wrist flexor muscles as well. He did note that there was the scar on Paul's arm and that there was a laceration in the muscle belly that had healed. He noted that he did not see any abnormality other then Paul's subjective complaints. Lastly, his opinion is that he did not have any objective findings to support or justify Paul's complaints.

MEMORANDUM

TO: Hans

C: File

FROM: Bob

DATE: October 30, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DR. SCOTT SAGERMAN**

CASE: PAUL DULBERG

On October 15, 2013, I attended the discovery deposition of Dr. Scott Sagerman regarding his treatment of our client, Paul Dulberg. To review, Paul was injured in a chainsaw accident in which his right forearm was significantly injured and damaged after a chainsaw struck it while helping a friend cut down a tree limb.

FAVORABLE TESTIMONY:

In summary, the doctor was able to tie the forearm pain and symptoms being muscle pain and weakness in gripping and pulling things in his forearm to the accident. It was a deep laceration to his forearm and there was some injury to those muscles and nerves which may have been causing the pain in that area. The surgery to the forearm and treatment of that he felt he could easily relate to the accident.

UNFAVORABLE TESTIMONY:

In contrast to the positive points, the cubital tunnel injuries and subsequent surgeries and treatment that Paul had in his right elbow would be difficult to relate back to the accident and the doctor basically said that it was too far distal from where the chainsaw struck him to have been caused by the accident. Furthermore, any subsequent pain Paul would have had to his left arm would also be a stretch to show that that was somehow related to overcompensate him from the right arm. The doctor did note that it was possible, but I don't know that we can firmly count on his testimony to show that to be a viable claim.

SUMMARY:

On October 15, 2013, I attended the discovery deposition of Dr. Scott Sagerman in Paul Dulberg's case. The doctor identified himself as an orthopedic surgeon with specialties in hand and upper extremities. He did have some recollection of Paul from the numerous treatments of him. This accident occurred on 04/28/11 and the first visit with Dr. Sagerman was on 02/27/12. He does know that he had seen Dr. Sek prior to this as well as Dr. Levin and Dr. Talerico.

The doctor did note that he had seen Paul sometime in the past in 2003 and 2004 when he was diagnosed with cubital tunnel syndrome in his left arm. This is an ulnar nerve condition regarding

compression of the nerve in the elbow. The ulnar nerve is the main nerve behind the elbow in the cubital tunnel area. It extends to the inner side of the hand and provides muscle function to the hand. The symptoms of this syndrome would be numbness and tingling on the inside of the hand, mainly the ring finger and the small finger especially. This is significant as it also notes the same symptoms that Paul had displayed, along with others, in his current treatment with Dr. Sagerman. It is further significant because Dr. Sagerman was not able to tie that cubital tunnel syndrome and symptoms to the chainsaw accident. This earlier treatment in 2003 and 2004 showed the same symptoms and the same type of ailment as he was currently claiming of with his right hand now. The onset of this prior treatment was a motor vehicle accident in March, 2002. The doctor did not have anything else specific regarding that. He noted that the common causes of cubital tunnel syndrome is a compression on the nerve. It may be spontaneous or as a result of injury to the vicinity or it can also be from strenuous activities. As to whether it can be caused simply by repetitive use, he doesn't think so. He noted that these quite type of activities generally cannot create such an ailment. Back then, surgery was done to correct the cubital tunnel and it was successful.

Bring us up to more modern times, in February, 2012, he first came to him for the injury resulting from the chainsaw accident. He didn't really know how it occurred but he does have some history in his medical records. In February, 2009, he did send a letter to Dr. Sek regarding his treatment with Paul which he had on his first visit on February 27, 2012. He noted in that letter that Paul developed symptoms of numbness in the small finger as well as weakness and that he treated it with therapy and had an EMG test and an MRI scan. He noted that he did not have the emergency room notes at that time. Regarding the past medical history, it does note some arthritis as well as cervical disc disease. The doctor did not know much about this but it looked like it was in the neck area. There were various medications that he was on at the time as well and noted that they were for anti-inflammatory, a pain medicine, depression, and for muscle spasms. Regarding his exam on that first appointment of February 27, 2012, the doctor basically read from his notes on that day. He noted there was a large scar on the mid forearm between the elbow and the inner side in the wrist. He noted positive Tinel sign which is conducted by tapping over the nerve area and it will show pain or indicated nerve dysfunction or injury. This is a subjective finding. On the cubital tunnel region on the right side, there was sensitivity there also. Wrist and elbow motion were unrestricted and there were no visible signs of atrophy. He noted that he was able to abduct the small finger which is to pull it sideways from the other fingers. His flexion strength was normal. X-rays showed no fracture. He reviewed the films of the MRI from February 3, 2012 and noticed no abnormalities. The MRI report noted weakness in the ring and small finger. He noted that even though there was nothing abnormal in the images that he was not too exclude the possibility that the nerve was still injured. He noted that just because it's not in the film that there may still be some nerve injuries in and around the point where Paul was complaining. The nerve conduction study was also conducted on August 10, 2011, and there was no evidence of neuropathy. This is a negative finding, however, it does not rule out the possibility of the nerve injury. Same as the MRI report. That being said, it is important to note that simply because these two studies, being the MRI and nerve conduction study, did not show anything abnormal, that does not mean that there is not a nerve injury still present. His impression was that the right forearm was a laceration with probable partial ulnar nerve injury. At the scar area, he noted there was a deep laceration there and there may be ulnar nerve issues. It is possible that the nerve could have been directly damaged. He was showing signs of an ulnar nerve injury and local sensitivity in that area of his forearm. That is further suggestions of such a nerve injury. He then sent him for a follow up for an EMG. This is different from a nerve conduction study in that the nerve conduction study studies and evaluates the velocity of the nerve impulses. An EMG tests the muscle to be indicative of an injury. He wanted the EMG because it

will give a more complete analysis. He felt in his opinion that was warranted. They also brought up surgery at that point as a nerve exploration to expose the area of injury. The EMG was ordered and no work restrictions were put into place. The EMG was done with Dr. Levin on March 13. The next visit with Dr. Sagerman was on 04/02/12.

On 04/02/12, Dr. Sagerman had another appointment with Paul Dulberg in his office. He had the EMG tests which was done by Dr. Levin and it showed no evidence of neuropathy. It also showed that the nerve conduction was within normal limits. At that point, there was no documentation that the nerve was not functioning properly. There was still a positive Tinel sign which is subjective and there is still the abduction of the small finger with a positive Wartenbergs sign. It is noted that he did not wish to pursue surgery at this time but there were some recommendations given for strength exercises and scar management.

The next visit was on 05/14/12 and there were new complaints at this point. Paul was having issues with persistent pain with the use of his arm as well as gripping and squeezing things. There was no change in the symptoms of numbness or tingling in his fingers, but that was not bothersome to him. His function in the arm was limited due to pain symptoms. Upon examination, he found that the Wartenberg sign is still positive and his intrinsic strain is slightly weak. This weakness was of the muscles in the hand that control the fingers. There was also no clawing. This would be an abnormal posturing to the finger due to the muscle issues. This is commonly seen in ulnar nerve injuries. However, there were no signs of clawing in Paul on that date. The discussion was had regarding possible surgery for an ulnar nerve neurolysis. This was more of an exploratory issue to find out what was bothering the nerve and to decompress the nerve. His next visit, he was ordered to follow up with a different doctor, being Dr. Sam Biafora. This was to get a second opinion on his pains and it was suggested by Dr. Sagerman to do this.

The next visit was on 05/17/12 with Dr. Sam Biafora. Dr. Sagerman testified as to what Dr. Biafora had noted in his records which we have. He noted in his records that he was to see Paul for a second opinion after being referred to him by Dr. Sagerman. He noted that Paul sustained a chainsaw injury to his right forearm. He noted that Paul told him that he had a partial nerve injury in the emergency room. On this day he noted weakness in his right hand as well as numbness in his right small and ring fingers at rest with occasional tingling. He also reported a shooting, burning type of pain which radiates proximally and distally from the area of the injury in the proximal forearm. He noted this occurs several times a day at rest and more predictably with use. Upon physical exam, Dr. Biafora noted that there is a positive Tinel at the cubital tunnel through to approximately several centimeters distal to that. There was also transverse swelling and a heeled scar several millimeters in length at the proximal third of the forearm on the ulnar side. He also noted that there is a positive Tinel over the scar and at the most volar radial aspect of the scar. There is also significant tenderness at the scar to deep palpation on its most ulnar and distal border near the ulna. He also noted Tinel over the most volar and radial aspect of the scar radiates into the ulnar digits. He noted there was still positive Wartenbergs signs. He did have good strength and flexation of the small and ring fingers but there is pain at the scar on its most dorsal and ulnar border with resisted DIP flexion of the small finger. His assessment was that he felt there was approximately a 1 year status post the laceration and there was likely a partial ulnar nerve injury with ulnar nerve neuritis. Dr. Sagerman explained this to be that at the site of injury, there was a potential at that location for dysfunction of the ulnar nerve. That would explain some of the symptoms Paul has had and he has been experiencing in the ulnar nerve in his hand as well. Dr. Biafora also recommended surgery and felt that the patient "may benefit from an ulnar nerve exploration with neuroysis". He also noted that he would recommend this also

to include the cubital tunnel decompression with possible anterior transposition. He noted that it will not likely improve the motor deficits in his hand but it may improve the pain that Paul is experiencing in his forearm. He noted that he also had separate and distinct tenderness in the most dorsal ulnar aspect of the wound and it may require exploration of that portion of the scar as well. Paul noted that he wanted some time to think about it before he made a decision and will follow up with Dr. Sagerman in four weeks.

The next visit was with Dr. Sagerman on 06/06/12. He noted that prior Dr. Levin had given him Neurontin to treat the nerve pain that he was having. Dr. Sagerman normally doesn't give that drug and he feels there is problems with side effects and there is a better prescription for him to have. On that date he reported no change in his symptoms despite that medication. However, he is noting some side effects from that medication which may interfere with his functioning. Paul at that time noted he would like to proceed with the surgery that was discussed with Dr. Biafora previously. He also had had additional therapy but it was discontinued due to lack of progress. He went on with the physical examination and noted that the right elbow and forearm was unchanged. There was a positive Tinel sign present at the cubital tunnel without ulnar nerve subluxation. The forearm scar is stable with tenderness and sensitivity to percussion. He indicates he had pain when he was trying to grip things which was localized to the forearm region and resulted in increased numbness in his ring and small fingers as well as weakness in his grip. The surgery was discussed and Paul noted that he feels that any improvement in the symptoms will be beneficial in terms of his arm functioning normal. There was a bit of a discrepancy here between this visit and the last one in which on 05/14 it was noted that physical therapy seems to be getting him some benefit but as of the 06/06 appointment, it is noted that physical therapy is not helpful. The doctor could not explain the difference between the 2 or why that was the case.

Paul then had his surgery on 07/09/12. The doctor noted at that time that prior to the surgery regarding Paul's prognosis, the doctor was very guarded in his prognosis. He didn't really know how much improvement there was going to be as it is hard to predict how much better it is when you don't know the extent of the nerve injury, which is all the more reason why you are going in for the exploration to determine the extent of the surgery.

The surgery was on July 9th. The pre-operative diagnosis was the same and this was an outpatient type surgery. There were 2 things that they were going after in the surgery. No. 1 was the right elbow cubital tunnel issue and release and there was also the pain in the right forearm. Regarding the cubital tunnel release which is done in the right elbow, it did show thickening of the cubital tunnel ligament with scarring of the ulnar nerve to the floor of the cubital tunnel with local constriction. This basically meant a pinched nerve in the elbow area. This was in essence the same type of procedure or injury Paul had suffered back in 2003 and 2004. However, the doctor could not 100% confirm that as he did not have those records. What he found would be consistent with cubital tunnel syndrome and its causes. He did note regarding the surgery to the right forearm that there was a very deep laceration into the muscle which covered the nerves but the muscle fibers were actually in tact. He noted in his report that the site of the previous chainsaw laceration revealed extension to the subcutaneous tissue and fascia overlying the flexor carpi ulnaris muscle. He noted that the nerve was not cut and there was no visible scarring around the ulnar nerve at that level. The findings in this were important for us in that it showed that these were consistent with his complaints. It seemed that from the laceration, what he found would account for Paul's symptoms. He basically went on to discuss the scarring of the muscle and whereas it is maybe difficult to say, he felt the scarring of the muscle may have caused the ailments that Paul was suffering from. He also noted

that as far as the cubital tunnel, that would account for the ailments that Paul was suffering in his ring and pinky finger. These are two separate independent findings at two different sites. In summary as I will go over later, it basically noted that the doctor would tie the injury to the forearm and that weakness and lack of grip to our accident. However, he would not tie the cubital release in his elbow to the accident as he felt it was too distal from where the accident actually occurred.

The next visit was on 07/11/12. There did not seem to be any real issues at that time and the patient was doing well. His function had increased and his symptoms had improved and his strength had increased. He still had some soreness in his elbow and that was normal. As far as restrictions at work, he did not feel that Paul should have any as doing work sitting at a computer.

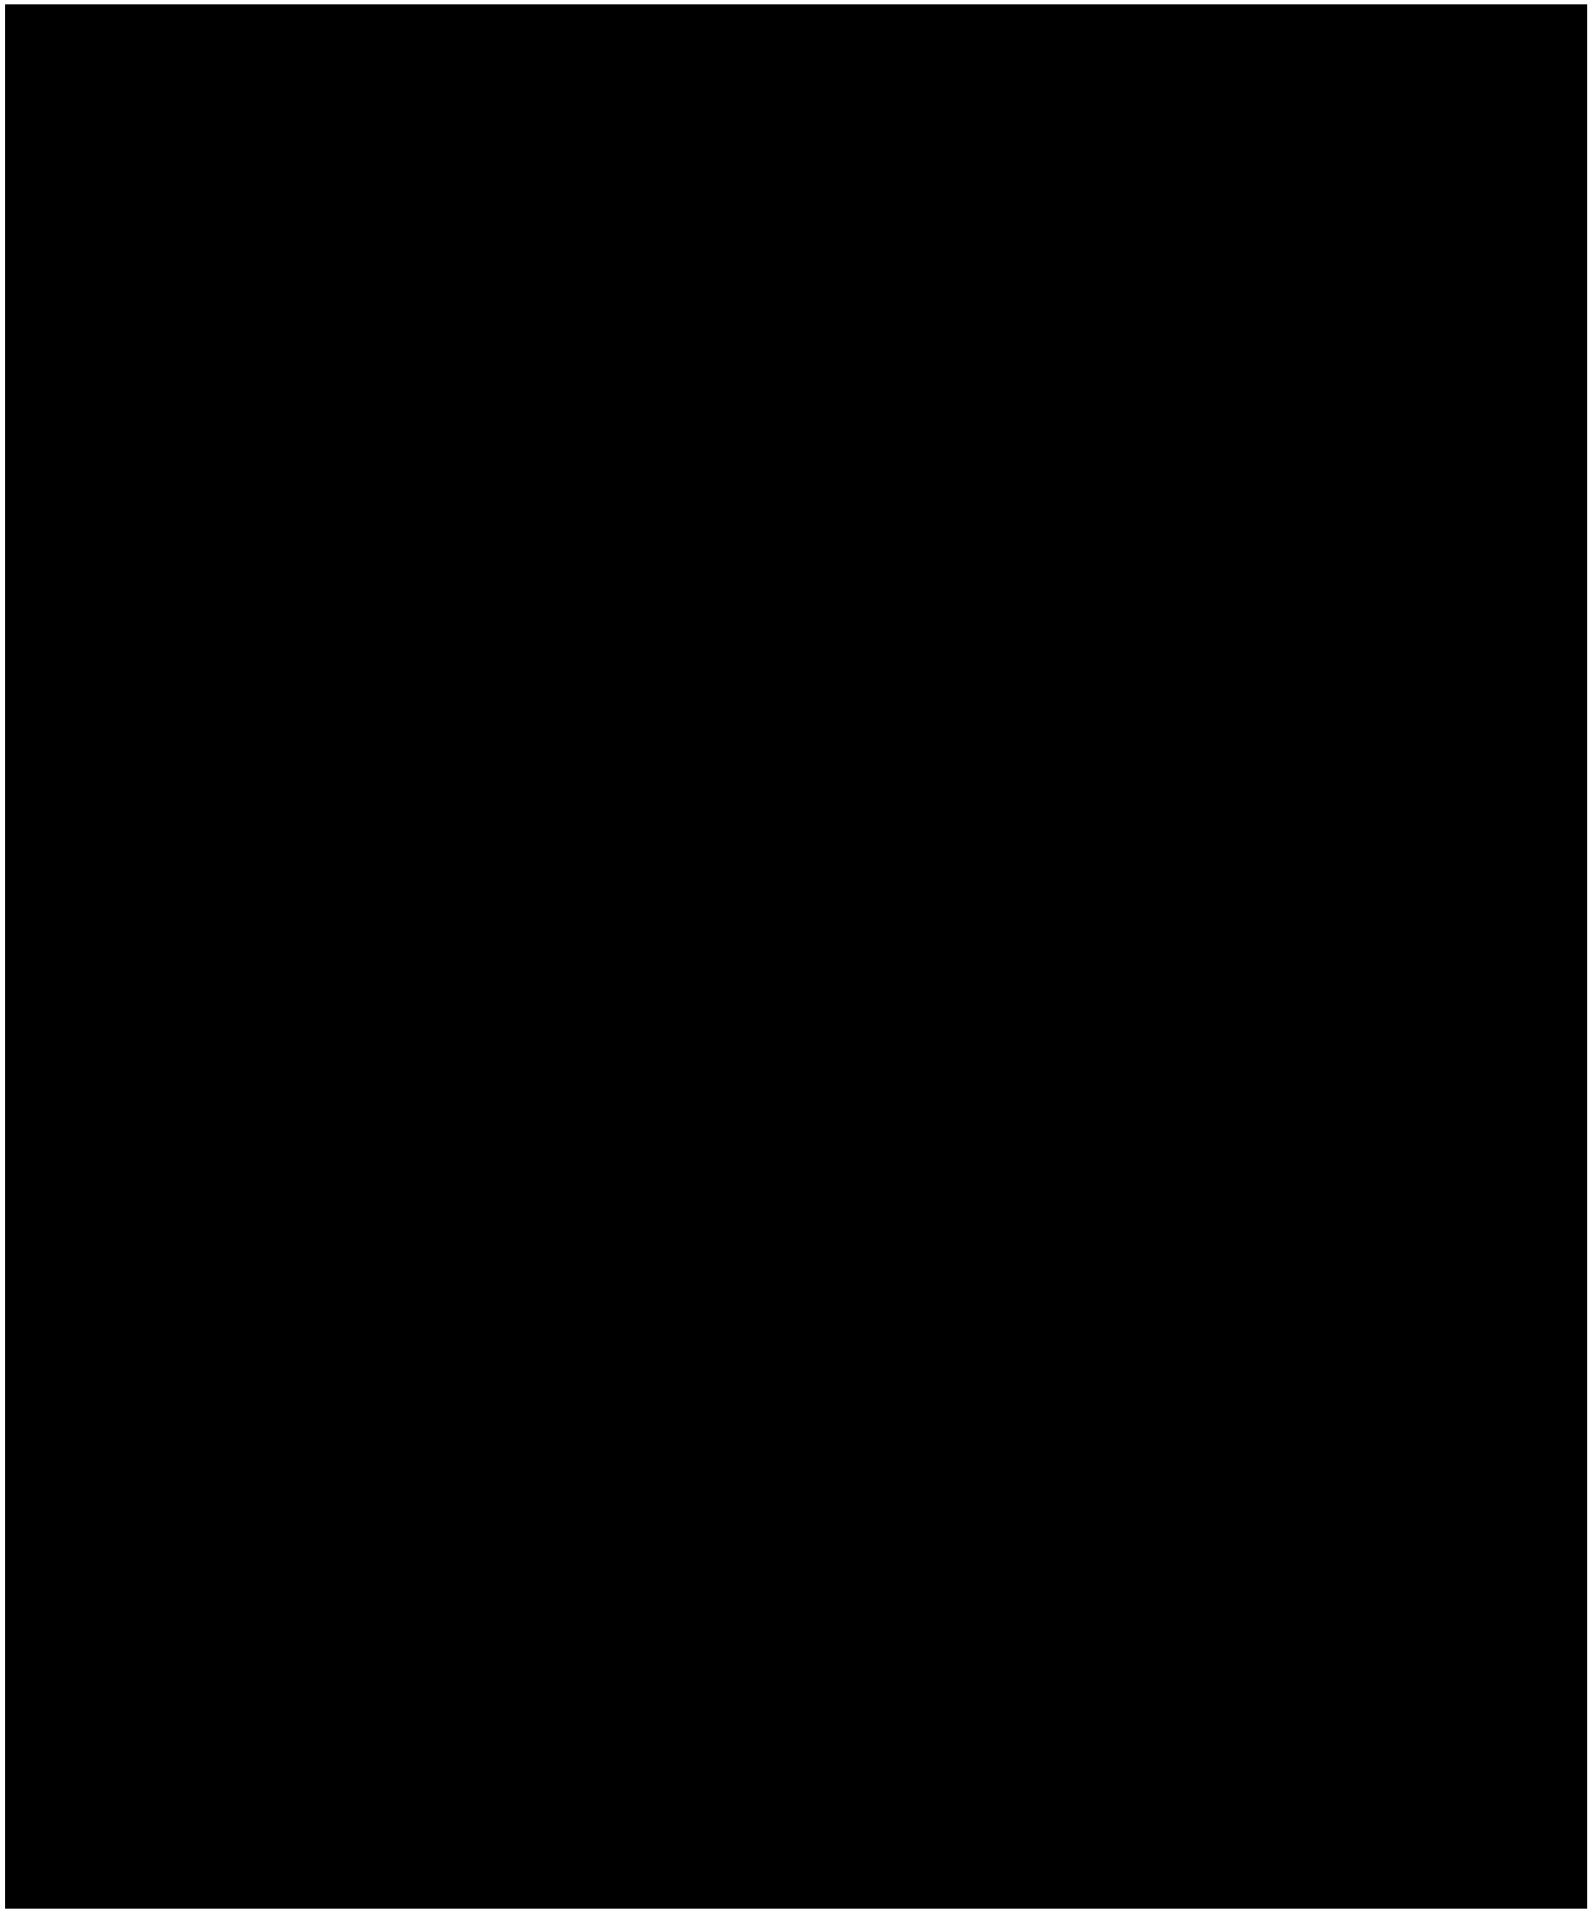
The next visit was on 07/23/12. At that time, Paul seemed to be doing fine.

He then saw him on 07/30/12 and noted also that he was doing well and his arm feels much better and he has increased function and feels that his symptoms have improved.

The next visit was on 08/27/12. On this, he noted that Paul was doing okay and that his elbow was sore and he was participating in therapy. His progress at this time was satisfactory and his grip strength had increased and his hand function had improved. There were no signs of infection or any other issues. He was told to continue his therapy and come back in about 6 weeks.

His next visit was on 10/22/12 and he noted he was feeling better. His function has improved and he is gaining strength. The sensation in his fingers has improved and he is pleased he can now grasp objects better then he did before the surgery. He still has some difficulty with certain activities regarding gripping and pinching of small objects. He was examined and it was noted that he will continue his home exercises as well as those given by his therapist. He can also advance in his activities is as tolerated. He noted on this time that they discussed work activities and that Paul noted he is currently unemployed and plans to pursue disability. They noted the next visit in 6 weeks.

The next visit was on 12/03/12. On this date, he was in for an evaluation of his right hand and right arm. He noted he still has some weakness and pinch strength and difficulty grasping objects. But he is performing his home exercises. It is at this point that he also notices an onset of left elbow symptoms with no proceeding trauma. After an examination, the doctor's impression was that he had a left lateral epicondylitis. This is a degeneration of the elbow which basically is tennis elbow. Causes are normal wear and tear and are degenerative. The fibers lose their strength and it causes issues. This can be caused by blunt trauma or certain actions can cause it also. As to whether it will be caused by over compensation, that would seem to be a stretch, according to Dr. Sagerman. Most of it was the same and this examination was predominantly on the left arm and again, as stated before, he did not really feel that these injuries would be caused by over compensating from the injury he had to his right arm.



The next visit was on 03/25/13 and all is really noted regarding the right arm on this visit is he did have some intermittent soreness in the right forearm area. Nevertheless, the scar was stable and there was mild sensitivity at the most ulnar aspect of it. At the right forearm scar, a padded elbow sleeve was provided for protection and he may follow up on an as needed basis if symptoms worsen. On that date, it looks like he gave a steroid injection, but was not asked significantly about this during the deposition. Again, this seems to be an unrelated ailment.

The next visit was on 08/26/13. On that visit, he did come in for some slight intermittent pains in his right forearm in the muscle cramping area. He noted that the right forearm scar was stable with no focal tenderness to sensitivity. But he did describe intermittent muscle spasms with discomfort despite the medication. Dr. Kathleen Kajawa suspects possible dystonia. He was then referred out to a neurologist.

Regarding the doctor's opinions of his injuries in relation to the chainsaw accident, he noted that the chainsaw injury was a deep laceration of the right forearm. He felt that the injury to the forearm from the chainsaw was definitely related to our accident. He felt also that the surgery to that forearm was also related to the accident and the pain and symptoms that he was feeling in his right forearm would all be relatable to the chainsaw accident. As for the prognosis of that, he felt Paul should remain stable within a certain degree of certainty, the symptoms should remain unchanged as to what he would expect.

Regarding the cubital tunnel syndrome, he did not feel that that was related to the accident. He felt that the injury to the elbow where the cubital tunnel is located as well as the surgical procedure that they did there was too far from the forearm to relate it to the accident. As to whether the injury to the forearm could be some kind of a by-product of the cubital tunnel, he really didn't think so. He felt that the injury from the chainsaw was too distal to the elbow to effect the elbow in the way that they found. The injury would account for the scarring as well as the lack of grip and weakness that he was having in his forearm. However, the cubital tunnel would account more for the numbness and tingling in his fingers and that he could not attribute the accident.

Regarding any disability, as for the forearm, he would have difficult time pushing, pulling or lifting certain things at times. He would have to accommodate for that impairment in doing those activities. He could do some of those things to the extent that his forearm and the strength would allow him to do that. As to whether he can work at all from the forearm injury, he can work as it is tolerated. The doctor did note as to whether that makes him totally disabled would probably not be the case. Especially with the fact that he works at a computer most of the time. As to whether there is any overlap between the injury to the forearm which is relatable and the cubital tunnel which does not seem to be relatable, the doctor did note that you really have to look at the medical records to evaluate which of the charges could be deemed relatable versus not. They are two distinct and separate surgeries and incidents, but nevertheless, there are probably is some overlap between the two of them and there is treatment for both areas on any number of the doctor visits. As to whether the left elbow pain could anyway be related, the doctor felt it would be quite a stretch to do that but it really would depend on what you are doing with your left elbow. He would not commit. After surgery, as to whether he had full disability, it really depended on his function and his abilities to do whatever it is he was being asked to do. Again, as to whether it is a total disability, the doctor felt it was hard to say. But if it was a computer based job and he would not have to do any strenuous work, such as pulling, pushing, lifting, or whatnot, and if he stuck mostly to the computer-based jobs, he doesn't know if he could say he would be totally disabled.

DATE: March 21, 2013

SUBJECT: **DISCOVERY DEPOSITION OF MICHAEL MCACTOR**

CASE: PAUL DULBERG

On March 20, 2013, I appeared for the discovery deposition of Michael McActor before court reporter, Paula Erickson at Urbanski Reporting 312/977-1777. The transcript was ordered.

Michael McActor is a very pleasant individual and talks very fast and has a hard time holding off on answering while the question is being completed. However, he did a good job in his deposition and testified to the following testimony:

FAVORABLE TESTIMONY:

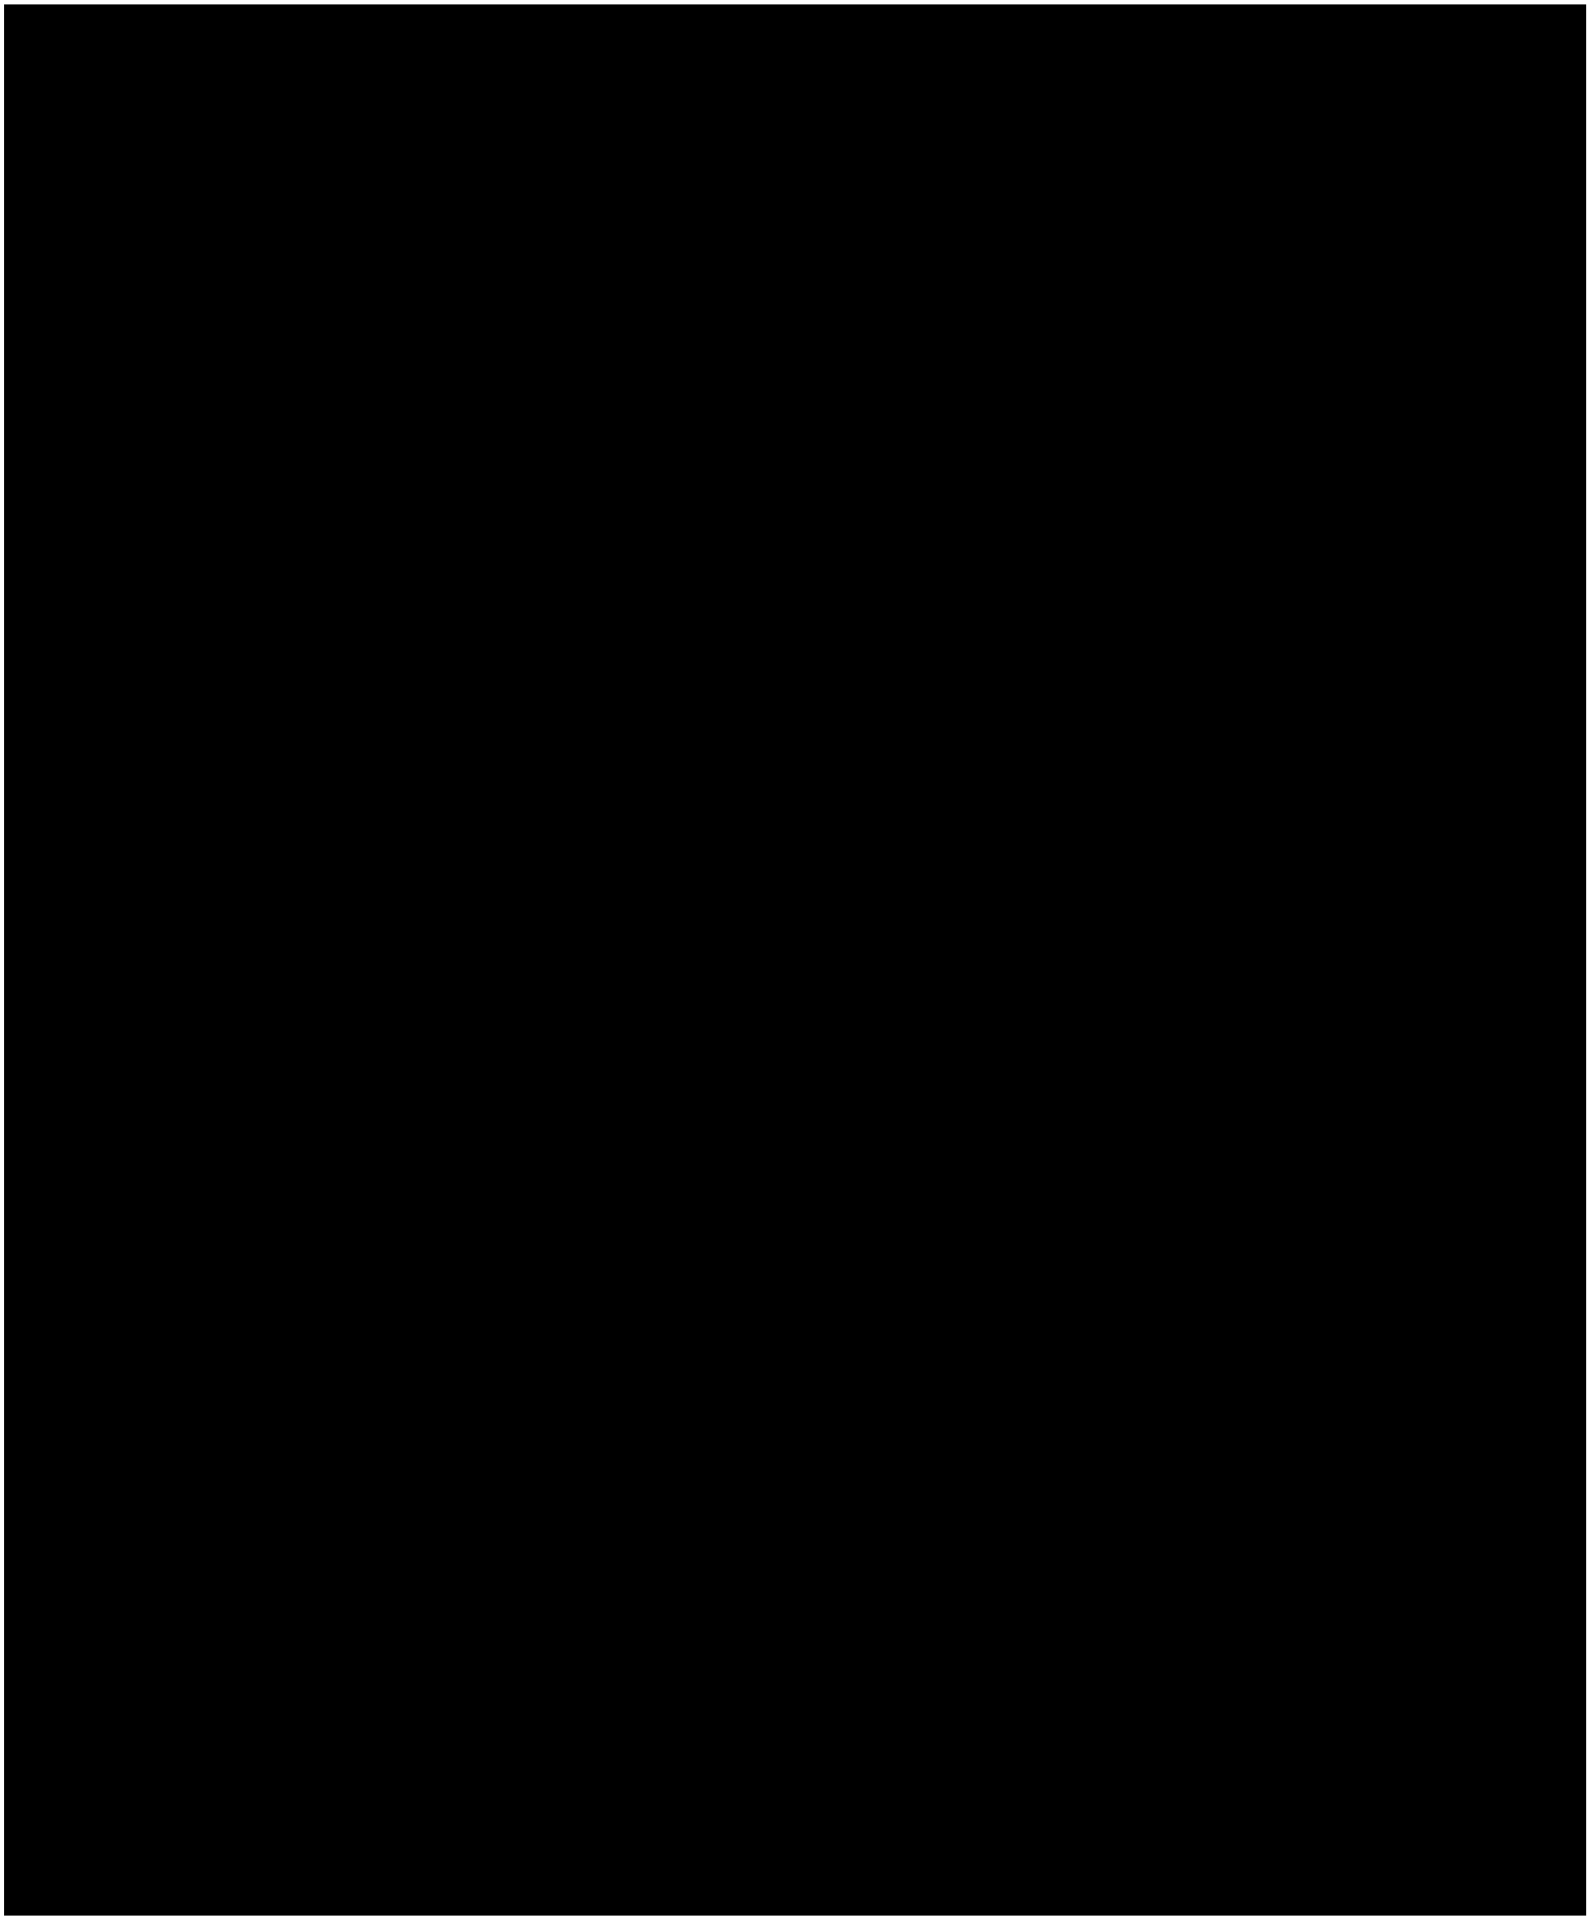
1. Paul Dulberg has never suggested that he wants people to lie for him or help him obtain a huge recovery in the case so he never has to work the rest of his life. He has never indicated that nor suggested that.

2. When he and Paul met Dave and visited Dave up at his house in Wisconsin about 4 weeks after the accident it wasn't Paul, but it was Dave who suggested "what I am going to get out of this" when Paul asked for his home insurance information. Dave said that if Paul makes a claim on his insurance and causes his rates to increase he is going to regret that.

UNFAVORABLE TESTIMONY:

1. Mike has known Paul almost their entire life. He lives with Paul and has lived with his mother for 7 years and doesn't pay rent. So he obviously has a bias in the case.

2. Mike thought at first that Paul's left arm was hurt and then said that it was the right arm but he was unclear what arm it was. I think he recalled at first being the right arm but later said that it was the left arm.



Michael has been unemployed for the past 5 years because he has not found a job. He is in the printing business but has not been able to find any printing work. He has known Paul since they were about 3 years old and they have been friends since about 1980 and have gone to school together for many years. They in fact ran a business together for t-shirts that ended in about 2011. He has known David Gagnon since 1984 and they have been friends since 1986. During that time he has seen Dave maybe 4 times a week at his house. Once Dave got married and moved to Wisconsin he has seen Dave a lot less frequently. He still has a close relationship with Paul and his mother,

Barbara.

His first notice of Paul's chainsaw accident was when Dave's mother, Caroline called him at the house and advised him that Paul had been injured by the chainsaw and is at the hospital but she doesn't know how bad he is hurt yet and did not want to alert of stress out Paul's mother, Barbara. Later that day Caroline called and asked for him to pick up the dog. Apparently, Paul had left their German Shepherd at the house while Paul was working with Dave in the yard. Later that day Paul was dropped off at the house by Dave who was with Paul when they were at the hospital. Apparently, Dave took Paul to the hospital using Paul's truck and then returned Paul home and left the truck and walked home. Paul was under a lot of medication and didn't talk a lot about the accident at that point.

The next day, he spoke to Paul and Paul described that he was holding a branch and Dave came up too high with the chainsaw and cut him in the arm. In the months and years that followed he noticed that Paul lost a lot of motion with his arm and has not been able to do any of the activities that he did on a daily basis before the accident, including use of his arm with heavy lifting and physical activity. They use to do a lot of camping and now all Paul can do is sit in a chair by the camp site and cannot do any activities during the camping trips. They use to do a lot of gardening and Paul cannot do the gardening as he use to either.

He saw Dave once since the accident about 6 months later when Dave stopped by Paul's house for about 15 mins. Dave did not want to talk about Paul's accident but just wanted to talk about himself and his remodeling or rebuilding of cars. Dave suggested that Paul was "fine" and that he is not injured as bad as Paul thinks. Paul owns a chainsaw and before the accident Paul would use the chainsaw from time to time, but he though Paul always used it in a safe manner.

DATE: March 25, 2013

SUBJECT: **DISCOVERY DEPOSITION OF WILLIAM MCGUIRE**

CASE: PAUL DULBERG

On March 20, 2013, I took the discovery deposition of Bill McGuire before court reporter, Paula Erickson at Urbanski Reporting 312/977-1777. The transcript was ordered by defense counsel, we ordered a copy.

Bill McGuire is a very pleasant individual and will probably come across as a credible witness although he doesn't know a whole lot. He testified similar to his wife, Caroline to the following favorable and unfavorable points.

FAVORABLE TESTIMONY:

1. Prior to the accident he felt Paul was a credible and honest person and he had known him a long time because Paul was friends with his stepson, Dave.

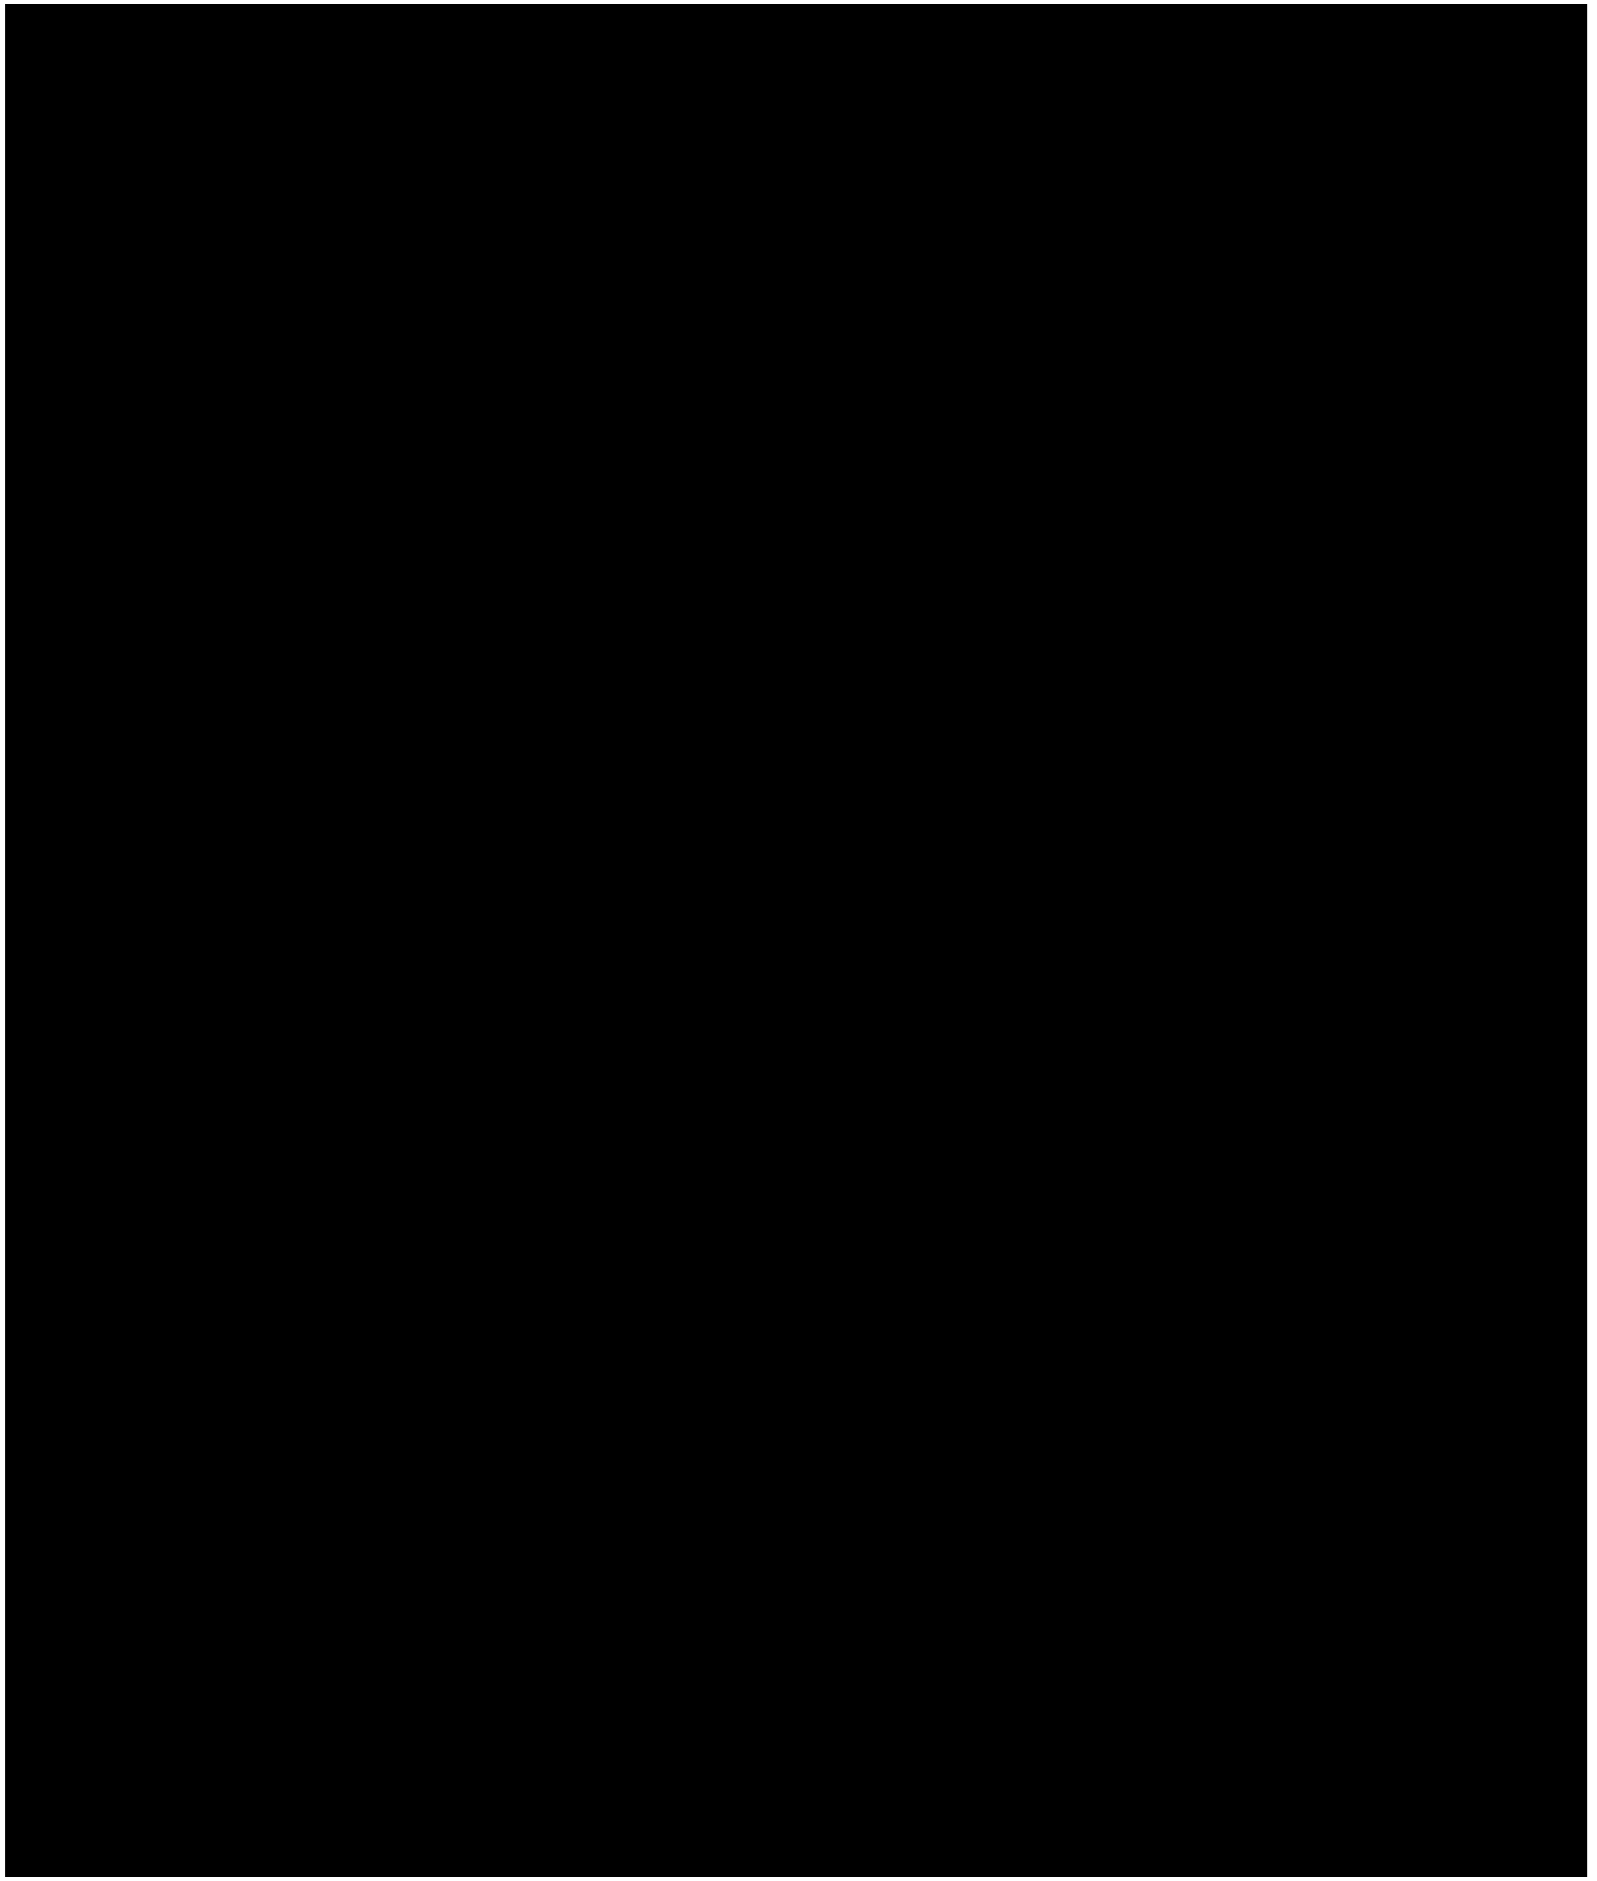
2. Since the accident he has never known Paul to ask anyone to tell a lie or to fabercate any testimony.

UNFAVORABLE TESTIMONY:

1. He is not happy with Paul because he thinks Paul has filed suit against him for no reason and apparently according to his stepson, Dave Paul is not telling the truth about what happened although he doesn't know personally because he was not a witness.

Bill McGuire lives with his wife Caroline at 1016 W. Elder Avenue in McHenry. They have been married since 1991. He has no children, but Caroline has 3 including Dave Gagnon. He has known Dave Gagnon since 1984 when he first met his mother, Caroline at a marina. Bill has been retired since 2006 when he was a carpenter and hurt his back and could not return to work.

Bill has no experience using chainsaws. He has never used one in his life. Early 2011 he purchased a new chainsaw from Menards because he was thinking he might have to use one because of the storm maybe blowing trees or limbs down in his backyard. He also was going to have it available for anybody including his son, Dave who might need to use it.



The only time that he is aware of that the chainsaw was ever used was maybe in May 2011 when Dave had to cut an apple tree down in their yard. He believes Paul even used the chainsaw to cut the stump down a little bit further. After Paul's accident in June 2011, he only spoke to Paul once and that was at a supermarket when he saw him months after the accident and they said hi to each other. He doesn't know Paul's version of the accident. At first he called Paul a fibber because he filed suit against him but he realizes that maybe Paul isn't fibbing because he doesn't really know who is telling the truth or how the accident occurred. Paul never told him how the accident occurred in his words.

To his knowledge, Dave has used the chainsaw on a couple occasions on his property, one to cut the apple tree down a month before the accident and another time a day before Paul's accident to cut the branches from the evergreens. He explained that on June 28, 2011, he was in the house watching tv and he realized that Paul had arrived at some point because Paul was in the backyard helping Dave with the evergreens. He doesn't know when Paul first got there or how long he was there but apparently Dave started cutting the branches down the day before. Paul was there on this day to help Dave with the branches. He never saw them doing the work and therefore, he doesn't know who was doing what or when or how.

All of the sudden he heard a commotion in the backyard and saw that Paul and Dave were running to get in the car to get to the hospital. He realized that Paul was hurt. He was very unclear about when they arrived back from the hospital or if Paul arrived with Dave or whether Dave arrived back from the hospital alone.

But it wasn't until the next day that he spoke to Dave that Dave told him that Paul somehow caused the accident. He didn't specify what Paul did to cause the injury but just blamed it all on Paul and said Paul did something wrong. He never clarified what he meant by that.

One other time he spoke to Paul after the accident was maybe a week after the accident when Paul came over for about 2 mins and basically said that everything was fine. He didn't suggest that he was hurting anymore.

DATE: March 21, 2013

SUBJECT: **DISCOVERY DEPOSITION OF CAROLINE MCGUIRE**

CASE: PAUL DULBERG

On March 20, 2013, I took the discovery deposition of Caroline McGuire before court reporter, Paula Erickson at Urbanski Reporting 312/977-1777. The transcript was ordered by defense counsel, we ordered a copy.

Caroline McGuire is a real talkative person and has difficulty waiting for the questions to finish before she gives an answer. However, she is very pleasant and would probably come across credible. The following favorable and unfavorable testimony was given.

FAVORABLE TESTIMONY:

1. She has always known Paul to be credible, honest and has never heard anything from Paul's mouth that he was trying to get people to lie or to say things to allow him to make a recovery so that he will never have to work again.

2. Neither she nor her husband, William are able to use a chainsaw and therefore, they purchased the chainsaw that Dave was using at the time of Paul's accident earlier in the year for Dave to use to cut trees on their property.

UNFAVORABLE TESTIMONY:

1. Dave is experienced for many years using a chainsaw and she has always seen Dave use a chainsaw in a careful and proper manner.

2. She was never outside while Dave and Paul were on the day of the accident and therefore, she doesn't know who was doing what with regard to the cutting up of the branches behind their house. She delivered water to them once, but does not recall who was doing what or what type of work they were performing other than cutting up the branches. She thinks Dave was using the chainsaw.

Caroline McGuire is married to husband, William and they have been married for 20 years. She was previously married to Alan Gagnon, but he died 16 years ago, they were divorced before he died. William is now her son and two daughter's step-father. William is disabled but he use to work as

a carpenter before he retired. Caroline is retired too, but she use to work in a factor job before she retired. She is 66 years old.

About 4 years or so, Dave married his wife Pam and they moved up to Genoa City, WI to live. They have lived up there for the past 12 years. Dave is involved in autobody work at their house.

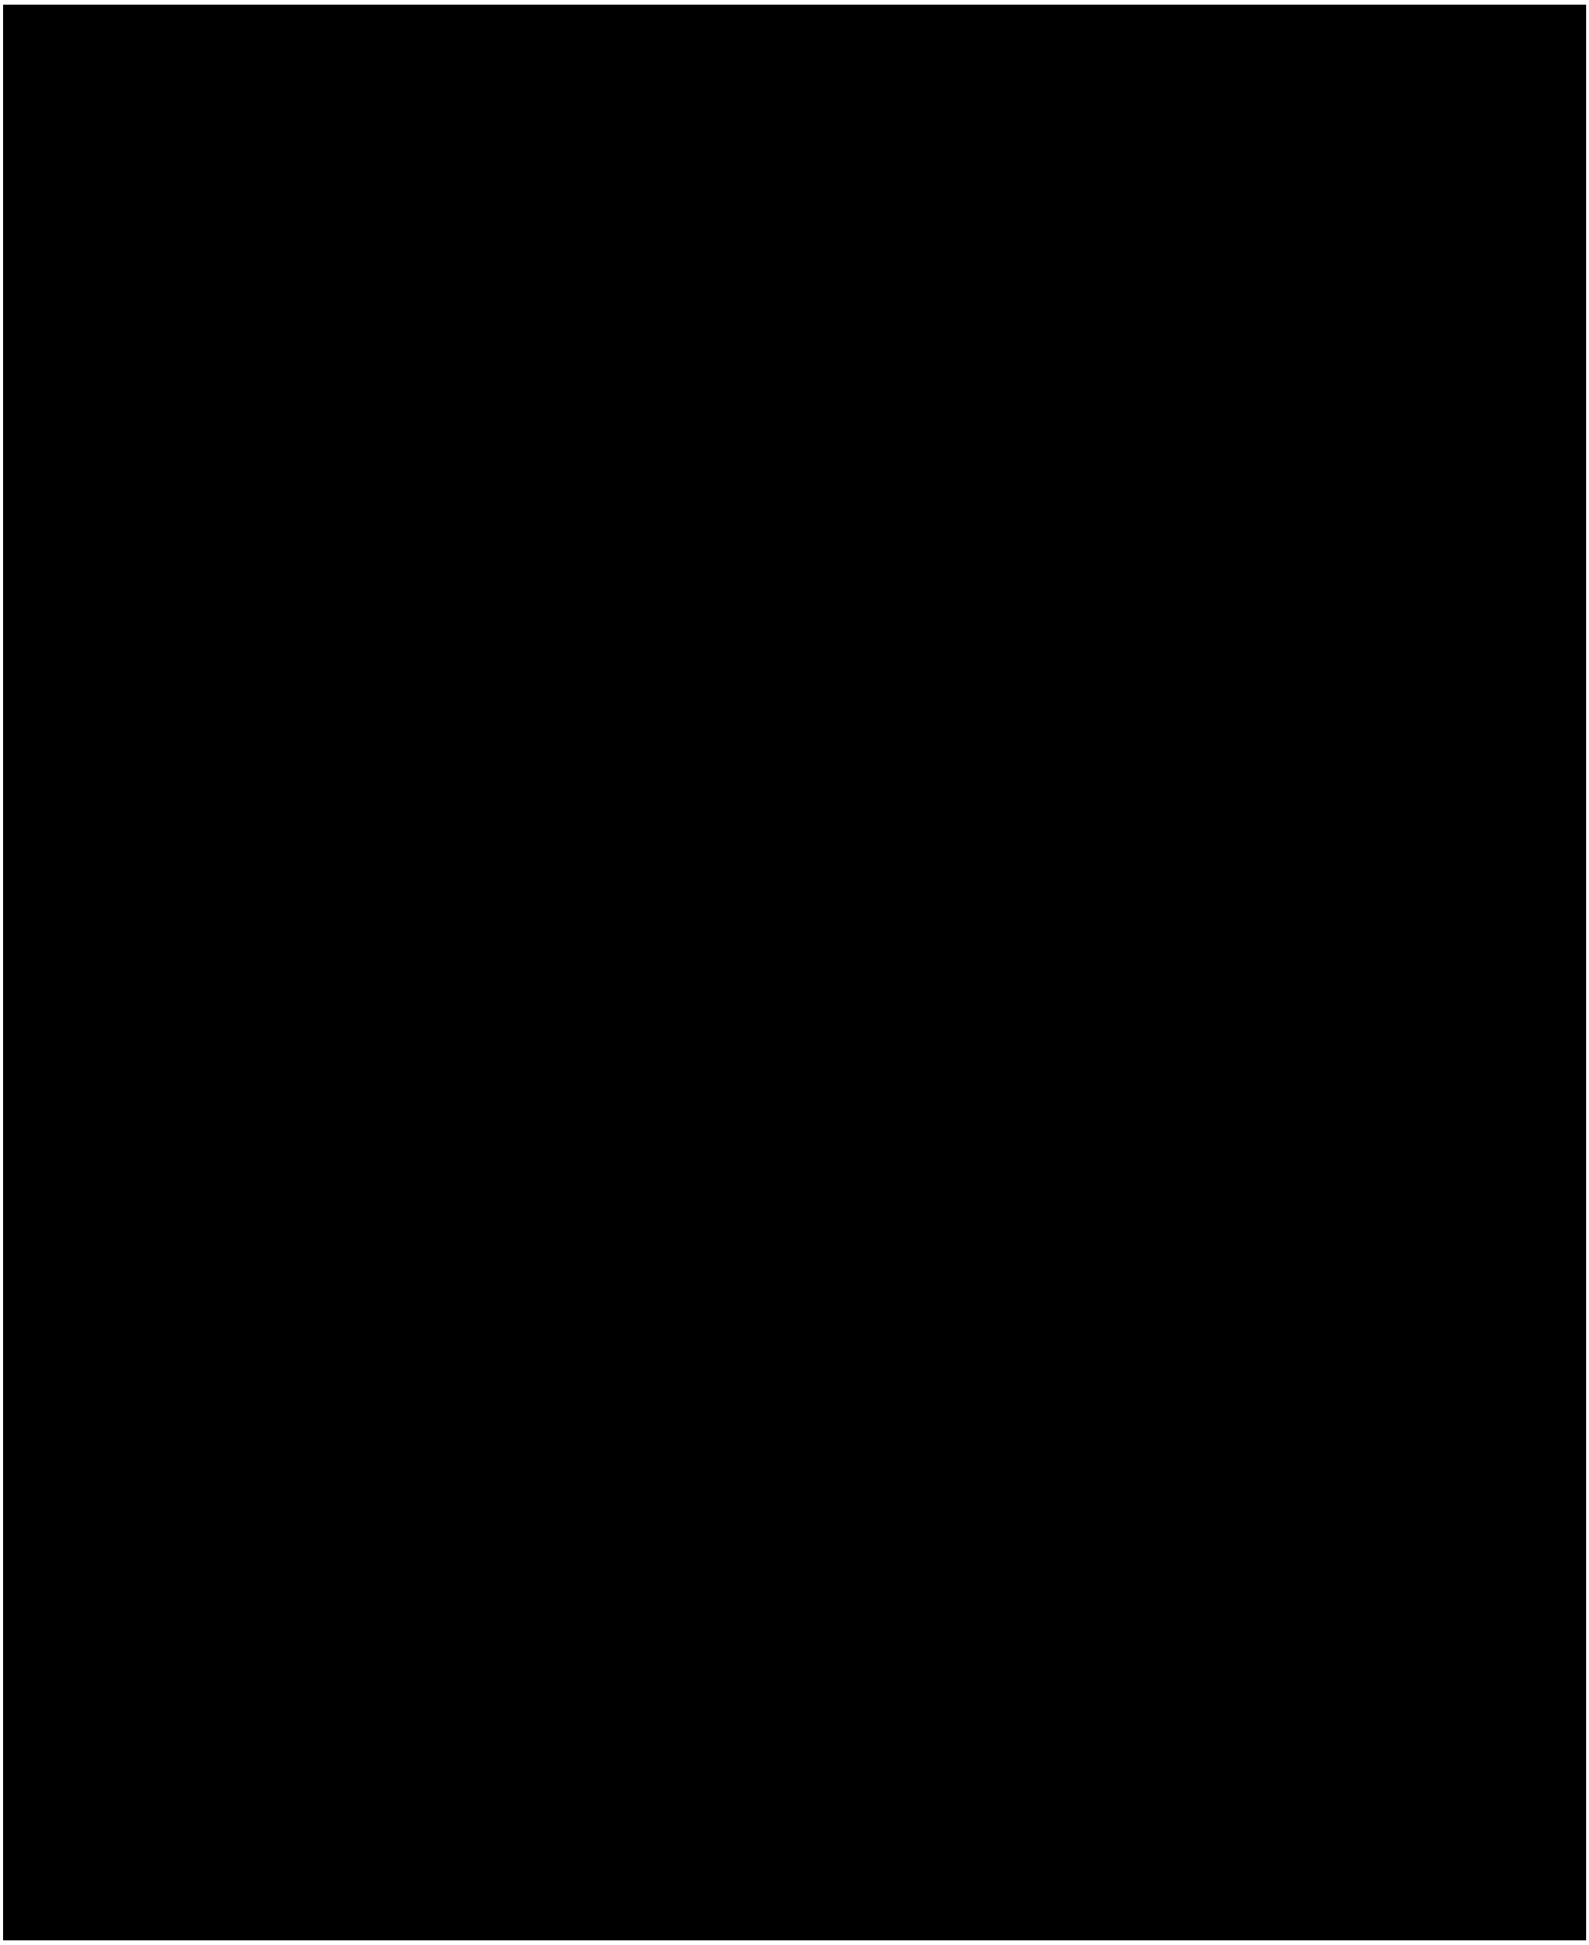
On the day of the accident, June 28, 2011, they had 2 evergreens in their backyard that they wanted cut down. Dave had some experience using a chainsaw, so they asked Dave to cut the limbs from the tree from the bottom up from about 15 to 20 feet. They were then going to hire a tree contractor to cut the tree trunks down later because they were so tall and large.

Before Paul's accident, Dave had been to their property to cut trees down on 3 separate occasions. One was in early May 2011, when they had a big tree in front of their property that was cut down by a tree service and then Dave and Paul used a chainsaw to cut up the sections that were left for Paul to use as firewood in his house. She was very complimentary of Paul, thought him to be a nice boy and they had known him for years and years and always thought him to be a credible, honest person.

Later, around June 2011, Dave was asked to cut an apple tree down in their backyard and he did that alone. The apple tree was about 20 feet tall, maybe 6-8 inches wide.

The third time Dave did tree work at their property was just prior to Paul's chainsaw accident on June 28, 2011. Dave started the work one day earlier by himself. He was cutting the bottom section of branches on two evergreens in their backyard. Paul came the next day to help Dave cut up the branches. She doesn't know what Paul was doing or who was doing what type of work, but she heard later that Paul was holding the branch and Dave cut him with the chainsaw. Dave had a different recollection. Dave told her that Paul was holding the branch and Paul moved his arm up from a different position and Dave did not know that and Dave cut him with the chainsaw.

At the time of Paul's accident on their property in June 2011, she was inside cleaning up and doing household chores while her husband, William was watching tv. She had only gone out twice that day. One to give water to Paul and Dave and the other time to play with Paul's dog in the backyard for a few minutes. She never saw the course of their work or what they were doing that day.



All of the sudden Paul rushed into the house with Dave and said that he was cut by the chainsaw. She wrapped his right arm with a towel and then Dave took Paul in Paul's truck to the hospital - NIMC. A couple hours later Paul and Dave returned and Paul said that he needed to get a prescription filled for pain medication. She offered Paul $50 to get the pain medication filled because he had no money.

The day of Paul's accident, she never spoke to Paul or Dave about the specifics of the accident. She thinks the next time she spoke to Dave a couple days later Dave spoke a little bit more specifically about what had happened and told her that Paul was holding a branch and was moving his arm up to reposition it and he did not know that and cut Paul's arm.

She saw Paul a few times after the accident maybe 3 times. The first time was within a week when she visited Paul's house to see how he was doing. He said that he was ok but it hurts. Two weeks later she called Paul on the phone and Paul said that he was doing ok. The last time she spoke to Paul after the accident was in September 2011 when Paul went to her house to drop off a tiller that

was owned by Dave. The tiller weighs about 200 lbs and she explained that Paul picked it up with his two arms from a trailer and put it on the ground and wheeled it into the garage all by himself. Without help.

MEMORANDUM

TO: File

FROM: Hans

DATE: February 6, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DEFENDANT, DAVID GAGNON**

CASE: PAUL DULBERG

On February 4, 2013, I appeared for the discovery deposition of Defendant, David Gagnon taken before court reporter, Margaret Maggie Orton at Urbanski Reporting, 312/977-1777. The transcript was not ordered at the time, but we will call and have it ordered soon.

David Gagnon is kind of an unusual fellow. He is a very free spirit and talkative to the extent that he has difficulty remaining on point and many times his answers will flow into new issues and topics without much hesitation. He does come across somewhat likeable, however, but is an unusual sort and may come across at trial as somewhat defensive in his testimony. He testified to the following favorable and unfavorable points:

FAVORABLE TESTIMONY:

1. He agrees that as he was attempting to move forward with the chainsaw towards the limb to cut it, he struck Paul's right forearm causing him injury.

2. He admits that Paul was holding the branch with his left arm and reaching to hold the branch with his right arm when Paul's arm was struck by the chainsaw.

3. Paul had no pre-accident history of any problems with his right forearm.

4. He has not really been in contact with Paul much since the accident and doesn't know the nature and extent of his injury other than he does know that Paul has had some difficulty with his right arm since the accident.

UNFAVORABLE TESTIMONY:

1. He has spoke to Paul on several occasions after the accident during which Paul has indicated that "he might not have to work anymore" and "this lawsuit might be a great event in his life" and that he would share $10,000 if he ends up settling for $100,000 with David Gagnon - although Dave admits that Paul never conditioned Dave's testimony on any recovery or payment.

2. He believes Paul was reaching for the branch so that he could hold on to the lower end of the branch and keep it steady while Dave was cutting the limbs from the branch. However, Paul never grabbed onto the branch with his right before and this was something unknown to him

and he did not realize Paul was going to do this until just before Paul was cut with the chainsaw.

David Gagnon lives with his wife, Pamela at 39010 90th Place, Genoa, WI 53128. They have been married since 2008. Both he and Pam are longtime friends of Paul Dulberg. He has known Paul his whole life practically.

He explained that there were three particular conversations he had with Paul since Paul's accident in which Paul commented in a very questionable nature on the accident and how that might help him financially:

1. First, on the day of the accident after they left the hospital together and before they left the parking lot, Paul indicated to him that "we could make a lot of money at this."

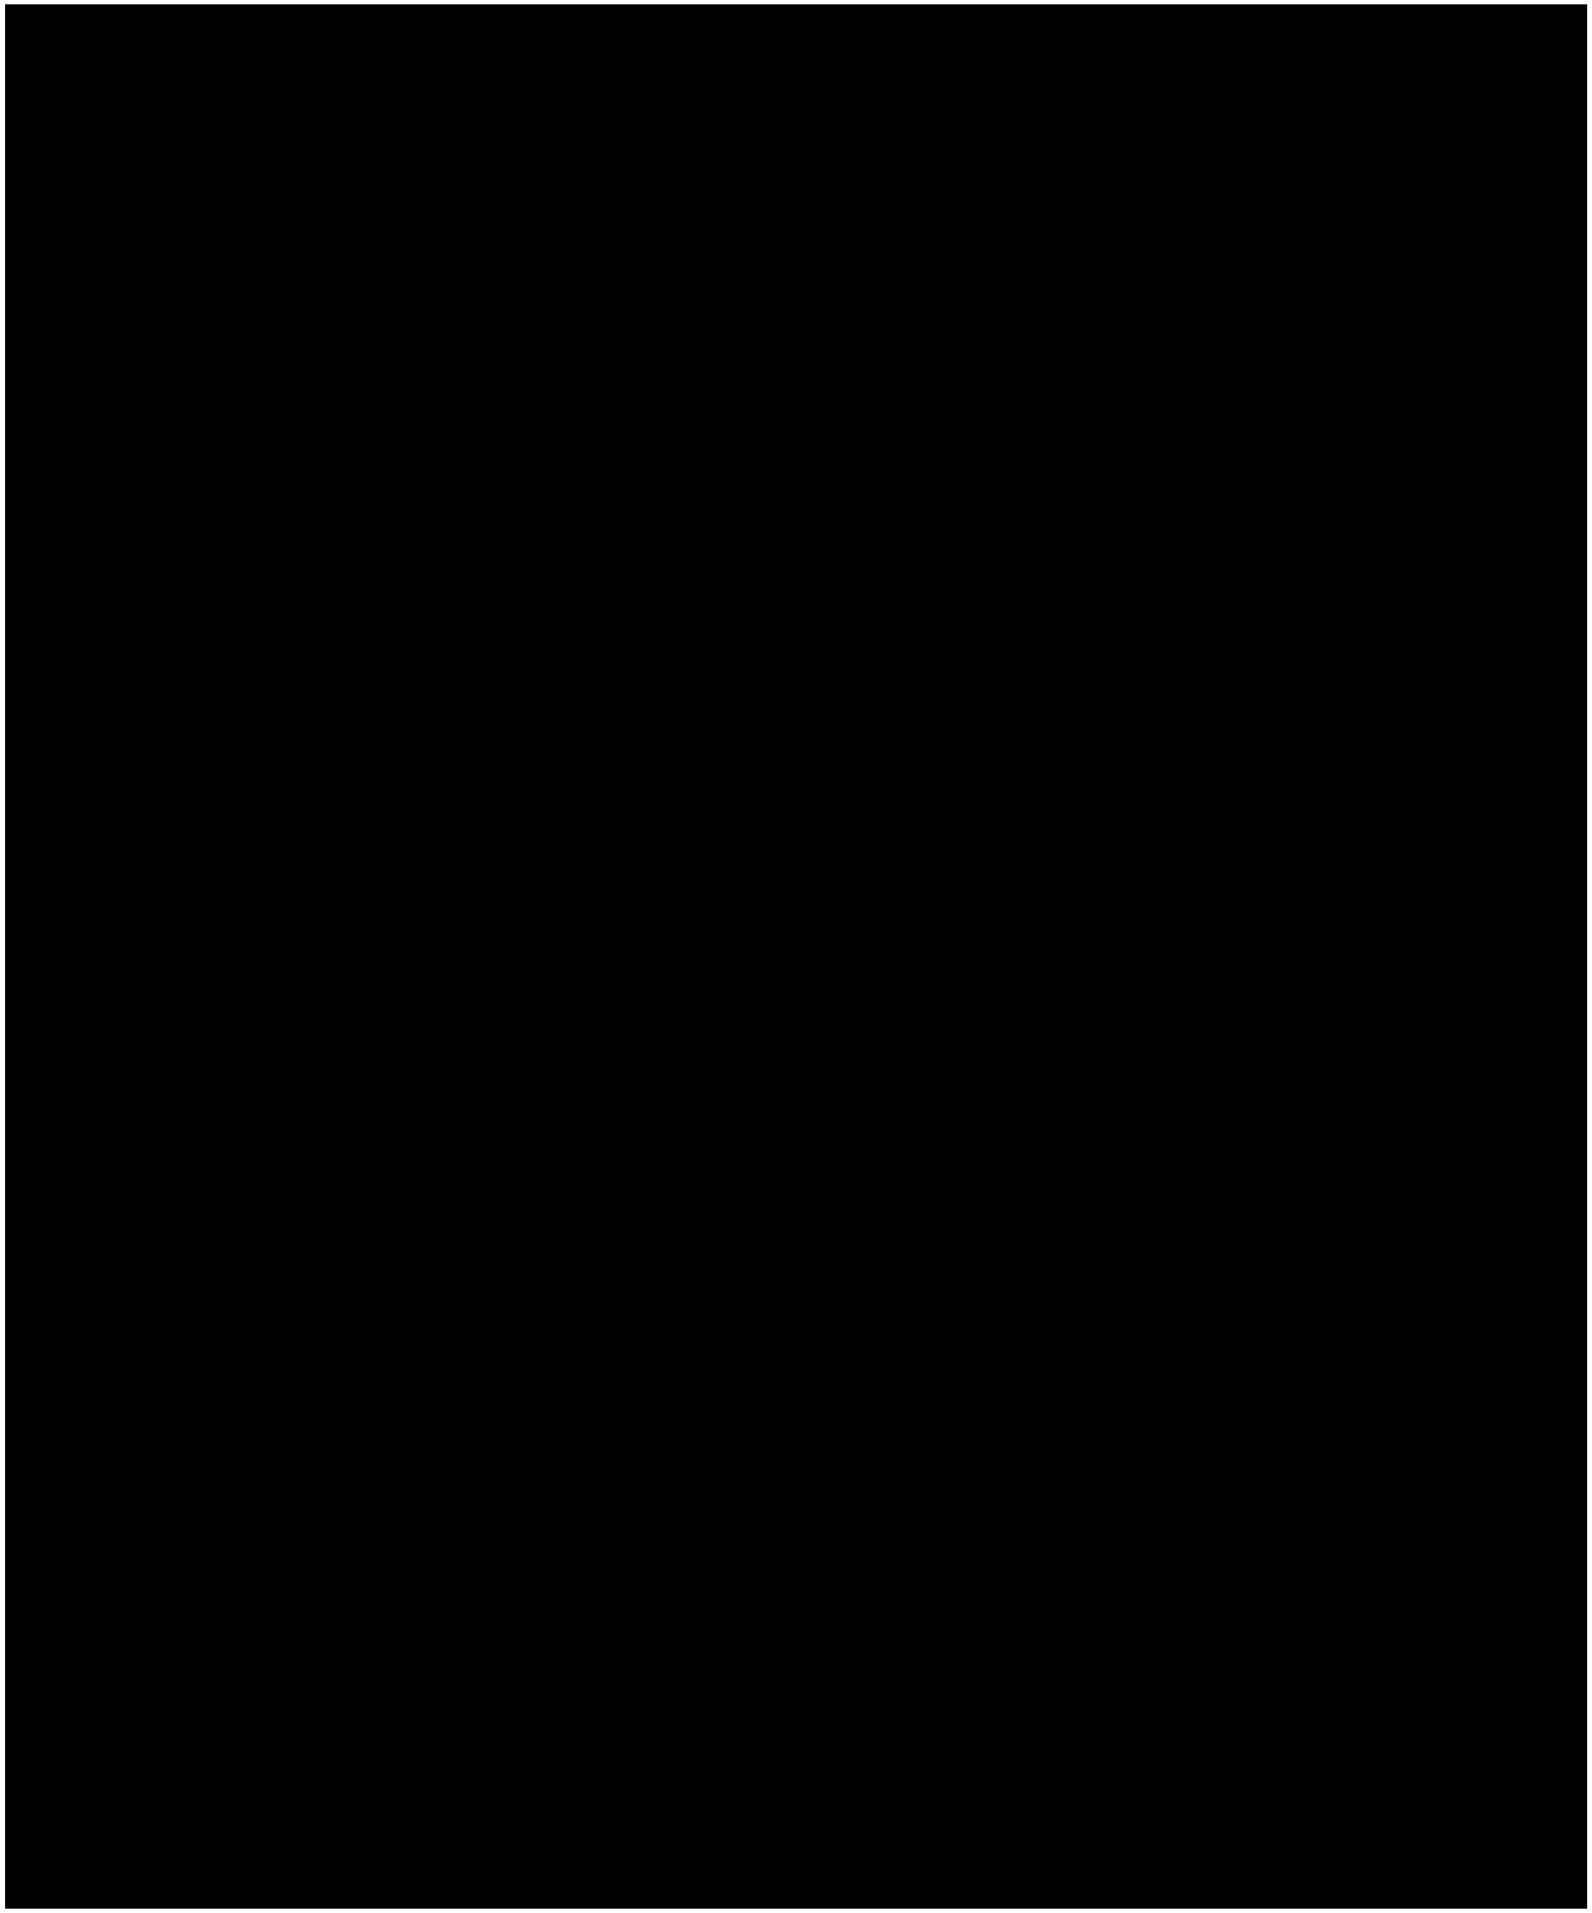
2. For months after the accident, he was at Paul's house visiting along with Paul's roommate, Michael Mcartor when Paul mentioned that "this could be the best thing that happened to me because he will not have to work the rest of his life." This is the only visit he had at Paul's house since the accident.

3. Paul visited David at his home in 2012 after the suit was filed and Paul told him that "he would share $10,000 of any money he gets if gets at least $100,000 if it goes well for him." Dave responded that "what do you want me to say, that he was weelding the chainsaw and was negligent." Dave then said that he would not do that. Paul said "that would make it easier."

These three conversations are the only conversations he has had with Paul since the accident in any substantial sense and although he is not sure what Paul meant or implied with these statements, he felt that he was wanting Dave to say things favorable to his case to help him settle the case. Dave refused. However, Dave agreed that Paul never conditioned Dave's testimony on anything Dave said, although he did say it would "make it easier."

Dave graduated from high school in Johnsburg in 1985. Since then he started some college courses but never finished a college degree, but instead has been working most of his life since high school self-employed doing auto repair and body work. He does it at his home.

As for his use for chainsaws, he began using them probably around 1985, mostly on camping trips to cut up wood. In 2000 to 2004, he owned two different chainsaws but only one worked. He would use it from time to time to cut things in the yard. In 2004, he maybe used the chainsaw about 15 times until Paul's accident in June 2011. Most were on camping trips. Other than on camping trips, he would have used his friend, Mike's chainsaw on one occasion, another time was on a camping trip, another time would have been on his own property using a friend's chainsaw and the last time was just before the accident at his parent's house helping to cut up some wood. He recalls earlier in 2011, his parent's bought a brand new chainsaw and they were going to use it to cut down some wood in the backyard. He is not sure who they intended to use the chainsaw until he was asked two days before beginning work at his parent's house in June 2011, if he would help cut a couple pine trees down.



His parents are Carolyn and William McGuire. Carolyn is his natural mother, William is his step-father. His natural father died in 1996. His mother has been living at the same house since 1971. The address is 1016 W. Elder, McHenry, IL. It is on a one-third acre and it's a ranch house. There are only about 10 trees on the property. Before Paul's accident there were 13. Two of them were pine trees. He recalls a couple days before Paul's accident he spoke with his mother and father about removing a couple pine trees so that they can install a new shed. The older shed had come down because it was old. The parents agreed to pay him $15 an hour for the work. Two days later he began the work on his own at his parent's property. He cut down several limbs from the two pine trees. The next day he went over to Paul's house in the morning to see if Paul wanted to help him for getting paid about $15 an hour as well. They never talked about money but that was what he was implying, Paul would get paid as much as he is getting paid from his parents. He did not intend Paul to ever use the chainsaw on the day of the accident. He is not real sure what he expected Paul to do to help him other than to help stack the wood and clean up the tree debrie. They never really discussed what Paul's work would do but Dave always planned on being the only one to use the chainsaw.

The two pine trees were in the backyard and they were about 50 feet tall a piece. They had a lot of branches on them. There were many limbs coming out from the base of the pine tree. It was over 25 years old. The process of cutting up the trees were as follows:

> They would take a large limb maybe 4 to 5 feet tall and Paul would hold it in front of him vertically with his left hand out from his body and his right hand on his side. Dave would then begin 18" below Paul's left hand and start cutting on the sides of the branch all of the limbs off of the branch. The limbs were coming off horizontally from the vertical branch. He would cut off all of the horizontal limbs beginning 18" below Paul's hand. He did say that Paul is the one that chose to hold up the limbs or branches, it was not his decision. His decision was to use the two sawhorses and lay the branches over the sawhorses so that he could cut them down. (But that would be a lot more difficult because you would have to keep on picking up pieces as you cut the tree limbs from the sawhorses). Anyway, for about 25 to 30 different branches, Paul would hold them up with his left hand in front of him vertically and Dave would cut the limbs off of these branches. On the last one, Dave described that he cut about 4 limbs off the vertical branch Paul was holding and on the fourth one as he went down to cut the branch the branch bent a bit and gave way and he could not cut the limb cleanly, so he went down to cut the limb again at the same time as Paul was using his right arm and bringing it around to hold on to the branch to keep it steady. As Dave was going in with the chainsaw to cut this fourth limb from the branch the chainsaw struck Paul's right forearm. Immediately, they knew that he had to be taken to the hospital. Paul said let's go. Dave got in Paul's car and drove Paul to the hospital and they went in and got treated. Dave implied that it was not "a deep cut." But he has no medical expertise. Then when they got out of the hospital Paul said what Dave described earlier in this memo about "Paul saying that he could make a lot of money at this." He didn't really keep in touch with Paul much since the accident. Once suit was filed he became very angry at Paul because of some of the things that Paul was saying about "financially benefitting" from the claim.

As to his parents, his said that parents had no expertise in using a chainsaw and were not outside when the accident occurred. His parents were not directing on how he was to do the work, but he was to do the work on his own and in his own way. When I asked him questions about him directing Paul's work he said that he never directed Paul to do anything and that they had worked together on

other days and he just thought that they were working together and would work on their own to get the work done.

FROM: Hans

DATE: February 6, 2013

SUBJECT: **DISCOVERY DEPOSITION OF DEFENDANT, DAVID GAGNON**

CASE: PAUL DULBERG

On February 4, 2013, I appeared for the discovery deposition of Defendant, David Gagnon taken before court reporter, Margaret Maggie Orton at Urbanski Reporting, 312/977-1777. The transcript was not ordered at the time, but we will call and have it ordered soon.

David Gagnon is kind of an unusual fellow. He is a very free spirit and talkative to the extent that he has difficulty remaining on point and many times his answers will flow into new issues and topics without much hesitation. He does come across somewhat likeable, however, but is an unusual sort and may come across at trial as somewhat defensive in his testimony. He testified to the following favorable and unfavorable points:

FAVORABLE TESTIMONY:

1. He agrees that as he was attempting to move forward with the chainsaw towards the limb to cut it, he struck Paul's right forearm causing him injury.

2. He admits that Paul was holding the branch with his left arm and reaching to hold the branch with his right arm when Paul's arm was struck by the chainsaw.

3. Paul had no pre-accident history of any problems with his right forearm.

4. He has not really been in contact with Paul much since the accident and doesn't know the nature and extent of his injury other than he does know that Paul has had some difficulty with his right arm since the accident.

UNFAVORABLE TESTIMONY:

1. He has spoke to Paul on several occasions after the accident during which Paul has indicated that "he might not have to work anymore" and "this lawsuit might be a great event in his life" and that he would share $10,000 if he ends up settling for $100,000 with David Gagnon - although Dave admits that Paul never conditioned Dave's testimony on any recovery or payment.

2. He believes Paul was reaching for the branch so that he could hold on to the lower end of the branch and keep it steady while Dave was cutting the limbs from the branch. However, Paul never grabbed onto the branch with his right before and this was something unknown to him

and he did not realize Paul was going to do this until just before Paul was cut with the chainsaw.

David Gagnon lives with his wife, Pamela at 39010 90th Place, Genoa, WI 53128. They have been married since 2008. Both he and Pam are longtime friends of Paul Dulberg. He has known Paul his whole life practically.

He explained that there were three particular conversations he had with Paul since Paul's accident in which Paul commented in a very questionable nature on the accident and how that might help him financially:

1. First, on the day of the accident after they left the hospital together and before they left the parking lot, Paul indicated to him that "we could make a lot of money at this."

2. For months after the accident, he was at Paul's house visiting along with Paul's roommate, Michael Mcartor when Paul mentioned that "this could be the best thing that happened to me because he will not have to work the rest of his life." This is the only visit he had at Paul's house since the accident.

3. Paul visited David at his home in 2012 after the suit was filed and Paul told him that "he would share $10,000 of any money he gets if gets at least $100,000 if it goes well for him." Dave responded that "what do you want me to say, that he was weelding the chainsaw and was negligent." Dave then said that he would not do that. Paul said "that would make it easier."

These three conversations are the only conversations he has had with Paul since the accident in any substantial sense and although he is not sure what Paul meant or implied with these statements, he felt that he was wanting Dave to say things favorable to his case to help him settle the case. Dave refused. However, Dave agreed that Paul never conditioned Dave's testimony on anything Dave said, although he did say it would "make it easier."

Dave graduated from high school in Johnsburg in 1985. Since then he started some college courses but never finished a college degree, but instead has been working most of his life since high school self-employed doing auto repair and body work. He does it at his home.

As for his use for chainsaws, he began using them probably around 1985, mostly on camping trips to cut up wood. In 2000 to 2004, he owned two different chainsaws but only one worked. He would use it from time to time to cut things in the yard. In 2004, he maybe used the chainsaw about 15 times until Paul's accident in June 2011. Most were on camping trips. Other than on camping trips, he would have used his friend, Mike's chainsaw on one occasion, another time was on a camping trip, another time would have been on his own property using a friend's chainsaw and the last time was just before the accident at his parent's house helping to cut up some wood. He recalls earlier in 2011, his parent's bought a brand new chainsaw and they were going to use it to cut down some wood in the backyard. He is not sure who they intended to use the chainsaw until he was asked two days before beginning work at his parent's house in June 2011, if he would help cut a couple pine trees down.

His parents are Carolyn and William McGuire. Carolyn is his natural mother, William is his step-father. His natural father died in 1996. His mother has been living at the same house since 1971. The address is 1016 W. Elder, McHenry, IL. It is on a one-third acre and it's a ranch house. There are only about 10 trees on the property. Before Paul's accident there were 13. Two of them were pine trees. He recalls a couple days before Paul's accident he spoke with his mother and father about removing a couple pine trees so that they can install a new shed. The older shed had come down because it was old. The parents agreed to pay him $15 an hour for the work. Two days later he began the work on his own at his parent's property. He cut down several limbs from the two pine trees. The next day he went over to Paul's house in the morning to see if Paul wanted to help him for getting paid about $15 an hour as well. They never talked about money but that was what he was implying, Paul would get paid as much as he is getting paid from his parents. He did not intend Paul to ever use the chainsaw on the day of the accident. He is not real sure what he expected Paul to do to help him other than to help stack the wood and clean up the tree debrie. They never really discussed what Paul's work would do but Dave always planned on being the only one to use the chainsaw.

The two pine trees were in the backyard and they were about 50 feet tall a piece. They had a lot of branches on them. There were many limbs coming out from the base of the pine tree. It was over 25 years old. The process of cutting up the trees were as follows:

> They would take a large limb maybe 4 to 5 feet tall and Paul would hold it in front of him vertically with his left hand out from his body and his right hand on his side. Dave would then begin 18" below Paul's left hand and start cutting on the sides of the branch all of the limbs off of the branch. The limbs were coming off horizontally from the vertical branch. He would cut off all of the horizontal limbs beginning 18" below Paul's hand. He did say that Paul is the one that chose to hold up the limbs or branches, it was not his decision. His decision was to use the two sawhorses and lay the branches over the sawhorses so that he could cut them down. (But that would be a lot more difficult because you would have to keep on picking up pieces as you cut the tree limbs from the sawhorses). Anyway, for about 25 to 30 different branches, Paul would hold them up with his left hand in front of him vertically and Dave would cut the limbs off of these branches. On the last one, Dave described that he cut about 4 limbs off the vertical branch Paul was holding and on the fourth one as he went down to cut the branch the branch bent a bit and gave way and he could not cut the limb cleanly, so he went down to cut the limb again at the same time as Paul was using his right arm and bringing it around to hold on to the branch to keep it steady. As Dave was going in with the chainsaw to cut this fourth limb from the branch the chainsaw struck Paul's right forearm. Immediately, they knew that he had to be taken to the hospital. Paul said let's go. Dave got in Paul's car and drove Paul to the hospital and they went in and got treated. Dave implied that it was not "a deep cut." But he has no medical expertise. Then when they got out of the hospital Paul said what Dave described earlier in this memo about "Paul saying that he could make a lot of money at this." He didn't really keep in touch with Paul much since the accident. Once suit was filed he became very angry at Paul because of some of the things that Paul was saying about "financially benefitting" from the claim.

As to his parents, his said that parents had no expertise in using a chainsaw and were not outside when the accident occurred. His parents were not directing on how he was to do the work, but he was to do the work on his own and in his own way. When I asked him questions about him directing Paul's work he said that he never directed Paul to do anything and that they had worked together on

other days and he just thought that they were working together and would work on their own to get the work done.

MEMORANDUM

TO: File

FROM: Hans

DATE: January 16, 2013

SUBJECT: **PAUL DULBERG**

On January 15, 2013, I met with Paul to prepare him for his upcoming deposition this Thursday. Unfortunately, although Paul is a cooperative witness he is very talkative and just can't seem to disengage himself from conversation. Despite about an hour and a half of preparation I could not get him to stop talking and get him to simply respond to the questions asked instead of explaining his version of the accident. I told Paul that I think we need one more time to prepare for his deposition so that we were going to continue his deposition for a later date and then get him back in her for another prep. He agreed.

In the way of testimony, Paul is essentially going to say that on the day of his accident he was called by the defendant, Gagnon to his parent's house to pickup wood that he was cutting from trees on their property. Paul arrived thinking that he was only going to haul away some wood but after about an hour or two there, Dave asked him if he wanted to hold some branches for him while he cut some of the limbs down from the tree. He was holding some branches for about a half hour when suddenly Dave starting walking towards him from about 15 feet away. Dave had the saw down by his right side and was walking towards him and when he got about 3 feet away while Paul was holding on to the end of the tree limb Dave raised the saw up in the air and took a swipe by his arm and struck him injuring him. At the time of the accident Paul was unemployed but had been hired and was ready to begin work about a week later. He never could go to that job and instead has not been working since and has applied for social security disability.

MEMORANDUM

TO: File

C: Alarie

FROM: Hans

DATE: June 5, 2012

SUBJECT: **PAUL DULBERG**

On June 5, 2012, I met with Paul Dulberg and his mother again to update me on his ongoing medical care and treatment. Paul is a very talkative individual and doesn't seem to respond well to direct questions but instead likes to speak randomly and many times off topic. Paul is cooperative however, we had a nice meeting.

Paul explains that even today he still has pain in the right elbow by the ulnar nerve and has tingling and numbness in the right hand from the forearm. He has been seeing hand and arm specialists who are suggesting that he needs surgery to reposition the ulnar nerve so that the nerve is not being impinged by the scar tissue. Paul explains that most of the reasons that he has these symptoms is from the scarring of the nerves from the chainsaw incident. He explained that 10 years ago he was also involved in an auto accident which he suffered injury to his left arm that required ulnar nerve transposition as well as severe chronic neck and back pain. He has been unable to work consistently since his auto accident 10 years but complains that since this accident in 2011 he has not been able to find consistent work.

We talked a little bit about his work history. He said that in the year before the accident he was working for himself at home and earned about $10,000 or so. He got a part time job just before the accident that he worked at beforehand and was going to return to that job after this accident but because of the accident he was not able to return to that part time employment. He admits that there were really no doctors that told him that he could not work, only that he was limited to work and was on medications that interfered with his inability to work.

We went over his medical expense report and after the ER visit he followed up with family physician Dr. Sek (4606 W. Rte 120, McHenry) who evaluated him and had him undergo a functional capacity evaluation for purposes of work. He was then referred to Dr. Levin (Associated Neurology) who gave him medications and referred him to hand and arm specialist, Dr. Talerco (who practices in Libertyville). Dr. Talerco referred him to physical therapy at Fox Lake Dynamic Hand Therapy (Fox Lake) and then after a period of therapy he went for a second opinion to two doctors, Drs. Sam Biaforia and Scott Sangerman who practice in hand and arm orthopedics in Mundelein and has continued to see Drs. Biaforia and Sangerman for consult and whether he needs to have surgery. He thinks very soon he will undergo surgery although he cannot pay for it other than through a credit card transaction.

By copy of this memo, I ask **Alarie** to order bills and records from each of the doctors and/or office referenced above. Paul continues to treat so we need to get the bills and records current and up to date.

Thanks,

Hans

SUBJECT: **PAUL DULBERG**

Alarie,

Please prepare suit on this case. This suit would be against David Gagnon - he lives at 39010 90th Place, Powers Lake, WI 53159. He is the one that mishandled a chainsaw and ended up injuring my client, Paul Dulberg.

The accident, however, happened at Dave's parent's house the McGuire's - you can see my initial memo for the address and circumstances. I want to sue the McGuire's too for failure to supervise the cutting down of the tree and failure to provide proper equipment, etc. so that it can be done safely without injuring our client.

You do not need to get too detailed in the complaint just prepare a general complaint with a caption and I will help work through the allegations of the complaint.

Thanks,

Hans

MEMORANDUM

TO: Tom, Marla, Diana and Alarie

FROM: Hans

DATE: December 5, 2011

SUBJECT: **PAUL DULBERG - NEW CLIENT**

HAM
B/C the accident occurred on their premises, their H.O. med-pay will cover the bills.

On December 1, 2011, I met Paul Dulberg and his mother, concerning a recent injury that Paul suffered at a friend's house due to a chainsaw accident on June 28, 2011. Paul was referred to our office by a former client, Hubert McArtor. Paul had previously been with Francisco Botto in Woodstock but they rejected the case. He did sign a contract with Botto but we have correspondence in the file that they rejected him and sent him away. They did not refer him to us. Apparently, they rejected the case because they did not think that they would be able to prove that the defendant was more than 50% negligent causing the accident. I disagree.

Paul's contact information is as follows:

Paul Dulberg
4606 Hayden Court
McHenry, IL 60051
847/497-4250
SSN 323-76-4001
DOB 03-19-70
DOA 06/28/11

Paul describes that he was at a friend's house, Caroline and Bill McGuire who live at 1016 W. Elder Avenue, McHenry, IL 60051, phone 815/344-4274. The McGuire's son, Dave was at the home and Dave was cutting up some tree limbs in the yard. Caroline had called Paul over to the house earlier to see if he wanted the wood for firewood. Dave asked Paul to hold some tree limbs while he cut them up. He had held two tree branches previously and then about an hour after he arrived he was holding another branch and Dave suddenly swung around with the chainsaw rising it in the air and cutting his Paul's forearm severely while holding on to a branch. Paul said that the chainsaw went about 40% through his forearm. Dave took him immediately to NIMC where they stitched him up. It was a very deep and open wound. Unfortunately, he did not take any photos of the wound. Instead, he followed up with his family physician, Dr. Frank Sek on Route 120 in McHenry who removed the stitches about a week later. Dr. Sek thought there was going to be possible nerve damage due to his arm being very painful. About two weeks later he went to a doctor at the Associates in Neurology in Libertyville and they took and EMG test which found that there were some branch nerves that had been severed which may be the cause of his ongoing pain. They thought that the pain was probably more ligamentous and they referred him to Dr. Paul Papierski, phone 847/247-0547. That was in August. He has not returned to see Dr. Papierski because apparently they needed an MRI and he did not have money to pay for an MRI. I urged him to return

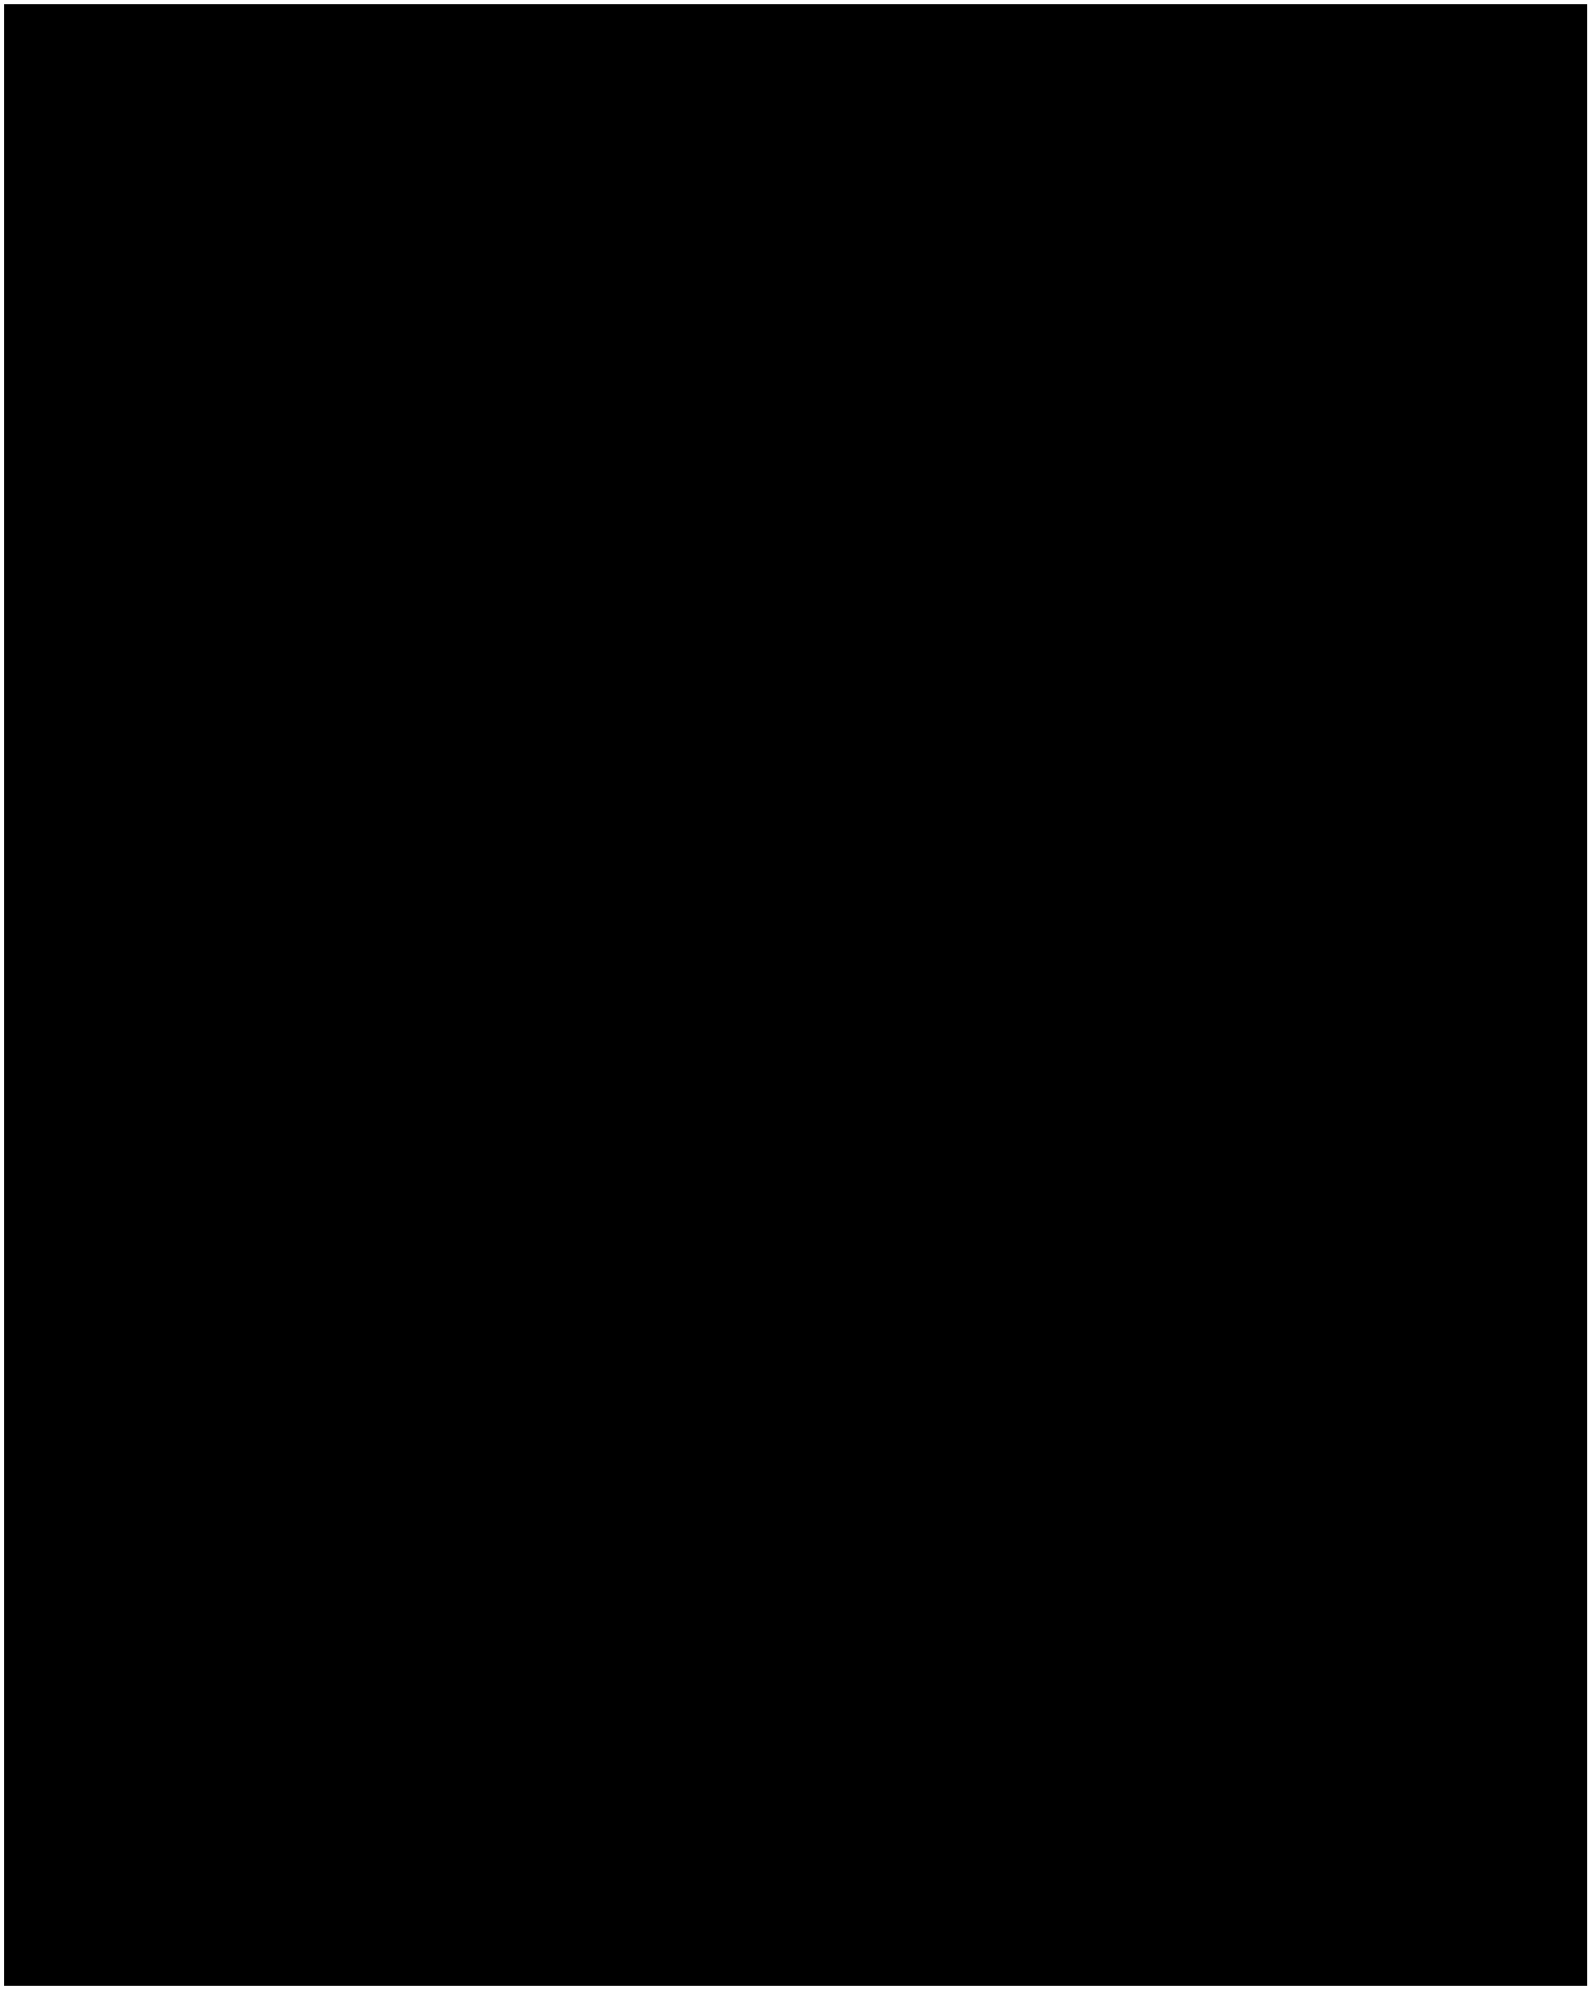
to see Dr. Papierski and to have the MRI done even if they have to hold a lien on our case. His arm is very painful when he lifts anything and he drops things continuously. He said that he will follow up with Dr. Papierski and advise me further what needs to be done as far as treatment.

At the time of the accident he was not employed but he had been just recently hired when the accident occurred by AMS Screw Products in Spring Grove. He was going to earn $12 an hour for 40 hours per week. He had talked to Karen over at AMS Screw and she agreed to hire him, but unfortunately, he was injured before he could start work. Their phone number is 732/545-8888x231.

The central issue in my view in this case is whether there is insurance coverage. Since the son was not living with the McGuire's at the time of the accident, it may be that David Gagnon is not going to be insured for the accident. However, Paul and his mother advised me that Dave also had a home and lived at 39010 90th Place in Genoa City, Wisconsin. Therefore, hopefully he has homeowner's insurance that will apply to this claim as well as med-pay coverage to help pay for the MRI that needs to be done.

The McGuire's were insured by:

Auto Owners Insurance
Tom Malatia, Adjuster
6000 Tallgate Road, Suite D
Elgin, IL 60123
847/587-3077
847/531-5420
847/531-8063x3808 gen. #
Claim No. 13-2779-11



By copy of this memo, I ask **Alarie** to set up a new file.

By copy of this memo, I ask **Marla** to order the medical records and bills from NIMC, Dr. Frank Sek and Associates in Neurology in Libertyville. Please also diary the 1 and 2 year SOL deadlines in this case.

Thanks,

Hans

At the time of the accident he was not employed but he had been just recently hired when the accident occurred by AMS Screw Products in Spring Grove. He was going to earn $12 an hour for 40 hours per week. He had talked to Karen over at AMS Screw and she agreed to hire him, but unfortunately, he was injured before he could start work. Their phone number is 732/545-8888x231.

The central issue in my view in this case is whether there is insurance coverage. Since the son was not living with the McGuire's at the time of the accident, it may be that David Gagnon is not going to be insured for the accident. However, Paul and his mother advised me that Dave also had a home and lived at 39010 90th Place in Genoa City, Wisconsin. Therefore, hopefully he has homeowner's insurance that will apply to this claim as well as med-pay coverage to help pay for the MRI that needs to be done.

The McGuire's were insured by:

Auto Owners Insurance

McGUIRE DEFENDANTS' MOTION TO VACATE PROTECTIVE ORDER

Defendants, CAROLYN McGUIRE and BILL McGUIRE, by their attorneys, Cicero, France, Barch & Alexander, PC, herby move this Court to vacate the Protective Order entered on August 8, 2012 and modified on April 3, 2013. In further support of the Motion, Defendants Carolyn and Bill McGuire state as follows:

1. On or about May 5, 2012, the Plaintiff, Paul Dulberg, filed a multiple count complaint alleging he suffered injuries as a result of negligence on the parts of David Gagnon, Carolyn McGuire and Bill McGuire. In general, Plaintiff alleges he sustained severe and permanent injuries when a chain saw being operated by David Gagnon made contact with his arm.

2. On July 31, 2012, Plaintiff filed a Motion for Protective Order wherein he alleged that Plaintiff's counsel (Attorney Hans Mast) wanted an opportunity to photograph and inspect the subject "chain saw" and any parts, accessories and manual/paperwork pertaining to the saw. In his prayer for relief, Plaintiff requested a protective order declaring the "saw and its parts and

accessories and paperwork/manual be preserved and protected without destruction or loss until further order of this court." A copy of Plaintiff's Motion for Protective Order is attached as "Exhibit A."

3. On August 8, 2012, the Court granted Plaintiff's Motion for Protective Order. A copy of the Court's order of August 8, 2012 is attached as "Exhibit B."

4. On March 20, 2013, the depositions of Carolyn McGuire and Bill McGuire proceeded with counsel for Plaintiff (Attorney Hans Mast) and counsel for Co-Defendant (Attorney Perry Accardo) present. Prior to the start of the depositions the "chain saw" allegedly involved in the injury to Plaintiff was presented for inspection and photographing. Plaintiff's counsel photographed the chain saw and also photographed the Owner's Manual.

5. On April 3, 2013, the Court's protective order was modified to allow the owners to utilize the chain saw and Owner's Manual in the ordinary course. The protective order further directed that the owners shall not sell or discard the chain saw, parts, accessories and associated paperwork without further order of the court. A copy of the Amended Protective Order dated April 3, 2013 is attached as "Exhibit C."

6. Subsequent to the entry of the amended protective order the Plaintiff reached a settlement agreement with Carolyn McGuire and Bill McGuire as to all matters in controversy, whereupon the negligence claims and contribution claims against them were dismissed with prejudice. A copy of the Good Faith Finding and Order of Dismissal entered on January 22, 2014 is attached as "Exhibit D."

7. With the claims against Carolyn McGuire and Bill McGuire fully resolved, counsel for the McGuires issued a letter to Attorney Mast and Attorney Accardo seeking an agreement to

have the pending protective order vacated. A copy of the February 12, 2014, letter to counsel is attached as "Exhibit E."

8. During a chance meeting in the Winnebago County Courthouse shortly after the February 12 letter issued, Attorney Accardo advised informally that he had no objection to vacating the protective order. Counsel for the McGuires has not heard from Attorney Mast.

9. Counsel for Plaintiff and Counsel for Defendant Gagnon have both had an opportunity to photograph and inspect the subject chain saw. In addition, both attorneys have copies of the Owner's Manual associated with the subject chain saw.

10. The subject chain saw was brand new on the date of Plaintiff's claimed injury and Plaintiff does not allege or claim that he was injured due to a manufacturing defect associated with the subject chain saw.

11. No prejudice will result to Plaintiff or Defendant Gagnon should this Court vacate the Amended Protective Order.

12. No just reason exists to delay the McGuires' request to vacate the Amended Protective Order.

WHEREFORE, the Defendants, Carolyn McGuire and Bill McGuire, respectfully pray this court to vacate the Amended Protective Order dated April 3, 2013.

CAROLYN MCGUIRE and BILL MCGUIRE,
Defendants, by their attorneys,

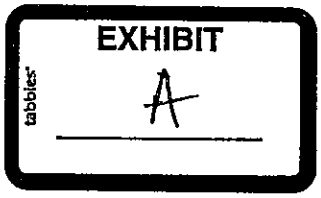
McHenry County Illinois
JUL 31 2012
Clerk of the Circuit Court



PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE McGUIRE and BILL McGUIRE and CAROLINE McGUIRE and BILL McGUIRE, Individually, Defendants.	)	No. 12 LA 178

PLAINTIFF'S MOTION FOR PROTECTIVE ORDER

NOW COME the Plaintiff, PAUL DULBERG, by and through his attorneys, LAW OFFICES OF THOMAS J. POPOVICH, P.C. and for his Motion for Protective Order to preserve and protect the "chain saw" involved in the underlying occurrence along with all parts and accessories and manual/paperwork, and states as follows:

1. This suit arises from injuries suffered by the Plaintiff, PAUL DULBERG, on June 28, 2011, when he was negligently struck by a "chain saw" operated by DAVID GAGNON while working on behalf and/or at the request of the Defendants, CAROLINE McGUIRE and BILL McGUIRE at their premises at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois.

2. Plaintiff's counsel would like an opportunity to photograph and inspect the subject "chain saw" and any parts, accessories and manual/paperwork pertaining to the saw and moves that this court order the "saw and its parts and accessories and paperwork/manual be preserved and protected without destruction or loss until further order of this court."

WHEREFORE, the Plaintiff, PAUL DULBERG, respectfully moves this Court to enter a protective order against the Defendants, their agents, employees, staff and/or representatives and any others under it's control, and it's attorneys, to preserve and protect the chain saw and its parts and accessories and paperwork/manual, from any destruction, alterations, modifications, or other changes from its condition as presently exists, until further order of the court and to present the saw and its parts etc within 30 days hereof to the Plaintiff's counsel for inspection and photographing.

Respectfully Submitted:

Hans A. Mast, Attorney for Plaintiff

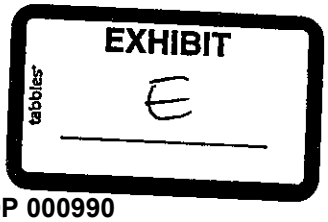
Case: *Paul Dulberg v. David Gagnon, Caroline McGuire and Bill McGuire*
(McHenry County Case No. 12 LA 178)

Dear Counsel:



With my departure from the case I feel compelled to address the subject of the chain saw that was involved in Mr. Dulberg's injury. Early on in the case a protective order was entered which prohibited Mr. and Mrs. McGuire from destroying or otherwise disposing of the chain saw and any associated documentation. The primary purpose behind the order of protection was to preserve the chainsaw and associated documentation until such time that Plaintiff's counsel could inspect and photographs same.

On March 20, 2013, the chain saw and owner's manual were made available for inspection and photographing. Plaintiff's counsel inspected and photographed the chainsaw. Plaintiff's counsel also secured a photocopy of the owner's manual.

On April 3, 2013, the protective order was modified to allow the Plaintiffs to use the subject chainsaw, owner's manual and associated paperwork in the ordinary course. The order further provides, however, that the owners may not destroy, dispose of, or sell the items without further order of the court.

Given the above, I am concerned about the possibility of a spoliation claim in the event the McGuires destroy, dispose of, or otherwise sell the chainsaw following my departure from the case. Please advise in writing whether you believe there is any reason to maintain the protective order as it currently exists. If not, I believe it makes sense to have the April 3, 2013 version of the protective order vacated.

I look forward to hearing from both of you at your earliest convenience.

Very truly yours,

RONALD A. BARCH

PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually, Defendants.	)	Case No. 12 LA 178

McGUIRE DEFENDANTS' MOTION FOR LEAVE TO FILE CROSS-CLAIM FOR CONTRIBUTION

Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, hereby moves the Court for an Order granting them leave to file a cross-claim for contribution against Defendant David Gagnon. In support of their Motion, the movants further state as follows:

1. On May 15, 2012, Plaintiff PAUL DULBER filed a two count complaint over injuries he attributes to a chainsaw accident that occurred on June 28, 2011.

2. Defendants Bill McGuire and Carolyn McGuire owned the residential property upon which the chainsaw accident purportedly occurred. However, neither defendant witnessed the occurrence set forth in Plaintiff's Complaint.

3. On January 24, 2013, Plaintiff Paul Dulberg submitted for a discovery deposition.

4. Based upon the deposition testimony of Plaintiff Paul Dulberg, the movants reasonably believe Defendant David Gagnon was guilty of negligence in connection with the occurrence set forth in Plaintiff's complaint.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, pray that the Court enter an Order granting them leave to file a cross-claim for contribution against Defendant

David Gagnon. A copy of the proposed Cross-Claim for Contribution is attached to this motion as Exhibit A.

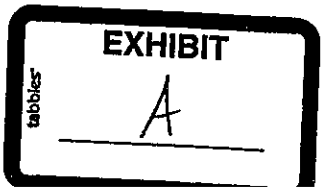
CROSS-CLAIM FOR CONTRIBUTION AGAINTS CO-DEFENDANT DAVID GAGNON

The Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their cross-claim for counterclaim for contribution against Defendant David Gagnon, state as follows:



1. Plaintiff PAUL DULBERG has filed a two-count complaint against Defendants David Gagnon, Bill McGuire and Carolyn McGuire seeking damages for injuries he attributes to a chainsaw incident that purportedly occurred on June 28, 2011in the County of McHenry, State of Illinois.

2. The chainsaw incident set forth in Plaintiff's Complaint purportedly occurred on a residential parcel owned by Defendants Bill McGuire and Carolyn McGuire.

3. Defendants Bill McGuire and Carolyn McGuire were not present in the vicinity of the chainsaw incident when it occurred.

4. At the time of the alleged chainsaw incident, Plaintiff PAUL DULBERG was assisting Defendant David Gagnon as Defendant Gagnon was cutting and trimming trees and branches with a chainsaw.

5. At said time and place, Defendant David Gagnon owed a duty to exercise reasonable care at all times to avoid causing injury and property damages to others.

6. On the date and in the location set forth in Plaintiff's Complaint, the chainsaw being then and there operated by Defendant David Gagnon made contact with the right arm of Plaintiff PAUL DULBERG.

7. At the time and place alleged, notwithstanding his aforementioned duty, Defendant David Gagnon was then and there guilty of one or more of the following negligent acts and/or omissions:

a. Caused or permitted a chainsaw to make contact with Plaintiff's right arm;

b. Failed to operate said chainsaw in a safe and reasonable manner so as to avoid injuring Plaintiff's right arm;

c. Failed to maintain a reasonable and safe distance between the chainsaw he was operating and Plaintiff's right arm;

d. Failed to properly instruct Plaintiff prior to approaching him with an operating chainsaw;

e. Failed to properly warn Plaintiff prior to approaching him with an operating chainsaw;

f. Failed to maintain the chainsaw in the idle or off position when he knew or should have known that Plaintiff was close enough to sustain injury from direct contact with the subject chainsaw;

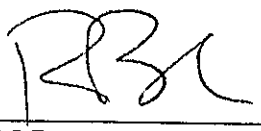
g. Failed to maintain a proper lookout for Plaintiff while operating the subject chainsaw;

h. Failed to maintain proper control over an operating chainsaw;

i. Was otherwise negligent in the operation and control of the subject chainsaw.

8. That the injuries alleged by Plaintiff PAUL DULBER, if any, were the direct and proximate result of negligence on the part of Defendant David Gagnon.

9. By virtue of those aforesaid actions, Defendant David Gagnon is a joint tortfeasor within the meaning of the Illinois Contribution Among Joint Tortfeasors Act (740 ILCS 100/0.01, et seq.) which was in full force and effect on the date of the occurrence and, as such, the State of



Illinois recognizes the right of contribution among joint tortfeasors.

9. Should the Defendants Bill McGuire and Carolyn McGuire be found liable for the injuries to Plaintiff PAUL DULBERG, Defendants Bill McGuire and Carolyn McGuire are entitled to contribution from Defendant David Gagnon for that portion of the total recoveries, if any, by Plaintiff PAUL DULBERG that the Defendants Bill McGuire and Carolyn McGuire are required to pay in excess of their pro rata share of the liability pursuant to the aforesaid Illinois Contribution Among Joint Tortfeasors Act.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, demand judgment in their favor and against Defendant David Gagnon for any and all sums for which Defendants BILL McGUIRE and CAROLYN McGUIRE may be held liable to Plaintiff PAUL DULBERG, in excess of their pro rata share.

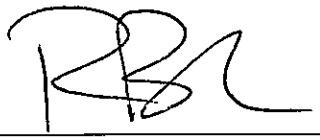
MOTION TO COMPEL

Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, hereby moves the Court for an Order compelling Defendant David Gagnon to answer Interrogatories and a Request for Production previously propounded upon him. In support of their Motion, the movants further state as follows:



1. On September 27, 2012, the Defendants Bill McGuire and Carolyn McGuire served upon the Defendant David Gagnon written interrogatories and a production request to be answered within 28 days.

2. On October 29, 2012, during efforts to schedule party depositions, counsel for the movants orally requested Defendant Gagnon's discovery responses. The subject was revisited during Plaintiff Dulberg's deposition on January 24, 2013.

3. As of the date of writing, Defendant Gagnon has failed to cooperate in discovery by failing to answer the movant's written interrogatories and production request.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, pray that the Court enter an Order compelling Defendant GAGNON to provide responses to Defendants' written discovery within seven (7) days.

McGUIRE DEFENDANTS' MOTION FOR LEAVE TO FILE AMENDED ANSWER AND AFFIRMATIVE DEFENSE

Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, hereby moves the Court for an Order granting them leave to file an amended answer and affirmative defense to Count I of Plaintiff's complaint. In support of their Motion, the movants further state as follows:

1. On May 15, 2012, Plaintiff PAUL DULBER filed a two count complaint over injuries he attributes to a chainsaw accident that occurred on June 28, 2011.

2. Defendants Bill McGuire and Carolyn McGuire owned the residential property upon which the chainsaw accident purportedly occurred. However, neither defendant witnessed the occurrence set forth in Plaintiff's Complaint.

3. On January 24, 2013, Plaintiff Paul Dulberg submitted for a discovery deposition.

4. Based upon the deposition testimony of Plaintiff Paul Dulberg, the movants reasonably believe Plaintiff Paul Dulberg was guilty of contributory negligence in connection with the occurrence set forth in his complaint.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, pray that the Court enter an Order granting them leave to file an amended answer adding an affirmative defense

of comparative fault. A copy of the proposed Amended Answer and Affirmative Defense is attached to this motion as Exhibit A.

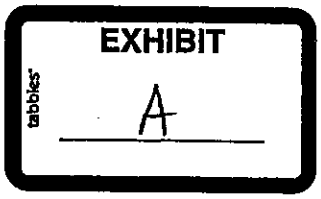
PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually, Defendants.	)	Case No. 12 LA 178 **AMENDED ANSWER AND AFFIRMATIVE DEFENSE BY DEFENDANTS BILL McGUIRE AND CAROLYN McGUIRE**

DEFENDANTS' ANSWER



ANSWER TO COUNT I

Defendants, BILL McGUIRE and CAROLYN McGUIRE, make no response to Count I of Plaintiff's Complaint inasmuch as said allegations are directed at a separate and distinct Defendant.

ANSWER TO COUNT II

Defendants, BILL McGUIRE AND CAROLYN McGUIRE (improperly named Caroline), by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their Answer to Count I of Plaintiff's Complaint, state as follows:

1. Defendants admit the allegations of paragraph one (1).
2. Defendants admit that on June 28, 2011, they owned and lived in a single family home located at 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois. Defendants neither admit nor deny the remaining allegations set forth in paragraph two (2) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.
3. Defendants deny the allegations of paragraph three (3).
4. Defendants deny the allegations of paragraph four (4).

5. Defendants admit that on June 28, 2011, Defendant David Gagnon was engaged in cutting, trimming and maintaining trees and brush on the premises at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois. Defendants admit that David Gagnon was doing so at their request, with their authority and permission and for their benefit. Defendants deny the remaining allegations of paragraph five (5).

6. Defendants admit that Defendant David Gagnon used a chain saw from time to time on June 28, 2011. Defendants admit that they owned a chain saw on June 28, 2011. Defendants deny the remaining allegations of paragraph six (6).

7. Defendants deny the allegations of paragraph seven (7).

8. Defendants deny the allegations of paragraph eight (8).

9. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations set forth in paragraph nine (9). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

10. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph ten (10). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

11. Defendants deny the allegations of paragraph eleven (11).

12. Defendants deny the allegations of paragraph twelve (12).

13. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph thirteen (13). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

14. The answering Defendants were not present and therefore lack sufficient

information upon which to form a belief as to the truth of the allegations of paragraph fourteen (14). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

15. Defendants make no response to the allegations set forth in paragraph fifteen (15) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

16. Defendants admit that at all relevant times they owned and lived in the premises that are the subject of Plaintiff's Complaint. Defendants neither admit nor deny the remaining allegations set forth in paragraph sixteen (16) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

17. Defendants make no response to the allegations set forth in paragraph fifteen (15) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

18. Defendants deny the allegations of paragraph eighteen (18).

19. Defendants admit that Defendant David Gagnon used a chain saw from time to time on June 28, 2011. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to whether Defendant David Dagnon was operating a chain saw with the assistance of Plaintiff Paul Dulberg. Defendants neither admit nor deny the remaining allegations set forth in paragraph nineteen (19) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

20. Defendants make no response to the allegations set forth in paragraph twenty (20) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

21. Defendants deny the allegations of paragraph twenty-one (21).

22. Defendants deny the allegations of paragraph twenty-two (22).

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, pray the court dismiss Count I of Plaintiff's Complaint and enter judgment for the Defendants for their costs of suit.

Defendants Hereby Demand A Trial By Jury

DEFENDANTS' AFFIRMATIVE DEFENSE

The Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their Affirmative Defense to Count II of Plaintiff's Complaint, state as follows:

1. That on the date and at the place alleged in the Plaintiff's Complaint, the Plaintiff, PAUL DULBERG, was guilty of negligence by failing to exercise due care and caution for his own safety, in that he:

a. Failed to use due care and caution as he assisted Defendant David Gagnon during the trimming and cutting of trees and branches.

b. Failed to use due care and caution as he assisted Defendant David Gagnon during the trimming and cutting of trees and branches when he knew and appreciated the dangers associated with chainsaw usage.

c. Was inattentive and unobservant to surrounding conditions and dangers as he assisted Defendant David Gagnon during the trimming and cutting of trees and branches.

d. Notwithstanding a reasonable opportunity to do so, failed to maintain a safe distance between himself and an operating chainsaw.

e. Was otherwise careless and negligent as will be demonstrated by the evidence at trial.

2. That by reason of the aforesaid negligence of the Plaintiff, PAUL DULBERG, and as a direct and proximate result thereof, the Plaintiff sustained the damages claimed.

3. That pursuant to the Illinois Code of Civil Procedure, Section 5/2-613(d) and Section 5/2-1116, the Complaint of PAUL DULBERG should be dismissed in that the contributory

fault on the part of the Plaintiff was more than 50 percent and, therefore, PAUL DULBERG's Complaint is barred.

4. Or, in the alternative, that any verdict against the Defendants, BILL McGUIRE and CAROLYN McGUIRE, should be reduced in direct proportion to the percentage of PAUL DULBERG's contributory negligence causing his claimed injuries.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, moves this Court for an Order dismissing Count I of Plaintiff's Complaint, costs being assessed to the Plaintiff.

Defendants Hereby Demand A Trial By Jury

DAVID GAGNON, Individually, and as Agent of CAROLINE McGUIRE and BILL McGUIRE and CAROLINE McGUIRE and BILL McGUIRE, Individually, Defendants.	)	

PLAINTIFF'S MOTION FOR PROTECTIVE ORDER

NOW COME the Plaintiff, PAUL DULBERG, by and through his attorneys, LAW OFFICES OF THOMAS J. POPOVICH, P.C. and for his Motion for Protective Order to preserve and protect the "chain saw" involved in the underlying occurrence along with all parts and accessories and manual/paperwork, and states as follows:

1. This suit arises from injuries suffered by the Plaintiff, PAUL DULBERG, on June 28, 2011, when he was negligently struck by a "chain saw" operated by DAVID GAGNON while working on behalf and/or at the request of the Defendants, CAROLINE McGUIRE and BILL McGUIRE at their premises at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois.

2. Plaintiff's counsel would like an opportunity to photograph and inspect the subject "chain saw" and any parts, accessories and manual/paperwork pertaining to the saw and moves that this court order the "saw and its parts and accessories and paperwork/manual be preserved and protected without destruction or loss until further order of this court."

WHEREFORE, the Plaintiff, PAUL DULBERG, respectfully moves this Court to enter a protective order against the Defendants, their agents, employees, staff and/or representatives and any others under it's control, and it's attorneys, to preserve and protect the chain saw and its parts and accessories and paperwork/manual, from any destruction, alterations, modifications, or other changes from its condition as presently exists, until further order of the court and to present the saw and its parts etc within 30 days hereof to the Plaintiff's counsel for inspection and photographing.

Respectfully Submitted:

Hans A. Mast, Attorney for Plaintiff

IN THE CIRCUIT COURT FOR THE TWENTY-SECOND JUDICIAL CIRCUIT
McHENRY COUNTY, ILLINOIS

FILED
McHenry County, Illinois
JUL 3 1 2012
KATHERINE M. KEEFE
Clerk of the Circuit Court

PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE McGUIRE and BILL McGUIRE and CAROLINE McGUIRE and BILL McGUIRE, Individually, Defendants.	)	No. 12 LA 178

PLAINTIFF'S MOTION FOR PROTECTIVE ORDER

NOW COME the Plaintiff, PAUL DULBERG, by and through his attorneys, LAW OFFICES OF THOMAS J. POPOVICH, P.C. and for his Motion for Protective Order to preserve and protect the "chain saw" involved in the underlying occurrence along with all parts and accessories and manual/paperwork, and states as follows:

1. This suit arises from injuries suffered by the Plaintiff, PAUL DULBERG, on June 28, 2011, when he was negligently struck by a "chain saw" operated by DAVID GAGNON while working on behalf and/or at the request of the Defendants, CAROLINE McGUIRE and BILL McGUIRE at their premises at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois.

2. Plaintiff's counsel would like an opportunity to photograph and inspect the subject "chain saw" and any parts, accessories and manual/paperwork pertaining to the saw and moves that this court order the "saw and its parts and accessories and paperwork/manual be preserved and protected without destruction or loss until further order of this court."

WHEREFORE, the Plaintiff, PAUL DULBERG, respectfully moves this Court to enter a protective order against the Defendants, their agents, employees, staff and/or representatives and any others under it's control, and it's attorneys, to preserve and protect the chain saw and its parts and accessories and paperwork/manual, from any destruction, alterations, modifications, or other changes from its condition as presently exists, until further order of the court and to present the saw and its parts etc within 30 days hereof to the Plaintiff's counsel for inspection and photographing.

Respectfully Submitted:

Hans A. Mast, Attorney for Plaintiff

GOOD FAITH FINDING AND ORDER OF DISMISSAL

THIS CAUSE coming on to be heard on the Motion for Good Faith Finding and for Order of Dismissal with Prejudice filed by Defendants Bill McGuire and Carolyn McGuire, and the Court being fully advised in the premises,

IT IS HEREBY ORDERED, ADJUDGED AND DECREED:

1. That settlement between Plaintiff Paul Dulberg and Defendants Bill McGuire and Carolyn McGuire (improperly named Caroline) constitutes a fair and reasonable and good faith settlement within the meaning of the Illinois Joint Tortfeasor Contribution Act, 740 ILCS 0.01 et seq.

2. That the good faith settlement shall henceforth constitute a bar to any and all claims that Plaintiff Paul Dulberg and Defendant David Gagnon and other known or unknown tortfeasors may have against Defendants Bill McGuire and Carolyn McGuire on account of or arising out of the injuries, if any, sustained by Plaintiff Paul Dulberg as a result of the alleged chain saw accident that occurred on June 28, 2011, whether by way of original action, third party claim, cross-claim, counterclaim, claim for contribution or otherwise.

3. That Defendants Bill McGuire and Carolyn McGuire be and are hereby dismissed from the above-captioned lawsuit as party defendants and cross-claimants, with prejudice, and in bar of further suit.

4. That that there is no just reason to delay the enforcement or appeal of this good faith finding and order of dismissal.

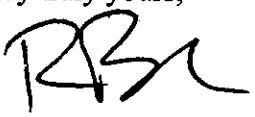
Case: *Paul Dulberg v. David Gagnon, Caroline McGuire and Bill McGuire*
(McHenry County Case No. 12 LA 178)

Dear Counsel:

With my departure from the case I feel compelled to address the subject of the chain saw that was involved in Mr. Dulberg's injury. Early on in the case a protective order was entered which prohibited Mr. and Mrs. McGuire from destroying or otherwise disposing of the chain saw and any associated documentation. The primary purpose behind the order of protection was to preserve the chainsaw and associated documentation until such time that Plaintiff's counsel could inspect and photographs same.



On March 20, 2013, the chain saw and owner's manual were made available for inspection and photographing. Plaintiff's counsel inspected and photographed the chainsaw. Plaintiff's counsel also secured a photocopy of the owner's manual.

On April 3, 2013, the protective order was modified to allow the Plaintiffs to use the subject chainsaw, owner's manual and associated paperwork in the ordinary course. The order further provides, however, that the owners may not destroy, dispose of, or sell the items without further order of the court.

Given the above, I am concerned about the possibility of a spoliation claim in the event the McGuires destroy, dispose of, or otherwise sell the chainsaw following my departure from the case. Please advise in writing whether you believe there is any reason to maintain the protective order as it currently exists. If not, I believe it makes sense to have the April 3, 2013 version of the protective order vacated.

I look forward to hearing from both of you at your earliest convenience.

Very truly yours,

RONALD A. BARCH

PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually, Defendants.	)	Case No. 12 LA 178

CROSS-CLAIM FOR CONTRIBUTION AGAINTS CO-DEFENDANT DAVID GAGNON

The Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their cross-claim for counterclaim for contribution against Defendant David Gagnon, state as follows:

1. Plaintiff PAUL DULBERG has filed a two-count complaint against Defendants David Gagnon, Bill McGuire and Carolyn McGuire seeking damages for injuries he attributes to a chainsaw incident that purportedly occurred on June 28, 2011in the County of McHenry, State of Illinois.

2. The chainsaw incident set forth in Plaintiff's Complaint purportedly occurred on a residential parcel owned by Defendants Bill McGuire and Carolyn McGuire.

3. Defendants Bill McGuire and Carolyn McGuire were not present in the vicinity of the chainsaw incident when it occurred.

4. At the time of the alleged chainsaw incident, Plaintiff PAUL DULBERG was assisting Defendant David Gagnon as Defendant Gagnon was cutting and trimming trees and branches with a chainsaw.

5. At said time and place, Defendant David Gagnon owed a duty to exercise reasonable care at all times to avoid causing injury and property damages to others.

6. On the date and in the location set forth in Plaintiff's Complaint, the chainsaw being then and there operated by Defendant David Gagnon made contact with the right arm of Plaintiff PAUL DULBERG.

7. At the time and place alleged, notwithstanding his aforementioned duty, Defendant David Gagnon was then and there guilty of one or more of the following negligent acts and/or omissions:

a. Caused or permitted a chainsaw to make contact with Plaintiff's right arm;

b. Failed to operate said chainsaw in a safe and reasonable manner so as to avoid injuring Plaintiff's right arm;

c. Failed to maintain a reasonable and safe distance between the chainsaw he was operating and Plaintiff's right arm;

d. Failed to properly instruct Plaintiff prior to approaching him with an operating chainsaw;

e. Failed to properly warn Plaintiff prior to approaching him with an operating chainsaw;

f. Failed to maintain the chainsaw in the idle or off position when he knew or should have known that Plaintiff was close enough to sustain injury from direct contact with the subject chainsaw;

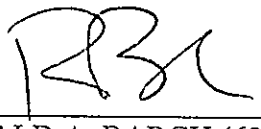
g. Failed to maintain a proper lookout for Plaintiff while operating the subject chainsaw;

h. Failed to maintain proper control over an operating chainsaw;

i. Was otherwise negligent in the operation and control of the subject chainsaw.

8. That the injuries alleged by Plaintiff PAUL DULBER, if any, were the direct and proximate result of negligence on the part of Defendant David Gagnon.

9. By virtue of those aforesaid actions, Defendant David Gagnon is a joint tortfeasor within the meaning of the Illinois Contribution Among Joint Tortfeasors Act (740 ILCS 100/0.01, et seq.) which was in full force and effect on the date of the occurrence and, as such, the State of



Illinois recognizes the right of contribution among joint tortfeasors.

9. Should the Defendants Bill McGuire and Carolyn McGuire be found liable for the injuries to Plaintiff PAUL DULBERG, Defendants Bill McGuire and Carolyn McGuire are entitled to contribution from Defendant David Gagnon for that portion of the total recoveries, if any, by Plaintiff PAUL DULBERG that the Defendants Bill McGuire and Carolyn McGuire are required to pay in excess of their pro rata share of the liability pursuant to the aforesaid Illinois Contribution Among Joint Tortfeasors Act.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, demand judgment in their favor and against Defendant David Gagnon for any and all sums for which Defendants BILL McGUIRE and CAROLYN McGUIRE may be held liable to Plaintiff PAUL DULBERG, in excess of their pro rata share.

STATE OF ILLINOIS
IN THE CIRCUIT COURT OF THE 22ND JUDICIAL CIRCUIT
COUNTY OF McHENRY

PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually, Defendants.	)	Case No. 12 LA 178 **AMENDED ANSWER AND AFFIRMATIVE DEFENSE BY DEFENDANTS BILL McGUIRE AND CAROLYN McGUIRE**

DEFENDANTS' ANSWER

ANSWER TO COUNT I

Defendants, BILL McGUIRE and CAROLYN McGUIRE, make no response to Count I of Plaintiff's Complaint inasmuch as said allegations are directed at a separate and distinct Defendant.

ANSWER TO COUNT II

Defendants, BILL McGUIRE AND CAROLYN McGUIRE (improperly named Caroline), by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their Answer to Count I of Plaintiff's Complaint, state as follows:

1. Defendants admit the allegations of paragraph one (1).
2. Defendants admit that on June 28, 2011, they owned and lived in a single family home located at 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois. Defendants neither admit nor deny the remaining allegations set forth in paragraph two (2) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.
3. Defendants deny the allegations of paragraph three (3).
4. Defendants deny the allegations of paragraph four (4).

5. Defendants admit that on June 28, 2011, Defendant David Gagnon was engaged in cutting, trimming and maintaining trees and brush on the premises at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois. Defendants admit that David Gagnon was doing so at their request, with their authority and permission and for their benefit. Defendants deny the remaining allegations of paragraph five (5).

6. Defendants admit that Defendant David Gagnon used a chain saw from time to time on June 28, 2011. Defendants admit that they owned a chain saw on June 28, 2011. Defendants deny the remaining allegations of paragraph six (6).

7. Defendants deny the allegations of paragraph seven (7).

8. Defendants deny the allegations of paragraph eight (8).

9. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations set forth in paragraph nine (9). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

10. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph ten (10). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

11. Defendants deny the allegations of paragraph eleven (11).

12. Defendants deny the allegations of paragraph twelve (12).

13. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph thirteen (13). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

14. The answering Defendants were not present and therefore lack sufficient

information upon which to form a belief as to the truth of the allegations of paragraph fourteen (14). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

15. Defendants make no response to the allegations set forth in paragraph fifteen (15) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

16. Defendants admit that at all relevant times they owned and lived in the premises that are the subject of Plaintiff's Complaint. Defendants neither admit nor deny the remaining allegations set forth in paragraph sixteen (16) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

17. Defendants make no response to the allegations set forth in paragraph fifteen (15) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

18. Defendants deny the allegations of paragraph eighteen (18).

19. Defendants admit that Defendant David Gagnon used a chain saw from time to time on June 28, 2011. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to whether Defendant David Dagnon was operating a chain saw with the assistance of Plaintiff Paul Dulberg. Defendants neither admit nor deny the remaining allegations set forth in paragraph nineteen (19) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

20. Defendants make no response to the allegations set forth in paragraph twenty (20) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

21. Defendants deny the allegations of paragraph twenty-one (21).

22. Defendants deny the allegations of paragraph twenty-two (22).

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, pray the court dismiss Count I of Plaintiff's Complaint and enter judgment for the Defendants for their costs of suit.

Defendants Hereby Demand A Trial By Jury

DEFENDANTS' AFFIRMATIVE DEFENSE

The Defendants, BILL McGUIRE and CAROLYN McGUIRE, by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their Affirmative Defense to Count II of Plaintiff's Complaint, state as follows:

1. That on the date and at the place alleged in the Plaintiff's Complaint, the Plaintiff, PAUL DULBERG, was guilty of negligence by failing to exercise due care and caution for his own safety, in that he:

a. Failed to use due care and caution as he assisted Defendant David Gagnon during the trimming and cutting of trees and branches.

b. Failed to use due care and caution as he assisted Defendant David Gagnon during the trimming and cutting of trees and branches when he knew and appreciated the dangers associated with chainsaw usage.

c. Was inattentive and unobservant to surrounding conditions and dangers as he assisted Defendant David Gagnon during the trimming and cutting of trees and branches.

d. Notwithstanding a reasonable opportunity to do so, failed to maintain a safe distance between himself and an operating chainsaw.

e. Was otherwise careless and negligent as will be demonstrated by the evidence at trial.

2. That by reason of the aforesaid negligence of the Plaintiff, PAUL DULBERG, and as a direct and proximate result thereof, the Plaintiff sustained the damages claimed.

3. That pursuant to the Illinois Code of Civil Procedure, Section 5/2-613(d) and Section 5/2-1116, the Complaint of PAUL DULBERG should be dismissed in that the contributory

fault on the part of the Plaintiff was more than 50 percent and, therefore, PAUL DULBERG's Complaint is barred.

4. Or, in the alternative, that any verdict against the Defendants, BILL McGUIRE and CAROLYN McGUIRE, should be reduced in direct proportion to the percentage of PAUL DULBERG's contributory negligence causing his claimed injuries.

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, moves this Court for an Order dismissing Count I of Plaintiff's Complaint, costs being assessed to the Plaintiff.

Defendants Hereby Demand A Trial By Jury

PAUL DULBERG,

Plaintiff,

vs. No.: 12LA178

DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually,

Defendants.

COMPLAINT

NOW COMES the Plaintiff, PAUL DULBERG, by his attorneys, LAW OFFICES OF THOMAS J. POPOVICH, P.C., and complaining against the Defendants, DAVID GAGNON, Individually, and as Agent of CAROLINE McGUIRE and BILL McGUIRE, and CAROLINE McGUIRE and BILL McGUIRE, individually, and states as follows:

Count I

Paul Dulberg vs. David Gagnon, individually, and as Agent of Caroline and Bill McGuire

1. On June 28, 2011, the Plaintiff, PAUL DULBERG, lived in the City of McHenry, County of McHenry, Illinois.

2. On June 28, 2011, Defendants CAROLINE McGUIRE and BILL McGUIRE lived, controlled, managed and maintained a single family home located at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois.

NOTICE

DEFAULT BEING ENTERED.

NOTICE
BY LOCAL RULE 3.10
THIS CASE IS HEREBY SET FOR SCHEDULING
CONFERENCE IN COURTROOM ON
20 , AT AM PM
FAILURE TO APPEAR MAY RESULT IN THE CASE
BEING DISMISSED OR AN ORDER OF
DEFAULT BEING ENTERED.

3. On June 28, 2011, the Defendant, DAVID GAGNON, was living and/or staying at his parent's home at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois.

4. On June 28, 2011, the Defendants, CAROLINE McGUIRE and BILL McGUIRE contracted, hired the Defendant, DAVID GAGNON, to cut down, trim and/or maintain the trees and brush at their premises at 1016 W. Elder Avenue, in the City of McHenry, County of McHenry, Illinois.

5. On June 28, 2011, and at the request and with the authority and permission of the Defendants CAROLINE McGUIRE and BILL McGUIRE, and for their benefit, the Defendant, DAVID GAGNON, was working under their supervision and control while engaged in cutting, trimming and maintaining trees and brush at the premises at 1016 W. Elder Avenue, in the City of McHenry. County of McHenry, Illinois.

6. On June 28, 2011, as part of his work at the subject property, the Defendant, DAVID GAGNON, was authorized, instructed, advised and permitted to use a chainsaw to assist him in his work for Defendants, CAROLINE McGUIRE and BILL McGUIRE, which was owned by the McGuires.

7. On June 28, 2011, the Defendant, DAVID GAGNON, was under the supervision and control of Defendants, CAROLINE McGUIRE and BILL McGUIRE, and was working as their apparent and actual agent, and was then acting and working in the scope of his agency for Defendants, CAROLINE McGUIRE and BILL McGUIRE.

8. On June 28, 2011, and while the Defendant, DAVID GAGNON, was working in the course and scope of his agency for Defendants, CAROLINE McGUIRE and BILL McGUIRE, and was under their supervision and control, Defendant, DAVID GAGNON was in use of a chainsaw while trimming a tree and branch.

9. On June 28, 2011, and while Defendant, DAVID GAGNON, was in use of a chainsaw while trimming a tree and branch, Defendant, DAVID GAGNON, asked for and/or requested the assistance of the Plaintiff, PAUL DULBERG, to hold the tree branch while Defendant, DAVID GAGNON, trimmed the branch with the chainsaw.

10. On June 28, 2011, and while Defendant, DAVID GAGNON, was in sole control, use and operation of the subject chainsaw, the chainsaw was caused to strike and injure the Plaintiff, PAUL DULBERG.

11. At all relevant times, Defendants, CAROLINE McGUIRE and BILL McGUIRE, knew of Defendant, DAVID GAGNON's use of the chainsaw in the presence of the Plaintiff, PAUL DULBERG, and knew that such created a danger to the Plaintiff, PAUL DULBERG's safety.

12. That at all relevant times, the Defendants, DAVID GAGNON, as agent of CAROLINE McGUIRE and BILL McGUIRE, owed a duty to use care and caution in his operation of a known dangerous instrumentality.

13. On June 28, 2011, the Defendant, DAVID GAGNON, was negligent in one or more of the following ways:

a. Failed to maintain control over the operating of the chainsaw;

b. Failed to take precaution not to allow the chainsaw to move toward the Plaintiff, PAUL DULBERG, so as to cause injury;

c. Failed to warn the Plaintiff, PAUL DULBERG, of the dangers existing from the Defendant, DAVID GAGNON's inability to control the chainsaw;

d. Failed to keep a proper distance from the Plaintiff, PAUL DULBERG, while operating the chainsaw;

e. Otherwise was negligent in operation and control of the chainsaw.

14. That as a proximate result of the Defendant's negligence, the Plaintiff, PAUL DULBERG, was injured externally; he has experienced and will in the future experience pain and suffering; he has been permanently scarred and/or disabled; and has become obligated for large sums of money for medical bills and will in the future become obligated for additional sums of money for medical care, and has lost time from work and/or from earning wages due to such injury.

15. That at the above time and date, the Defendant's negligence can be inferred from the circumstances of the occurrence as the instrument of the injury was under the control of the Defendant and therefore, negligence can be presumed under the doctrine of *Res Ipsa Loquitur*.

WHEREFORE, Plaintiff, PAUL DULBERG, demands judgment against Defendants, DAVID GAGNON, and CAROLINE McGUIRE and BILL McGUIRE in an amount in excess of $50,000.00, plus costs of this action.

Count II

Paul Dulberg vs. Caroline McGuire and Bill McGuire

1 - 15. That the Plaintiff, PAUL DULBERG, restates and realleges paragraphs 1 through 14, in Count I, above, as paragraphs 1 through 15 of Count II, as if fully alleged herein.

16. That at all relevant times, the Defendants, CAROLINE McGUIRE and BILL McGUIRE, owned, controlled, maintained and supervised the premises whereat the accident to the Plaintiff, PAUL DULBERG, occurred.

17. That at all relevant times, the Defendants, CAROLINE McGUIRE and BILL McGUIRE, were in control of and had the right to advise, instruct and demand that the Defendant, DAVID GAGNON, act or work in a safe and reasonable manner.

18. That at all relevant times, the Defendant, DAVID GAGNON, was acting as the agent, actual and apparent, of Defendants, CAROLINE McGUIRE and BILL McGUIRE, and was acting at their request and in their best interests and to their benefit as in a joint enterprise.

19. That at all relevant times, Defendants, CAROLINE McGUIRE and BILL McGUIRE, knew DAVID GAGNON was operating a chainsaw with the assistance of the Plaintiff, PAUL DULBERG, and had the right to discharge or terminate the Defendant, DAVID GAGNON's work for any reason.

20 That at all relevant times, Defendants, CAROLINE McGUIRE and BILL McGUIRE, owed a duty to supervise and control Defendant, DAVID GAGNON's activities on the property so as not to create a unreasonable hazard to others, including the Plaintiff, PUAL DULBERG.

21. On June 28, 2011, the Defendants, CAROLINE McGUIRE and BILL McGUIRE, were negligent in one or more of the following ways:

a. Failed to control operation of the chainsaw;

b. Failed to take precaution not to allow the chainsaw to move toward the Plaintiff, PAUL DULBERG, so as to cause injury;

c. Failed to warn the Plaintiff, PAUL DULBERG, of the dangers existing from the Defendant's inability to control the chainsaw;

d. Failed to keep the chainsaw a proper distance from the Plaintiff, PAUL DULBERG, while operating the chainsaw;

e. Otherwise was negligent in operation and control of the chainsaw.

22. That as a proximate result of the Defendant's negligence, the Plaintiff, PAUL DULBERG, was injured externally; he has experienced and will in the future experience pain and suffering; he has been permanently scarred and/or disabled; and has become obligated for large sums of money for medical bills and will in the future become obligated for additional sums of money for medical care, and has lost time from work and/or from earning wages due to such injury.

WHEREFORE, Plaintiff, PAUL DULBERG, demands judgment against Defendants, CAROLINE McGUIRE and BILL McGUIRE, in an amount in excess of $50,000.00, plus costs of this action.

PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually, Defendants.	)	Case No. 12 LA 178 **ANSWER TO COMPLAINT - DEFENDANT BILL McGUIRE AND DEFENDANT CAROLYN McGUIRE**

ANSWER TO COUNT I

Defendants, BILL McGUIRE and CAROLYN McGUIRE, make no response to Count I of Plaintiff's Complaint inasmuch as said allegations are directed at a separate and distinct Defendant.

ANSWER TO COUNT II

Defendants, BILL McGUIRE AND CAROLYN McGUIRE (improperly named Caroline), by and through their attorneys, Cicero, France, Barch & Alexander, PC, and for their Answer to Count I of Plaintiff's Complaint, state as follows:

1. Defendants admit the allegations of paragraph one (1).
2. Defendants admit that on June 28, 2011, they owned and lived in a single family home located at 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois. Defendants neither admit nor deny the remaining allegations set forth in paragraph two (2) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.
3. Defendants deny the allegations of paragraph three (3).
4. Defendants deny the allegations of paragraph four (4).
5. Defendants admit that on June 28, 2011, Defendant David Gagnon was engaged in cutting, trimming and maintaining trees and brush on the premises at 1016 W. Elder

Avenue, in the City of McHenry, County of McHenry, Illinois. Defendants admit that David Gagnon was doing so at their request, with their authority and permission and for their benefit. Defendants deny the remaining allegations of paragraph five (5).

6. Defendants admit that Defendant David Gagnon used a chain saw from time to time on June 28, 2011. Defendants admit that they owned a chain saw on June 28, 2011. Defendants deny the remaining allegations of paragraph six (6).

7. Defendants deny the allegations of paragraph seven (7).

8. Defendants deny the allegations of paragraph eight (8).

9. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations set forth in paragraph nine (9). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

10. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph ten (10). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

11. Defendants deny the allegations of paragraph eleven (11).

12. Defendants deny the allegations of paragraph twelve (12).

13. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph thirteen (13). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

14. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to the truth of the allegations of paragraph fourteen (14). Defendants therefore neither admit nor deny said allegations but demand strict proof thereof.

15. Defendants make no response to the allegations set forth in paragraph fifteen (15) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

16. Defendants admit that at all relevant times they owned and lived in the premises that are the subject of Plaintiff's Complaint. Defendants neither admit nor deny the remaining allegations set forth in paragraph sixteen (16) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

17. Defendants make no response to the allegations set forth in paragraph fifteen (15) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

18. Defendants deny the allegations of paragraph eighteen (18).

19. Defendants admit that Defendant David Gagnon used a chain saw from time to time on June 28, 2011. The answering Defendants were not present and therefore lack sufficient information upon which to form a belief as to whether Defendant David Dagnon was operating a chain saw with the assistance of Plaintiff Paul Dulberg. Defendants neither admit nor deny the remaining allegations set forth in paragraph nineteen (19) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

20. Defendants make no response to the allegations set forth in paragraph twenty (20) as said allegations call for the admission of a conclusion of law rather than an allegation of fact.

21. Defendants deny the allegations of paragraph twenty-one (21).

22. Defendants deny the allegations of paragraph twenty-two (22).

WHEREFORE, the Defendants, BILL McGUIRE and CAROLYN McGUIRE, pray the court dismiss Count I of Plaintiff's Complaint and enter judgment for the Defendants for their costs of suit.

Defendant(s).

CASE NO. 12LA000178

ANSWER TO COMPLAINT

Defendant(s), DAVID GAGNON, by and through the undersigned counsel, answer(s) the Complaint as follows:

Defendant(s) deny/denies the allegation(s) in all paragraphs unless otherwise specifically admitted.

COUNT I.

1. Defendant admits each and every allegation as set forth in paragraph one.
2. Defendant admits each and every allegation as set forth in paragraph two.
3. Defendant denies each and every allegation as set forth in paragraph three.
4. Defendant denies each and every allegation as set forth in paragraph four.
5. Defendant admits each and every allegation as set forth in paragraph five.
6. Defendant admits each and every allegation as set forth in paragraph six.
7. Defendant admits each and every allegation as set forth in paragraph seven.
8. Defendant admits each and every allegation as set forth in paragraph eight.
9. Defendant admits asking Plaintiff to assist in trimming a tree/branch.
10. Defendant admits contact between the chainsaw and the Plaintiff.
11. Defendant denies each and every allegation as set forth in paragraph eleven.
12. Defendant admits to his legally mandated duty to the Plaintiff under Illinois Law but herein denies committing any breach whatsoever of said duty to the Plaintiff.

13. Defendant denies each and every allegation as set forth in paragraph thirteen. Further answering, Defendant denies remaining allegations as set forth in sub-paragraphs (a) through (e).

14. Defendant denies each and every allegation as set forth in paragraph fourteen.

15. Defendant denies each and every allegation as set forth in paragraph fifteen.

COUNT II.

Defendant makes no answer to the allegations set forth in Count II. of the Plaintiff's Complaint at Law as the allegations contained therein are not directed against this Defendant.

WHEREFORE, Defendant(s) pray(s) for judgment and costs in this lawsuit.

AFFIRMATIVE DEFENSE

Defendant(s) DAVID GAGNON, by and through the undersigned counsel, and pursuant to 735 ILCS 5/2-613d, as an Affirmative Defense state(s) and allege(s) as follows:

1. That before and at the time of the occurrence it was the duty of the Plaintiff to use ordinary care for the safety of the Plaintiff(s).

2. That the negligence of the Plaintiff was the proximate cause of the occurrence and the injuries or damages alleged.

3. That the Plaintiff was guilty of one or more of the following negligent acts or omissions which were the proximate cause of the injuries or damages alleged:

a) Failed to use caution while assisting Defendant trimming a tree and branches.

b) Failed to proceed with caution when Plaintiff knew or should have known that a danger;

c) Was inattentive and unobservant to surrounding conditions while assisting with the trimming of the branches/trees;

d) Was otherwise careless and negligent as will be demonstrated by evidence at trial.

4. That the negligence of the Plaintiff exceeded 50% of the proximate cause of the alleged injuries and, therefore, pursuant to 735 ILCS 5/2-1116, the Plaintiff is barred from recovery.

5. Pleading in the alternative, the negligence of the Plaintiff contributed in whole or in part to the injury of which Plaintiff complains.

WHEREFORE, Defendant(s) pray(s) that the Complaint at Law be dismissed should the finder of fact determine that the negligence of the Plaintiff exceeded 50% of the proximate cause of the alleged injuries of the Plaintiff; or, in the alternative, that any judgment entered in favor of the Plaintiff and against the Defendants(s), DAVID GAGNON, be reduced in proportion to the percentage of fault attributed by the trier of fact to the negligence acts and omissions of the Plaintiff.

PERRY A. ACCARDO

GENERAL RELEASE AND SETTLEMENT AGREEMENT

NOW COMES PAUL DULBERG, and in consideration of the payment of Five-Thousand ($5,000.00) Dollars to him, by or on behalf of the WILLIAM MCGUIRE and CAROLYN MCGUIRE (aka Bill McGuire; improperly named as Caroline McGuire) and AUTO-OWNERS INSURANCE COMPANY, the payment and receipt of which is hereby acknowledged, PAUL DULBERG does hereby release and discharge the WILLIAM MCGUIRE and CAROLYN MCGUIRE and AUTO-OWNERS INSURANCE COMPANY, and any agents or employees of the WILLIAM MCGUIRE and CAROLYN MCGUIRE and AUTO-OWNERS INSURANCE COMPANY, of and from any and all causes of action, claims and demands of whatsoever kind or nature including, but not limited to, any claim for personal injuries and property damage arising out of a certain chain saw incident that allegedly occurred on or about June 28, 2011, within and upon the premises known commonly as 1016 West Elder Avenue, City of McHenry, County of McHenry, State of Illinois.

IT IS FURTHER AGREED AND UNDERSTOOD that there is presently pending a cause of action in the Circuit Court of the 22nd Judicial Circuit, McHenry County, Illinois entitled "Paul Dulberg, Plaintiff, vs. David Gagnon, Individually, and as agent of Caroline McGuire and Bill McGuire, and Caroline McGuire and Bill McGuire, Individually, Defendants", Cause No. 2012 LA 178, and that this settlement is contingent upon WILLIAM McGUIRE and CAROLYN McGUIRE being dismissed with prejudice as parties to said lawsuit pursuant to a finding by the Circuit Court that the settlement between the parties constitutes a good faith settlement for purposes of the Illinois Joint Tortfeasor Contribution Act, 740 ILCS 100/0.01, *et seq.*

IT IS FURTHER AGREED AND UNDERSTOOD that as part of the consideration for this agreement the undersigned represents and warrants as follows (check applicable boxes):

- ☑ I was not 65 or older on the date of the occurrence.
- ☑ I was not receiving SSI or SSDI on the date of the occurrence.
- ☐ I am not eligible to receive SSI or SSDI.
- ☑ I am not currently receiving SSI or SSDI.

IT IS FURTHER AGREED AND UNDERSTOOD:

a. That any subrogated claims or liens for medical expenses paid by or on behalf of PAUL DULBERG shall be the responsibility PAUL DULBERG, including, but not limited to, any Medicare liens. Any and all reimbursements of medical expenses to subrogated parties, including Medicare's rights of reimbursement, if any, shall be PAUL DULBERG's responsibility, and not the responsibility of the parties released herein.

b. That any outstanding medical expenses are PAUL DULBERG's responsibility and all payment of medical expenses hereafter shall be PAUL DULBERG's responsibility, and not the responsibility of the parties released

c. That PAUL DULBERG agrees to save and hold harmless and indemnify the parties released herein against any claims made by any medical providers, including, but not limited to Medicare or parties subrogated to the rights to recover medical or Medicare payments.

IT IS FURTHER AGREED AND UNDERSTOOD by the parties hereto that this agreement contains the entire agreement between the parties with regard to materials set forth herein, and shall be binding upon and inure to the benefit of the parties hereto, jointly and severally, and the executors, conservators, administrators, guardians, personal representatives, heirs and successors of each.

IT IS FURTHER AGREED AND UNDERSTOOD that this settlement is a compromise of a doubtful and disputed claim and no liability is admitted as a consequence hereof.

IN WITNESS WHEREOF, I have hereunto set my hand and seal on the dates set forth below.

Dated: 1-29-2014

PAUL DULBERG

STATE OF ILLINOIS)
) SS.
COUNTY OF MCHENRY)

PAUL DULBERG personally appeared before me this date and acknowledged that she executed the foregoing Release and Settlement Agreement as his own free act and deed for the uses and purposes set forth therein.

Dated this 29th day of January, 2014.

RE: ***Paul Dulberg vs. David Gagnon, Caroline McGuire and Bill McGuire***
McHenry County Case: 12 LA 178

Dear Mr. Barch:

Please find enclosed with this letter the executed Release in the above-referenced matter. Please forward the settlement draft to my attention at your earliest convenience.

As I understand it, you have no liens on the file other than our attorney's lien.

Thank you for your cooperation.

Very truly yours,

HANS A. MAST

(McHenry County Case No. 12 LA 178)

Dear Mr. Mast:

As you likely know, on January 22, 2014, the trial court granted my Motion for Good Faith Finding and Dismissal. I understand that copies of the signed original order should be available through the Circuit Clerk's office within a few days.

My clients and I are interested in wrapping up our settlement as soon as possible. All I need from you at this time is the fully executed release and a fully executed IRS Form W-9. I supplied both original documents to you under cover dated January 9, 2014. Please attend to these items at your earliest convenience. Thank you.

Very truly yours,

RBr

Case: *Paul Dulberg v. David Gagnon, Caroline McGuire and Bill McGuire*
(McHenry County Case No. 12 LA 178)

Dear Mr. Mast:

In view of the settlement documented by your letter of December 26, 2013, I am enclosing herewith a Notice of Motion and a Motion for Good Faith Finding and Dismissal. The motion is scheduled for presentation before Judge Thomas A. Meyer on Wednesday, January 22, 2014, at 9:00 a.m.

Enclosed herewith you will also find a proposed General Release and Settlement Agreement for execution by Mr. Dulberg. Please have Mr. Dulberg execute the release before a Notary Public and return it to me. In the alternative, please call me with any questions or requested modifications you may have.

Based upon our earlier exchange of communications on the subject, it does not appear that we have any known liens to deal with other than your Attorneys' Lien. That being the case, I can secure a single settlement draft payable to you and your client as soon as I receive and executed IRS Form W-9. I am enclosing a blank IRS Form W-9 to facilitate your quick response. If you return the executed W-9 right away I may have the settlement draft by the time you are in a position to furnish me with the executed release.

Please do not hesitate to call me if you have any questions concerning the above or the enclosed. I otherwise look forward to receiving the executed IRS Form W-9 and the executed release at your earliest convenience. I will also see you or one of your colleagues on January 15.

Very truly yours,

RONALD A. BARCH

Case: *Paul Dulberg v. David Gagnon, Caroline McGuire and Bill McGuire*
(McHenry County Case No. 12 LA 178)

Issued For Settlement Purposes Only

Dear Mr. Mast:

I am writing to confirm our telephone conversation earlier this morning, wherein I advised you that I was authorized to propose settlement of Mr. Dulberg's claim against Carolyn and Bill McGuire for a lump-sum total of $5,000.00. The settlement would of course be contingent upon customary settlement documents, including a release, a good faith settlement finding and dismissal.

Pursuant to your request, I searched my file materials for lien notices. The only notice of lien contained in my file at this time is your Attorney's Lien (enclosed). I have asked my contact at Auto-Owners Insurance Company to confirm no lien notices have arrived on his end since Mr. Dulberg's case was assigned to me for the defense of Mr. and Mrs. McGuire. I do not anticipating any lien notices, but just wanted to be safe.

I understand that you intend to run my settlement proposal by Mr. Dulberg. I look forward to hearing from you once you have had a chance to confer with him.

Very truly yours,

RONALD A. BARCH

RE:	Claimant:	Paul Dulberg
	Your Insured:	Caroline and Bill McGuire
	Claim No.:	13-2779-11
	DOA:	06/28/11

You are hereby notified that **PAUL DULBERG**, has placed in my hands as his attorney, for suit or collection, a claim, demand or cause of action against the Defendant in the above matter growing out of a certain accident that occurred on or about **June 28, 2011, at 1016 W. Elder Avenue, McHenry, Illinois, McHenry County** and has agreed to pay me for my services certain legal fees not exceeding one-third of whatever amount may be recovered therefrom by suit, settlement or otherwise, plus costs and that a lien is hereby made and placed upon said claim, demand or cause of action of such fee.

Hans A. Mast

I, Han A. Mast, an attorney, on oath state that I served this Notice by mailing a true and correct copy of the same to the party(s) listed above and depositing the same in the U.S. Mail at McHenry, Illinois before 5:00 p.m. on December 5, 2011.

MEMORANDUM

TO: Jennifer

C: File

FROM: Hans

DATE: November 20, 2013

SUBJECT: **PAUL DULBERG** LF

Hi Jen,

We have a co-defendant that is not really responsible in this case and they have offered a nominal settlement of $5,000 in the case. I would like to accept it but I want to have a settlement memo prepared first to show how the money will be disbursed for the client to sign. Therefore, we will not need to call on the balances but we will only need to provide a settlement memo containing only any liens listed on the settlement memo.

Can you please prepare the settlement memo for me as soon as possible so that I can talk to the client about the offer.

Thanks,

Hans

MEMORANDUM

TO: File

FROM: Hans

DATE: November 20, 2013

SUBJECT: **PAUL DULBERG**

On November 20, 2013, I met with Paul and his friend to discuss the McGuire's $5,000 settlement offer and other issues with regard to this case. I also told them there is a dispute as to McGuire's liability, as they maintain that they were not directing Dave's work. Paul maintains that the McGuire's controlled everything that Dave was doing. I told him that that's not what the evidence seems to show. I told them the McGuire's could possibly get out of the case on motion, and the alternative is to accept the $5,000 offer. Paul wants to read the deps of the McGuire's and also wants us to order his and Dave's dep to review. I agreed to do so.

By copy of this memo, I ask **Sheila** to order copies of Paul and Dave's deps. I think defense counsel ordered them, so all we need to do is get copies. Please let me know if the copies have not been already ordered so we don't have to order the originals.

Thanks,

Hans

* * * *

THE REPORTER: Ma'am, can you raise your right hand, please?

CAROLYN McGUIRE,

after being first duly sworn, deposeth and saith as follows:

EXAMINATION

BY MR. MAST:

Q. All right. Please state your name.

A. Carolyn McGuire.

Q. Okay. And you are Dave Gagnon's mother?

A. Yes.

Q. And you know why we are here today I assume?

A. Yes.

Q. About the chain saw accident?

A. Yes.

Q. Okay. And I represent Paul Dulberg.

A. Okay.

MR. MAST: This is the discovery deposition of Carol McGuire -- Carolyn McGuire.

THE WITNESS: It's Carolyn, right.

MR. MAST: It's what?

THE WITNESS: It is Carolyn. I know it was written -- It's C-A-R-O-L-Y-N.

MR. MAST: Okay. Very good. Taken pursuant to

notice, in the course of the applicable rules.

I am just going to ask you some questions about this incident. I am trying to find out what you know, so if you don't know things, that's fine, too, but I will just ask you some questions and, please let me finish my question before you answer so we don't talk over each other and if you don't understand the question, let me know and I will try to rephrase it for you, okay?

THE WITNESS: Okay.

BY MR. MAST:

Q. What's your date of birth?

A. November 26, 1946.

Q. Okay. That makes you, what, 65?

A. 66.

Q. 66. Okay. And what's your address?

A. 1016 West Elder, that's E-L-D-E-R, Avenue, McHenry, Illinois, 60051.

Q. And who do you live there with?

A. My husband, William McGuire.

Q. Okay. How long have you been married?

A. Let's see. We got married in 1993.

Q. 20 years?

A. That would be 20 years I guess, yeah.

Q. Okay. And I understand that William is David's stepfather, right?

A. Yes.

Q. And what's his father's name?

A. His real father's name was Alan, A-L-A-N, A., Gagnon, G-A-G-N-O-N.

Q. Were you married?

A. Yes. We were married.

Q. Did he pass?

A. Yes. He has passed on.

Q. When did he pass on?

A. He died when he was 50 so that was 16 years ago so 1990 --

Q. So was there a divorce?

A. Oh, we were divorced. Yeah.

Q. Okay. Do you have any other children?

A. I have two daughters. I have a Diane Lutz, L-U-T-Z. She is my oldest.

Q. Where does she live?

A. She lives at 4708 Wilmot Road, McHenry, Illinois.

Q. Okay.

A. And then I have another daughter. Her name is Donna Giovanni, G-I-O-V-A-N-N-I, and she lives on

Terrace in Johnsburg. I am trying to think of their address. I can't think of it right offhand.

Q. Okay. And Dave is married?

A. David is married.

Q. How long has he been married?

A. It was four years.

Q. What's his wife's name?

A. Pam.

Q. Okay. So they live up in where?

A. They live -- Well, their mailing address is Geneva, Wisconsin.

Q. Lake Geneva?

A. But they don't live in Lake Geneva. Oh -- No. It's Genoa. What am I saying. It's Genoa, Genoa, Wisconsin.

Q. Right near Lake Geneva?

A. Right. It's close.

Q. Okay. And before being married to Pam four years ago, did he live with you two?

A. No. They lived in that house where they live now but they weren't married.

Q. How long did they live at that house?

A. At least 12 years.

Q. Oh, that long?

A. Yeah. Maybe 12 years.

Q. So 12 years ago was David living with you?

A. Yeah. He lived with me then.

Q. For how long?

A. His whole life until he left. He was there a long time.

Q. How old is Dave?

A. Dave is 45 right now.

Q. Okay. So he lived with you over 30 years then?

A. Probably. Yeah. Yeah.

Q. Right?

A. 30. Yes. Yep.

Q. What does Dave do for a living?

A. He does auto body work.

Q. Does he do it for somebody or out of his house?

A. He is self-employed.

Q. Out of his house then?

A. Yeah. Right.

Q. Okay. You are aware of this chain saw accident involving my client Paul Dulberg at your house, right?

A. Correct.

Q. And I think it happened in June of 2011. Does that make sense?
A. Yes.
Q. Okay. Do you know the day?
A. I believe it was the 28th or the 29th of June. It was towards the end there.
Q. Okay. And the incident occurred I think -- and just generally now, we are going to go into the details, but I think Paul was helping Dave with some tree, cutting down some branches or something on your property, right?
A. Correct.
Q. Okay. And Dave has already been deposed and I don't have -- I am just trying to remember what he said.
A. Uh-huh.
Q. But so I am going to ask you a little bit about what your understanding was that he was doing but as I recall, he said that he was taking a tree down for you. Does that sound right?
A. Yeah. There was two trees in the back there. They were evergreens.
Q. So there were two trees that you wanted him to take down?

A. Yes. Because we were going to put a shed up back there.
Q. Okay. So at some point I am assuming neither you nor your husband are able to take a tree down with a chain saw, right?
A. No.
Q. Is that right?
A. That's correct. We did not.
Q. Well, you aren't even able to do it because you are just not -- you don't know how to do a chain saw?
A. I am afraid of a chain saw.
Q. Probably your husband is the same?
A. Yes. He never used one either, yeah.
Q. So you knew that Dave had some experience with chain saws?
A. Yes.
Q. Okay. If I were to go through what level of experience he had in using chain saws before Paul's accident, would you know?
A. He has used them many a times. If you go from a one to a ten, I'd have to say a ten because he has taken down trees at his house and so -- big trees.
Q. This is what I am asking, though --

A. Okay.
Q. Let me ask it this way: Before Paul's accident, do you know how long Dave has had experience using chain saws? A year, five years, ten years, twenty years, do you have any idea?
A. Well, I'd have to say probably as long as he was probably on his own property because he had cut down trees then and anything prior to that, I really don't remember.
Q. Okay. So you are saying for at least the last 12 years?
A. At least, yes.
Q. Okay. So as soon as Dave began living up in Genoa from that time until Paul's accident you knew he was using chain saws?
A. Right.
Q. Before he began living up in Genoa 12 years ago, what experience he had with chain saws you are not sure; is that correct?
A. No, because like you said, he lived with me for how many years and the only thing we ever cut down on our property was the apple tree in the back.
Q. And did he do that?
A. Yeah. He did that.

Q. With a chain saw?
A. With a chain saw, so that was before this accident happened the timeframe.
Q. So I want to get a summary of what you have just said just so I understand.
A. Okay.
Q. So you are saying for the past 12 years while Dave was living up in Genoa, you believed he has used a chain saw regularly because that would be needed on his property?
A. Uh-huh.
Q. Right?
A. Right.
Q. Okay. But 12 years ago, before 12 years ago when he lived with you, you knew he took down a tree but other than that, you are not aware of what experience he had with chain saws; is that right?
A. No. I don't know if he had any.
Q. Is that correct what I just said?
A. That's correct. That's correct.
Q. I am going to say it again because the no and the yeah messed it up.
A. Okay.
Q. Before 12 years ago --

A. All right.
Q. -- prior to that, other than Dave cutting down a tree on your property while he was living with you, you are not aware of any other experience he had using a chain saw during -- before 12 years ago; is that correct?
A. Correct.
Q. Okay. And how long did it take him to cut that tree down more than 12 years ago on your property?
A. Well, that wasn't even 12 years ago. That tree was -- Okay. I'm sorry. The tree was actually cut down before -- you know, not long before this accident happened.
MR. BARCH: You got to listen to his questions because he was asking you if the apple tree was cut down more than 12 years ago so you got to listen to his question.
MR. MAST: Let me say it again.
THE WITNESS: I was going to break in but then --
BY MR. MAST:
Q. I am happy to go through this to make sure you understand it but if you don't understand it, you got to let me know so we don't get it taken down

wrong, okay?
A. All right.
Q. So let's go back over that. All right. Over the last 12 years while Dave was living up in Genoa with his wife, you have known Dave to regularly use a chain saw not only at his property but for you, right? Is that correct?
A. Okay. Correct.
Q. Okay. Prior to 12 years ago when Dave was living with you for the rest of his life pretty much, have you ever known what experience he has in use of a chain saw?
A. No.
Q. Okay. Do you know if he ever used a chain saw more than 12 years ago?
A. I don't know.
Q. Okay. So the answer is the first time you are aware that Dave has used a chain saw was after he moved from your house and moved up to Genoa and lived with his wife?
A. Right.
Q. His soon to be wife, right?
A. Right.
Q. And that was for the last 12 years, correct?

A. Correct.
Q. Before that you are not sure what experience or use he had of a chain saw, fair enough?
A. Fair enough. Right.
Q. Okay. So I am assuming, and you can correct me if I am wrong, did you ever see Dave use a chain saw over at his house?
A. No. I would --
Q. You just knew he did?
A. Right. I seen a tree down.
Q. Did he have his own chain saw?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. You can't block your mouth because we have to make sure you say it loud for us, all right?
A. Yes.
Q. I am assuming, and you can correct me if I am wrong, the only time you saw Dave use a chain saw has been on your property?
A. Yes.
Q. And that would have been within the last 12 years?
A. Yes.

Q. Okay. All right. So my next question obviously is then before Paul's accident, how many times have you known Dave to use a chain saw on your property?
A. Twice.
Q. Okay. One was for the apple tree and the other was for this accident, right?
A. No, and the other one was the tree in the front we had taken down before this, too, within, you know, a span of maybe a couple months and we had somebody come and take down the whole tree but this was like big pieces. It was a huge tree.
Q. Got it.
A. And so David and Paul were helping. They were using Paul's chain saw.
Q. All right. I am going to get to that. It's a little bit more wordy than I was asking. My question was: How many times before Paul's accident had Dave cut or used the chain saw on your property and your answer is three?
A. Well, twice. The apple tree and the big tree in the front.
Q. And he was also working on your property before --

A. Right, and --
Q. We can't talk over each other, though. You got to let me come to an end, okay, and then you can answer. I will let you say whatever you want but you got to let me come to an end.
Would it be fair to say that Paul has used a chain saw on your property in the last 12 years three times, three separate times?
A. Did you just say Paul?
Q. I'm sorry I did, didn't I?
MR. ACCARDO: Yes.
MS. MAST: See, she is listening to me.
BY MR. MAST:
Q. Is it fair to say over the last 12 years Dave has used a chain saw on your property on three separate occasions?
A. Correct. Yes.
Q. Okay. The one occasion was in conjunction with the work he was doing before Paul's accident?
A. Yes.
Q. The other was the apple tree?
A. Uh-huh.
Q. Yes?
A. Yes.

Q. And the other was that tree in the front that you had cut down and he had to cut it up?
A. Correct.
Q. Is that right?
A. Yes.
Q. All right. So now I want to try to get a timeframe for those three occasions. I know when the third occasion was because that's in June of 2011, right? Right?
A. Right.
Q. Okay. So give me the timeframe of the other two occasions if you can generally.
A. Well, let's see.
Q. Because you were talking about months before and stuff.
A. Yeah. Probably months in between. I would have to say this was -- I'd probably have to say maybe the beginning of May was the real big tree in the front that he did help at the end cut up.
Q. May of what year?
A. The same year, 2011.
Q. I need you to say it, though. I don't want to say it.
A. Okay. May 2011.

Q. Okay.
A. And the apple tree, too, it was in 2011 and it was probably shortly after that. Maybe the beginning of June.
Q. Okay. Very good. Is the apple tree kind of a smaller fruit tree that we are talking about then?
A. Yes. It was probably like that, the trunk, yeah.
Q. I get it. Maybe about 6 or 8 inches?
A. Yeah. Diameter.
Q. Diameter.
A. Yes.
Q. So the first tree that Paul had to cut or the first use of a chain saw on your property before Paul's accident would have been that same year a month before?
A. Uh-huh.
Q. Yes?
A. Correct. Correct.
Q. All right.
A. Yes.
Q. And that was where the big tree in the front was taken down already, Paul didn't -- or Dave didn't have to do that, right?

A. No.
Q. Is that right?
A. Correct. He did not cut it down.
Q. But you asked him -- you asked Dave to cut up the trunk after the tree was already cut down; is that right?
A. Can I elaborate on that and say something?
Q. Well, you can elaborate any time you want but I'd first ask you to answer my question so that the answer is shown on the record.
A. No. I did not ask him to cut it.
Q. Okay. What did you ask him to do?
A. But after the tree was removed, this big huge tree by a tree company, there was a big huge stump out there and what happens is they didn't take the wood away because that would cost extra money and we knew that Paul would probably want it for his fireplace which he did and these things were huge so they were cutting them into smaller pieces.
Q. Who is "they were"?
A. My son and Paul.
Q. So the stumps were left by the tree company in May 2011 after they cut the tree down --
A. Uh-huh.

Q. -- and Paul and Dave you didn't ask them to but they -- Paul wanted to keep some of that wood so he asked Dave and they worked together to cut up those stumps?

A. Right. To cut up the big rounds. You know, they took away branches and stuff but they left big chunks and that's what they cut up.

Q. You mean "they" took away, the tree company took away the branches?

A. Right. The branches.

Q. But left the stumps?

A. Okay. The stump. Well, the stump, right. The stump. Yeah. The stump is still there.

Q. Well, there is other little stumps that are cut apart, right?

A. Yeah. They were trunks of the tree, you know, yeah. Uh-huh.

Q. All right. So after the tree company cut the tree down in May of 2011, there were sections of the tree that were cut up by the tree company that were left behind?

A. Correct.

Q. And Paul and Dave cut them up so Paul could use it as firewood at his house?

A. Yes.

Q. Do you know if Paul was using a chain saw during that time?

A. Well, it was his chain saw.

Q. But you know what I am asking, right?

A. Yeah. You know, I can't really remember if they were both doing it or --

Q. All you have to say is I know or I don't know.

A. I don't know. I really don't know.

Q. That's all you got to say and I will move on.

Had you ever seen -- Before Paul's accident, had you ever seen Paul use a chain saw?

A. No.

Q. Okay. So whether he used it properly or dangerously prior to Paul's accident you don't know if Paul did or didn't?

A. No.

Q. You seen Dave use it on occasion before Paul's accident as we already talked about, right?

A. Right.

Q. Did you believe he used it safely?

A. Yes.

Q. Ever see him use it unsafely, this chain saw?

A. No.

Q. Okay. Other than Paul and yourself, is there anyone else Paul -- I'm sorry. Other than Paul, Dave and yourself, is there anyone else that would have to your knowledge seen Dave use a chain saw before Paul's accident?

A. Well, I'd have to say no because I can't remember actually.

Q. That's fine.

A. I seen him cut the tree.

Q. I'm not asking you to put your name in there.

A. Nobody else, no.

Q. Okay. How long did Paul and Dave work on those tree sections cutting them up? How long did that take? One day, more than a day?

A. Couple hours.

Q. Okay. So just one day then?

A. I believe.

Q. Okay. And was anything left after they cut those stumps up?

A. No. Paul took it all.

Q. Okay. Did he pay you for it?

A. No. I gave it as a gift. He said he wanted it.

Q. Very good. Okay. But who cut it up with the chain saw you don't know, right?

A. I don't remember if they both did it or if David just did.

Q. Okay. Do you know -- Again, I am just asking what you know. If you don't know, you can just say I don't know.

Do you know between Paul and Dave before Paul's accident who was more experienced on the chain saw?

A. No.

Q. Okay. Then after that big tree in the front was cut up, there was the apple tree that was cut up shortly after that, right?

A. Correct.

Q. Also in May or June of 2011, right?

A. Correct.

Q. And that is a 6 to 8-inch diameter and were there any branches off the tree had to be cut up or just the tree cut down?

A. No. There was branches.

Q. Okay. Do you know -- Did you see that being cut down?

A. Yeah. David was out there trimming.

Q. Who cut the apple tree down?
A. David did.
Q. Did Paul -- Was Paul involved in the apple tree being cut at all?
A. I believe no.
Q. Okay. So David did all that work?
A. Yes.
Q. How tall was that apple tree?
A. As tall as my house, 20 feet.
Q. And, again, that might have taken a couple hours and that was over then?
A. Yes.
Q. And who took the wood from that tree?
A. I believe we put it in the back. We have it piled up.
Q. Okay. So that was -- Those are two tree projects that we just talked about in May or June of 2011, right?
A. Correct. Yes.
Q. The third project is the two trees that you said were in the backyard that you wanted to put a shed back there so you wanted those trees cut down, right?
A. Yes.

Q. And that was a project where you asked Dave to do again, right?
A. Yes.
Q. You didn't ask Paul to do it, did you?
A. No.
Q. Okay. Sometime in June you told Dave, hey, we need those two trees cut down in back, right?
A. Correct. Yes.
Q. And you asked him to do it, right?
A. Right.
Q. And he said he would do it for you?
A. Right.
Q. Okay. And the reason they had to be cut down is you wanted to put a shed back there?
A. Right, and we didn't want to of course put a shed up first and then take the trees down.
Q. Right. I understand. Okay. What was the diameter of that -- of the two trees that were the evergreens that were going to be taken down, if you know?
A. Well, I'd have to say that they were probably both at least 60 feet tall.
Q. Okay.
A. And the base of them was -- I don't know.

Q. A foot or so around?
A. Yeah. Maybe more.
Q. Well, if you measure -- Hold on.
A. Okay.
Q. If you measure it from one side to the other side, is that about a foot wide?
A. No. It was more.
Q. More than a foot wide?
A. More than a foot wide.
Q. A foot and a half wide?
A. Yes. At least.
Q. Both of the trees were the same size?
A. About the same.
Q. Okay. Okay. And when Paul's accident occurred, had both of the trees already been cut down?
A. David had gone up the trees by, you know, and cut down --
Q. We are going to start there later, but I am asking you right now by the time of Paul's accident, were both of the evergreen trees already cut down or was he going limb by limb?
A. David was cutting limb by limb but I believe Paul came over when David needed him to help him.
Q. You are going too far away. I am just asking

you right now at the time of Paul's accident what the condition of those two standing evergreens were. Were they both still standing?
A. There was branches on the ground already.
Q. Were the trunks still standing?
A. Okay. Yes.
Q. Okay. That's what I am trying to find out.
A. Okay.
Q. Do you know the process Dave was choosing to cut the trees down? Was he going first up the tree and cutting the limbs down first and then he was going to do the trunk or do you know?
A. He was going up the tree and cutting down the branches.
Q. Okay. And then after the branches were cut down, he would take the bases down and cut the trunks down?
A. He didn't do that. We hired someone to take the tree down the rest of it because they were so tall.
Q. I got you.
A. Okay.
Q. So you asked Dave then his job with regard to these two evergreens in the backyard was just to take the branches down?

A. Yes.
Q. Right?
A. Correct.
Q. And since the trunk was so big, you didn't want Dave doing that because this was a big project. You had a tree company come in to do that.
A. Right.
Q. Okay. And I am assuming there is countless branches on both of these evergreens, right?
A. Right.
Q. Do you know the size of the bigger branches that came off the tree?
A. Probably at least that big.
Q. Maybe about four inches from one side to the other, yes?
MR. BARCH: I want to get -- I think we are just -- I want to make sure that you are giving estimates when you are or an accurate number. Just clarify for when you are estimating or not. I don't want you guessing.
BY MR. MAST:
Q. Now listen, I know you didn't go out with a tape measure. What I'm asking is if you can estimate. If you can't, if it's just a guess, then fine but hold

on. Let me ask the question.
My question is: If you put your fingers on both sides of the heavier bigger branches on these evergreens and you measured one finger to the other --
A. Right.
Q. -- what is the approximate distance you think you'd have for the width of those branches, the bigger ones?
A. I would say maybe three inches.
Q. Okay. All right. And those would have been -- the bigger ones would have been at the bottom or closer to the base of the tree, the thinner ones up at the top, right?
A. Yes.
Q. Okay. Now, and, again, if you don't know, that's fine. I keep saying that because I don't want you to guess but I am trying to find out what you know. So my question is: By the time of Paul's accident, the day of Paul's accident, was that the first day Dave was beginning work on those two trees?
A. It's been awhile and I really can't remember. I think he did come by the one day to start it and because there was all these branches piled up, then Paul came over the next day and helped.

Q. Okay. And I think that might have been even what he said so that sounds accurate.
A. Yeah, because he had to go someplace that day.
Q. So Paul to your knowledge -- Strike that.
To your knowledge, Dave had worked out at your house on these two evergreens the day before Paul's injury cutting some branches down.
A. Right.
Q. And then Paul came over the next day to help?
A. Right.
Q. Is that your understanding?
A. Yes.
Q. Okay. Did Dave ask you if Paul could come over and help or did he ever go through that with you or did he just do that on his own?
A. He did it on his own.
Q. Were you going to pay Paul or not Paul. I keep getting the names mixed up.
Were you going to pay Dave to do this work for you?
A. He came over as a favor of my son to cut the trees down and for his time I was going to give him something for gas. He had to come up, you know, from

his house and that I was going pay him something.
Q. Was it predetermined what you were going to pay him?
A. No. I didn't know. I just figured I'd give him something.
Q. Like 20 bucks or something for gas?
A. Money to just --
Q. So you were going to pay him, how much, you don't know and it wasn't going to be a large amount, fair enough?
A. Right. Yes.
Q. So the first day that Dave started the work the day before Paul's accident was cutting some branches down from the two evergreens?
A. Yes.
Q. Was he starting on one evergreen first or was he going to do both kind of in tandem together, if you know?
A. Well, there was a big pile of branches. I really can't remember if when Paul came in both were already trimmed up or if he had just done one of the bigger ones.
Q. So the answer is I don't know.
A. I don't know.

Q. Okay.
A. Right. I can't remember.
Q. All right. So the next question is: When Paul came over the next day of this tree work that Dave was doing, the status of the trees and how far up one or more of them were cut you don't know; is that correct?
A. Correct.
Q. Okay. But by the time Paul got there the day of his accident, the second day in to doing the work, some branches Dave had already cut the day earlier?
A. I can't remember. I don't know.
Q. Were there some branches on the ground already?
A. They were on the ground but as he was cutting and they were just falling down, okay?
Q. Right.
A. But I don't remember if he actually had started to cut up branches himself that very first day he was there, that it was just one big pile.
Q. Okay. And maybe I didn't word it properly but my question was: By the time Paul arrived at your house on the day of the accident, there were already branches that had been cut down from the tree that

were on the ground?
A. Right.
Q. Were they piled up yet or were they all just scattered on the ground?
A. I don't remember.
Q. Okay. And you don't know -- I think what you were saying is you don't know if Dave had already begun to cut up those branches that had been cut down from the tree or whether they were still all together in full lengths, right?
A. Yes.
Q. Okay. Do you know when Paul arrived at your house the day of his accident?
A. I can't give you a precise time. It was probably later morning, early afternoon.
Q. Other than late morning, early afternoon, that's as specific as you can give me?
A. Right. I can't give you a time exactly.
Q. Okay. Late afternoon -- Late morning, early afternoon seems to be around 12:00 or 1:00. Does that sound about right?
A. Yeah.
Q. And did you greet or see Paul when he arrived first at the house?

A. I saw his truck in front so I knew he was over.
Q. But how long he had been there when you first saw the truck you don't know; is that correct?
A. I don't remember, no.
Q. Is that correct then what I just said?
A. Correct. Uh-huh.
Q. Okay. All right. When you saw Paul's truck out in front, that would have been the 12:00 to 1:00 kind of timeframe?
A. Right.
MR. BARCH: Well, I need to object. It's an approximation. I don't want it to be looked at we are using that as if that is the time so I object to form of the question.
BY MR. MAST:
Q. I said earlier we are thinking somewhere around 12:00 to 1:00 generally, fair enough?
A. Yes.
Q. And that's the first time you saw Paul's truck in your drive, correct?
A. Uh-huh.
Q. Yes?
A. Yes.

Q. So whether Paul was there before you saw his truck or how long you saw his truck, you don't know, correct?
A. No.
Q. Is that correct?
A. Correct.
Q. What Paul was doing by the time you saw his truck around 12:00 to 1:00 generally out at your property, you don't know, correct? Is that correct?
A. Correct.
Q. Okay. You know he was helping Dave but exactly what Paul's tasks were, do you know?
A. No.
Q. Did you at any time that day before Paul's accident observe their work?
A. I went out there to give them some water because it was a hot day but that was it.
Q. Did you go out there to give both Paul and Dave water?
A. Yeah. I gave them water.
Q. A glass of water?
A. Probably a bottle, like this.
Q. Okay. And how many times did you do that before Paul's accident?

A. Maybe once. I don't exactly -- Once. Say once.
Q. Okay. Okay. And when you went out there, how long were you out there?
A. Probably a few minutes. I talked to him. Said hello and --
Q. Were Dave and Paul working at any point while you were out there giving them water?
A. No. Not that I can remember, no.
Q. Okay. So what Paul's tasks were doing -- Strike that.
What Paul's tasks were during the work and what Dave's tasks were during the work, you did not observe; is that correct?
A. Correct.
Q. All right. So now I am going to summarize this, and you can correct me if I am wrong, but before Paul's accident, is it fair to say you only went out of the house and saw what they were -- saw the progress of the work once; is that correct?
A. Correct.
Q. And that was to deliver water to him for a couple of minutes you were out there?
A. Correct.

Q. And during the time you were out there for a couple minutes delivering water that one time, you did not see either of them do any work that you can recall, correct?
A. Correct.
Q. Okay. So as far as who was doing what work before Paul's chain saw accident on your property that day, you don't know who was doing what, correct?
A. No.
Q. Is that correct?
A. Correct.
Q. Okay. When you say no, that's why I have to ask to make sure you understand my question. Is that correct?
A. Correct.
Q. Okay. Do you know if Paul -- at any point that day of his accident at your house, do you know if Paul operated that chain saw that they were using to trim these branches, do you know if he did?
A. No.
Q. Okay. You know that Dave was using the chain saw, correct?
A. Yes.
Q. Okay. Other than the chain saw -- Well, strike that.
The chain saw Dave was using to cut the branches up at your house the day of Paul's accident, was that the chain saw that was your chain saw?
A. Yes.
Q. Do you know if Paul had his own -- Strike that.
Do you know if Dave had his own chain saw?
A. Not with him.
Q. He had his own but it was at home, right?
A. Yes.
Q. Okay. Instead of him bringing his chain saw, he used yours, right?
A. Yes.
Q. Is there a reason he decided to use yours as opposed to bringing his own?
A. Ours was new.
Q. Is yours the one that's sitting here on the table today?
A. Yes.
Q. Okay. At the time of Paul's accident at your house with the chain saw, did you own more than one chain saw?

A. We have an electric one in the basement but we didn't use it.
Q. Okay. So at the time of Paul's accident --
A. Yes. I'm sorry.
Q. Once I start I am assuming you are done. Okay. At the time of Paul's accident, you owned and had available to use an electric chain saw and a gas chain saw, correct?
A. Yes.
Q. The electric chain saw was in the basement and was not being used for any of the work that Dave and Paul were doing, correct?
A. Yes.
Q. All right. Why was that not being used?
A. It wasn't big enough and the chain on it was dull.
Q. Okay. So Dave chose to use the gas one at your house, correct?
A. Yes.
Q. That was by his choice. You didn't make him, did you?
A. No. I didn't make him. Yeah. I know you don't want me to elaborate. No. He chose to use that one. It was new and it had never been used and the

blade was sharp.
Q. And, again, it's not that I don't want you to elaborate. I want you to elaborate if you think it's necessary. All I am saying is if you are not answering the question, then I need to ask the question again, okay? Okay. You can say whatever you want to say, okay?
A. Okay.
Q. So the chain saw we have today here on the table is the gas chain saw that Dave was using to cut up the branches when Paul was injured, correct?
A. Yes.
Q. Okay. And this was the only gas saw you had present and available and that you owned on your property at the time of Paul's injury, correct?
A. Yes.
Q. Had Dave ever used this particular chain saw before the day of Paul's accident?
A. I can't remember if he actually did use it to cut up the apple tree or not. I don't remember.
Q. When you say it was new, you mean it was -- Wait. I just started my question.
When you say this chain saw was new as of the day of Paul's accident, are you saying it had

never been used or you don't know if it had been used?
A. I don't remember. All I know is it was new and we bought it in that year.
Q. You bought it in 2011?
A. Yes.
Q. Where did you buy it from?
A. It's on the manual inside the date where it was purchased at and everything.
Q. I am asking you.
A. I don't remember but it's written on the manual so if you want that information, I don't know.
Q. Listen, I can get it anyway. I am asking you. If you don't know, you can just say.
A. I don't remember. It was just in 2011 we purchased it.
Q. All right. And why did you purchase it?
A. Because we had trees that we knew needed to be cut down.
Q. Okay. Did you purchase it, however, though, for you or your husband to use or for somebody else to use that might have to use on your property?
A. I guess we purchased to have a chain saw that worked well and was new and had a sharp blade and I didn't particularly buy it for, you know what I mean,

say, oh, I am buying a new chain saw here. We bought it because we needed a chain saw.
Q. This is my question: I'm sorry if you think my questions are funny but my question is this: Did you purchase it expecting that you or your husband was going to use it or that somebody else other than you and your husband were going to use it?
A. Someone else.
Q. Okay. Not necessarily Dave but somebody else other than you and your husband?
A. Right.
Q. Okay. And whether this chain saw, this gas chain saw, that you purchased new in 2011 had been used prior to cutting these two evergreens down in June, 2011 you are not sure, correct?
A. I don't remember, no.
Q. Okay. If it had been used prior to the two evergreens, that job in June of 2011, it had only been used once before and that might have been the apple tree job, correct?
A. Yes.
Q. Okay. Where these evergreens were and where Dave and Paul were working, that would have been in the backyard of your house?

A. Yes.
Q. If you -- What were you doing that day? I am sure you were in the house, correct?
A. Right.
Q. You weren't working outside, were you?
A. I was outside for awhile playing with his dog in the backyard but, I mean, I didn't stay out there for any length of time and I was in the house most of the time.
Q. Okay. So other than delivering water to Paul and Dave before Paul's accident and maybe being out of the house to run around with the dog for a few minutes, everything else, all of your other activities would have been inside the house that day, correct?
A. Yes. Yes.
Q. Okay. And if you ran the dog outside for a few minutes, do you recall doing that before Paul's injury or not?
A. Yeah.
Q. Do you know how long? It was just a few minutes?
A. Yeah. Probably. I mean, just throw a ball around and get a bone.
Q. And would that have been near where Dave and

Paul were working?
A. Yeah. I mean, my yard is not that big. Yes. It's near.
Q. Okay. Do you recall having any observations of what they were doing at the time you were outside playing with the dog?
A. No. I don't remember. No. I would say no.
Q. Okay. Was that after you saw Paul's truck in the drive that you said you first noticed Paul would have been over by that time around 12:00 or 1:00, somewhere around there?
A. Yes. It was after I was out there with the dog.
Q. Okay. Do you know about what time -- How did you first learn Paul was injured?
A. They came running in the house. He was bleeding and I gave him a clean towel to wrap around his arm and David drove him to the hospital in Paul's truck.
Q. Okay.
A. It was fast. I mean, they didn't waste any time getting to the hospital.
Q. Okay. We are going to go through all that step by step. About what time was that that Paul ran

in the house?
A. I don't remember. It was maybe an hour, maybe it was 2:00. I don't know, an hour later.
Q. An hour later meaning -- hold on -- an hour after you first saw Paul's truck was in the drive around 12:00 or 1:00 or approximately sometime around there?
A. Right. They were working.
Q. So I am trying to get the chronology of this and I understand it's not exact, I get that, but you are saying again very generally 12:00 or 1:00 was when you saw Paul's truck in the drive. An hour from whenever that was later was approximately when Paul ran in the house and said he was injured?
A. Right.
Q. And he was bleeding from what arm, if you know?
A. I don't remember. I think it was his right arm.
Q. Okay. You are not positive or are you sure about that?
A. I am not positive.
Q. Okay. Hold on a minute. All right. So during that approximate hour time that you knew Paul

and Dave were working on those -- on the trees, you had been out there just a couple minutes outside running with the dog and then delivering water during that one hour time?
A. Yes.
Q. Okay. Were you doing anything in particular inside the house?
A. What I usually do every day.
Q. What's that?
A. Dishes, wash clothes, clean up, whatever. I don't remember, you know, but working inside the house, yeah.
Q. Okay. What was your husband doing?
A. Probably watching television.
Q. Okay. Do you remember what day of the week this was?
A. I think it was during the week.
Q. And I didn't ask you this before but are you retired?
A. I am.
Q. Okay. Is your husband retired as well?
A. Uh-huh.
Q. Yes?
A. Yes.

Q. Okay. What kind of work did you do before you retired?
A. I worked at Intermatic.
Q. What is that?
A. It was in Spring Grove. I worked in production.
Q. What kind of company is that?
A. They made lighting sets, timers.
Q. Is that like factory type work?
A. It was factory, yeah.
Q. Okay. And what was your husband's kind of job he did before he retired?
A. He was a carpenter.
Q. Okay. I didn't even ask this. William, how old is William?
A. He was born in 1953. He will be 60 this year.
Q. Okay. Is he in good health?
A. Huh?
Q. Is he in good health?
A. He is on Social Security disability.
Q. For what kind of disability?
A. For he got injured at work.
Q. What?

A. His back.
Q. Okay. So he is not able to be real active?
A. No. He can't lift up heavy things.
Q. That's what I am trying to understand.
A. Yeah.
Q. Okay. Are you healthy?
A. Yeah. I am all right. I am living. That's about it.
Q. Do you have any disabilities?
A. No. I am not -- I am on Social Security but -- Okay. No. I am not.
Q. All right. Let me just ask the question. Do you have any physical disabilities whatsoever?
A. I am okay.
Q. Okay. All right. The work that you were doing in the house, if you wanted to, would you have been able to just look out the window and see the work that Paul and Dave were doing or were they doing it at a spot where you really couldn't see them?
A. I couldn't see them.
Q. So even in the house had you looked out a certain part of the house, you wouldn't have been able to visualize them outside working; is that correct?
A. Correct.

Q. Okay. So in order to see what they are doing, you'd have to go outside and take a look?
A. Yes.
Q. Right?
A. Yes.
Q. And you didn't do that except for when you went to deliver water. That's the only time you went outside in the area where they were working, correct?
A. Right and played with the dog twice. That was it.
Q. Right but playing with the dog you weren't even paying attention to what you were doing, correct?
A. Yeah. I was paying attention to the dog. No, I wasn't.
Q. Is that correct?
A. Yes. That's correct.
Q. So the only time you would have been in the area to observe what they were doing is when you delivered the water?
A. Right.
Q. And that's the time you remember telling me you don't remember seeing what they were doing; is that correct?
A. No. I don't remember.

Q. Is that correct?
A. Correct. Correct.
Q. All right. Did your husband ever go outside while Dave and Paul were working?
A. I don't remember.
Q. Okay.
A. I don't remember.
Q. Did you ever talk to your husband about the incident with Paul?
A. You mean about this whole thing?
Q. Yes.
A. Yes.
Q. Well, not --
A. Oh.
Q. Hold on. Not about what happened as a result of the incident, meaning the lawsuit and things like that. I am asking about did you ever talk to your husband about how the incident may have occurred?
A. I probably -- Well, I wasn't there to see it so I couldn't really tell him how I thought it happened.
Q. Well, did you ask him if he saw it or --
A. He didn't see nothing, no.
Q. Okay. All right. When Paul came in, ran in

the house as you described from being injured --
A. Right.
Q. -- you offered him to wrap his arm?
A. Yes.
Q. And then so how long was he in the house physically or did he just run in and run out with Dave?
A. I have to say it might have been a minute. I ran immediately, got a clean towel, put it on his arm and they went to hospital.
Q. Did you visualize the injury? Did you see it?
A. I could see the cut.
Q. That's what I am asking.
A. Yes. I could see the cut.
Q. How long was the cut?
A. Probably like this I would think.
Q. About six inches or so?
A. Yeah. He -- probably like that on the forearm.
Q. Approximately six?
A. Yeah. Maybe on his forearm.
Q. And did you do anything to determine how deep the cut was?

A. No. I got a towel and no, I didn't.
Q. Okay. All right. So although you know it's about six inches long, you don't know how deep it was; is that correct?
A. No. I don't know.
Q. Is that correct?
A. Correct.
Q. After wrapping it, and this is all within a minute, Paul runs out with Dave and Dave takes him to the hospital?
A. Correct.
Q. What hospital?
A. McHenry.
Q. NIMC?
A. Yes. NIMC.
Q. Do you know how long they were at the hospital?
A. Well, I called -- I don't know. I don't know. I called the hospital to see.
Q. What?
A. I called probably after they got there. What does it take, 15 minutes to get there. Maybe a half hour or something I called after.
Q. Just to find out the status?

A. Yeah. See how he was doing.
Q. Did you learn anything?
A. Yes.
Q. What did they tell you?
A. In the emergency room they told me that as far as they could -- their knowledge, he didn't have any damage done other than a superficial wound that they would clean up and stitch up and give him medication, you know, for pain and antibiotics for infection.
Q. That's what the nurse people told you, the people attending in the ER?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. Okay. And then did you -- Did Dave or Paul have a cell phone with them when they went to the hospital?
A. I can't recollect for sure.
Q. Does Dave have a cell phone?
A. Yes, he does.
Q. Did he have it at the time?
A. I don't remember.
Q. Okay. Did either of them -- Well, strike

that.
After Dave and Paul went to the hospital right after the accident occurred, did you hear from either of them while they were at the hospital?
A. No. When they came back, no.
Q. Okay. It wasn't until they came back from the hospital?
A. To my house.
Q. Was that Dave or both Dave and Paul?
A. Both Dave and Paul were at my house afterwards.
Q. Do you know how long that was after the time they left to go to the hospital that they arrived back at your house?
A. The length of time he was gone I am not quite sure.
Q. What did you say?
A. I am not quite sure. Maybe an hour and a half or something I mean by the time they did their job and --
Q. Okay. All right. So it's your understanding that Paul was injured, he runs into the house. Does Dave run into the house, too?
A. He is right behind him.

Q. So they both run into the house, right? Yes? Yes?
A. Yes.
Q. You wrap the arm, then they run back out. They go to the hospital. They are at the hospital approximately, and I know you didn't time it, but approximately an hour and a half at the ER?
A. Uh-huh.
Q. And they come back to your house, correct?
A. Correct. Yes.
Q. And then Paul and Dave come into the house again?
A. Yeah.
Q. Okay. And do you sit down and talk to him or what happens?
A. Well, Paul needed medication to have refilled and he didn't have any insurance and didn't have any money on him so I gave him $50 to go get the prescriptions refilled.
Q. Okay.
A. Not knowing how much they would cost but you know.
Q. So as I understand it, Paul comes back to your house from the ER and says, hey, I need to refill

this prescription for pain medication and don't have any money and you give him $50?
A. Yes.
Q. Okay. So he asked -- Did he ask -- Hold on. Did he -- It looks like you want to talk. Did he ask you for the $50 or did you just offer it to him?
A. I offered it to him. He didn't ask.
Q. How long was Paul in the house when he returned from the ER until he left to get the prescription filled?
A. They weren't there maybe a few minutes and they went to the drug store.
Q. So Dave then took Paul in Paul's truck and went to the drug store to fill the prescription?
A. Uh-huh.
Q. And then when Dave returned, did he return alone or with Paul again?
A. I believe he took Paul home.
Q. Right.
A. And he could walk from Paul's house.
Q. Right. So it's your belief that Dave would have walked from Paul's house back to home and that's when he arrived home then?
A. Right.

Q. Was that within the hour?
A. I don't know how long he was at Paul's house once he --
Q. Okay. But after Dave and Paul left in Paul's truck to go fill the prescription, Dave then returned next alone to the house, right?
A. Back to my house.
Q. Yes.
A. Yes, because he --
Q. So it was your feeling that he probably dropped Paul after and left the truck at Paul's house?
A. Yeah. It was his truck. Paul's truck.
Q. I understand.
A. Okay.
Q. All right. Okay. Now, let's go back a little bit and let me ask a couple follow-up questions. When Paul ran into the house after the accident, okay --
A. Uh-huh.
Q. -- with the injury, did he say anything about how it happened?
A. There wasn't time. No.
Q. I understand there might not be time. I am just asking if. If they didn't you can just say they

didn't.
A. No.
Q. Let me ask the question again because you didn't answer it directly. When Paul arrived into the house --
MR. BARCH: I know you are frustrated with the way she answers questions but I think she is trying her best.
MR. MAST: There is no question she is trying her best.
BY MR. MAST:
Q. I'm not saying you are not trying your best.
A. I'm sorry. I know.
Q. You are doing fine actually. It's just actually when you do answer it kind of indirectly, I need to go back and I'm telling you why I need to go back. You are doing fine. There is no problem with what you are doing. I just need you to understand why I am asking the question again.
So when Paul runs in the house after being injured for the first time, I think you said Dave followed, right?
A. Uh-huh.
Q. Yes?

A. Yes.
Q. You saw the injury, you wrapped it and then they left immediately to go to the hospital, right?
A. Yes.
Q. During the time after the accident before they left to go to the hospital, did Paul say anything about how the accident occurred?
A. No.
Q. Did Dave say anything how the accident occurred?
A. No.
Q. So by the time Paul and Dave left to the hospital to the emergency room to treat Paul's injury, you did not know how it happened other than you assumed I am assuming you felt it was probably due to the chain saw, right?
A. Yes.
Q. But you didn't know that?
A. No.
Q. And they never -- either of them never told you how it happened, correct? Is that correct?
A. Correct.
Q. Okay. So they are at the hospital. You don't talk to them now until they arrive back at your

house after the ER, right?
A. Correct.
Q. And they are only there for a couple of minutes until they go fill the prescription for pain medication, right?
A. Right.
Q. And while they are there for a couple of minutes at your house before filling the pain prescription, does Dave or Paul tell you anything more about how the accident occurred?
A. No.
Q. Okay. I am assuming you put the dots together and you felt it was because of the chain saw but nobody told you that, fair enough?
A. Correct. Right.
Q. Is that correct?
A. Yes.
Q. Okay. So by the time Dave now returns home alone after dropping Paul off, you have not yet heard from Dave or Paul at that point how the accident occurred; is that correct?
A. Well, Dave would have had to come back to my house.
Q. That's where I am starting this question. By

the time he returns to your house, by that time you still have not talked to either of them about how it happened, correct?
A. No.
Q. Is that correct?
A. Correct.
Q. Okay. So Dave returns to your house alone and we are probably talking now, what, in the evening hours?
A. Yeah. Early evening.
Q. Maybe 4:00 to 5:00, somewhere in that general area?
A. Right. Yes.
Q. Okay. 4:00 to 5:00 p.m., Dave arrives home approximately and is there a conversation about what happened?
A. I can't remember.
Q. Okay. Any time the rest of that day does Dave make any statement about what happened?
A. Can I say something?
Q. Sure. If you want to.
A. In the aspect of all this thing happening so fast, coming into the house, literally wrapping his arm and rushing him to the hospital because he was really

concerned, when they came back to the house, they were only there a few minutes also. I gave them the money. When David came back obviously he drove Paul home because it was his truck, he came back to my house because that's where his car was, he was all upset and everything. I don't remember that anything really was said, you know, that Paul -- you know, little bit about Paul, you know, as far as not how the accident happened, how he was doing, you know, and that they got the prescriptions and then he went home but he didn't ever at that point at that time on that day, so.
Q. All you are saying then in summary is Dave never mentioned how the accident happened?
A. Not on that day.
Q. Hold on. You got to let me finish my question -- my statement. All you are saying is on the day of Paul's accident at no time did you hear from Dave or Paul for that matter how the accident occurred?
A. No.
Q. Is that correct?
A. Correct.
Q. Okay. So even when Dave arrived back from dropping Paul off, he stayed, what, for a few minutes?

A. Yeah. He didn't stay long. I can't really remember, you know, but he probably did stay, you know.
Q. Stayed for awhile?
A. For a bit, yeah.
Q. Did he ever go back and finish the work up?
A. No. He went home.
Q. So by the time Dave left for now home the day of Paul's accident, he still never told you what his version of the accident was; is that correct?
A. No.
Q. Is that correct?
A. Correct.
Q. Did you see Dave the following day?
A. I can't remember but he must have come back because the branches. You know, this is a year and a half ago, no.
Q. Listen, Carolyn, you don't have to tell me why. I have been doing this long enough. I know that memories aren't the best sometimes so you don't need to tell me why. My job, though, is to find out what you know.
A. No, I don't.
Q. So I have to go through this with you, okay? So let's just get through this. You are doing the

best you can. Let's just keep going.

Did you ever at any time after Paul's accident at your house ever talk to Dave about how it happened?

A. Yes. He did tell me.

Q. Okay. How many times have you talked to Dave where you heard Dave's version of it? Just once or more than once?

A. Maybe more than once.

Q. How many times?

A. I don't know. Twice.

Q. Okay. When was the first time after the accident that you spoke to Dave about how it happened? The next day, days later, how soon after the accident?

A. I don't remember.

Q. Do you know if it was within days of the accident?

A. No. I don't remember.

Q. Okay. Was it within at least a month after the accident?

A. Yeah. Probably.

Q. Okay. And was it at your house?

A. Or was it on the phone. I don't remember if it was.

Q. So it was either in person or on the phone?

A. Right.

Q. Okay. Do you know if anybody else was a party to that conversation meaning overheard that conversation?

A. No. Just me.

Q. So Dave would have either called you or he would have been at your house and he would have told you this, right?

A. Right. Correct.

Q. Okay. What did he tell you?

A. What happened. That he was out there with Paul, that Paul was helping him. David was using the chain saw and Paul was holding the branches and they had been cutting out there for awhile branches and everything seemed to be okay and then the one branch that when the accident happened that Paul was holding, Paul had repositioned his hand at the split second and moved his hand up on the branch because I guess it was flexing and he just instantly and then David was in the position, it only takes a second and that's how he ended up injuring his arm because Paul had moved his hand out of the position.

Q. So Dave blamed Paul for the accident then?

A. If he didn't move his hand -- They had been cutting for an hour and everything was going fine until this one incident happened, yeah.

Q. So the reason for the accident then according to Dave was because Paul was moving his hand and he didn't know he was moving his hand and he cut the hand or the arm with the chain saw, correct?

A. Right. Right.

Q. And, again, and if you don't know, that's fine but you don't know how long after the incident occurred that Dave first told you this, do you?

A. Well, it wasn't that day because he was all upset.

Q. I am just asking how long, if you know.

A. I don't know. Maybe a couple weeks. I don't know or next week, the week after.

Q. Okay. And you said maybe a couple times Dave had told you this, correct?

A. Uh-huh.

Q. Yes?

A. Yes.

Q. When was the next time?

A. Well, I don't know. He probably told -- I don't know. Maybe before -- Well, I think it was

probably before he got the letter from you in December, you know. Up to that point, you know, he just thought that things would not end up this way not knowing, you know, and then when he found out the way he knew it happened and he told me and he knew what Paul had said the way it happened, he was kind of upset.

Q. Okay. But my question was: When is the next time you spoke to him? Hold on. You got to let me --

A. I am thinking.

Q. My question is: When is the next time after this first time of one or two weeks after the accident when is the next time you heard Dave express his version of the accident?

A. Probably a couple months went by.

Q. Okay. And that was after he heard Paul's version of the incident or not?

A. I think so. Yeah.

Q. And Dave got mad after he heard Paul's version of the incident?

A. He was kind of upset.

Q. Did he tell you why he was upset?

A. For what's written -- because he figured if Paul hadn't moved his arm forward to reposition on the branch David would have never cut him.

Q. Is that what Dave said to you?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. See, this is what I am trying to find out. I am trying to find out everything that Dave said describing the incident and his feelings versus Paul's version of the incident. That's what I am trying to find out.
A. Right.
Q. I don't want to know your version. I want to know what Dave said.
A. No.
Q. So Dave told you he is upset because he heard of Paul's version which is different from his version of the incident, correct?
A. Uh-huh.
Q. Is that correct?
A. Yes.
Q. Anything else that Dave discussed with you regarding how the incident occurred or his feelings regarding how Paul described the incident?
A. No. I mean, no. He just -- What he had said what his version was and knowing what Paul had said.

Q. Do you know what Paul's version is? Do you?
A. Well, I don't know if I put my foot in my mouth now because --
MR. BARCH: I think he is asking you what you have heard about Paul's version.
THE WITNESS: The version that I know is that Paul is saying that he was holding the branch and threw it down on the ground, that David had revved up the chain saw and came towards him to cut the branch that he didn't even have. He had already thrown the branch down on the ground. What would that make it seem like, David didn't even see his arm was there and that the branch --
BY MR. MAST:
Q. Carolyn, I don't want to get into an argument about what happened, okay. That's not my purpose here. What I am trying to find out is who told you what, when and how. Okay. That's what I am trying to find out. What you think makes sense or what I think makes sense is not the topic today, okay.
The version that you just described, whose version is that?
A. That's what Paul had said in his -- one of his -- Paul had said.

Q. In what? When did he tell you?
A. No. To your -- you, to the lawyer or in some kind of --
Q. How do you know that?
A. Because my lawyer told me.
Q. Okay. All right. Sorry.
MR. BARCH: Here's the thing, let me just say this, Carolyn, if he is asking you questions which require you to relate what I have told you --
THE WITNESS: Yes.
MR. BARCH: -- don't give that information. He is asking you about other people. Not about what you and I have talked about.
BY MR. MAST:
Q. All right. So let's go back. Okay. What I want to try to find out is this: I want to know everything Dave told you and everything Paul told you and everything anybody else might have told you other than your attorneys, okay? That's what I am trying to find out, three things. We have gone pretty far with regard to Dave so I am going to follow that up by saying: Have you told me everything that Dave has told you concerning the accident or Paul's injuries?
A. Yes.

Q. Is there anything else you want to add to that other than what you have already told me?
A. No.
Q. Regarding Dave now. Is that it?
A. Yes.
Q. Okay. So Dave has never told you more about what he thinks as far as Paul's injuries, nothing more? You have never told me anything about that.
A. You mean if David knew the extent of Paul's injuries?
Q. Yes. Has he discussed that with you at all?
A. He only knew, too, the day of when it happened what I had told him what I learned from the --
Q. ER?
A. -- from the hospital, from the ER.
Q. That's all Dave knows?
A. That's all he knew until all this started to unroll, right.
Q. Right. So you have told me now everything that Dave has ever told you regarding the incident and how it occurred and medically how Paul was injured from it, correct?
A. Yes.
Q. Okay. And there are only two times that Dave

really discussed the specifics of how it happened and both times he told you that Paul was shifting his hands when he was lifting this chain saw up and caught Paul on the arm, correct?

A. Correct.

Q. Okay. Dave never accepted responsibility for this accident then in your view, correct? He did not believe he was responsible for it; is that correct?

A. Correct.

Q. Okay. And he never accepted responsibility for it to you as far as you knew, correct?

A. Correct.

Q. Okay. How many times now have you talked to Paul about the incident after his accident?

A. I have never talked to Paul. The only time I talked to Paul was after it happened a few days and I went by to see how he was feeling and when he was going to get his stitches out and I maybe talked to him on the phone maybe once.

Q. All right. Well, see, this is my confusion. I asked you how many times you talked to Paul since the accident about this and you said I never had and you mentioned two times.

A. Well --

Q. Stop. Stop. So we got to go through those, okay? So it's your testimony that you only spoke to Paul twice after this accident?

A. Yes. Twice.

Q. Right?

A. Right.

Q. Not any other times than two times, right?

A. Just twice.

Q. Okay. Before the accident, let's say a year before the accident, how many times did you talk to Paul?

A. I don't know. A few times.

Q. Okay. So talking to him twice after the accident, is that within a year of the accident, after the accident?

A. The time span which I did talk to him was probably when it happened into the late part of the year. Well, no. It was probably when I first talked to him --

Q. You are not listening to the question.

A. I know. I am going off the edge again.

MR. BARCH: He is talking about a different timeframe than you are.

BY MR. MAST:

Q. From the day of Paul's accident during the time that you talked to him these two occasions about the accident, how much time elapsed? Just --

A. A couple weeks only.

Q. Okay. So the two times -- the two times you talked to Paul about his accident with the chain saw was within a couple of weeks of his accident, yes?

A. Right. Correct.

Q. And that would have been sometime still in July of 2011, right?

A. Uh-huh.

Q. Yes?

A. Yes.

Q. And you have not talked to Paul since July, 2011 until today, correct?

A. I did in September.

Q. So there is another time?

A. He came by my house.

Q. September of what?

A. 2011, that year.

Q. So there is three times you talked to Paul?

A. Uh-huh.

Q. Yes?

A. Yes.

Q. So since September of 2011, have you talked to Paul until today?

A. No.

Q. From the time of Paul's accident until today you have talked to him only three times?

A. Correct. Yes.

Q. Have they all been in person?

A. Two are in person.

Q. One was on the phone?

A. One was on the phone that I remember.

Q. Okay. All right. So let's start with the first time you talked to Paul after his accident about the incident, okay?

A. Uh-huh.

Q. You say that was a couple weeks later?

A. It was probably -- It's before he had stitches out even so it was within a week.

Q. Okay.

A. When I had seen him in person.

Q. And was it at your house or where?

A. At his house.

Q. You visited him?

A. Uh-huh.

Q. Yes?
A. Yes.
Q. And how long were you at his house?
A. I don't know.
Q. Couple minutes?
A. Maybe. I don't know. I was visiting maybe an hour.
Q. Okay. And how much time did you spend of that hour talking about the incident?
A. I only asked him how he was doing.
Q. Okay. And what did he say?
A. He says that he seems he is doing okay but of course it hurts and I says, well, I can understand that, you know, and that was about it. He didn't go on and elaborate anything.
Q. Okay. At any time during that first visit with him, within a week of the incident, was it ever discussed how the accident occurred?
A. No.
Q. Okay. And other than him saying, okay, it still hurts, did you ever talk more about his injury?
A. No. Other than that one time I called him on the phone.
Q. No. No. I am just talking about --

A. No. No.
Q. You met with him --
A. No.
Q. When you met with him a week after the accident and visited for about an hour at his house, the only thing you talked about regarding his injury was, okay, it still hurts. That's all he said?
A. Right. Correct.
Q. So the rest of that visit was unrelated to this incident or his injury, correct?
A. Correct.
Q. It was just being friendly talk?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. Okay. Who was present during that visit?
A. His mother.
Q. Was she -- Was she able to hear the words that were exchanged between you two?
A. She was sitting right next to me.
Q. Okay. Anybody else present?
A. I don't remember. I think she was just home.
Q. Did Paul ever suggest at any time since his accident that he was wanting you or Dave or anybody to

say something in order so that he can get a lot of money in the case? Did he ever say anything like that to you?
A. To me, no.
Q. Did he say it to somebody else?
A. You mean so he could -- Well, you can say it's hearsay again. How can I prove it? Paul had said something to David.
Q. And Dave told you that?
A. David told me that.
Q. So I understand that. I know that already but you didn't hear Paul say that. You heard Dave tell you that he said that?
A. Right.
Q. You knew they were -- Hold on. You are not -- you did not -- Let me say the question again. You have not heard Paul at any time say anything like that, correct?
A. Correct.
Q. You have not heard Paul ever say since his accident that he wanted to try and make money, he wanted to try to stay off of work, he wanted to try to get people to help him get the money or anything like that? You never heard any of those conversations from

Paul, have you?
A. No.
Q. Okay. You heard them indirectly from Dave to you, correct?
A. Right.
Q. Okay. So you are not a witness to what anything Paul said regarding those issues of trying to make money or trying to not have to work the rest of his life or any of those kind of things, you never heard any of those things from Paul, did you?
A. No.
Q. Okay. And the only person you have heard that from is from Dave, correct?
A. Right.
Q. All right. Wherein Dave said, hey, Paul told me he wants me to say this to try to get him more money, something like that?
A. Uh-huh.
Q. Right?
A. Right.
Q. Did you ever report that to anybody that Paul said that?
A. I don't know if I mentioned it to Ron or not.
Q. Your attorney?

A. Yeah. My attorney.
Q. Okay. Did you ever mention it to anybody else?
A. Well, if I mentioned it to my husband, he probably won't remember anything.
Q. Okay. Anybody else?
A. No.
Q. Okay. All right. So far we talked about that one visit, the first visit, with Paul after the accident about a week later, you had an hour over at his house and there wasn't a lot discussed about the accident, correct?
A. No.
Q. Correct?
A. Correct.
Q. Okay. The second time you met with him it was again in person?
A. Yes. It was in the end of September of 2011.
Q. No. I thought you met with him two times, though.
A. Yes. When he -- you wrote down three times in that year. It was three times.
Q. We are on the second time. September was the third time.

A. Okay. It was on the phone.
Q. Let's go back because now we are all unclear again because of that.
The first time you spoke to Paul after the accident was when you visited in his home about a week later for that hour for that visit, right?
A. Correct.
Q. The second time was on the phone call?
A. Yes.
Q. How long after that first visit with him was that phone call?
A. Not long. I can't say.
Q. A day, a week, a month, a year?
A. I don't know. Maybe two weeks.
Q. Okay. And that was a telephone call did you make to him or he made to you?
A. I called him.
Q. Why did you call him?
A. Just to see how he was doing. How -- He had his stitches out, you know.
Q. So what was said?
A. Well, he says the stitches are out and he seems he is doing okay and left it at that.
Q. Did he say he is recovered?

A. No. I can't -- No. No.
Q. Did you know if he still had problems with the injury or not or you don't know?
A. I don't know.
Q. Okay. How long was that conversation on the phone?
A. Probably a few minutes only.
Q. Did Paul ever discuss the specifics of how his chain saw accident occurred?
A. No. Not to me, no.
Q. Did he tell you what he thinks Dave did wrong in that accident or causing his injury or anything like that?
A. No.
Q. Did he ever suggest that he wants to try to make money out of this case in that conversation?
A. No.
Q. Or any other conversation did he ever suggest that?
A. No.
Q. Okay. Did he ever ask you for your insurance information?
A. I offered it to him.
Q. When?

A. Right after the accident happened.
Q. You mean while he was still on the way to the ER or that week later?
A. No. After the fact. Yeah. Maybe after a week. After a week later.
Q. I am trying to find out when.
A. A week later.
Q. When you went to his house?
A. Possibly. I gave him -- yes.
Q. Wait.
A. I can't remember.
Q. Hold on. We are talking about the times you spoke to Paul and there was only three times. It's got to be the first time, the second time or the third time that you offered your insurance information to him.
A. It must have been when I went over to the house then because I remember writing stuff down.
Q. The first time?
A. The first time.
Q. Okay. So during that hour conversation with Paul at his house, you said, here, I will give you my insurance information, right?
A. Right.

Q. Did he thank you for it?
A. I guess. Yeah.
Q. Was he polite?
A. He was polite, yes.
Q. Was he trying to make more out of the case than you thought?
A. No.
Q. Did Paul ever make you feel uncomfortable in the way he described his accident or what his injuries were?
MR. BARCH: I object. She said he didn't describe it to her.
BY MR. MAST:
Q. Well, in any way that he described his injuries or the accident did he ever make you feel uncomfortable like he was trying to make more out of it than he should?
A. No.
Q. Okay. So we talked about your first visit with him at his house for an hour. We talked two weeks later the telephone call for a few minutes and all he said was he is doing okay and that was about all that was discussed, right?
A. Right.

Q. No specifics regarding the accident?
A. Okay.
Q. Then the third and final conversation you had with Paul was in person, correct?
A. Yes.
Q. September, 2011?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. And where was that?
A. At my house.
Q. So he came over to your house?
A. Yes.
Q. Was he alone?
A. Yes.
Q. Was anyone else other than you and him present?
A. Just me and him.
Q. Okay. And how long was that conversation?
A. Well, he wasn't there too long. He was taking a tiller off the back of his truck by himself that's two and a half feet off the ground.
Q. Off the back like a pickup truck?
A. Yeah. The vehicle that Mike came in here. I

don't know what you would call it. It's like a suburban and he had a flatbed on the back of it attached.
Q. He had a trailer on it?
A. Yes. A flatbed.
Q. And the tiller was it one of those garden tillers?
A. No. It was a big tiller.
Q. Well --
A. It's not a Mantis. A Mantis is a little tiny thing. This is a full size tiller, probably about this wide.
Q. Three feet wide?
A. Yes.
Q. Does it have wheels?
A. Wheels? You mean --
Q. Does it have wheels to roll it on?
A. Yeah. When you have to till, you got to have wheels. Okay. It got wheels on it. It's a tiller, yeah.
Q. All right. Do you know how much it weighs?
A. I asked him if he needed help.
Q. That's not what my question was.
A. No. I don't know. It probably weighed,

what, 200 pounds at least.
Q. Okay. Had you ever lifted it or moved it around yourself?
A. No.
Q. Who was going to use it?
A. Paul used it at his house to till his garden.
Q. Who was going to use it at your house?
A. He brought it back to my house so David could pick it up and bring it back to his house.
Q. So Dave was going to use it?
A. It was his.
Q. It was Dave's tiller?
A. It's Dave's tiller.
Q. So apparently Dave had let Paul use it before the accident, right?
A. No. It was after the accident. He had a big garden. It was time to till the garden --
Q. You are not letting me take you through this because I got to ask the question before you are answering me otherwise your answer doesn't mean anything.
A. I know. Okay.
Q. Do you know when Dave first lent this tiller to Paul?

A. Probably the beginning of September I'd say.
Q. Do you know that for sure?
A. I am only basing it on the fact that the garden was done and he wanted to till up his garden.
Q. Who is "he"?
A. Paul wanted to till up his garden and he asked David if he could use his big tiller.
Q. Do you know when Dave asked or when Paul asked Dave to use the big tiller?
A. Beginning of September maybe.
Q. Why? Were you there when Paul asked Dave that? How do you know that?
A. He brought the tiller back from his house the day --
Q. Paul did?
A. -- that David had borrowed him.
Q. I need names so I know who you are talking about.
A. David's tiller he borrowed to Paul to till up his garden.
Q. This is my question: Do you know when Paul borrowed the tiller?
A. In the beginning of September.
Q. How do you know that?

A. Because David said that Paul had the tiller.
Q. Okay. That's what I am trying to find out.
A. Okay. All right.
Q. So your -- the basis for what -- your thinking that Paul used the tiller beginning in September of 2011 was what Dave told you, right? You didn't have direct knowledge of that. You just knew it from Dave, right?
A. Right. I just knew that Paul had it. Right.
Q. Okay.
A. Yes.
MR. BARCH: Just, Carolyn, you don't have to feel bad if you don't know when he got it or how he got it. It's okay.
MR. MAST: It's not a big deal. I am just trying to find out.
THE WITNESS: Okay. So probably. Yeah.
MR. MAST: I am just trying to find information out.
BY MR. MAST:
Q. Okay. All right. So what you are saying is sometime in September Dave said Paul is borrowing my tiller, is that what you are saying?
A. Right.

Q. Okay. When Paul began to use it, you don't know, right?
A. No.
Q. You don't know who was using it over at Paul's house?
A. No.
Q. You never saw Paul use it, did you?
A. No. No.
Q. So who used the tiller over at Paul's house you don't know?
A. No, I don't.
Q. Okay. But Paul brought it back to your house to return to Dave, correct?
A. Yes.
Q. And that was in September, 2011?
A. Correct.
Q. Okay. And how long was Paul at your house that day?
A. I don't know. Not long. A few minutes maybe.
Q. What's that mean, a few minutes?
A. Okay. 15 minutes he was there.
Q. Was he inside your house or just outside?
A. He was outside.

Q. During the 15 minutes he was at your house, were you with him that entire time?
A. Yes.
Q. Was anybody with him at that time?
A. No.
Q. So just you and him again?
A. Right.
Q. Okay. And that visit was meant only for Paul to drop off the tiller?
A. Correct.
Q. Okay. Did you and Paul engage in any conversation about the chain saw accident, how it occurred or his injuries as a result of that?
A. No.
Q. Okay. So the only conversation that you had with him pertained to returning the tiller?
A. Yes.
Q. Okay. And what was said then regarding that issue?
A. I just said that tiller looks awfully big and it's pretty heavy. I says would you like me to help you take it down and my husband I believe was not home at the time so I was there and he says no. It's okay. I can do it.

Q. Okay. Were you there when he took it down?
A. Yes.
Q. Okay. How high was the trailer off the ground? About a foot and a half, foot maybe?
A. About two feet maybe.
Q. About two feet?
A. Yeah.
Q. Okay. And is there a ramp off of the trailer or does he have to roll it off or how does he get it off?
A. There was no ramp.
Q. Okay.
A. It was just the flatbed, you know.
Q. So how did he get it off then?
A. He picked it up.
Q. Okay. He picked the whole tiller up with both arms?
A. He picked it up, yeah. How else do you pick up 200 some --
Q. Listen, Carolyn, I am just trying to find out. I am not going to assume anything so don't get upset with this but I have to go through the steps of what happened, okay?
A. Uh-huh.

Q. You watched him pick up the tiller?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. I need a yes or no, okay?
A. Yes.
Q. Did you watch him pick it up with both arms?
A. Yes.
Q. Okay. Did he wrap his arms around the engine and the wheels or just around the top handlebars?
A. Like that. Around the engine and the top so he could get it down.
Q. Okay. Was the engine of the tiller up by the edge, the rear edge of the trailer when he picked it up or was it in the middle of the trailer? Where was it?
A. It was towards the back.
Q. Did he pick it up from standing on the ground or from standing on the trailer?
A. I think he was on the ground and because it was towards the edge so he was on the ground where he could, you know, grab on to it.
Q. So as I understand from you, the tiller is at the end of or the back of the trailer which is an open

ended trailer, right?
A. Correct.
Q. Paul takes his arms and wraps it around from standing on the ground?
A. Right.
Q. Which is a foot or two feet lower than that?
A. Right.
Q. Correct?
A. Right.
Q. Wraps his arms around the engine and the wheels, that whole compartment, picks it --
MR. BARCH: I think she said he grabbed the handle and then the engine at the same time.
MR. MAST: Did he?
MR. BARCH: She reached like that.
THE WITNESS: He put his hand here and here so he'd have leverage to put the thing down on the ground.
BY MR. MAST:
Q. Here and here, I don't know what that means. Hold on. I need to follow this up with a question, okay?
Where was Paul's left hand or arm with regard to the tiller when he picked it up? Was it on

the engine part of it or was it on the handle or where?
A. I'd have to -- I don't know.
Q. Or don't you know?
A. I don't know. I know he had to use both hands to take it down.
Q. Okay. Where was his right arm when he picked up the tiller, on what part of the tiller?
A. Towards the heavier part.
Q. His right arm.
A. Where the engine is at, you know.
Q. Okay. You don't know where his left arm was but his right arm was by the heavier part of the engine?
A. Yes because, let's see, if I was standing in my driveway, yeah, and his back was that way, his right arm was here and the other arm would have been up.
Q. Up where, on what?
A. Well, towards the handle part of the tiller. It was like a bar.
Q. When you were looking at this, were you watching him do it?
A. Yes.
Q. What part of his body was facing you when he

was doing this?
A. His face was facing me. He was facing -- I was looking like I am looking at you.
Q. Right.
A. Okay. And --
Q. So let me stop you. So he had his pickup truck with him, right?
A. Uh-huh.
Q. Yes? I need a yes or a no.
A. Yes.
Q. The trailer was on the back of the pickup truck and he pulled into your driveway, right?
A. Right.
Q. And you are in the front of the house looking toward him, right?
A. Yes.
Q. So if he is at the back of the trailer, you are saying he'd be facing you, right?
A. Right.
Q. Okay. And then he'd have his left arm up somewhere maybe by the handles and his right arm surrounded the engine of the tiller, right?
A. Right.
Q. And then did he just pick it up?

A. Yeah. He picked it up and put it on the ground.
Q. Okay. How high off of the bottom of the open trailer did he pick the tiller up?
A. I am not quite sure.
Q. Okay. Then did he just shift himself around and let it straight down after he moved over from above the trailer?
A. No. He didn't -- He lifted it off and put it on the ground.
Q. That's what I am saying.
A. Yeah.
Q. When he lifted it up, did he back up ten feet? Did he just turn around and twist himself and drop it next to him? How did he drop it to the ground?
A. I don't remember the exact procedure.
Q. Okay. Okay. But after he picked it up and moved away from the trailer, he put it back on the ground then, right?
A. Right.
Q. Okay. And then what did he do with it?
A. And then we put it in the garage.
Q. "We put it," who put it?

A. I think he pushed it into the garage for me.
Q. On its wheels?
A. Yeah. On the wheels.
Q. Did it have rubber wheels, plastic wheels? What kind of wheels did it have?
A. It has rubber wheels on it I believe.
Q. And who has that tiller today?
A. David.
Q. Okay. Again, that visit in September, 2011 where Paul was dropping off the tiller never included any conversation about the chain saw accident or his injuries, correct?
A. No. No.
Q. Is that correct?
A. Yes. Uh-huh.
Q. So you have now told me everything, every communication and every visit that you have had with Paul since his accident, correct?
A. Right. Correct.
Q. At no time then did Paul ever describe for you how the specifics of the accident occurred; is that correct?
A. Correct.
Q. Okay. Okay. And how long have you known

Paul?
A. Ever since he was in high school.
Q. So for over ten years?
A. Ten years. Paul is 45 and I have known him ever since he was probably 18 or 17.
Q. So over 20 years then. Have you always known him to be a trustworthy, credible person?
A. Yeah. As far as I know, yes.
Q. Do you today -- And I know the lawsuit is here so I understand. That's fine. And you are kind of a defendant in the lawsuit so I get that but if you put the lawsuit aside, do you still consider him a friend or are you thinking of him in more negative terms now because of all of this?
A. Negative.
Q. Why do you think of him in negative terms other than the fact that you are named in a lawsuit? What's the reason?
A. Because, I mean, it happened as a bad accident of course and you know --
Q. Wait. It happened -- What?
A. It happened as a bad accident but when I heard from the ER on how the injuries went and then as time went on, many months went by, it wasn't until

December we knew that Paul had gotten your services that there was anything that would come to this recourse and he never said anything to me about the accident either thinking that his arm, you know, might just -- you know, thank God it was okay and then all of this came out, so.

Q. I mean, you are not a doctor and I am not a doctor --

A. No.

Q. -- and I guess we have to defer to what they think.

A. Uh-huh.

Q. What you are basically saying is you thought it was just a relatively small injury, right?

A. What about EKGs?

Q. Again, I am not going to get into the --

A. Medical. Forget that.

Q. -- into the medical. All I am asking you is -- My question is: Why are you now kind of feeling negative toward Paul today? What is the issue? Is it because you thought this wasn't much of an injury or you just don't think Dave did anything wrong or what? What is the reason?

A. Well, usually I have had those tests done.

Q. Listen, I don't want to get into all that.

A. It's because of the testing that he had done it proved that he didn't have any nerve damage done at one point and then along the way it all happened and then he --

Q. So your negative feelings toward Paul today is because you think that the medical treatment that he is getting isn't related to this accident but he thinks it is. Is that what you are saying?

A. I am saying that his EKG that he had done to prove nerve damage didn't show positive, so.

Q. That's up to his doctors to talk about.

A. Oh, I see. Okay.

Q. That's not him. He is not a doctor. He is not going to testify to his EKG. You know --

A. Okay. Fine.

Q. He doesn't know --

MR. BARCH: Carolyn, slow down. Answer the question. He wants to know why you view him negatively. Is it just because of the lawsuit and his claimed injuries or is there something more?

THE WITNESS: It's just the claim from the lawsuit.

BY MR. MAST:

Q. The injuries?

A. Yes.

Q. The injuries issue, right?

A. Right.

MR. MAST: Okay. I don't have any more.

MR. ACCARDO: I got nothing.

THE WITNESS: He probably had enough of me already probably. Good thing I ran out of water.

MR. BARCH: Hold on one second.

MR. MAST: How do you feel about me, negatively?

THE WITNESS: I don't feel negatively about any of you guys. I am just glad I am not a lawyer, I am not a doctor, I am not a police officer.

MR. BARCH: Let's not talk about things that are not associated with the deposition on the record at least.

THE WITNESS: Okay.

EXAMINATION

BY MR. BARCH:

Q. With respect to the tree branches, the size of the trees, the size of the branches that were being cut, those were all estimates that you gave, correct?

A. They were, yes.

Q. You didn't go out there and measure any of this stuff?

A. No.

Q. Okay. And with respect to David using the chain saw that day that Paul was injured or the day he cut the apple tree up or the day he cut up the branches from that larger tree, did you feel that you had any skill that you could give to him? Did you feel you could teach him anything about the use of chain saws because you had never used one?

A. No.

Q. Did you at any point see anything in connection with David's use of a chain saw that was a concern for you based upon what you did know, if anything, about using chain saws?

A. No.

Q. Was there anything about the way David was using a chain saw that you suspected was dangerous?

A. No.

Q. Did you feel like -- Knowing that Paul was out there that day, knowing that David was out there the day he, Paul, was hurt, did you believe there was any -- did you feel compelled to tell them that they could be hurt by a moving chain blade?

A. No.
Q. Did you think that -- did you believe that was something obvious?
A. Right.
MR. BARCH: That's all I have.
MR. MAST: Okay.
MR. BARCH: We are going to probably reserve signature on this one.
(FURTHER DEPONENT SAITH NOT.)

(Witness sworn.)

MR. MAST: All right. This is the discovery deposition of David Gagnon taken pursuant to notice in accordance with the applicable rules.

WHEREUPON:

DAVID A. GAGNON,

called as a witness herein, having been first duly sworn, was examined and testified as follows:

EXAMINATION

BY MR. MAST:

Q Mr. Gagnon, I'm Hans Mast. I represent Paul Dulberg. I'm going to ask you some questions regarding this chain saw incident. Start out with some background information. I just want to make sure -- And I imagine you've never given a deposition before; is that correct?

A I have on my own behalf. I was in a car accident several years back.

Q Okay. So you know the process?

A Fairly well, yeah.

Q Okay. So really the process is simple. Questions and then you answer the questions and we go back and forth until we're done, okay?

A Okay.

Q I want to make sure, though, that your answers are responsive to my questions. So if you don't understand the question, let me know. Otherwise if you answer it, we're all going to assume that you understood the question, okay?
A I understand.
Q Okay. Let's see what else. You're aware obviously of Paul's accident that this case is all about that happened, I think, at your parents' house during some chain saw work at their house? You're aware of that?
A Yes, I'm aware of that.
Q Okay. And I believe, and you can correct me if I'm wrong on anything obviously, but I believe it happened June 28th, 2011? Does that --
A Yes.
Q -- sound right?
A Yes, that sounds correct.
Q Okay. Do you remember what day of the week that was?
A No, I do not.
Q Was it Saturday or Sunday?
A No, it was not. It was during the week, I'm quite sure.

Q Okay. I'd like to start now and go through some background information. So why don't we start with this: What's your date of birth?
A 4-3-67.
Q And that makes you how old today?
A I am 45.
Q Are you employed today?
A I am self-employed as I have been my entire life.
Q What are you self-employed in doing?
A I do auto restorations and collision repair.
Q Do you do that under your own name?
A I do that under the name of Dave's Auto Body.
Q At home?
A Yes.
Q Is that an incorporation or some type of formal --
A No.
Q -- organization?
A No. No.
Q Okay. How long have you been doing auto restoration and collision repair under Dave's Auto Body, under that name?
A Probably 20 years.

Q Has it always been full-time?
A I would have liked it to have been. As work comes, I work on that; otherwise, I fill the void with other things that I can perform.
Q All right. Have you had to fill the void with other things in the last ten years?
A Yes, and I have been employed with other people in between.
Q Okay. So we'll get to that in a minute, then, okay?
A Okay.
Q What is your current address?
A 39010 90th Place, Genoa City, Wisconsin.
Q So that's right over the border here to the north?
A Yeah. 53128 is the zip.
Q Who do you live with there?
A My wife.
Q What's her name?
A Pamela.
Q Anybody else live at that address?
A No.
Q Do you have any children?
A No, I do not.

Q And your Social Security number?
A In full?
Q Yes.
MR. CALLAHAN: Can we do this off the record then?
MR. MAST: We can do it off the record.
BY MR. MAST:
Q Let's say on the record, what are the last four digits?
A 2535.
Q 2535?
A Yes.
MR. MAST: Okay. Give it to us off the record now.
(Discussion off the record.)
BY MR. MAST:
Q Did you give us your --
MR. CALLAHAN: Back on the record?
MR. MAST: Back on the record.
BY MR. MAST:
Q Did you give us your full Social Security number off the record?
A Yes.
Q Okay. All right. Do you have any criminal

convictions on your record in the last ten years?
A No.
Q How long have you known Paul Dulberg?
A 35 years.
Q And 35 years, how did you meet him?
35 years --
A Riding bicycles in a place we had deemed called the mini trails.
Q So were you neighbors, or ...
A We lived close by. He lives in Pistakee Terrace, my mother -- or my mother lives in Pistakee Terrace; he lives in Pistakee Highlands which is about, I would say, a quarter mile maybe away from one another.
Q And the mini trails were by your mother's house?
A They were closer to his home.
Q Closer?
A They were closer to his home. They were just down the road from his home.
Q Okay. And since you kind of met at the trails and you became -- a friendship arose?
A Yeah. Yes.
Q Okay. Has that friendship been in pretty

good standing since then till today?
A Yes, and as of right now I don't know where it stands. I have not spoken with him as I was directed not to.
Q Fair enough. But at least in your mind is it still in good standing -- Hold on. Let me just finish the questions. Is your friend- -- At least in your mind, is your friendship still in good standing with Paul Dulberg today?
A No.
Q Okay. And is that because of the suit?
A Yes.
Q Okay. Fair enough. Understood about that.
Until the suit was filed, okay, was your friendship with Paul Dulberg in good standing?
A Yes.
Q Had it been all the way for those 35 years until the suit was filed?
A Yes.
Q Okay. So there was never any times where your friendship was seriously tested over that 35 years?
A No.
Q Is that correct?

A That's correct.
Q Okay. And you can correct me if I say something that's not accurate, but so is it my feeling, even though you don't know what Paul's view of your friendship is, this suit being filed against you has brought negative feelings in your mind about your friendship?
A Yes, and only recently, if I may.
Q Okay. Go ahead.
A At first when it had arisen, this situation, we were still talking to one another and I was freely submitting both insurance information, whatever he requested because, you know, there wasn't a problem at that time. But things turned as Paul had said some things that didn't really go well with me.
Q You mean in his deposition or somewhere else?
A Personally to me.
Q Well, if -- I guess I've got to ask you what those things were then.
A Okay. After bringing him to the hospital after this occurrence took place with his vehicle, we had left. Myself still being very (inaudible) and my heart being concerned as to his condition because he's my friend, he turned to me just leaving the hospital

and said that we can make a lot of money at this.
Q Okay. Was anybody else present during that conversation?
A No. No.
Q Was that in your car on the way from the hospital?
A That was in his vehicle immediately leaving the hospital and still in the parking lot at the hospital.
Q Was that the same day of your accident -- of his accident?
A Yes.
Q Okay. So that would have been June 28, 2011, he was discharged out of the hospital and he was in his car?
A Passenger's seat; I was driving, yeah.
Q Okay. Did you not have a car at the time or something?
A No. His vehicle was at my house -- my mother's house, I should say, where the occurrence happened; and when we left, he said, Just take my car, so we took his vehicle to the --
Q All right. Let me stop you because I understand what you're saying. You're saying after

his injury you drove his car with him as a passenger to the hospital?

A Yes.

Q He got treated, discharged, and then you were back in his car going back to your mom's house?

A Never left the parking lot and he said that.

Q No, I understand that --

A Yes, but that's --

Q -- but that's where you were going?

A Yes. Yes.

Q All right. Let's try not to -- I'll try and won't talk over you; you try not to talk over me.

All right. So you're leaving the hospital still in his car on the way to your mother's house, right? Right? That's on the way? That's where you were going?

A Right, that's where we were going, but we still had not left the parking lot.

Q All right. I didn't say anything about where you were. I'm saying you're in the car on the way to your mother's house, right?

A Yes.

Q Okay.

A Yes.

Q But before you left the parking lot, you're in the car in the parking lot of the hospital and that's when he made that statement?

A Yes.

Q Did he say anything else during that conversation that you -- that you didn't like?

A No.

Q Okay. So that was the extent of anything that he said about financial aspects of this case?

A Yes.

Q Is that the only time he said anything about financial aspects of this case?

A No.

Q When is the next time he said anything like that?

A I had visited him shortly after because we were still in friendship, and I stopped in his home, and ...

Q How soon after the accident?

A Oh, this is about three or four months after the accident.

Q Okay.

A It was -- Now, I remember it was cold. It was winter so I can't say exactly what day, but I was

leaving and he had mentioned that, This may possibly be the best thing that could happen to me because I won't have to work the rest of my life.

Q Any witness to that conversation?

A Yes, Michael Mcartor.

Q Who?

A Michael Mcartor, who lives with him.

Q How do you spell the last name?

A Capital M small C, Artor, A R T O R or E R; I'm not quite certain of that spelling, but he resides with Paul there at his home.

Q Where Paul's living now?

A Yes.

Q Okay. And where did that conversation take place four months after the accident?

A In his kitchen where -- In his kitchen.

Q And the extent of this conversation regarding the financial aspects that we're talking about is that he said, This might be the best thing that happened to me, and what else? Was there anything else?

A Because I may not have to work another day of my life.

Q Because I what?

A May not have to work another day of my life.

Q Did he say anything else during that conversation now about the financial aspects of this accident?

A No.

Q Did he say anything else during that conversation that you found uncomfortable or wrong?

A No. No.

Q Okay. Any other things that Paul has said that you believed were wrong or had some kind of financial component to this accident other than those two that we've -- you've already described?

A There was also another instance where he visited me at my home, I believe it was in 2012 when things were going along here; we were still in conversation with one another.

Q Okay. Let me just stop you. After the suit was filed or before the suit was filed?

A It was after the suit was filed, yeah.

Q Okay.

A And he was not -- if not coaching me, reassuring me that if I did make it easier, shall we say, or ... that I would be awarded something for my cooperation in it.

Q Was there any witnesses to that

communication?
A No. No.
Q Did he say how you would be awarded?
A No.
Q Did he promise to pay you anything in exchange for your testimony?
A Yes.
Q What did he promise to pay you?
A $10,000.
Q What did he say?
A If he got a hundred thousand dollars.
Q What was the -- I need to know the exact wording of that communication so that we all can understand what he said.
A If this goes well for me, I wouldn't have a problem with giving you $10,000 if say I was to get a hundred thousand dollars.
Q Okay. Did he, though, make that hundred -- that $10,000 conditional on what you would say or just said, If it goes well for me, I'll give you 10,000 out of the hundred thousand?
A He didn't place conditions on it.
Q Okay.
A I was assuming.

Q Okay. Fair enough. That's very honest of you. I appreciate that. This is my question then -- Well, let me go further. Did he say anything else during that conversation in 2012 about anything you felt was inappropriate or uncomfortable for you or related to financial interests that he was --
A No.
Q -- talking about?
A No, he did not.
Q Okay. Any other conversations with Paul now? We've talked three different incidents now so I want to make sure I've talked about everything. Is there any other conversation you've had with Paul or contact with Paul regarding any uncomfortable or uneasy conversations or things he said relating to either financial interests or some other component of the suit or claim?
A There was one time where he came up and he was asking for information, which I gave him, my insurance.
Q When was this? Just give me a date so I know how to ...
A I cannot supply you with a date. I could say that it was before that last incident that I just

spoke of of the hundred thousand and $10,000 offering there.
Q Was it after suit was filed or before suit --
A It was after the suit was filed.
Q Okay.
A And he showed up at my residence with an iPad, which he's into techy things, things like that, and I wasn't aware that there was a camera on front and back but I was aware that there was a camera that was on and he was showing me what was being viewed on the screen, and then we proceeded into our house and it was on again. He was showing me how you can look at the front and the rear screen and me not being of much interest of this device, I just told him, Could you shut that thing off. I felt as though I was being inventoried.
Q Okay.
A So that would be the only other issue.
Q Okay. Fair enough.
A Yeah.
Q I appreciate that. Did he say or do anything that you felt was wrong or inappropriate regarding the case in and of itself?
A No.

Q Okay. Nothing about financial interest --
A Not that time, no, nothing.
Q Okay. Do me a favor, and you're doing very good so far, but you were just kind of cutting me off the last --
A I'm sorry.
Q -- part of my sentence and I want to make sure you understand the full thing I'm going to say, okay? So let's try not to cut each other off.
All right. So at least, and you can correct me if I'm wrong, as I understand it, there are just three conversations where Paul made any statements that felt -- that made you feel uncomfortable pertaining to financial parts of the lawsuit?
A Yes.
Q Okay. Or the claim; fair enough?
A Yes. Yes.
Q And that was the day of the accident where he made that one-sentence statement, correct?
A Mm-hmm.
Q Yes?
A Yes. Yes.
Q And that was four months later where he made

that statement about, This could be the best thing that could happen to me because I might not have to work the rest of my life?

A Yeah.

Q Yes?

A Yes.

Q And then there was the last thing that was in 2012 after suit was filed where he said -- although he didn't condition it, he said, Hey, if I get a hundred thousand, I'll give you $10,000 of that?

A Yes.

Q Right?

A Yes.

Q Okay. And would it be fair to say, including that last 2012 conversation, he never said, If you do this for me, I'll do this for you; fair enough?

A Yes.

Q Is that true?

A That's true.

Q Okay. So he never -- You could make the assumptions you want, and you're free to do that, okay, but my question is nothing he ever said pertained to having him wanting you to lie for him?

MR. BARCH: I'm going to object. It's

argumentative, but go ahead.

MR. MAST: Go ahead.

MR. CALLAHAN: I'll join that objection.

BY THE WITNESS:

A No, he was blatantly asking me in regards to what he was asking me to do to make it easier for him.

Q Right.

A And making it easier for him would not just be submitting the truth in my judgment, but it would be submitting to what he would want me to say so that it would be easier for him.

Q I understand what your judgment is.

A Yes.

Q This is what I'm questioning, though. My question is what he said to you, okay. You can take any assumptions you want from what he said to you; you're free to do that, okay. My question, though, is did he ever tell you that he wanted you to lie for him?

A He did not say he wanted me to lie for him, no.

Q Okay. You took that from an inference of what else he said that you've already told me, right?

A Yes.

Q Those were inferences you made from what he told you, correct?

A Yes.

Q Okay. Did you ever say, Hey, do you want me to lie for you -- Well, let me put it this way. I'm going to try to just summarize it.

Is it fair to say he never asked you to lie for him?

A That is correct.

Q Okay. Is it fair to say he never agreed to give you money in exchange for what you would say to him -- say for him?

A There is one more thing that I said that I'm recollecting now.

Q Okay.

A And I said, Well, what would you want me to say, that I was freewheeling a chain saw and I was negligent?

And he said, That sure would make things easy.

Q Okay. And when did he say that, which conversation?

A That same conversation when he spoke of the hundred thousand dollars and the $10,000.

Q So that's the 2012 conversation?

A Yes. Yes.

Q Okay. And what -- So let me get it clear now. The 2012 conversation that we've already talked about was after suit was filed?

A Yeah.

Q It says, If you would -- What you're saying he said is if he would be awarded something, say a hundred thousand dollars, he would give you $10,000 of it, right?

A Yes.

Q And now you're adding on to what else did he say?

A He -- I said to him, Well, what would you expect from me? What would you want me to say, I was freewheeling a chain saw and I was negligent? I said I would not do that. I'm going to tell the truth. And that's basically where our friendship -- I haven't spoke to him really very much or been with him or conversed with him since then.

Q All right. You're going a little further than what I'm asking, though, but that's fine. My question was, what more did he say and you told me what you said, all right, so let's just go straight

with what I'm asking. I'm asking other than, Hey, if I get a hundred thousand dollars, I'd be glad to give you $10,000 of that, other than Paul saying that, what else do you recall Paul saying in that 2012 conversation at your house?

A Nothing.

Q Oh, okay. It was just what you said then?

A That's what I said after. I sufficed by way of example, Is this what you would want?

And he said, That sure would make it easy.

Q Well, then that is something that he said. Listen, this is what I'm trying to get at, I'm trying to find out what he said, okay?

A Okay. He said nothing in response to that except he said, That sure would make it easy.

Q All right. You're interrupting me again. Let's go back at it again.

A Okay.

Q I want to go step by step because I want to try to find out everything you're going to say. I don't want there to be any stones unturned, okay?

A Yeah.

Q You told me that in that 2012 conversation he

said, If I get a hundred thousand dollars, I'd be happy to give you $10,000 of that. Is that what he said?

A Correct, that is what he said.

Q Okay. In response to that, what did you say?

A I said, What would you want me to say, I was freewheeling a chain saw and I was negligent? I said, I will not do that.

Q Okay. All right. Stop. That's what you said, okay. And then what did he say in response --

A Nothing.

Q -- to that?

Okay. Nothing, right?

A Nothing.

Q Okay. Because I thought you said that he said, Well, that would make it easier.

A Correct. I'm sorry. That was his closing statement after I said that.

Q So he did say something?

A Yes, he did. I'm sorry.

Q Okay. So let's go through it again now.

A All right.

Q Because I want to make the chronology, I want to make that correct, okay?

A Okay.

Q In the 2012 conversation at your house you said that Paul made a statement that, If I get a hundred thousand dollars of this, I'll give you -- I'll be happy to give you $10,000 of this -- of that. Is that what he said?

A Correct.

Q Okay. In response to that you said, What do you want me to say, that I was freewheeling and negligent? I will not do that. Was that your statement?

A That was my --

MR. CALLAHAN: I thought he said freewheeling a chain saw and that I was negligent.

BY MR. MAST:

Q Okay. Is that what you said?

A Yes.

Q Okay. And then in response to that, what did he say?

A He said, That would make it easy.

Q Okay. Did he say that's what he wants you to say or did he just say those words?

A He just said those words.

Q Okay. Is that all he ever said then after

that conversation at the end of that conversation?

A Yes.

Q All he said was, That would make it easy?

A Yes.

Q Okay. All right. So we've got three conversations, one on the day of the accident where he said, We can make a lot of money at this, right?

A Correct.

Q That's all he said during that conversation that was uneasy or uncomfortable or financially motivated, correct?

A Yes.

Q Okay. Second conversation four months later, you visited him at his house, right?

A Yes.

Q And he said, This may be the best thing that happened to me; I might not have to work the rest of my life?

A Yes.

Q Is that all that he said that was uneasy or uncomfortable or related financially to this case?

A Yes.

Q And the third thing was 2012 where he said if he gets a hundred, he'd give you ten and then you

said, Well, what, if I say that -- What do you want me to say, if I'm wheeling it, the chain saw, and negligent?

And he said, Well, that would make it easy.

Is that everything out of that conversation that was uneasy, uncomfortable or financially related?

A That is all, yes.

Q Okay. Have you now --

MR. CALLAHAN: Can I object? I think he did leave off that one comment, I'm sorry, the one he said, I won't do that.

BY MR. MAST:

Q Okay. Yes, and you also said you wouldn't do that after you --

A I said that I would not do that, yes.

Q After your con- -- After your response to what he said, you said, I would not do that?

A Yes.

Q Okay. Have we now covered everything that you and Paul talked about after the accident that made you feel uncomfortable, uneasy or financially related to this accident?

A Yes, that would be all.

Q Okay. Very good. That wasn't too hard.

A No.

Q Oh, one final question on those things.

A Okay.

Q Were there any witnesses to either of those three conversations other than you said the --

A Michael Mcartor.

Q Michael Mcartor was a witness to the second one four months after the accident?

A Yes, which was at Paul's home in his kitchen, yes.

Q Right. Any other witnesses to any other parts of those communications?

A No.

Q Just you and Paul and then the second conversation was with Michael?

A Correct.

Q Okay. Are you friends with Michael? Have you ever been friends with Michael?

A I've been friends with Michael probably about 25 years.

Q Are you still friends with Michael?

A As far as I know, yes.

Q Okay.

A This is not related to him.

Q So the reason you're not friends with Paul anymore is after the third conversation in 2012 where you said, I would not do that, and he said, That would make it easy, you haven't spoken to him since; but in your mind it's not friendly because of what you thought he was asking you to do?

A Yes.

Q Fair enough?

A Yes.

Q Do you know in his mind if he thinks you're still friends?

A I do not know.

MR. CALLAHAN: I'd just object as to relevancy and as to speculation.

BY THE WITNESS:

A I don't know.

MR. BARCH: Join the objections.

BY THE WITNESS:

A I haven't spoken to him. I don't --

Q Hold on. Just let them give the -- All right. They objected.

MR. CALLAHAN: You may answer.

BY MR. MAST:

Q What's your answer to that question? Do you know in Paul's mind whether he thinks you guys are still friends or not?

A I do not know. I have not conversed with him in quite a while now.

Q All right. And then that fourth thing that you talked about didn't really have to do with any statements but he had an iPad and it looked like he was videoing or something. He didn't do anything wrong during that; you just weren't sure what he was up to, right?

A Right.

Q Okay. That didn't have anything to do with any statements or anything; fair enough?

A Fair.

Q Okay. So we've covered all the statements that Paul made that made you feel uncomfortable?

A Yes.

Q Okay. All right. How long have you been married?

A I've been married since 2008, August 16th.

Q Okay. Does your wife Pamela know Paul?

A Yes.

Q On a -- like a friendly basis or just sees him every now and then? I mean, how would you describe her knowledge of Paul, just passing?
A He's my friend and is friends with him is the same; there was never anything between us until ...
Q I mean, did she spend as much time with Paul --
A No.
Q -- as you did?
A No.
Q Okay. Her contact with Paul was just passing then? It wasn't where she would do anything with him?
A Correct.
Q Is that fair enough?
A Yeah, correct.
Q Okay. And she doesn't have any knowledge regarding any communications Paul made regarding the incident that were uncomfortable or financially motivated?
A No.
Q Is that fair?
A That's fair.
Q Okay. Okay. What's the highest level of education you have?

A I was accepted at DeKalb University. I didn't pursue it until its end, and then I went to College of Lake County.
Q You mean Northern Illinois Medical Center -- Northern Illinois University?
A Yeah, DeKalb College.
Q Okay. All right. I know, I'm just trying to connect the dots here.
You were accepted at Northern but you never went there?
A Oh, no, I went there and I just -- because of turns of events in my life, personal, I did not finish, and --
Q All right. But I'm not getting to that point. I'm just --
A Okay.
Q The question was, where did you go to -- the highest level of education, that's the question.
A I was accepted at Northern Illinois University.
Q You weren't just accepted. You went there, right?
A Yes.
Q Okay. How long did you go to Northern

Illinois University?
A Two months.
Q Okay. And what program were you there, just general?
A Program?
Q What type of degree? What program?
A Oh, engineering.
Q Okay.
A Mechanical engineering.
Q Okay. And what year was that, approximately?
A That was 1985.
Q Instead of going to DeKalb or at least after two months of going to DeKalb, where did you go after that?
A I pursued employment as an auto body worker.
Q With who?
A It was called Lakeland Autobody. It was in Volo, Illinois.
Q Are they still together?
A No.
Q How long did you work there?
A Three years.
Q Doing auto body work?
A Correct.

Q Who was your supervisor?
A Owner and supervisor Brian Schuman (phonetic).
Q Brian what?
A Schuman.
Q Schuman?
A Yeah, Schuman.
Q So after two months of DeKalb, you went to Lakeland Auto?
A Mm-hmm.
Q Right?
A Yes, correct.
Q Okay. When did you go to -- You said you went to another college?
A CLC, College of Lake County.
Q When was that?
A I believe that was 1987.
Q Sometime while you were at Lakeland?
A Yeah, I was -- Yes, I was working at the auto body.
Q And how long were you at CLC?
A I want to say six months.
Q Okay. On what program?
A Same, mechanical engineering.

Q Did you finish that program?
A No, I did not.
Q Why not?
A Because I needed to earn money, and I wasn't earning enough doing -- going to school and working.
Q Okay.
A Pretty physical job, auto body.
Q Okay. Any other college education after high school?
A Completed, no.
Q Not -- I didn't say completed, any other college education after high school? Did you go to any other colleges?
A None other than the ones I had mentioned.
Q That's what I'm asking you.
A Okay.
Q You went to NIU and CLC. Any other college?
A No.
Q Okay. Where did you graduate high school?
A Johnsburg.
Q What year?
A 1985.
Q Okay. After Lakeland Auto, which I'm assuming was somewhere around -- when you finished

somewhere around 1988, '89, somewhere around there?
A Finished ...
Q When you finished Lakeland Auto, I'm assuming that was somewhere around '88 or '89?
A Yes. Yes.
Q Okay. Where did you go after that?
A I became self-employed performing the same.
Q To the present date?
A Yeah.
Q Okay.
A Yes.
Q Okay. Have you worked for anybody else during 1989 until now other than yourself?
A Yes.
Q How many jobs are we talking, lots?
A One at a machine shop, Swiss Automation in South Barrington, that was between 1999 and 2001, and then just currently last winter working at a place called Advantage Auto Body for three months. They let me go.
Q Where was that?
A That -- I'm not sure what town it is. It's in Wisconsin and about two miles from my home between Powers Lake and Burlington.

Q Okay.
A I'm not sure what town it resides in.
Q And when did they let you go?
A They let me go just at Christmastime last year.
Q 2012 Christmas?
A Yes.
Q All right. Any other employment since high school we have not discussed?
A No.
Q Okay. Do you have any training other than being self-trained on working with a chain saw?
A No.
Q So you're -- Well, let me ask you this way: How long have -- Well, strike that.
How long have you -- Strike that.
When's the first time you operated a chain saw yourself?
A Age 18.
Q Okay. About '85? No, wait. Is that '85?
MR. CALLAHAN: Yeah.
BY THE WITNESS:
A Yeah.
Q Yeah. About 1985 then?

A Mm-hmm.
Q Yes?
A Yes.
Q Yes. Okay.
Whose chain saw was that that you operated first?
A I do not recollect. We were camping, and I picked up a chain saw and was cutting firewood for the group that was there.
Q Okay. Was Paul with you at the time?
A No.
Q Okay. Have you ever owned a chain saw?
A Yes.
Q Okay. Do you own one now?
A No.
Q Okay. During what period of time did you own a chain saw?
A Oh, 2000 till 2004.
Q And for what reason did you own it and then no longer own it during those four years?
A A friend had garbage-picked it. It was an old really big chain saw that I rebuilt. I used it several times and then I sold it at a garage sale along with another unit that was just like it.

Someone wanted to fix up theirs too, so ... It was an old David Bradley chain saw; it was a very old model.

Q Wait, I missed some of that. You said you had one that you got from a friend from a garage sale but another, what was the other one?

MR. CALLAHAN: No.

MR. MAST: Sorry.

BY THE WITNESS:

A No, I had -- I had one that I operated and then I picked one up at a garage sale.

Q So you had two of them?

A Yeah, I had two of them, and I sold them both at the same time, yeah. One worked and one didn't.

Q And that was from 2000 to 2004?

A Correct.

Q Okay. During 2000-2004, did you use those chain saws on any type of continual basis?

A No.

Q They were just there for -- because you had fixed them up and you just kind of liked to have them around?

A No, they were very useful because they were large and I used them on my property to trim off a large maple branch that had fallen.

chain saw they brought to the camping site and you used them to cut up for camping wood?

A Yes.

Q Okay. And then beginning of 2000 you would use them a little bit more frequently because it was yours and you were using it on your property?

A Yes.

Q Okay. Do you have some type of forest or something on your property that you use it for, or ...

A No, I have negligent neighbors that when trees fall, they don't --

Q Okay.

A -- they don't really seem to attend to them, so I opted to do the clearing myself.

Q Okay. So you clear up a tree here and there?

A Yeah. Yes.

Q And I know there's no way -- easy way to do this, but I still have to ask the question. From 2000 to 2004 what would you estimate the number of times you used a chain saw?

A Three times.

Q All right. So up until 2004 the total times you used a chain saw was about 15 times?

A Correct.

Q Oh, so you used them?

A I used the one that was working. The other one was not operational.

Q The one that was working that you owned from 2000-2004, the one chain saw that was working, you used only for your own personal use on your personal property?

A Yes.

Q Had you used a chain saw from 1985 until 2000?

A Yes.

Q Whose chain saws?

A Once again, I'm a camper and there would be a time when I would just elect myself to cut the wood, I just ...

Q Let me ask it this way, maybe it will be easier, because I know these aren't all easy questions. Before 2000, okay, when you first got your own chain saw, how many times would you have operated a chain saw over the 15 years?

A At least a dozen times.

Q Were they all during camping trips?

A Yes.

Q Okay. And they were all somebody else's

Q Okay. All right. From 2004 until this accident in June of 2011, how many times did you use a chain saw?

A Four times.

Q And whose chain saw was it?

A The first time was a friend's, on his property; second time, again, camping; third time on my property, and the fourth and final time was at my mother's place.

Q Now, when you say your property, whose chain saw was it?

A That would be my friend Mike.

Q The first -- The first -- Well, okay. That would be the same friend that you operated the chain saw on his property the first time that you were spelling these out?

A After the 2004, yes. Yes.

Q Yeah. So beginning in 2004 when you no longer owned a chain saw, the first time you used it after that was with a friend at his house?

A Yes.

Q And that's Mike's?

A Yeah. Not Mike Mcartor.

Q No, I --

A Okay. I'm just clarifying.
Q That's fine. Okay. Second time was out camping cutting up firewood?
A Correct.
Q Third time was at your house with Mike's chain saw?
A Yes.
Q And fourth time was at your parents' house?
A Yes.
Q Okay. And was that fourth time at your parents' house the day of this incident or before the day of this incident?
A It was the day of that incident.
Q Okay. So if I were to -- and I know this isn't the easiest thing to do, but if the day of the incident was June 28, 2011, when was the last time you used a chain saw before that date?
A Oh. Datewise?
Q Some estimate, yeah. Within a month, a year, three years?
A It was a year.
Q Within a year?
A Yeah, within a year.
Q So it would have been the prior summer maybe?

A Yes.
Q Okay.
A Yeah, a storm took down some branches in my yard.
Q So that third incident after 2004, which you spelled out four times you used a chain saw, that third incident where it was Mike's chain saw on your property was the one in 2010 during the summer?
A Yes.
Q Okay. And then the next time you used a chain saw was on your parents' property on the day of Paul's accident with your parents' chain saw?
A Yes.
Q Okay. Did your parents ever attempt to educate you or train you on how to operate a chain saw at any time in your life?
A No.
Q Up till today?
A No.
Q Okay.
MR. CALLAHAN: Excuse me. You say -- Just to be clear, his parents, do you mean Mr. McGuire and Mrs. McGuire or his father and Mrs. McGuire?
MR. MAST: Okay. So those are two different

answers, I take it?
MR. CALLAHAN: Yes.
MR. MAST: All right. So we'll go through that. We will go through that.
BY MR. MAST:
Q Well, any -- All right. Whether it's stepparents or real biological parents, we'll just put them all in one group, okay.
Whether it's your stepparents or real biological parents, have your parents, meaning either/or, ever attempted to train you or direct you in the proper method or way to operate a chain saw your entire life until today?
A No.
Q Okay. Might as well go through your parents then. Bill and Carolyn McGuire, are they your parents?
A My mother is my biological mother, Carolyn McGuire. William McGuire is not my biological father.
Q Okay. So William McGuire is your stepfather?
A Correct.
Q Is your father -- your natural father living?
A No.
Q Okay. When did he pass?

A 1996.
Q Okay. I'm assuming he had never did anything with you with regard to chain saws; is that fair to say?
A We never interacted in that way.
Q Okay. Did either William or Carolyn McGuire ever interact with you with regard to how to use the chain saw?
A No.
Q Okay. Are your -- So when I say parents, since your father passed and Carolyn is your natural, I'll just talk about Carolyn and William as your parents, then, okay? Is that fair to you?
A That would be fair to me.
Q Okay. Have your parents -- What was I going to ask you? Oh, what do your parents do presently for a living?
A They're currently both retired.
Q Okay. Do you know how long they'd been retired?
A My mother, I believe, two years now. She was employed at Intermatic --
Q Okay.
A -- in Spring Grove, and William McGuire

worked for last Tempest Construction, and he was an industrial commercial drywaller.

Q Okay. To your knowledge -- and, again, we'll probably end up deposing them soon so we'll ask them, but to your knowledge do either of your parents have any expertise or experience in operating chain saws except just, you know, doing it on their own and around the house?

A They never have operated. They bought that tool specifically for that -- the cutting of the trees that needed to be done on their property.

Q And they weren't going to use it then? They were letting --

A No.

Q -- you do it?

A Right.

Q Okay. So they -- The chain saw that you were operating at the time of Paul's accident on their property, your parents' property, that chain saw was purchased by your parents for that particular project?

A I wouldn't say they bought it and then do this, they bought the chain saw because they had known that there would be -- need to be work done --

Q Okay.

A -- and I later was elected to do that.

Q So when they purchased the chain saw -- and, again, I'll ask them these questions, but I'm wondering what your knowledge is, when they purchased this chain saw, your parents, did they purchase it knowing that you were going to use it or just that somebody else and not them were going to use it?

MR. BARCH: Speculation, but go ahead, objection.

BY THE WITNESS:

A I can answer that when they purchased it that they didn't solely purchase it with intent for me to use it.

Q Wait. I missed the beginning of that.

A When they purchased that, they did not solely purchase it for my usage.

Q Okay.

A They had purchased it for trimming of trees on their property --

Q Right.

A -- and then when I was elected or became the person who did the work, I used that chain saw.

Q I understand that. My question has one little branch more to it. My question was, did they purchase it thinking somebody else other than themselves were going to operate that chain saw?

A You would have to ask them that question.

Q So you don't know?

A I do not know.

Q Okay. Fair enough. Had you known either of your parents ever to operate a chain saw before Paul's accident?

A Neither one of them have ever operated a chain saw.

Q You know that?

A I know that.

Q Okay. What kind of -- Are they still living in the same house they were living at the time of the accident?

A Yes.

Q Okay. What kind of property is that if you describe it? Is it like a small little half-acre property, or is it a larger --

A It's a small one, third-acre residential -- what is it called? -- ranch.

Q Okay.

A Ranch home, full basement.

Q How many trees would you say are on their physical third-acre of property, if you had to give me an estimate?

A I'm going to tell you.

Q Okay.

A Currently?

Q Yes.

A Ten.

Q Okay. Prior to the day of Paul's accident, how many trees were on that property?

A 12. Oh, 13.

Q So on the day of Paul's accident, did you take all three of those down then?

A I didn't take any trees down that day --

Q Okay.

A -- or during this occurrence.

Q Okay. I see. Just limbs?

A Yes.

Q Okay. We're going to get to that as we go here. Okay.

So even at the time Paul was injured, there were still 13 trees on the property?

A Yes.

Q But there were less limbs on the property, I take it then --

A Yes.

Q -- at the time of Paul's accident?
A Yes.
Q All right. Who took down those three trees on your parents' property after Paul's accident?
MR. BARCH: I'm going to object to the relevance, but go ahead.
BY THE WITNESS:
A Please reask the question.
Q All right. You said there were -- You said there are ten trees now on your parents' property?
A Yes.
Q And you said at the time of Paul's accident there were 13 trees on the property?
A Yes.
Q So I'm assuming three trees were taken down; is that right?
A Yes. Two were only related to that occurrence, though, and they were pine trees. The other tree that I'm saying is gone was an apple tree that was removed later by, I think, Bill. It was just a small little apple tree that was --
Q All right. Hold on. You're going way too far with my question.
A Okay.

Q My question is --
A Sorry for being all-inclusive.
Q It's okay.
A I know. I'm just apologizing.
Q No, you don't have to apologize, and let me just give you kind of an idea. You're being helpful and open, and I appreciate that. The thing is, though, I'm still going to have to go through those questions again as I go through this so it's not going to cut down the time. So I'm just trying to tell you.
A I'm in no hurry.
Q Okay. The three trees that were taken down since Paul's accident -- we'll get to when and all, who and all that -- who took those three trees down?
A I don't know.
Q Okay. Okay. Before the day of Paul's accident, so before June 28, 2011, had you known Paul ever to operate a chain saw?
A Yes.
Q Okay. How frequently?
A I don't know.
Q How did you know then if he operated a chain saw?
A I've seen him operating a chain saw.

Q Where?
A Camping, on his property, cutting telephone poles that he got for free to make use out of them.
Q Okay. Had you known him to operate a chain saw before the day of his accident in a fairly reasonable manner?
A Yes.
Q He wasn't, like, dangerous swinging it around or anything like that?
A No.
Q Okay. So he would operate it, would you say, in a safe manner before the day of the accident?
MR. BARCH: I'm going to object to --
BY THE WITNESS:
A I'm not qualified --
MR. BARCH: Let me object to the foundation.
But go ahead and answer.
BY THE WITNESS:
A I'm not really qualified to determine what safe is, I mean ...
Q Everyone has their own definition. I'm just asking you under your own belief of what safe is --
A Yes.
Q Let me finish the question. Under your own

belief of what safe is, do you believe Paul operated before the day of his accident, whatever times you saw him, the chain saw in a safe manner?
A Yes.
Q Okay. Had Paul ever seen you operate a chain saw before the day of his accident?
A Yes.
Q Where was that?
A Multiple times camping and also on my mother's property.
Q Well, let's go back then because when I asked you how many times you operated the chain saw after 2004, you only described one time on your mother's property and that was on the day of the accident.
A Does operating -- to clarify it -- include starting or actually cutting wood? Because there's --
Q Fair question but you didn't -- you didn't condition it when I asked you that before so that's why I'm going back.
A Okay.
Q We can -- I'm glad to define it any way you want. I'm just -- You didn't clarify it before so that's why I'm going back.
A Okay.

Q I asked you just recently, just the past question, how many times had Paul -- I'm trying to remember the question. How many times did Paul see you operate a chain saw before the day of his accident, right? I think that was the question. And you said numerous times, I think; is that right?
A Yes. Paul has seen me operate a chain saw before.
Q Before the day of his accident --
A Yes.
Q -- on numerous occasions?
A Yes.
Q Okay. And then you were describing when and under what circumstances?
A Yeah.
Q In addition to camping, those different camping trips, he would sometimes be on camping trips with you?
A Yes.
Q And he would see you operate a chain saw during those camping trips?
A Yes.
Q And you would see him operating a chain saw during those camping trips?

A Yes.
Q Okay. And putting the camping trips aside, had Paul ever seen you operate a chain saw any other time before the day of his accident other than on camping trips? And operate, if you want to know what definition of operate is, I'm happy to tell you that --
A Yes, please.
Q -- in my view but you can define it any way you want. Operate means using the chain saw to cut wood.
A No, starting a chain saw and making sure that it's running. That operating I thought you meant it running, not literally using it.
Q Okay. So let's -- Let me ask the question again now that we have the definition.
A Okay.
Q If we define chain saw operation as operating a chain saw so as to cut wood or cut any other object I guess for that purpose, have you now, based on that definition, ever -- has Paul ever seen you operate a chain saw before the day of his accident other than at camping trips?
A No.

Q Okay.
A No. No.
Q But when I've asked you about you seeing Paul operate a chain saw, you meant and referred to him using the chain saw to cut things, right, that was your answer?
A I've seen him using a chain saw to cut things, yes.
Q Yeah, okay.
A Yes.
Q So before the day of Paul's accident, setting aside the camping trips, Paul has seen you start a chain saw to get it running but not use it?
A Yes.
Q Okay. Under what circumstances?
A It's good to start a piece of machinery every now and then and you may --
Q Where and when? What are we talking about? At your mom's house?
A Yeah, probably in the garage there at my mom's house.
Q Because they had the chain saw?
A No, they didn't have the chain saw then. I'm -- You're talking about the chain saw that was in

the accident?
Q Okay. Let's go back.
A Or are you talking about chain saw in general?
Q Fair enough. Let me ask it this way: Did your parents purchase a chain saw to cut trees in 2011?
A I don't know.
Q All right. The chain saw that you were operating --
A Yes.
Q -- at the time of Paul's accident was your parents' chain saw, right?
A Correct.
Q When did they purchase that chain saw?
A Shortly before the incident.
Q Are we talking if the accident happened June 28th, sometime in June?
A I wasn't there for the purchase. I wouldn't know the purchase date.
Q Okay. Sometime that summer, though; fair enough?
A Yes.
Q Okay. And before they purchased that chain

saw in the summer of 2011, did your parents own any other chain saws to your knowledge?

A No.

Q Okay. So the chain saw that Paul would have seen before the day of his accident, see you start but not operate, would be the chain saw that your parents purchased in 2011 or some other chain saw?

A It would be some other chain saw.

Q Where? Putting aside the camping trips, remember I talked, putting aside that.

A Yes, in my mother's garage.

Q Whose chain saw was it?

A I don't even recollect. I, you know ...

Q Okay.

A It was a piece of machine I was starting to keep it in good working order.

Q Okay. But it wasn't your parents and it wasn't yours?

A That's correct.

Q Okay. How many times did he see you start a chain saw but not use it under your description before?

A I don't know.

Q Couple, maybe two or three times?

A I don't know. I don't know.

Q Okay. At least once; fair enough?

A At least once, yeah.

Q Okay. All right. Have you ever used a chain saw and operated a chain saw, meaning cut things for money in your life?

A No.

Q And, I mean, whether through your employment or through somebody just giving you money to do it, you'd never done it for money; is that fair to say?

A That's fair to say.

Q Okay. The work you were doing, and we're going to slowly get into that now, but the work you were doing for your parents on the day of Paul's injury, June 2011, was that work you were being paid for or not?

A Yes, I was being compensated.

Q Okay. So doesn't that -- isn't that contrary to the answer you just gave me then?

A No --

MR. CALLAHAN: I'd just object to form.

BY THE WITNESS:

A -- because you asked if I did it before that incident.

Q No, I did ever. My word was ever, but I'll say it again. Look it, I just want the truth. I don't care. If you don't understand my question, I'll restate it.

My question before, I think, if you looked at the record, said had you ever operated a chain saw for money. Now, maybe you meant before the accident --

A Yes, I did.

Q -- but I didn't phrase it that way.

A Okay.

Q So let's go back and correct it. Okay. We can do that.

The question is, ever means in your lifetime. Have you ever operated a chain saw for money in your lifetime?

A Yes.

Q Okay. And was that -- the times you did it for money, was that only with your parents?

A That one, yep, the occurrence that we're speaking of, that was the only time that I was paid.

Q The day of the accident?

A The day of the accident.

Q All right. Okay. Before the day of the

accident, had you ever cut -- Strike that. Let me -- Let me get ...

Before the day of your accident, had you ever cut any trees down with a chain saw or limbs, parts of trees, with a chain saw at your parents' house? Before the date of --

A Reask that question.

Q Pardon?

A Could you please reask that question?

Q Okay. Before the day of Paul's accident --

A Yes.

Q -- had you ever operated a chain saw at your parents' house, meaning to cut things?

A No.

Q Okay.

A No.

Q So the day of the accident was the first day in your life you ever operated a chain saw to cut things at your parents' house; fair enough?

A Yes.

Q Okay. All right. So I'm assuming, given that answer, the same answer would hold true for Paul. Paul never assisted and/or operated a chain saw to cut things at your parents' house before the day of his

accident; is that fair to say?
A Yes.
Q Okay. And I want to make sure you caught that I used the word assisted, meaning he never assisted anybody, whether yourself or anybody else, in the trimming of trees or cutting down of trees at your parents' house before the day of his accident; is that correct?
A That's correct.
Q Okay. Okay. Did Paul -- Well, let me ask it this way: How frequent in the year before the accident would Paul, to your knowledge, be visiting your parents' house?
A At least twice a month.
Q And would it be only to visit with you or would he be there sometimes when you wouldn't be there, to your knowledge?
A He would be there when I wasn't there.
Q When you weren't there?
A Yeah.
Q What was his -- and that's what I'm not sure about, what is his relationship with your parents that would make him come to your parents' house when you're not there, what's the --

A He would show up assuming that I was there and knowing my mother since they worked at the same place of employment, interacted there, that he would sit and just speak with them on a friendly basis.
Q Okay. So he was good friends with your parents?
A Yes.
Q Okay. Do you know if your parents still hold goodwill to him today or whether that has changed?
MR. BARCH: Speculation.
BY THE WITNESS:
A I don't know. You'd have to ask them.
Q Do you know if your parents have overheard Paul say anything that was uncomfortable or financially motivated relating to this claim at all?
A No, I believe that they have not.
Q Okay. And same with your wife? I think we already talked about that, right?
A Correct.
Q Okay. Would Paul have any reason, in your knowledge, to visit your parents when you weren't there? Now, I know he'd go there and you happened not to be there so he'd talk to them; but, I mean, was there anything that would take him to your parents'

house if he knew you weren't going to be there?
MR. BARCH: Speculation.
BY THE WITNESS:
A A friendship.
Q Go ahead.
A Friendship again.
Q Okay. So would there be times Paul would visit your parents' house merely to visit them and not even -- whether you're there or not?
A No, he would arrive there with the purpose of seeing me and me not being there, he would stay being congenial and friendly towards my mother.
Q Okay. And that's why I asked the other question; let me say it again. My question is, if Paul knew you weren't going to be at the house, would there be any -- ever any instance where you know that he would visit your parents' house anyway?
A That would be between Paul and my parents then.
Q So you don't know?
A I don't know.
Q Okay. That's what I was trying to get at.
A Okay.
Q Okay. Do you know if Paul ever worked at

your parents' house doing anything before the day of his accident?
A Yes.
Q What types of things would he do at your parents' house for work?
A Well, there was a large elm tree that was removed in the front yard by another provider; I do not know their name, and he said, I would like that firewood. So I helped him load it onto a large trailer and I believe that large pile of wood still sits on his property.
Q Okay.
A To some extent. He's used some of it.
Q What year would that have been?
A Just 2010.
Q Okay.
A Just before this incident where she was getting into the mode of upgrading the home, you know.
Q I get it. So it would have been the summer before this accident then?
A Yes.
Q Okay. So --
A Or it may -- it may have been that same summer.

Q Okay.
A That question would probably be better off answered by my mother.
Q So the answer is, I don't know the time, that's your answer when that happened? You don't know when that happened?
A It was before this occurrence and shortly before that.
Q Okay. But the work that you're describing in that answer that Paul did at your parents' house before the day of his accident was simply to collect wood that had already been cut up and pile it onto a truck to take it to his house?
A Correct.
Q Okay. So I guess my question was more designed toward did Paul do any work for your parents or for the property itself at your parents' property?
A Yeah, he --
Q Before the day of his accident?
A Yes, he moved a large load of wood onto a trailer removing it from their property for his own usage.
Q Okay. Just once?
A That day was the -- That day we made several

trips.
Q What day?
A I don't know exactly what day, that's what was in dis- -- and we were uncertain of as to right there but it was before this occurrence possibly that same summer.
Q All right. So this is what you're saying, you're saying before Paul's accident --
A Yes.
Q -- whether that year or the year before, there was an instance where an elm tree was cut down and Paul made one or more trips to collect the cut up wood on a pickup truck to take to his house?
A Correct.
Q Other than that, has Paul done any other work on your parents' house before the day of his accident?
A None that I'm aware of.
Q Okay. Do your parents have any experience or expertise in cutting down trees?
A No.
Q Okay. So other than hauling firewood from your parents' house on one or two occasions before the day of his accident, Paul never did any other type of errands around their house, the parents' house; is

that fair to say?
MR. BARCH: Foundation, but go ahead.
BY MR. MAST:
Q That you know of obviously.
A That I know of.
Q None?
A That I know of, none.
Q Okay. How long have your parents lived at that house?
A My mother, biological mother, has lived there since 1971.
Q And give us the address of the house so we could have that.
A 1016 West Elder, McHenry, Illinois 600, I think it's, 51 now. It may have changed.
Q Okay. And is that once -- And that's -- After your father passed, that's where she was remarried and began to live there then, correct?
A She was remarried be- -- No, she was remarried before his passing.
Q I see.
A Yeah.
Q Okay. So until you moved out of the house, you had lived at that house almost your entire

childhood, right?
A I lived there until I was 30 years old.
Q Okay.
A 29. 29. 29 years old. 1999 June 1st I moved to my new residence, which I currently live at.
Q From your -- From about four years old, right?
A Yeah.
Q Okay.
A Yes.
Q All right. And let's take you to the day of the accident. When were you first -- Well, strike that.
On the day of the accident, on the day the accident occurred, came upon you, did you already know your parents had purchased a chain saw?
A Yes.
Q Okay. And do you know the purpose of why they purchased it?
MR. CALLAHAN: I'd just object as being asked and answered.
But you may answer.
BY THE WITNESS:
A I don't know. I don't know.

Q Okay. When did you first know that they wanted you -- your parents wanted you to cut -- do some cutting with the chain saw on their property? When did you first learn that?
A Actually, I offered my services to them. They had need to rebuild a shed and with the shed down, there was an opportune time for trees to come down.
Q What shed down, what do you mean?
A There was an old shed that if -- since it was taken down because it was in disrepair, planning to put up a new one, there was an opportunity to now drop these trees where there was a clear field, clear area.
Q Fair enough. When was that that you offered your services to cut the trees down?
A Two days before the occurrence.
Q Okay. Were you at their house when this conversation arose?
A Yes, I was.
Q Okay. Was Paul with you?
A No.
Q It was just you and your two parents?
A Yes.
Q And it was discussed -- Did you bring up the

issue or did they bring up the issue?
A Well, as I've mentioned, it was an ongoing upgrading of the property and it was just discussed that now is an opportune time to do that.
Q My question was, who brought up the issue, if you know, about cutting the trees down?
A I did.
Q Okay. And it was something like, Hey, now's a good time with the shed down, why don't we cut those trees down?
A Yes.
Q Something like that. Okay. And there were three trees in particular that were --
A Two.
Q All right. Let me just finish the question. My question was, there were three trees in particular to cut down and you're saying there were only two?
A There are three trees that since that occurrence are now gone.
Q Right.
A Two of which were involved in the occurrence which were pine trees.
Q When you say involved in the occurrence, what do you mean?

A The ones that were being trimmed up, that were being considered to be removed at that time.
Q Okay. So let's go back to the conversation two days before Paul's accident when you brought up the issue of cutting the trees down, was the topic of cutting the trees down involving only two trees at that point?
A Yes.
Q And they were pine trees?
A Yes.
Q Okay. And how tall were the pine trees?
A I would -- In my best guesstimate, I would say 50 feet tall.
Q Both of them?
A Yes.
Q And they had been on the property ever since you knew?
A Yes. I watched my mother plant them herself.
Q Oh, okay. So when you were a very young child?
A Yes.
Q Okay. And what necessitated that they be removed given the rebuilding of the shed?
A At that time they had become large and an

overburden.
Q Just taking up a lot of space --
A Yes.
Q -- and in the way?
A Yes. Hanging over the area adjoining neighbors. They were a nuisance. They needed to come down. They weren't decaying at all, but they were -- they were too full.
Q So would the trees have been about over 25 years old then at the time?
A Yes. Yes.
Q But they were in good health?
A Yes.
Q So it was elective in taking them down, not a necessity, correct?
A It was a necessity as to -- Well, that was the opportune time. I mean, as I said, the shed was gone, so ...
Q I get it. I'm saying elective meaning that they didn't have to be taken down for the safety of anybody, they were being taken down more for convenience's sake; fair enough?
MR. CALLAHAN: If you know.

BY THE WITNESS:
A I don't know. I don't -- I don't really know at what point they chose to. I suggested that they come down and they chose to have me take them down.
Q Were they being taken down for any safety reason?
A No.
Q Okay. The third tree, what kind of -- The third tree that was taken down after Paul's accident, what kind of tree was that?
A It was an apple tree.
Q And that tree being taken down, at least in your view, had nothing to do with the shed issue then, right?
A Nothing at all.
Q Right?
A Yes.
Q Okay. And that's why you described earlier in the deposition the two trees, the two pine trees, were taken down in relation to this accident because you were taking trees down at the time of the accident or at least the intent was to take trees down at the time of the accident to make room for the shed?
A No, the shed was already standing before

that. It was torn down because it was in disrepair. It being torn down, it seemed as though it was an opportune time to take down these trees that were large and overgrown.
Q Okay. So you said, Hey, why don't we take down the trees now. It's a good time to take down the two trees, and they said yes, right?
A Yes.
Q Okay. Did you tell them how long it would take to do the work?
A No.
Q Did they offer you to pay you -- Did they offer to pay you some money to take the two pine trees down?
A Yes.
Q How much?
A It was a matter of hourly wage, $15 an hour.
Q Was there any scope discussed as far as how long it was going to take you to do the work?
A No.
Q Any time frame on how long it would take you to do it?
A No.
Q And the scope of the work that at least as

discussed was just taking the two pine trees down, correct?
A Yes.
Q All right. And that would include the limbs, cutting it up into wood, and then hauling it off the property?
A Not hauling it off the property; that's why I was cutting up the limbs to stack it on the property.
Q Okay. So that -- Just fair enough. I just want to get the scope of it. The scope was cutting the tree down, including all limbs and parts of the trees, the two trees, and getting them cut up into stacks and then stacking the wood?
A Yes.
Q And then that would be the end of the work?
A Yes.
Q Okay. And it only involved those two pine trees, right?
A Yes.
Q Are you aware of any photographs that show those pine trees before they were cut?
A No.
Q Or during them being cut?
A No.

Q Or after they were cut?
A No.
Q Or how they are today?
A No.
Q Okay. Once you discussed two days before Paul's accident doing the work and how much you were going to get paid, what was the next step in your preparation for doing the work?
A I by myself trimmed the trees up to about 40 --
Q No. No. You went -- You jumped too far ahead. Let me just -- I said the next step. So the next step would be two days later showing up on the property, getting ready to cut them off then, I'm assuming, right?
A Mm-hmm.
Q Yes?
A Yes.
Q Did you do anything in the interim to prepare, like go buy a set of gloves or something? I'm just trying to find out what you had to do.
A No.
Q Okay. When you cut trees of this size and nature down, do you have to wear goggles?

A I suppose that a person should.
Q Did you?
A No.
Q Did you wear a helmet?
A No.
Q Gloves?
A Yes. Yes.
Q Okay. Work gloves?
A Yes.
Q Boots?
A I can't recollect if I was wearing boots or shoes that day.
Q Okay. Any other type of particular things that you would wear specific to cutting trees down?
A No.
Q Other than gloves and clothes?
A No.
Q No. Okay.
Who decided the day that you were going to start the work?
A I did.
Q Okay. Did you just show up out of the blue or did you say, I'll be back in two days to start the work?

A I said that I'll be back and start the work on a pre- -- on the day, you know, the day I began --
Q Okay.
A -- which is two days before Paul's -- the incident happened.
Q Right. So we're two days before the accident, you talked about what you were going to do, how much it was going to cost, blah-blah-blah, and then did you say, I'll come back in two days to start the work, or how was it decided when you were going to start the work?
A It's my mother. It's kind of a free -- You know, it isn't like I've got to show up for work at 10:00 o'clock. It wasn't really decided. I showed up at my own accord and began to work.
Q That's all I'm asking you.
A And then I --
Q That's fine. So you showed up when you wanted to, right?
A Yes.
Q Okay. So there wasn't any preset day that you were going to start the work?
A No.
Q Is that correct?

A That's correct.
Q Okay. And when you showed up on June 28, 2011, was that the only thing you were going to do there that day at your parents' house is cut those two trees down?
A That day that I showed up, I was only going to trim the branches off of the trees.
Q Prepare them for, like, the next day's work of starting to cut them down?
A Yes.
Q Okay. Were there a lot of branches on each tree?
A Yes, it's a pine tree.
Q Okay.
A There's many branches on pine trees.
Q And the branches can get thick as well, right?
A Thick by way of ...
Q By way of being just thick.
A Diameter?
Q Yeah.
A No, not really. Branches --
Q I mean, we're not talking like a half an inch around. We're talking they can be several inches

around even on the branches.
A There were no limbs on that tree that were probably over 3 inches in diameter.
Q Okay. Fair enough. Let me ask that then, just it sounds like you have some understanding. Of the two trees, how many trees would you say were about 3 inches in diameter on both trees?
A How many branches?
Q Were 3 inches in diameter at one side or one end?
A Between the two trees?
Q Yep.
A Six.
Q Okay.
A The lowermost were the thickest.
Q And were you going to start at the bottom and go up or start at the top and go down?
A Start at the bottom and go up.
Q Okay. So if the first day of work -- And that was the day Paul was injured, the first day of work, right?
A No. The first day of work that I performed on those trees was the day before Paul showed up. I had already cut down all the limbs off the trees.

Q All right. Hold on. You're going too fast so --
A Okay.
Q -- let's slow down a little bit. You showed up two days after speaking to your parents to work so that would have been the day before Paul's accident?
A Yes.
Q Okay. So that would have been the 27th?
A Yes. It was preparatory work, you know ...
Q I understand that, but I want to go step by step. So on June 27 you show up at your parents' house?
A Yes.
Q Which is two days after you first talk to them about this and you showed up to do the preparatory work?
A Yes.
Q Okay. And how long were you on their property that day, on the 27th?
A Four hours.
Q And what did you do during that four hours on the 27th?
A I trimmed branches up to about 40 feet on both trees.

Q Up?
A Up. From the bottom going up.
Q You've got to let me -- We've got to go back and forth with this because I'm not going to understand you. You're saying from the ground up 40 feet high you trimmed all the trees off of those two trees -- all the branches off those two trees on June 27th?
A Yes.
Q And they were now all on the ground, those limbs?
A Yes.
Q Correct?
A Yes.
Q How many limbs are we talking?
A I don't know.
Q Like 30, something like that?
A I would say more than that. You're talking about 40 or 50 feet and if a pine tree has a limb at every foot or so, you can pretty much figure out it probably would be more like hundreds.
Q Hundreds of limbs?
A Yeah.
Q Okay. Varying sizes?

A Yes.
Q Okay.
A Decreasing in diameter as we went higher, of course.
Q Okay. And did you work by yourself on that day, the 27th?
A Yes.
Q So Paul was not on the property on that day, correct?
A Correct.
Q By the time you were working on the property on June 27th, 2011, did Paul know the work you were doing?
A I don't know.
Q Okay. When did you first talk to Paul about what work you were going to do on your parents' house with these trees in June?
A On the 28th I had made my travels to my mother's house after doing the preparatory work on the 27th, and I figured that Paul, since he was sitting idle and unemployed and we worked together on trees before, that he would possibly want to give a hand in helping me to get rid of the scrub that was already on the ground.

Q So you called him?
A I stopped by his home.
Q Before getting to your parents' house?
A Yes.
Q And was Paul home?
A Yes.
Q And did you say, Hey, I'm cutting some trees down at my parents', do you want to help clean some of it up?
A That's what I said.
Q Okay. Did you say anything else differently than what I've just said?
A No, basically would you like to give a hand at my mother's property to help me clean up the brush I cut down.
Q Now, my assumption, you can correct me if I'm wrong, but at least that conversation at Paul's house the day of his accident, my assumption is you weren't asking him to help you cut the tree down, but you were helping him deal with what was already cut?
A Yes.
Q Okay.
A Our intentions that day were not to take the trees down; it was to clean up the brush on the ground

itself that I already cut the day before.
Q Was your intention on that day, the 28th, to do any use of the chain saw?
A Yes.
Q Okay. You were going to cut up the limbs that were already on the ground?
A Yes.
Q Had you begun to cut any of the limbs on the ground the day before?
A The larger ones I had already cut on my own into sections.
Q On the 27th?
A On the 27th, yeah.
Q Okay.
A And then realized I'm going to need help.
Q Okay.
A You know, there's a lot here.
Q So the 27th now, the four-hour work you --
A Yeah.
Q -- the four-hour work you did on the 27th included trimming up 40 feet on each tree and then trimming up some of the larger limbs that are on the ground now cutting them up?
A Yes.

Q Okay. Then you get to the 28th and realize this is a pretty big amount of work to do, you could use some help?
A Yes.
Q Okay. And what specific task did you expect Paul would be needed to do at your parents' house when you spoke to him that morning before going to the house?
A There was really no outline. I just simply went to a friend's house and asked him if he'd like to help me with my chores that I was doing that day. I told him it was brush that was on the ground, and I would like to cut it up for firewood or just to get -- consolidate it into a pile so it could be stacked.
Q Were you planning on him using the chain saw at all?
A No.
Q Okay. You were going to be the one to use the chain saw?
A Yes.
Q And did he ever use the chain saw that day?
A No.
Q Okay. And I mean the day of his accident, he never used a chain saw?

A Correct, he did not use the chain saw on the day of his accident.
Q Okay. All right. Now, when you use the word brush, having Paul help you clean up brush, you mean the limbs that are on the ground that you cut the day before, right?
A Yes.
Q Okay. Not just a bunch of leaves and stuff. It was the limbs, the actual limbs themselves?
A The actual limbs, yes.
Q So the assistance that Paul was going to give since he wasn't going to be using the chain saw the day of his accident, was that to hold the limbs while you cut them up?
A It wasn't intended to be that way and I didn't direct him to do so. We just kind of got to work and that's the technique that we both were comfortable with --
Q Okay.
A -- and then from there moved forward with doing that.
Q Fair enough. So the morning of Paul's accident before you got to your parents' house when you went to Paul's house to talk to him, you didn't

talk details, you just said, Hey, Paul, I need some help cutting up some brush at my parents' house, can you give me a hand?
A Yes.
Q Okay. And he said yeah?
A He said yes.
Q Did you work on any arrangement where he would get paid or was it just for him to volunteer?
A At that time there was no questions about money.
Q Okay. What was your assumption then, if you had any?
A That maybe we can get the job done before the day was over.
Q So all the limbs that you had already cut that were on the ground, which you described as maybe hundreds, hundreds in plural --
A Mm-hmm, right.
Q -- you were hoping to at least get those all cut up that day?
A Yes.
Q Okay. And what was your assumption as far as what, if anything, you were going to pay Paul, if you were going to pay him anything? I don't know.

A Equal to what I was being paid, $15 an hour.
Q Oh, so your parents were going to pay now both of you $15 an hour?
A I was assuming that they would.
Q Okay. Did they ever agree to before Paul's accident?
A No.
Q Okay. Had you ever talked to Paul about that arrangement before his accident?
A No.
Q Okay. That was just your -- kind of your --
A Yeah, I was going to --
Q Hold on. Hold on. Let me finish the question. That was just your kind of own assumption?
A Yes.
Q Okay. Did Paul leave with you to go to your parents' house or did he come at a different time in a different vehicle?
A He came about a half-hour after I had asked him to in his vehicle. Could have been more.
Q Okay.
A Somewhere between a half-hour and an hour before he arrived.
Q Fair enough. What time did you arrive at

your parents' on the day of Paul's accident on the 28th?
A 10:00, 11:00 o'clock. Before noon.
Q Okay.
A That's the best I can recollect.
Q Okay. And how long did you anticipate it was going to require both you two to cut up these trees as you said completely?
A I have no --
Q These limbs. I'm sorry.
A I had no estimate in my mind or need to construct one. I just was going to work with a friend and get the job done.
Q Okay. Were you expecting, though, that it would be done that day?
A I was hoping. I wasn't expecting.
Q Okay. Okay. So if you arrived from 10:00 to 11:00 sometime that day of Paul's accident, you're saying Paul would arrive somewhere around 10:30 to 11:30?
A Yes.
Q And he arrived alone in his car?
A Yes.
Q Okay. And we're going to have to use some

kind of time frame that we can agree on even though we're not sure just so that we can do the chronological order of things here. So if we assume that -- and, again, I know this is just an assumption but just for the purposes of figuring out when things happened, if we assume you arrived at 11:00 and Paul arrived at 11:30, okay?
A Mm-hmm.
Q All right?
A Yes.
Q How soon after Paul arrived at 11:30 would his accident have occurred?
A I believe about an hour.
Q So if he arrived at -- If Paul arrived at 11:30, his accident happened around 12:30; fair enough?
A Yes. Or if arriving at 10:30, the accident happened at 11:30.
Q I get it. I get it. We can do that, I'm just -- I want to get the chronological time frame. So if we assume you get there at 11:00, Paul got there at 11:30, his accident happened around 12:30; fair enough?
A Yes.

Q Okay. And when Paul's accident occurred, he was in the midst of helping you cut up these trees, right?
A Yes.
Q Okay. Other than you and -- Were you also in the midst of cutting down -- helping cut up the trees?
A Yes, I was -- Yes, when he showed up, I was already in the process of working.
Q All right. So when Paul's accident occurred, both of you were working together to cut up these trees?
A Yes.
Q Was anyone else working with you two?
A No.
Q Was anyone else watching you two?
A No.
Q Were your parents in or out of the house during the time that Paul had arrived up to the time of his injury?
A They were in the house.
Q Okay. Do you know if your parents even knew Paul was over?
A Yes, they did because when I arrived I told them that Paul would be coming over to help me.

Q Okay. And that's fine but that's not quite what I was asking. Do you know if your parents knew he was actually on the property at the time of the accident?
A Yes, they did know that he was on the property.
Q How did they know that?
A Because his vehicle was parked outside and they could visually see that his vehicle was there.
Q Okay. And they can connect the dots; I get it.
A They see him. Okay. Sorry.
Q I can't talk while you're talking. Let me --
A I know.
Q My question was, at the time of Paul's accident do you know if your parents were aware that he was on their property? Even they could have looked out and saw the car, I get it, but do you know if they were aware?
A I don't know.
Q Okay. Do you know anyone that was aware Paul was on your parents' property at the time of his accident other than you?
A No, I do not know.

Q Okay. Were there any visitors or witnesses to the work on the property at your parents' house for the hour Paul was there leading up and at the time of his accident?
A No.
Q Okay. So the only witnesses you're aware of of the circumstances leading up to the accident and Paul's accident itself, the only witnesses to that are you and Paul, right?
A Correct.
Q Okay. All right. Now, I've got to ask a few questions that -- don't take it personally but these are just questions we always ask in these depositions of witnesses, okay? So it's nothing against you, it's just we always ask these.
Any alcohol to drink that day?
A I don't drink alcohol.
Q Okay. Any medications?
A None.
Q Any drugs anyway?
A No.
Q Any type of drugs?
Paul, same question for Paul, if you know, drugs, alcohol?

A Paul's not a drinker to my knowledge, and I wouldn't know about any prescribed drugs because I'm not him.
Q Okay. Did Paul seem to be acting normal leading up to the time of his accident?
A Yes.
Q Were you having any internal stressors or any problems internally for you at the time of this?
A No.
Q Okay. Were your parents keeping any type of watch over the work you were doing to kind of see how things progressed?
A No.
Q Okay. So the -- from the beginning to the end, the work that was being done by you to cut the trees up was done under your own supervision, under your own control?
A Under my supervision.
Q Yeah. Was anybody telling you what to do and how to do it?
A No.
Q Were your parents in any way telling you how to do things as far as cutting up the trees?
A No.

Q How you did it, the method and means for cutting up the trees, was that done under -- by your own control and your own decisions?
A By my own decisions.
Q Okay. The manner in which the work was being done at the time of this accident, was that done in the manner that you wanted it to be done?
A Until Paul arrived.
Q Okay. How about when Paul arrived, did he change things?
A He chose -- He chose to take up his own technique or helping, and I went along with it because we worked together in a good fashion for so many years previous to that.
Q Leading up to the time of his accident, okay, was Paul doing anything wrong working at the property?
A No.
Q Okay. Was he doing everything appropriately?
A It seemed so.
Q Okay. And did you have to criticize him or instruct him to do things differently because you were not happy with the way Paul was doing his work leading up to the time of his accident?
A No, I gave no instruction basically to him.

Q You left it up to him to do the best for him and you did the best for you?
A We've worked well together in the past. There was no need for instructions. It was a mutual understanding of two men working together.
Q Okay. But is my question correct, you left Paul to work appropriately under his own control and you were to work appropriately under your own control --
A Yes.
Q -- correct?
A Yes.
Q Okay. And leading up to the time of Paul's accident, did you notice Paul doing anything unsafe or wrong in your view?
A No.
Q Leading up to the time of the accident, did you believe you were doing anything unsafe or wrong in the process of the work leading up to Paul's accident?
A No.
Q Okay. When Paul was -- Well, Paul was eventually cut by your chain saw, correct?
A Paul was cut by a chain saw.
Q A chain saw that you were using and

operating, right?
A Correct.
Q Okay. I said your chain saw and you're probably saying well, it wasn't my chain saw; that's what you're thinking, right?
A That's correct, yeah.
Q Okay. But it was -- When I meant your chain saw, I meant the chain saw you had control of, correct?
A Then that's what I'll agree to, yes.
Q All right. So you're agreeing and accepting the fact that Paul was, during the process of working at your parents' house, cut by a chain saw while you were holding the chain saw and while it was running, correct?
A Yes.
Q Okay. And -- Oh, here it is. I was looking all around for these; they're right in front of me.
These photographs were marked during Paul's deposition, okay? All right?
A (Nodding.)
Q You have to answer a word.
A Yes.
Q All right. Do you know, without looking at

the photograph, where Paul was cut by the chain saw you were operating at the time of his accident on June 28, 2011, on his body, where?
A Yes, exactly where.
Q Where?
A On his right forearm.
Q Okay.
A (Indicating.)
Q Is that the only place he was cut?
A Yes.
Q Okay. I'm going to show you a photograph. I just want to make sure it's the same injury that he talked about, okay?
MR. CALLAHAN: Can I take a look? Thanks.
BY MR. MAST:
Q We've got what's marked as Exhibits 2A, 2B, 2C, 2D, 2E, 2F, 2G, 2H, 2I, 2J, okay?
A Yes.
Q These aren't all I'm going to ask you about but the first page, 2A, does that appear to show his right arm and the scarring where he was cut by the chain saw you were operating at the time of his accident?
A Yes.

Q Okay. Is that the only spot he was cut shown in this photograph?
A Yes.
Q Okay. And maybe you can't tell on 2B, but I think that's the same injury. Can you tell?
A Sure looks good to me.
Q Looks like the same one?
A Yeah.
Q Okay. How about 2C, does that look like the same injury?
A Yes, it does.
Q 2D. If he has his hand down to his right, it would be on the backside of the --
A Yes.
Q -- forearm, correct?
A Yes.
Q And that's where it shows on 2D?
A Yes.
Q And that's the injury that was caused by the chain saw you were operating at the time of the accident?
A Yes.
Q Okay. All right. So Paul arrived about a half an hour to your parents' house after you arrived

on June 28, 2011, right?
A Yes, about a half an hour.
Q And by that time, when Paul arrived at your parents' house, you had already been working?
A Yes.
Q Okay. So you had the chain saw in hand and you were cutting things or not?
A No.
Q What were you doing?
A I was sorting.
Q You were what?
A Sorting the branches. When you have pine trees, they get snaggled, snarled, and tangled together. I was placing them so that they could be fed in a safe manner as, you know, to lift it up and to work with it.
Q Okay. What was the manner which you wanted to use to -- Well, strike that.
Having Paul come and assist you, did you have an expected manner in which you preferred to have him assist you?
A No.
Q So you just left it up to him to decide?
A Well, he showed up and as I had said, we just

worked well together. We understood one another.
Q But my question was --
A I didn't specifically have any expectations or did I direct him to do anything.
Q So my question then was, did you just leave it up to him to decide what to do and how to help you or did you have to tell him, Hey, hold that branch. I'll cut that branch?
A I left it up to him.
Q So how would he know what branch you wanted to cut unless you told him what branch to cut?
A He didn't cut. He held.
Q How did he -- I'm sorry. I didn't say it right. How did he know what branch to hold unless you told him what branch to hold?
A I didn't tell him. He chose --
Q How would he know then is the question.
A You'd have to ask him. I don't know.
Q Well, was he supposed to just guess what branch to hold on to?
A There was no guessing, but ...
Q How was he going to know then?
A Because we've done this before. We've watched each other work. We've worked with tools

before in the past.
Q Okay. But that's not my question, okay? We're hoping that he's going to hold the branch you're going to end up cutting, right, the same branch?
A I never intended him to hold the branch.
Q Okay.
A He chose to hold the branches.
Q All right. So you're telling me -- Well, what work were you wanting Paul to help you with then?
A There was moving material, there was stacking wood, there was raking the ground.
Q Moving material, stacking what?
A Stacking wood.
Q Okay.
A And raking.
Q Was there a rake available?
A Was there a rake available?
Q Mm-hmm.
A Yes.
Q Okay. Stacking wood meaning after it's all cut up into little foot pieces, you would stack them up --
A Into 18 inch pieces.
Q -- to store them, correct?

A Into 18 inch pieces and then stack, yeah.
Q You're doing fine but please let me finish my question before you get to the answer, okay, because we're going to have a hard time if we don't have separation, okay? So maybe give me one beat after I'm done and then give me your answer, okay?
Moving material meaning what?
A Once it's cut, to stack it and then to clean up the area where we were working.
Q All right. So moving material, stacking the wood, and raking up the debris, those were the three things you envisioned Paul was going to assist you with?
A Yes.
Q Okay. Before Paul arrived at the property, were you envisioning that he was going to help hold some of the branches so you could cut them?
A No.
Q That was not even in the back of your mind?
A No.
Q Okay. Did you not want Paul to help hold the branches or you just didn't know if he was going to or not?
A I didn't know that he was going to do that.

Q Okay.
A No.
Q Did you want him to hold the branches or did you not want him to hold the branches or did you not care?
A It wasn't a matter of not caring. He chose to and then we went with it.
Q Okay. So was that appropriate for you that he hold the branches for you then?
A It seemed to be appropriate at the time.
Q Okay. I'm just trying to find out whether he was holding these branches --
A I understand.
Q Hold on. Hold on. I'm trying to find out whether he's holding these branches against your will or not. Obviously there was some --
A No, he was not holding them against my will. He was helping --
MR. CALLAHAN: Wait until he finishes the question.
THE WITNESS: Okay. I thought he was finished.
BY MR. MAST:
Q So he was holding the branches ultimately and eventually with your acceptance and permission; fair

enough?
A Acceptance, yes.
Q Well, if you didn't permit him to do it, you would have told him not to, right?
A I don't control Paul's hands nor did I direct him to do it at that time. He chose to pick them up and we both started working together and that's the method we chose. It wasn't like hey, this is right or wrong; we just went to work.
Q I understand. This is what I'm saying, if Paul did something you didn't want him to do, you would tell him not to do that, I assume, right?
A I suppose, yeah.
Q Okay.
A Yes.
Q Did you ever have to tell Paul not to do something before he got hurt and got cut by the chain saw?
A No.
Q Okay. So up to the time that Paul got hurt, he was doing the work in a way that was okay to you, correct?
A Yeah.
Q Okay.

A Yes.
Q And he was doing the work in an appropriate way to you, correct?
A Appropriate?
Q Yes.
A To me?
Q Right.
A Acceptable. I don't know about appropriate. If you want to look up what is the definition of appropriate.
Q Okay. You just don't know what the word means. Okay. Because I can -- I can use a different word.
A Oh, no, I know what the word means, it's the way you're using it. You're telling me that I deemed it appropriate that his actions what he was doing without me telling him to do anything different were okay or not okay, and what I'm saying is that it was two friends -- Let me just have one moment.
Q Go ahead.
A And it was two friends working together who have worked in similar situations, and I guess our assumption in it was that we knew what we were doing, the both of us. I didn't think that Paul would

jeopardize himself or me and likewise.
Q Okay.
A That's where we were at.
Q So my question is, was Paul doing everything leading up to the time he was hurt in an acceptable fashion to you?
A Yes.
Q Was he doing anything inappropriate before he got hurt?
A No.
Q Okay. Had he been doing -- Had Paul been doing something inappropriate prior or at the time he got hurt, you would have told him not to do that, correct?
A Again, inappropriate, I don't under- --
Q Okay. If he was doing something unsafe, you would have told him not to do something unsafe, correct?
A That wasn't even really considered. It wasn't -- I'm honestly telling you that it wasn't a thought in my mind at the time.
Q I'm not asking you if you considered it. If you can say -- Hold on. Wait. You stopped. Let me go. If you don't know, you can just say I don't know

but the question is if Paul was doing something unsafe, would you have told him or directed him not to do something unsafe?
A Yes.
Q Okay. That's all I'm asking. So your testimony is that you never told Paul once what to do prior to his injury on that property, correct?
MR. CALLAHAN: I just object as to form of the question.
BY MR. MAST:
Q Is that correct or not?
MR. CALLAHAN: You may answer.
BY THE WITNESS:
A Ask the question again, please.
Q My under- -- Strike that.
Did you ever tell Paul what to do or how to do it before he got hurt by being cut by the chain saw on the date of his accident --
A No, I did not.
Q -- at your parents' house? Huh?
A No, I did not.
Q Never told him what to do?
A No.
Q Never told him how to do it?

A No.
Q Okay. So when he first arrived at, let's say, 11:30, what was the first thing he did?
A He was watching me sort the branches and said, What can I do to help? And I said --
Q Let's go step by step. Okay. So he was watching you sort branches, right?
A Yes.
Q Okay. I want to go just step by step now because we're going to get toward the accident and I don't want to go too fast, okay?
A Okay.
Q So let's go step by step here. He got there. You were sorting branches. You mean putting them in piles?
A No. They were already in a pile and as I had mentioned earlier, pine, when you cut it, it needs to be addressed or orientated. If you put branches like this, it's going to pull out unsafely. So if you stack them with the cut ends like this, you can easily pull them off one another.
Q Okay.
A That's why I was sorting, so that it would go ...

Q I got it. Sorting branches. Paul gets there and says, Can I help, right?
A How may I help.
Q How may I help. Okay.
And what do you say?
A I said, Well, I'm sorting branches. I guess you can start by doing that.
Q Okay. So you had him start sorting branches with you then?
A Yes.
Q Okay. And how long was he sorting branches with you?
A Maybe another 15 minutes after I had spent some time doing it myself.
Q All right. So -- Got you. So now we're at about -- and I know these are just guesstimates, but I just want to get a chronology. We're at about 11:45 now, okay?
A Mm-hmm.
Q Yes?
A Yes.
Q What happens next?
A The piles were sorted, time went by and chose to start cutting the branches up. At first we had

placed them on these horses.
Q Well, wait. You're going into detail now. I want to go step by step. The next step; that's all I asked.
A Okay.
Q The next step was to start cutting the branches up?
A Yes.
Q Okay. Who decided to start cutting the branches up? Was that your decision?
A Yes.
Q Okay. So after the piles were sorted, you said, Let's start cutting the branches, right?
A Yes.
Q Okay. And did he say, Can I help?
A He was there to help. I don't recollect if he specifically said --
Q Okay.
A -- that.
Q So when you started cutting the branches, what was Paul's task during the cutting of the branches?
A To put them on the horses.
Q The sawhorses?

A Yeah.
Q How many sawhorses do you have?
A There was two there.
Q And how far apart were they spaced?
A Four feet.
Q And were you going to be putting them on the sawhorses too or was that only what Paul was going to do?
A That's what Paul was going to do, remove them from the sorted piles onto the sawhorses.
Q And when he puts them on the sawhorses, you were going to cut them up with a chain saw?
A Yes.
Q Okay. Who told Paul or who gave Paul that job task? Was that you?
A Yes.
Q Okay. So the next step, piles are sorted now, let's start cutting the branches. Paul, why don't you put the branches on top of the sawhorses and me, meaning you, I'll cut these branches on the sawhorses up with the chain saw. That's the -- what's going on, right?
A Yes.
Q Okay. How long did that occur?

A Ten minutes.
Q All right. So we're getting close now to noon. What happens next?
A Paul opted to stand them up.
Q Wait. Wait. Say that again. I missed that.
A Paul opted to stand them up instead of working on the sawhorses, and I just continued cutting. It seemed like it was okay to do.
Q Okay. Fair enough. So instead of putting the branches across the two sawhorses, you're saying Paul on his own opted to stand them up aside of the sawhorses?
A Yes.
Q So it would be leaning up against just one sawhorse?
A No, freestanding large end.
Q Oh, you mean and hold them with his hand?
A Hold them with his hand. He was holding them with his left hand to make a point of that.
Q Got you. Got you. Okay. So instead of using the sawhorses, you're saying Paul decided to hold them by himself with his left arm up while you cut them from ground up; is that right? I need an answer.

A Top down.
Q Okay. So let me say it again then. Instead of using these sawhorses, you're saying Paul took it on his own to hold the branches with his left arm up and the branches down to the ground and you would cut from the top down to the ground each branch, right?
A Yes.
Q And that was Paul's chosen way that he was going to hold the branches?
A Yes.
Q Did you in any way voice any objection to him doing it that way?
A No.
Q Okay. And for how long a period of time were you cutting these branches in that manner where Paul was holding them up with his left arm to the ground and you were cutting them from the top down?
A 20 minutes.
Q Okay. So now we're at about 12:20, if my math is correct. Is that about right?
MR. BARCH: Hans?
MR. MAST: Yes.
MR. BARCH: Can I just ask, are these little horizontal cuts or are we talking --

MR. MAST: Well, I was going to get to that. I want to first get the time line down. Yeah, we'll get to that, but I will ask it now then.
BY MR. MAST:
Q So Paul is holding the limb -- the branches up with his left arm over his head, the branch is now from his left arm and hand going down to the ground and you were starting up below his hand and cutting every 18 inches?
A No, I was cutting the branches off of the limb.
Q Got it. So you were cutting vertically up and down. While he was holding the tree vertically, you were cutting the horizontal branches in a vertical fashion --
A Yes.
Q -- from a top to a bottom?
A Yes.
Q And I imagine each branch has probably 30, 40, 50 little --
A I would --
Q -- branches off of it?
A I would say --
Q Hold on. Let me finish the question.

A Okay. Sorry.
Q Let me say it again now. Every branch or limb or whatever that Paul's holding above his head with his left arm, I'm assuming those branches, if they're reaching to the ground, are going to have 30 to 40 little branches coming off of it horizontally, correct?
A Not that many.
Q Okay. Maybe 20 then?
A Or less.
Q Okay. So those are the 20 little branches coming off of that branch that Paul was holding vertically that you were cutting?
A Yes.
Q And then the branch would be left bare branch from his hand to the ground?
A Yes.
Q And then what would he do with that branch then, set it on the sawhorses to be cut up?
A Set it off to the side. We never got to actually cutting up the whole load of wood because of what --
Q Happened?
A -- happened, yeah.

Q His injury?
A Yes.
Q Okay. So for 20 minutes you and Paul worked where he would hold a limb up with his left hand over his head and the branch would be vertically down to the ground and you would be cutting from top to bottom each of the little limbs, 20 or so, off of that branch he was holding?
A Correct.
Q And how many separate branches did you do for that 20 minutes? How many separate branches did Paul have to hold?
A I'll estimate between 25 and 30.
Q Okay. And then what happened after that 20 minutes of doing that work? What was next?
A We arrived at a branch being held in the same fashion that was a little flimsy and in making the first cut, that went well as the uppermost one, second one and of course a pine, you know, they're left and right so I'm not just cutting on this side. I'm over here, over here, taking it down, taking it down. One didn't go through; and at the same time I went to go make the second cut, he put his right hand down to support it so it wouldn't bow and it did go through

and it just nicked his arm.
Q Okay.
A And that's -- that's what happened.
Q Fair enough. Now, that's the one that sounds like where his accident happened, right?
A Yes.
Q Okay. Because -- I see. Okay. Because if Paul arrived at 11:30, you're saying his accident happened around 12:30 which would be about the time where we reached going through the task by task, right?
A Yes.
Q I got you. Okay. So were you still working at the time of Paul's injury with being cut by the chain saw in the manner of where he's holding the limbs up -- the branches up with his left hand over his head and you're cutting the horizontal branches off of that branch? You're still doing that at the time of his injury?
A That's what we were doing at the time of the injury.
Q Because you said you only did that for 20 minutes and then you did something and I thought you were going to say you were doing something

differently. You were still doing that at the time of his injury, right?
A We stopped as soon as he was injured.
Q Okay. Let me ask it this way: Once Paul opted to hold the branches up with his left hand instead of using the sawhorses and you started cutting the limbs now off of that branch --
A Yes.
Q -- and you said you did 25 to 30 of those branches --
A Yes.
Q -- the last branch you did, is that the branch that Paul was holding when he was hurt?
A Well, it was the last branch that we did because he did get hurt.
Q That's what I just said.
A Yeah, we just stopped.
Q Let me say it again because I want --
A Yes, I agree.
Q Let me say it again.
A Okay.
Q You gave an estimate of like for 20 minutes you were cutting these horizontal limbs off of a branch that Paul was holding overhead, remember that?

A Yes.
Q You said you did that for about 20 minutes.
A Yes.
Q And you did 25 to 30 separate branches, right? Right?
A Estimating, yes.
Q Okay. The last branch that you did in that fashion, is that the branch that Paul was holding when he was cut?
A Yes.
Q Oh, okay. Because this is why I was a little confused. You said at around 12:00, and I know we're just doing estimates on times, but you said around 12:00 you did -- for 20 minutes you cut those 25 to 30 branches; so I thought there was something else you were doing then after that by the time Paul got hurt, but that 20 minutes is inclusive of the time of his injury then, right?
A Yes.
Q Okay. So really the time frame you gave me from the time Paul arrived at 11:30 until his accident was more 50 minutes; does that sound about right?
A It's really hard to recollect the time frame when it wasn't relative at the time. There was --

Q I understand that.
A Let me finish, please. There was no time frame of getting the job done nor was I aware of the exact time that it happened because what was most important at that time when it did happen was to get him to the hospital.
Q I understand.
A And the only time that -- And the only time that I checked the clock is when we checked into the emergency room.
Q I understand all that.
A Okay.
Q That's not what my concern was. My concern was you gave me an hour after Paul arrived is when his accident occurred but the time line we gave was only 50 minutes by the time his accident occurred.
A Did you say 50 minutes?
Q 50.
A Okay.
Q So I just want to make sure we're not missing some other element of work that he was doing.
A No. No, we're not.
Q Okay.
MR. BARCH: I'm going to object because he's been

giving estimates all along, but go ahead.
BY MR. MAST:
Q All right. So under the estimates of time that we're giving, Paul arrives around 11:30, you start the type of work that Paul is holding the trees up by his left hand overhead as opposed to using the sawhorses around noon. You do that for about 20 minutes in your estimate and that's when he's injured, correct?
A Yes.
Q All right. So that last branch that Paul was holding when he was injured, that's what I want to talk about now. And that was a branch similar to the 25 or more before that, right --
A Yes.
Q -- that you were cutting, correct?
A Yes.
Q And you had cut these branches 25 to 30 times without incident, without any problem, correct?
A Yes.
Q And that Paul was holding the branches the same way in all those 25 to 30 times without incident, correct?
A Yes.

Q Okay. And they were all being held over Paul's head if Paul's 5, 8, then they were probably what, maybe six and a half feet over his -- or six and a half feet from the ground?
A They varied in amount of debris on each limb and height. As you go up a tree --
Q Okay.
A -- the lengths diminish.
Q So sometimes Paul is holding the branch directly out?
A Deviating between four and six --
Q You've got to let me finish my question, and you can answer in any way you want but at least let me finish.
So Paul might be holding some branches out directly out from his chest, some over his head just varying -- depending on height --
A Yes.
Q -- of the branch?
A Yes. Yes.
Q Okay. So anywhere from four feet off the ground he might be holding a branch to six and a half feet to maybe seven feet?
A No, not six and a half feet. I would say

somewhere between four and five feet.
Q Okay.
A Somewhere in and around just right here.
Q Fair enough.
A Yeah.
Q So Paul is holding with his left arm -- or left hand out from his body extending out the branch is from anywhere from four feet off the ground to five feet off the ground, correct?
A The point where he was clasping that limb, yes, would be four to five feet above the ground.
Q And then underneath where he's grasping is where you're cutting?
A Correct.
Q The first cut that you're going to make is the highest off the ground is how far under his hand?
A A foot and a half, foot. So it really depe- --
Q All right. A foot and a half or a foot?
A May I finish?
Q Well, it's going to be best if you just answer what I'm asking and not try to add on every time.
A (Inaudible) sit here through that. I'm

sorry.
Q What's that?
A I'm sorry. It's just my character.
Q Well, that's fine. The question is this, he's holding these branches extending his arm out and holding them four to five feet off the ground depending on the height of the branch, right?
A Yes.
Q Okay. And you are cutting the first cut about 18 inches below his hand, correct?
A Yes.
Q That's the first cut, yes?
A Yes.
Q So that the branch that he's holding after you cut it is going to be about 18 inches long, right? The piece of wood that's in his hand after you make your first cut is going to be 18 inches long?
A No. No, he was placing the whole limb -- if I may, I know she can't record this. There's your limb off your tree. There's a pile of them. Stump down, that's where I cut it, the larger portion down to the ground. He would hold the smaller portion because on a pine tree they grow like this. If you don't know that, they grow upwards like that. So I

was cutting in the crotches of them. He was holding it, and I would stay away from him cutting off -- and I would not, like, cut towards the top, which is smaller, it's useless wood; we were just trying to get rid of the debris. So he would hold it and I would start cutting like this and put it over there. Off the pile --
Q I got you.
A -- another one --
Q I got you.
A -- stump down and hold it like that.
Q I got you. So he is not cutting -- The base of the branch that Paul's actually holding, you're not cutting that?
A No.
Q You're cutting the stems or limbs that come off of that horizontally?
A The sub limbs off the main limbs that were already removed.
Q Is that correct?
A Yes.
Q Okay. And the -- Although there might be limbs off of that branch all the way up to his hand, you're starting 18 inches below his hand just to stay

away from his hand, right?
A Yes. Yes.
Q Okay. So when you're done cutting that branch, there is still going to be some smaller limbs coming off of that branch at the top by his hand and that's okay, you can deal with it later?
A Correct.
Q Okay. So after you're done cutting horizontally all those horiz- -- Strike that.
After you're done cutting vertically all those horizontal limbs off of that branch, he puts the branch back and picks up another branch and you do that 25 to 30 times before Paul's injury?
A Yes.
Q Okay. The branch that Paul was holding when he was injured.
A Yes.
Q Describe how high or off the ground he was holding that.
A Five feet.
Q Okay. And was it a branch like all the other branches?
MR. CALLAHAN: Just object to form of the question.

BY THE WITNESS:
A By way of species?
Q No. Was it any different from any of the other 25 to 30 branches he had held previously?
A It may have been a smaller one that is by way of diameter that he chose to hold up.
Q This is what I'm asking. I'm not asking what you might -- what might have happened. I'm asking you, based upon you being there and I wasn't there, was the branch that Paul was holding when he was injured different in any way that you can tell that you recall than any of the 25 to 30 branches he had held previously without incident?
A None of the branches were exactly the same.
Q I understand that, but I --
A I don't know how to answer the question then.
Q Well, let --
A The --
Q Hold on. You answered it then. If you don't know how to answer it; you've answered it. So let me ask it a different way then. Other than every branch being a little different in size and thickness and amount of limbs off of it, is there anything unusual, anything necessarily different from that branch than

the other 25 to 30 branches?
A No.
Q Okay. And in appearance, the branch looked like any of the other 25 to 30 that you had cut just previously, correct?
A Yes.
Q Okay. And probably a similar number of -- a similar number of cuts off of this branch that Paul was holding when he was injured, you were going to have to make a similar number of cuts on that branch as to the other 25 to 30 branches you were cutting?
A Generally, yes.
Q Okay.
A Okay.
Q How many cuts were you able to make off of the branch that Paul was holding at the time of his injury before he got injured?
A Four.
Q Okay. So if I'm going to draw a picture of the branch, okay, and we're assuming that's a five foot branch and it has limbs going all off it up and down the branch, right? Right? Correct?
A (Nodding.)
Q Yes? I'm waiting for a word.

A I'm waiting to see what --
Q I'm not expecting you -- You don't have to follow my picture. I'm just saying if I'm --
A Well, I don't follow your description so I'm looking at the picture.
Q Okay. Well, I'm drawing a picture myself to --
A Okay.
Q -- demonstrate to you --
A I'll wait till you're done.
Q No, I can demonstrate it to you. I don't care. You can look at it.
This is a branch and then it has all these limbs coming off it in varying sizes, widths, and heights, okay? Fair enough?
A No, it's not the description of what was being cut. That's why I --
Q All right. You describe what was being cut then.
A The description of a pine branch or a limb is that it starts at a certain diameter, whether it be 3 inches or 2 inches, and over its length, which is also varying, it diminishes to just pine needles. About increments of every and varying also between

6 and 12 inches are branches again that from the larger diameter where it was cut from the tree begin to get lesser and lesser as you go towards the end of the branch.
Q Okay.
A There is a varying amount of how many branches are on there because no tree is exactly the same, so I was in conflict with what you were thinking --
Q Okay. Fair enough.
A -- it looked like.
Q So Paul's holding the branch at the top?
A Correct.
Q Okay. With his left hand?
A Yes.
Q What's he doing with his right hand?
A No.
Q Just to the side -- to the side of him?
A Just aside -- aside and away, yeah.
Q Okay.
A Standing away from it actually as you had physically shown it.
Q All right. What you're saying is he's extending his left arm out in front of him keeping his

body away --
A Yes.
Q -- his left arm above and holding the branch while his right arm is aside of him so the branch is standing vertically maybe three feet from his body; fair enough?
A Yes.
Q Okay. And then you start cutting these horizontal limbs off the branch at about 18 inches below his hand?
A Yes.
Q Okay. And do you remember how many cuts you had to make at a distance of about 18 inches from his hand before he was hurt? I'm not saying going further down, I'm just saying at the 18-inch mark where you were going to start the cuts.
A One.
Q Made one cut?
A One cut.
Q Okay. You got one cut?
A Very --
Q Hold on.
A I know that.
Q All right. Then you go down another distance

to make the second cut?
A To make another singular cut on a different branch, yeah.
Q How far down do you go?
A It varies with how -- how far apart they are on the branch. I would say between 6 -- 8 and 12 inches.
Q Listen, I don't want to guess so this is my question, okay? Hold on. Hold on. We know he's holding it at the top.
A Yeah.
Q We know it's about five feet, you said. We know your first cut is 18 inches from his hand, right? We know those things, right?
A Yes.
Q Okay. So my question is, based on what you've just told me now, how far down from the first cut that's 18 inches from his hand is the second cut on -- give me your estimate.
A I will give you an estimate of between 8 and 12 inches.
Q Okay. So that's the next limb is 8 to 12 inches, right?
A Yes.

Q All right. And then how far down is the next limb that you're cutting from that one you just cut, the second one?
A Again, 8 to 12 inches.
Q All right. And you're now on your fourth one. How far is the fourth one from the third one?
A There are branches on either side of that limb, which means I would cut this one, this one. This one, this one (indicating).
Q Okay.
A It looks like this.
Q I got you.
A Okay.
Q So what you're saying is, and I'm putting on my diagram on the same side -- hold on -- on the same side, but what you're saying is when you cut the first one, the second one is going to be on the other side?
A Yes.
Q Okay. That's fine. You can describe that. So the first one is on one side; you cut that 18 inches from his hand. The second one's on the other side; you cut that 8 to 12 inches below the first one?
A Yes.

Q The third one's on the same side as the first cut 8 to 12 inches below the second one, right?
A Yes.
Q And where's the fourth one? Same side as the second one?
A On the right side.
Q Over here?
A Staggered one, two, three, four.
Q Right. So it's the same side as the second cut then. If you have one, two, three, four --
A I wasn't methodically approaching each branch going left and right per se like, oh, I've got to start here or start there. It really mattered where he grabbed it and what was -- what was below his hand for me to start cutting and again --
Q Listen.
A And, again, the branches aren't aligned as you are drawing them. It's relative to me because --
Q Listen. The easiest process is for you to either say you know something or you don't know something, but you keep first leading --
A Sorry.
Q Hold on. Hold on. Hold on. You first lead me down here and then you just say well, I don't know

then. Tell me what you don't know and I'll move on, okay, but I'm going with what you're telling me. If you don't know something, you just say I don't know.

Let's start over. He's holding his left hand at the top of the branch. His first cut is about 18 inches below his hand, right?

A Yes.

Q On one side of that limb or branch?

A Yes.

Q Okay. So that limb is 18 inches down. You cut that limb off, that horizontal limb, and then you go down probably on the other side 8 to 12 inches and you cut the limb on the other side?

A No.

Q Okay. What? You tell me.

A On a pine tree they're grouped, that's what I was trying to show you, like this. They're not staggered all over the place. When they grow, it's a fan and they grow out like this. So it being stood up, I'd go one, two, three, four.

Q That's what I just did here but we can do it again. Let's try it again.

A Okay, but --

Q Hold on. This is what I'm trying to

understand and I'm trying to make it easy, but we can go through this. He's holding the branch up with his left hand and I'm trying to find out what distances you cut each of those four limbs until he's hurt, okay? I'm trying to find that out.

MR. CALLAHAN: Excuse me. It's just that there's a disconnect here.

MR. MAST: Well, that's why I have to ask these questions. We'll get there.

MR. CALLAHAN: I understand. I'm thinking he's thinking that on your branch this branch comes out like -- it'd be on a 45-degree angle up --

THE WITNESS: Yes.

MR. CALLAHAN: -- if I may. Then there's branches like this and this with the pine needles on them so he's cutting this one here, this one here, and this one here.

BY MR. MAST:

Q Are you making three cuts on one branch?

MR. CALLAHAN: Four cuts.

MR. MAST: No, I don't think that's what he's saying.

MR. CALLAHAN: I think that's --

BY THE WITNESS:

A I'm making one cut.

Q Here, let me do it. I think this is what --

A May I?

Q Hold on. Yeah, I'd be happy to. Let's probably do it that way. Make it easy.

A Thank you.

Q We'll save about a half an hour of questions.

A Right.

Q I was trying to get it described that way but it might be easier just to do it this way.

A Oh, I'm going to make it pretty. We've got time. I have time.

Q You want some crayons?

A I'm going to make a Christmas tree for you. That is a pine branch.

Q Okay. Now, let me ask the questions here. All right.

A I'm cutting it right here in the crotch.

Q I've got it. See, your answers aren't going to help unless they're after my questions.

A We'll get it all figured out.

Q All right. We're going to mark as Gagnon Exhibit 1 that pretty tree you just drew, okay?

A Thank you.

MR. BARCH: You'll have to call it a -- It's a single branch, not a whole tree.

THE WITNESS: Single branch.

MR. MAST: Okay. It's a branch. All right. I'm sorry. I'm not good at these things.

BY MR. MAST:

Q All right. That's a -- Obviously it's not to scale or anything, but it's just a drawing of a pine branch, right?

A Correct.

Q And it's supposed to represent, even though it's not exact, a typical type of pine branch that you and Paul were cutting on the day of his accident?

A Correct.

Q Okay. Different sizes, different amount of limbs coming off them but that's a representative of those types of branches, right?

A Yes, it is.

Q Okay. So if we look at this, the base is obviously going to be wider than the top of it, right?

A Yes.

Q So I'm going to put a T on your drawing where the top of that is and a B where the base is. Did I

just do that?
A Yes.
Q So we know what words to use?
A Yeah.
Q Okay. So I'm going to put T O P and B A S E. So we can refer so that we're using the same language. Paul is going to be holding with his left hand the top of the branch, right?
A Correct.
Q And then the base is going to be against the ground in a vertical fashion from where he's holding at the top, right?
A Yes.
Q And then starting 18 inches below his hand, you were going to start cutting on either side of that branch the horizontal limbs that are coming off that branch, right?
A Yes.
Q Okay. So if this were a branch that Paul was holding, his hand would be at the top and then you would make one cut -- oh, you'd start -- okay, you'd skip the top of it --
A Because it's --
Q Hold on. You'd skip the top limbs because

that's too close to his hand so you'd come down to maybe the next set 18 inches below and start making a cut there?
A Yes.
Q Then you'd go on the other side and make another cut?
A Yes.
Q That's two. Then you'd make another cut on there --
A Yes.
Q -- that's three. Then make another cut; that's four. Then cut there, five. Cut there, six. And you have the whole branch cut, right?
A Yes.
Q Okay. So let's number these one, two, three, four, five, six. Does that number what we just discussed?
A Yes.
Q So you're basically at least on this demonstrative drawing, you're making six separate cuts off of this branch and then you put the branch down on the ground and get a new one?
A Yes.
Q Okay. All right. That did clear up about a

half an hour, so thank you.
A You're welcome.
Q Okay. And I'm sure they weren't all six cuts every branch, right?
A No, they varied.
Q Is six pretty much an average or no?
A No.
Q As far as --
A There's no average.
Q Okay. There's maybe six, eight, ten, something like that?
A There's no average. There's no way to average it.
Q Okay. The branch that Paul was holding when he was injured was a branch like most other branches although in different sizes, correct?
A Yes.
Q Okay. And you're telling me you made four cuts until he was injured?
A Fourth cut he got injured.
Q Okay. On the fourth cut?
A On the fourth cut.
Q Fair enough. So if we just start with that one branch that Paul's holding and discuss what you

did up and to the time he was injured, you made the first vertical cut from the horizontal limb 18 inches below his hand, you made the second one on the other side just like you did on Exhibit 1 here, then you went down 8 to 12 inches lower, made the third cut on one side, then you're going to the other side to cut the fourth cut, right?
A Yes, correct.
Q What happens when you're going from the third cut to the fourth cut that you believe is what caused Paul to get injured?
A The fourth cut, not much unlike all the other ones, the branch bowed. It may have been because it wasn't rigid; it may have been weaker than the rest. I don't know.
Q Can I stop you for a minute just so I know what you mean by bowed. What do you mean, it was -- it was like limp?
A Yes.
Q Okay.
A Yes, not as rigid as the other one perhaps.
Q So when you say -- I don't want to jump too far. When you say bowed then, that means when you press the chain saw down, it kind of gives a little

bit more?
A Yes. Yes.
Q Okay. All right. So you're saying the fourth limb that you're going to cut, that limb is a little more weak, it gives a little bit more than the other three that you already cut?
A The main branch taken from the tree is what I'm talking about. I'm not talking about the branch I'm cutting off. As I approached the crotch, the main branch which I depicted on the drawing there gave way.
Q Okay. So if we -- Hold on. If we define then just so we know we're talking the same language, the branch is the solid continuous piece of wood that Paul's holding whereas the limbs are the parts that come off of that branch. Let's use those terms, okay?
A The limb is the larger piece; the branches are what come off the limb.
Q All right. I'm sorry. All right. We'll do it that way then. Let's define it that way.
MR. BARCH: Don't you watch that show on TV, those Ax Men?
MR. MAST: No. No. No, I don't.
BY MR. MAST:
Q So let's put that on the -- I'm going to

write that on here so we use these same words. Because I don't want to change the words so I put on Exhibit 1 here branch for the little parts that come off the main limb.
A Yes.
Q Fair enough?
A Yes.
Q That's what we're going to describe?
A Yes.
Q All right. So what you're talking about is so we use the same terminology, the limb is what Paul's holding with his hand that goes vertically from his hand to the ground?
A Correct.
Q And the branches are the things you're cutting off of that limb six to eight or so cuts, right?
A Yes.
Q Okay. So what you're saying is after you cut three of the branches off of the limb Paul's holding, the fourth branch -- What happens with the fourth branch?
A The limb had flexed slightly causing the chain saw to come out of the crotch.

Q Okay.
A At that time, without moving away from that instance, I approached the cut again. Simultaneously Paul wanting to help me went to support it with his right hand and at that same time I went through the cut and I nicked his arm.
Q Okay. Okay. Now, when you're saying Paul went to -- what did you say? -- support it?
A Yes, support it.
Q What was he -- Do you know what he was going to do with his right hand?
A I'll tell you what he did with his right hand. He actually grabbed the limb and supported it.
Q What part of the limb?
A Below the next cut that I was -- the last cut that I made when it flexed and just below the one that I'm talking about and followed through.
Q All right.
A The fourth cut.
Q So let's talk numbers.
A The fourth cut.
Q You just made the third cut.
A Yes.
Q And the fourth cut was still the same

distance from the top of the limb --
A Yes.
Q -- but it was on the other side --
A Yes.
Q -- of the third cut, right?
A Yes.
Q And had you cut the fourth branch by the time Paul was injured?
A No.
Q Okay. So the fourth branch was still there?
A Yes.
Q But you were attempting to cut it, right?
A Yes.
Q And when Paul was holding with his left hand the limb, it kind of flexed because it's held up against the ground?
A Yes.
Q And it kind of bowed a little bit and you're saying Paul then with his right arm did what?
A Went to support it below that cut as I went to finish the cut.
Q Okay. So when you cut his arm, Paul's arm, was his right arm on any part of that limb or branch?
A Yes.

Q What part?
A Below the fourth cut which did not go all the way through.
Q Okay.
A He would have been like this (indicating).
Q All right. Hold on. So you just demonstrated that his left arm was up, his right arm was down on this limb, right?
A Correct.
Q So when you -- when he had his right arm on the limb and his left arm on the limb together, his right arm was below the fourth branch that you were going to cut, right?
A Yes.
Q How far below?
A Maybe 8 inches. His hand was collapsed onto the limb about 8 inches below that last cut that didn't go through.
Q Fair enough. Okay. And when you made that first attempt to cut that fourth branch, was his hand there at that time or was that after you tried to make that first attempt?
A It was after I made the first attempt at the fourth cut.

Q Okay. You made the first attempt at the fourth cut and because the limb bowed, you were not able to penetrate the fourth branch, correct?
A Correct.
Q So did you just in a split second go back and try it again or did you wait a couple seconds or what happened? How long was the process?
A Like microseconds. It was -- You know, it's a matter of just going -- and at the speed you can see -- I'll describe if I need to or if you want me to -- cut, cut and also the manner in which I'm cutting, it's called the locked elbow position. You don't just freewheel a saw. Nip, nip, nip, and it went ... I was like okay. And at that same time he just reached over to kind of help me out so it wouldn't flex and that's how it all came together.
Q All right. Well, if he's reaching over and that's why you cut him, then that leads me to believe that he's not holding on to the limb at the time that you cut him.
A Oh, he's holding on to the limb.
Q So is he reaching over at the time you cut him or is he already holding on to the limb?
A Simultaneously as he reached down to that

limb standing like this flexed like that. At the same time I went to finish the cut and I did finish the cut. Like I said, it just --
Q All right.
A Just --
Q Hold on. You're going way too fast for us and we're going to have to repeat the questions over and over again and if we can just go step by step, okay?
A Okay.
Q As he -- As you make the first attempt at cutting that fourth branch, the tree flexes and your saw blade bounces up or do you --
A Slightly bounces up, yes.
Q Okay. Then do you immediately put it back down to cut it a second time to try to cut it a second time or do you wait? Do you hesitate?
A I didn't hesitate.
Q So you immediately did it then, right?
A Say it again. No, just the last part.
Q I know. I get it. Your first attempt to cut the fourth branch to the second attempt to cut the fourth branch there was no hesitation, it was just tried to go down and get it, it bent and then you went

back down to get it and you cut it off?
A Yeah.
Q And that's -- When you went back down to get it that second time, that fourth branch, that's when you cut his arm?
A That's when he placed his hand there and got it cut.
Q Right.
A Yes.
Q Okay. So when he was cut -- physically when the cut occurred, was his right hand on the limb or not?
A Yes, it was on the limb.
Q Did you know it was on the limb?
A Yes, I did. It was clasping the limb.
Q Okay. How long was his right hand clasping the limb below the forth branch that you were going to cut before you cut his arm?
A It's hard to operate a stopwatch while you're operating a chain saw. I really can't give you a time frame as to something that happened so quickly and when two men come together. Like I said, I can't -- I can't answer that question. I don't know. I don't know.

Q Listen, you gave me five minutes of why you don't know. Just tell me you don't know, that's fine. We can move on.
A I'm sorry. It's my character. I'm very inclusive in my answer descriptive.
Q All right. Well, I'm just trying to tell you you don't need to do that.
A And I'm working on it right now.
Q All right.
A I'm glad you --
Q So the question is, and I'm not saying is it five minutes between the time you first tried to cut it until the second time you cut it. I understand we're talking seconds, okay. My question is --
A Milliseconds.
Q All right. Milliseconds. Fine. My question is, when you went down to cut that fourth branch the first time and the tree bent --
A Yes.
Q -- and you had to go down right away and cut it a second time, when you went toward that fourth branch to cut it a second time, when you went toward it, was his right arm on the limb at that time or was he off it and going toward it to hold on to it?

A At the exact same time that my saw went through that fourth cut, his hand clasped that limb.
Q That's not my question. My question is this; I'm going to say it again. My question is, you went down to cut that fourth branch off and the limb bowed so you went at it again; and my question is, when you went at it again for that second cut on that fourth branch, was his right hand clasping below that fourth branch at that point?
A In time?
Q Yeah.
A Simultaneously.
Q Okay. So that simultaneously you're saying when you're going after that fourth branch the second time --
A Yeah.
Q -- he's now at the same time grasping on below that fourth branch to hold on to the limb?
A Yes.
Q Okay. And do you see him as he is moving his right arm toward the limb to hold on to it or do you just see at the last second when your saw is going towards the branch?
A I was focused on the branch and the cut. I

wasn't looking at him.
Q So your answer is you didn't see his hand moving toward the --
A No, I did not see his hand.
Q You've got to let me finish the question.
A I'm sorry.
Q We're going to be here all day. Your answer is you did not see his hand motioning toward the limb -- his right hand motioning toward the limb to hold on to it, you only saw it right when it clasped the limb right when you were going at the branch a second time?
A Yes.
Q So the time -- Simultaneously when you're cutting that fourth branch, that's when you go through that branch and then you end up going into his arm, correct, his forearm?
MR. CALLAHAN: I'd just object to the form of the question.
BY THE WITNESS:
A You're leading me into cutting him and that's not what happened.
Q Oh, I'm sorry.
A I feel as though I am.

Q I get what you're saying. I'm sorry, maybe that wasn't the way you wanted me to word it. I'll try to word it differently.
A Thank you.
Q You're -- At least from what you're saying is, you are motioning toward that fourth branch a second time in attempts to cut it so you're moving the chain saw, as you said, in that rigid locked position with your elbow --
A Yes.
Q -- toward that fourth branch to cut it, right?
A Yes.
Q So if you're going toward that fourth branch to cut it, and I understand you're saying his right arm is locking on to that limb at the same time, right? Right?
A Yes.
Q But you're moving the chain saw forward to cut that branch, right?
A Yes.
Q So when you're moving that chain saw forward to cut that branch, that moving forward manner ends up striking his forearm in the manner that it did to cut

him, right?
A I think we're overlooking the word simultaneous. I'm sorry that I can't just answer your question but it's -- the description is --
Q What do you mean?
A The description is not fitting the instance that happened for me per se.
Q Put his arm movement aside for a minute.
A Okay.
Q Okay?
A All right.
Q We know simultaneously he's using his right arm to grab on to that limb while you're making that second cut to the fourth branch, right?
A Yes.
Q That's happening simultaneously; I understand that.
A Yes. Okay.
Q My question is, while you were going down to that second cut of that fourth branch, you're moving the chain saw forward to cut that branch, right?
A Yes.
Q And in the process of moving the chain saw forward to cut that fourth branch, that is the process

that takes your saw blade into his arm. Whether his arm is moving or not, we can -- I can ask that next, but the process of you moving forward with the chain saw is part of what led to his arm being cut, right?
MR. BARCH: I'm going to object to the form of the question. It's also argumentative. Go ahead.
BY MR. MAST:
Q Go ahead.
MR. CALLAHAN: I'll join that objection.
BY THE WITNESS:
A As you had said, it's part of how it happened.
Q Right.
A It's an equal share.
Q Okay. Equal share meaning you're saying his arm's moving near the limb as well as the chain saw you are operating is pushing forward toward that limb and the arm and the chain saw meet and he becomes injured, correct?
A Correct.
Q Okay.
(A short break was had.)
BY MR. MAST:
Q All right. Finish up where we got this tree

now. So you're holding the chain saw, you're going for that second attempt at the fourth branch to cut it, and while you are cutting that fourth branch is when the -- when Paul's arm is struck; is that right?
A Yes.
Q And so the chain saw is under your control at the time, right?
A Yes.
Q You're not out of control, are you?
A I'm in control with the chain saw, yes.
Q Okay. And you're wanting to cut it when this happens, right? You're wanting to cut with it when it happens?
A Yes.
Q Okay. You are attempting to cut the branch and that's when Paul's arm is attempting to hold on to the limb, right?
A Correct.
Q And the chain saw is in motion when Paul's arm is struck, correct?
A Yes.
Q Okay. And the first time you see Paul's arm is when his right hand is grasping the base of the limb below the fourth branch, correct?

A Yes.
Q You don't see it coming from the side toward that bottom part of the --
A No.
Q -- of the -- of the limb, correct?
A No, I did not, correct.
Q Is that correct?
A (Nodding.)
Q Okay. Is that correct?
A That is correct.
Q Okay. Okay. When he gets cut, what is the first thing that happens? Does he scream? Do you say something? What's the first thing that happens the split second he's cut?
A I say no. He says yes.
Q And what do you mean by no? You mean no, that's not happening or what?
A Yeah, like no. No, it didn't happen.
Q Okay. And he says what?
A Yes. Let's go.
Q Yes what?
A Let's go.
Q Let's go what?
A Let's get out of here. It's time to go.

We've got to go to the hospital, you know. Yes, let's go.

Q That's the first thing that happens once he's cut, right?

A Yes.

Q And when he gets cut, are you able to see the chain saw making contact with his arm, or how do you first discover he's cut?

A It just looked like I could have nipped him. It was so close that it looked like I could have touched him.

Q Okay.

A That's what I did, I touched him.

Q All right. Had Paul ever held a limb before he got cut with both hands before this?

A No.

Q Okay. So you did not expect him to do that?

A No, I did not.

Q Okay. And after you say no and he says yes, do you guys -- do you basically put the chain saw down and get in his car and go to the hospital?

A I threw the chain saw down and got in his car to go to the hospital.

Q Was he bleeding?

A Yes.

Q Do you know -- and, again, I don't knows are fine answers. I'm not trying to imply you know things but I just have to ask. Do you know how far or how deep the chain saw went into his arm?

A I could tell you pretty accurately. I was there in the operating room. It never went past the epidermis.

Q What do you mean, the skin?

A Yeah.

Q Did it open the skin?

A Yes.

Q And it was bleeding?

A Yes.

Q Okay. Well, I mean, the doctors will be able to tell us how deep it went. Are you telling me you have some kind of medical ability to tell how far it got cut?

A I'm educated to a certain extent and I was educated there in the emergency room and I heard everything that was being said and I was shown and even Paul said look, and I was right there the whole time looking.

Q You don't have any medical education or

ex- --

A No, I don't.

Q Wait. Back and forth here, please, please. You don't have any medical education or training, do you?

A No.

Q Okay. So any type of depth of incision or cut that you would be talking about would be just based upon what you saw visually, correct?

A It was visual, yes.

Q You never went with your finger inside the wound?

A No.

Q Or any type of object?

A No measuring devices were employed, no.

Q Okay. Did you hear the doctors talk about how far it was cut in?

A Yes.

Q How far did they say?

A Not deep, that was their assessment.

Q Okay.

A He was lucky.

Q Okay.

A It only hit the fascia; that's what they

said.

Q All right. Do you know -- You've known Paul a long time before the accident?

A 35 years.

Q Okay. Have you ever known him to be injured in any way before this accident?

A Yes.

Q Okay. What is that?

A A car accident.

Q When was that?

A I cannot put a pin date on it, but I can say it was over seven years ago.

Q Okay. So maybe around 2006, somewhere around there?

A I am guessing at that, but I know that there was an instant which he was involved in an accident and he also pursued.

Q Okay. Here, listen. Just follow me. If you follow me, we'll go where we need to go and get there fast, okay?

A As I said, it's a struggle because of my character.

Q All right.

A I'm descriptive and inclusive.

Q Fair enough.
A You don't have to keep correcting me -- or you do have to correct me; that's your job, but --
Q Fair enough.
A -- I'll try to get there for you, okay?
Q All right. Motor vehicle accident about 2006. Were you in the accident with him?
A No.
Q Do you know what injuries he suffered in that auto accident?
A Nerve damage to the left elbow that was allegedly struck.
Q In this case you mean?
A In that other -- Yeah.
Q Did he ever have any surgery for that left elbow?
A I know he was poked and prodded. I don't know if he was -- had actual open surgery for it though.
Q Did he ever resolve that injury up until the accident in this case?
A I don't know.
Q Okay. Other than a left elbow nerve injury in a motor vehicle accident around 2006, any other

injuries from that motor vehicle accident?
A I don't know.
Q Okay. How do you know about that left elbow nerve injury then?
A Because he showed people and talked about it openly.
Q Was it a different location than where he was lacerated or cut in the chain saw in this case?
A Yes, it was an entirely different arm.
Q Oh, I'm sorry. You're right. I'm sorry. I wasn't thinking that far ahead. Good. In this case -- In this case the chain saw was the right arm. In that case it was the left elbow, right?
A Yes.
Q Okay. Any other injuries other than the motor vehicle accident?
A I'm not aware of.
Q Okay. Any other prior -- prior to this case, any prior injuries to Paul?
A Not that I'm aware of.
Q Any prior conditions of ill health with Paul before his chain saw accident?
A I'm not aware of any.
Q In the four or five year let's say -- Strike

that.
In the five years before this chain saw accident in June of 2011, was Paul in any way disabled or limited in what he could do physically?
A I don't know.
Q Okay. Well, to what extent you do know -- to what extent your contact you've had with him, you're not aware of any; fair enough?
A Correct.
Q Okay. Are you aware that Paul was under any medical consultation or treatment in the five years prior to Paul's chain saw accident in this case?
A I am not aware.
Q Okay. After this accident are you aware of Paul receiving medical treatment from time to time for his right arm laceration?
A Yes.
Q How many times -- Let's say in the month after this chain saw accident, how many times did you see Paul? I mean, was it every day?
A No. No. Maybe three or four times since this accident I've seen him.
Q Total?
A Yeah.

Q Up until now?
A Yeah.
Q Oh, I see. So it's been very infrequent then?
A Yes.
Q Okay.
A Just the instances where we exchanged what I had given in the beginning of this deposition.
Q Right.
A Those are the only times I spoke to him.
Q All right. So let me summarize that just to make sure we're clear. What you're saying is, I'm assuming before the accident you saw Paul a lot, right, or not?
A I wouldn't even say frequency. From time to time.
Q Maybe once every couple of weeks or something?
A Yeah, that's honest. That's fair.
Q All right. So let me word that all out then. Before the accident you were seeing Paul every couple of weeks maybe infrequently; fair enough?
A Infrequently, okay, yes.
Q Fair enough?

A Yes.
Q After the accident you saw Paul only on those occasions where you had words with him that you described at the beginning of the deposition?
A Correct.
Q And that would have been, looks like, four times?
A Yeah.
Q Right?
A Yeah.
Q Okay.
A With the exception of the one time when he did come up to help me work, but we didn't discuss anything that had to do with the case; he just came up to work.
Q When was that? Was that a different time?
A It was after the accident. He helped me do a roof on my house.
Q So it's different than the four times we talked about at the beginning of the deposition?
A Yeah, we were talking about conversation and this wasn't really conversation. It was -- we were just working.
Q Okay. So that's why I'm trying to get this

summarized.
A Okay.
Q After the accident we talked about four different times you had a conversation with Paul about various things. We talked about those, we tried to give approximate dates and things.
A Yes.
Q Okay. Other than those four conversations with Paul, you said there was one other time you had -- you were with Paul after his accident and that was to do a roof?
A My roof at my home, yeah.
Q Okay. When was that?
A It would be October.
Q Of what year?
A 2011.
Q Same year as the accident?
A Yes. Yeah.
Q All right. So you did -- Was he helping you do roofing work on your house?
A He was helping me tear it off.
Q Okay. Did he have any kind of bandage or brace on his right arm from the injury in this case?
A No.

Q How many days was he helping you?
A Just one.
Q For how many hours?
A Five, six hours.
Q Okay. So you're saying after the accident in October of 2011, we're talking maybe about four months after the accident, Paul helped you on one day five to six hours to pull your old roof up off your house?
A Yes.
Q Okay. Was anybody else helping you --
A Yes.
Q -- during that time?
Who?
A Mike Shoshie, neighborhood friend.
Q How do you spell that?
A S H O S H I E.
Q Is he still a neighborhood friend?
A Yes, he is.
Q Where does he live?
A Two blocks away from me. I can't give you his address; I don't retain it in my memory, but I know where he lives. I could submit that to you at a later time if you'd like.
Q Very good.

MR. BARCH: I need to at least go on record that we started around 1:00. There's been some breaks, it's now 3:45. If Mr. Gagnon's attorney is going to stick to the three-hour limit, I need some time.
MR. MAST: I'll try to wrap it up.
MR. BARCH: I know, but I don't want to get to the three-hour point and have the plug pulled. There's only 15 to 20 minutes left.
MR. MAST: Well, I guess that's -- that's -- I mean, we didn't -- Hold on.
MR. BARCH: Well, I think you and I have a duty to share our time.
MR. MAST: Before the dep we didn't really discuss this so it's fair that you bring that up. I don't know if you have a lot, but I'm trying to wrap it up now with me. I don't think I'm going to take the full -- I don't think I'm going to be a half an hour from now. I don't know how much time you have so is it -- do you have a lot of time or are you just looking at 10, 15 minutes?
MR. BARCH: Yeah.
MR. MAST: Yeah, so we should be fine.
MR. CALLAHAN: Yeah, during the break Mr. Mast and I discussed this. We're told the deposition

started at 1:12. He said he'd wrap it up so you should have time.

MR. MAST: Yeah.

MR. BARCH: Okay. Good. I just want to make sure we're all on the same page, that's all.

MR. CALLAHAN: If you go a little over, I'm not going to jump up and scream.

BY MR. MAST:

Q Anyone other than Mike Shoshie, you and Paul that was assisting on your roof at the time Paul was helping you?

A No one else was assisting but there were witnesses that seen him helping in those duties.

Q That was my next question by the way. Who was that?

A Joe Vlk.

Q How do you spell the last name?

A V L K. No vowels.

Q Where does he live?

A In the neighborhood by me also.

Q Anybody else?

A My wife.

Q Okay. And are you aware of him having any difficulties in helping you during those five or

six hours because of his injury in this case?

A He seemed to not exert himself fully and was, if not nursing, staying away from using that arm in full but nonetheless was still grappling and moving.

Q Fair enough. So you're allowing the fact that he was reserving some of his -- saving himself a little bit for the right side where he hurt his arm in this chain saw accident as if there was something still lingering there?

A Yes.

Q Okay. But he still was able to help you for five or six hours irrespective of what might be his ongoing issue?

A Yes.

Q Okay. So other than those five to six hours that given day in October 2011, you had four other meetings and conversations with Paul that we already fully talked about and there's no more need to detail those anymore; fair enough?

A Correct.

Q Okay. And the first conversation was coming right out of the hospital that day of the accident, right?

A Yes.

Q The next one was four months later, the other one was 2012 and the last one wasn't about any financial thing but it was a little bit before the 2012 meeting; fair enough?

A Yes.

Q Okay. Have you now told me everything that you had -- Well, strike that.

Let me ask this question first. Did you and Paul at any time discuss how or why the accident occurred?

A No.

Q Okay. And that's on both sides. You never told Paul, Hey, why were you holding on to the branch, or, I didn't know you were doing that, or, Why were you grabbing with your right arm? You never told that to Paul, did you?

A No.

Q And Paul never said, Hey, why were you cutting the way you did, or anything like that; he wasn't complaining to you?

A No.

Q Okay. Have you talked to anybody else other than your attorney and your insurance company about what happened?

A No. My mother. Just back to my mother.

Q Oh, and you might have -- You know what? This isn't a big deal, but I think in terms of just being all-inclusive, you did -- I printed out what my assistant wrote down from a recorded statement that you knew I was taking over the phone of you, correct?

A Yes.

Q Did you read this at all?

A That one I -- Yeah.

Q Huh?

A Yeah.

Q This is the narrative from the recorded statement that she took down and I'm assuming she took it down right. I didn't go and read it and listen to it.

A Yeah, I had a few blanks in there and such that, you know ...

Q Well, hold on. The question is --

A Yeah.

Q And I'll mark this as Exhibit 2, okay, and I'll just put a 2 for now. But would you agree that -- and I know you didn't listen to the recording so I understand that, but would you agree that reading this narrative marked as Exhibit 2 accurately states

what you would have said on that phone call to me?
MR. CALLAHAN: I'd just object to the form of the question and as to the number of variables with the recording and with the transcription of the process itself, including some of the language in the transcript and ask him if he could -- I think it's better if this would be pointed out page by page or -- excuse me -- line by line more or less if he's agreeing with that.
MR. MAST: I can do that. Yeah. Joe, I'm just trying to make it easy.
MR. CALLAHAN: Yeah.
BY MR. MAST:
Q Let me put it this way: Have you read this narrative from your recorded statement?
A Yes.
Q Is there anything in the narrative -- and I'll let you read it again if you need to, is there anything in this narrative, Exhibit 2, that you believe you did not say that's attributed to you?
MR. BARCH: Form of the question, but go ahead.
BY MR. MAST:
Q Here, I'll give it to you again. Just read it through. I don't want to go through line by line

unless you want to but basically I'm asking you, did you say those words and is this --
A This besides the blanks that are there --
Q Yeah, besides the blanks.
A -- yeah.
Q Okay. All right.
MR. CALLAHAN: And I'd just point out too that there seems to be -- like if you read that thing in total, there are eight parts where the subject and verb don't agree, there's parts where it goes on, it doesn't make sense and that also has to be considered as well as to the totality of the accuracy and the candor of the statement.
BY MR. MAST:
Q Okay. This is my question, and again I know you didn't compare the audio to that statement; but you read that statement and all I'm asking is, you generally recall giving me a statement over the phone, right?
A Yes, I do.
Q And does that generally, and again we can listen to it to find out specifically what it says; but does that generally meet with your recollection of what you said?

A Yes.
Q Okay. And that's Exhibit 2, correct?
A Yes.
Q All right. Again, it is what it is. Let's put Exhibit 2 on here so we can keep track of these things. Okay.
Now --
MR. MAST: Oh, I didn't put this on the record. I'd like to put this on the record. I don't have answers today of interrogatories, nor I don't think this response is to my production request. Let me just see. No, this response to the production request is to codefendants' response. So I don't have that discovery, nor answers to interrogatories to my discovery. I'm assuming nothing is going to be crazy or different than what went over today but to the extent it does, I'm going to reserve my right to the extent I need to, but let's just mark this as Exhibit 3.
BY MR. MAST:
Q And what Exhibit 3 is, is what I was given today right before the deposition are, Mr. Gagnon, your answers to codefendants' interrogatories and response to production request. Nothing that you need

to concern yourself to other than I will ask you Exhibit 3, is this your signed answers to interrogatories that you're giving in this case?
A Yes, I received this in the mail and answered those questions as they are printed.
Q And you signed it verifying these are your true and correct answers, correct?
A Yes.
MR. BARCH: Do you have a signed version? I don't have a signed one.
MR. MAST: Yeah, it's signed.
BY MR. MAST:
Q All right. Has -- I think defense counsel already answered this, but I just want to make sure that you haven't heard anything that your defense counsel hasn't heard -- has your homeowners insurance rejected or reserved their right for coverage in this case at all, to your knowledge?
MR. CALLAHAN: I'd just object, it may call for privileged conversation and I object as to it may call for conversations with insurance company but -- and I can answer as far as I know, there's been no rejection of anything, and I'll make that stipulation --
MR. MAST: I'll accept your answer then; that's

fine. All right. Let me just look through your answers to interrogatories, the ones that I've got. Hold on one minute.

BY MR. MAST:

Q Have you talked to your mother -- Or strike that.

Have you talked to your parents at all about this incident with regard to whether they saw anything?

A No.

Q Okay. Do you know if they saw anything regarding the incident?

A I know they didn't see how it went down.

Q Did they -- Do you know if they saw the process of what you and Paul were doing in cutting these branches down?

A No.

Q Okay. Do you know if they knew about the incident before you left the property that day?

A Yeah, they knew that something had happened --

Q Okay.

A -- bad.

Q Okay. Since you only met or spoke with Paul

on a few various occasions after the incident, I'm assuming you're not really up-to-date on the nature and extent of his recovery and/or his medical injury; fair enough?

A No, I'm not.

Q Is that fair enough?

A That's fair.

Q Okay. So what limitations or the severity of the injury and what it's turned out to be, you don't know about; fair enough?

A I don't know.

Q Okay. And the work you were doing was at the request of your parents, correct?

A It was at the submitting of my parents for my suggestion that it was a good time to do this.

Q It was for purposes of your parents. It was their property and it was --

A Yes.

Q -- work doing --

A It was for purposes of my --

Q Hold on.

A Okay.

Q It was for their purpose, your parents' purpose to do it. You weren't benefiting yourself in

doing it, were you, other than getting money for it?

MR. BARCH: I object to the form of that question. It calls for legal opinions.

MR. MAST: I don't --

BY MR. MAST:

Q Go ahead. Do you want me to ask the question again?

A Yeah.

Q All right. The work you were doing in cutting the tree on your parents' property when this injury occurred was to benefit your parents, correct?

A Yes.

MR. BARCH: Same objection.

BY MR. MAST:

Q Okay. And you were getting paid to do it, correct?

A Yes.

Q Okay.

MR. MAST: Go ahead. I'll let you go and see if I have anything else here.

EXAMINATION

BY MR. BARCH:

Q Hopefully don't have to cover everything over again, but I do want to back up a little bit. Mike McArdle?

A Mike Mcartor.

Q Mcartor?

A Yeah, Mcartor.

Q He was a friend of yours for a long time as well?

A Yes.

Q And what's the connection between him and Mr. Dulberg? I mean ...

A They both live together in Paul's mother's home.

Q They've been living together for years?

A Ten years.

Q Ten years?

And it's a sensitive question, but are they a couple?

A A lot of people wonder.

Q Okay. Well, do you know?

A I don't know.

Q You've known them both for years.

A I don't know. I mean, I don't know either way so I just don't know. I'm not being facetious; I just don't know.
Q Have you ever talked to Mr. Mcartor about what happened?
A No.
Q No?
A No.
Q They -- There was one conversation --
(Short interruption.)
BY MR. BARCH:
Q There was one conversation I think you had with Mr. Dulberg and Mr. Mcartor was present?
A Yes.
Q And let me see if I can remember which one that was. Do you remember of the four that we talked about earlier --
A Yes, it's the one in the kitchen where Mike was present and Paul had commented that he thought that this was a blessing and the best thing that could have happened because he won't have to work another day of his life. Won't have to retrain for a job, blah-blah-blah, on and on.
Q Okay. Do you recall Mr. Mcartor making any

statements?
A No. No, Mike is a listener.
Q Okay.
A He stays out of things.
Q And I may be confused but was that the same conversation where he -- where you basically said you wouldn't tell something that wasn't true?
A No, that was a separate conversation. I was leaving his house and he kind of just blurted out across the kitchen where Mike was witness to him saying it.
Q The one that Mike was there, there wasn't any discussion about money or --
A No.
Q -- testifying any certain way?
A No.
Q Okay. All right. I guess going back to this whole situation, what brought you out to your -- I guess to this -- to do this work at your mom and dad's place. That's your mom, right?
A Yes.
Q Carolyn is your mom, and Bill's been your stepfather for years?
A For years, yeah.

Q And you were there -- If I understand what you're saying, you were there, there was a discussion as to what to do with these trees now that the shed was down?
A Correct.
Q And it was just a -- if I heard your testimony, a good opportunity to take down these overhanging trees?
A Yes.
Q Was there plans to put up a new shed?
A No. Actually, we installed the same size shed on the same platform in the same spot after the trees came down.
Q Okay.
A As I said, it was opportune because it was absent now.
Q Okay. But was there -- the long-range plan was to put a new shed back in the same spot?
A Yes.
Q A replacement?
A Yes.
Q All right. So before doing that, it was -- your thought is let's get rid of this overhanging tree?

A Yes.
Q All right. And I -- I -- This whole notion as to whether you were paid or not paid, did they end up giving you cash for doing work out there?
A I did a multitude of things; but yes, for that job --
Q Okay.
A -- there was many upgrades done on the property, so ...
Q Did you consider yourself to be their employee or were you just doing a favor for them for money, what?
A No, I was -- I was doing a favor and because of the times, I was getting money where I could and my mom wanted to supply me with some kind of means of income because I couldn't find it anywhere else and I provided a service for her.
Q You called it at one point a chore --
A A chore.
Q -- that you were doing for them?
A Yeah.
Q All right. Now, with respect to the tree trimming and then ultimately whether they were removed, did either Bill or Carolyn come out there and

tell you how they wanted this done?
A No.
Q Prior to you undertaking that job, did you sit down with them and have them tell you what they wanted done, what their expectations were, or anything like that?
A No.
Q Have you ever actually seen either one of them use a chain saw?
A No.
Q Would you agree that you were free to cut those limbs, take down the branches, to do that in any way you saw fit?
A Yes.
Q And you didn't have an invoice or a written contract with them --
A No.
Q -- or anything like that?
A No.
Q And then this whole concept as to whether David was there -- I'm sorry -- as to why Paul was there, he was there -- you invited him over?
A I did.
Q And Mr. and Mrs. McGuire may have known he

was coming over?
A Yes.
Q You told them that?
A Yes.
Q Did you tell them that he was coming over to help you?
A I said that I asked Paul to help me today and they didn't say anything because we worked together before and they're friends, so ...
Q And at that point, if I heard your testimony, there was no discussion between you and your parents about them paying for Paul's time?
A No.
Q And that wasn't something that you and Paul even talked about?
A No.
Q Even up until the point of injury, that was not a subject of conversation?
A No, it was not.
Q Do you know if he was planning on taking some of the trimmed-up branches for firewood?
A I was assuming in my mind that that would suffice him initially, yes, because he had already taken some before from the front yard. He has a

fireplace at his home that he burns --
Q Okay.
A -- where we don't -- or she doesn't here.
Q That was an assumption but was it actually a subject of conversation between you and he?
A No, we did not discuss it.
Q So in terms of what, if anything, Paul might get out of it, as you sit here today, you don't recall any discussions with Paul about what he would get in return for helping you?
A No, he just agreed to help a friend take down some trees.
Q And I -- if I'm understanding your testimony too, Paul wasn't trying to override anything you were doing; he wasn't telling you what to do either?
A No.
Q There was a lot of unspoken things happen between the two of you?
A Yes.
Q The branch that you and Mr. Dulberg were working on -- I'm sorry -- the limb that you and he were working on, that one you mentioned as you were cutting that fourth branch as turning, that one flexed?

A Yes.
Q And you used the word flexed, at one point also bowed, you used that word?
A Yes.
Q If I'm understanding what you're saying, the actual limb itself bent?
A Yes.
Q All right. Did you have that happen on any of the other 24 to 29 branches that you were cutting?
A No.
Q That was the first time that happened?
A Yes.
Q All right. And the -- at the point in time you described, and I don't want to go through in detail what you and Mr. Mast just went over, but you described how you were moving for that -- at the second attempt to get that fourth branch; and if I understood your testimony, simultaneously Mr. Gagnon is coming in with his right arm to grab the limb --
A Mr. Dulberg, yes.
Q -- and the saw and his arm converged simultaneously?
A Yes.
Q Okay. Had Mr. Dulberg gotten his hand

anywhere near the chain saw any closer than 12 to 18 inches anytime prior to that?
A No.
Q At any point in time did you perceive or fear that he was getting his arm too close or hand or whatever, any part of his body too close to the blade of the chain saw that you were operating?
A No. No.
Q Right up until the very end?
A No.
Q Did you ex- -- As you were cutting, having down 24 to 29 branches, because this happened you're estimating on the twenty-fifth or thirtieth branch, correct?
A Yeah, somewhere around there.
Q Limb. Did you expect him to be putting his arm in there to help with the flex?
A No, because none of them flexed previous to that. I didn't foresee it at all.
Q All right. And would you agree that prior to June 28, 2011, indeed right up until the point where Mr. -- where the saw came in contact with Mr. Dulberg's arm, you knew that a chain saw could cut somebody?

A Yes.
Q You didn't have to be told that --
A No.
Q -- by anybody else?
A Did not have to be told that.
Q And would you also agree that you knew that it would be important if you were using a chain saw to keep it clear of somebody else's arm and hands and body for that matter?
A Yes.
Q You didn't have to be told that by anybody?
A No.
Q And you talked about a certain position you took with the chain saw, you called it a lock --
A Locked elbow.
Q Locked elbow?
A Yeah.
Q Is that where one hand's on there -- there's like a bar that you can hold the chain saw with?
A Yes.
Q Then there's another part where there's a trigger?
A Yes.
Q You actually have to pull the trigger to get

the chain to move?
A Yes.
Q And which elbow are you talking about being locked, both of them?
A Right elbow locked into my ribs so that my strokes were short.
Q Okay. So that was some -- that was a technique that you were using to maintain control over that chain saw?
A Yes.
Q Is that something that you learned just in practice or something you heard before?
A No, I witnessed people doing it when they're in close quarters because sometimes you'll have to do that. You know, I have a friend who does tree trimming and I'd just seen it performed before.
Q Okay.
A It's also less fatiguing on the worker.
Q And it may be elementary but correct me if I'm wrong, you were -- as you were using the saw to cut those branches off the limbs, part of what you were doing is removing these limbs, correct?
A Yes.
Q The branches from the limbs?

A Yeah.
Q And part of what you're doing is trying to not hurt yourself --
A Correct.
Q -- in the process?
A Yeah.
Q Were you also endeavoring to not hurt Mr. Dulberg?
A Yes. I had no intentions of hurting anyone.
Q At any point in time prior -- right up until the point where the chain blade came into contact with Mr. Dulberg's arm, did you feel there was a -- did you feel compelled or was there anything causing you to feel compelled to tell him to keep his hands or arms out of the way?
A No, they were not in the way.
Q He was doing that all the way up until that point in time?
A Yes.
Q And if I heard you, you don't know all the injuries -- the extent of any injuries or complications Mr. Dulberg had as a result of that car accident that he had?
A Nerve damage is all I was aware of.

Q Okay. Whether he broke his neck or had any residuals with the elbow, rehab or surgeries, none of that you don't know?
A Yeah, I don't know.
MR. BARCH: All right. That's all I have.
MR. CALLAHAN: I just have one -- two quick questions that you may want to have some follow-up on if I can just go?
MR. MAST: Okay.
EXAMINATION
BY MR. CALLAHAN:
Q Mr. Gagnon, are you aware of any other work that Mr. Dulberg has done in addition to helping you tear off a roof after the date of the incident?
A He tends a garden which is his whole front yard this summer, the last summer. He did some -- He did some renovation and tear-out work for a -- kind of strange you asked that, but a homosexual that lives in Twin Lakes and he just freely gave up, he's like, Yeah, I met your friend Paul.
You know, he helped me tear out the dry wall in my basement and stuff and then I was like, oh, really? And I asked him if he would testify and he said, I don't want to get involved. So maybe he'd

want to get involved now, I don't know, but that was the one example; and then of course on my home, my roofing.
Q So he did some demolition work for some other people?
A Yeah.
Q And that was referred to in your statement that you gave Mr. Mast before this deposition?
A Yes.
MR. CALLAHAN: Okay. That's all I have.
MR. MAST: Yeah, I want to follow up on that.
FURTHER EXAMINATION
BY MR. MAST:
Q He tends a garden. Do you ever watch him tend the garden?
A I've seen him tend to his garden.
Q Since the accident?
A Physically walking in his garden and picking vegetables, yeah. I mean, as far as tilling and that, no, I have not seen him labor as far as tilling, although he did borrow my tiller to till it.
Did I see -- Did I see him? No.
Q Okay. Have you ever seen him till his garden?

A No.
Q The only thing you've seen him do since his accident as far as his garden is to pick vegetables?
A Yeah.
Q Okay. And that's just by when you drive by you see him doing that?
A He's -- He told me at those times when I was there, you know, look at all the produce I have.
Q He told you when? What are we talking about?
A When I was there.
Q After the accident?
A Yeah. On those -- On those occasions that I mentioned, he's got all his, you know, vegetables and stuff lined up at his house.
Q You're going too fast. On what occasions? These conversations we talked about at the beginning of this deposition weren't all at his house.
A No, the one where I was in the kitchen.
Q Right. That's the one time. You said --
A Such as -- Such as that, you know, and --
Q Wait. Wait.
A His brother doesn't tend the garden.
Q Hold on. Hold on. Stop. After the accident how many times have you been to his house?

A As I had said.
Q How many?
A As I had said.
Q What is as I had said? What answer -- How many is that?
A You've got it written down right there.
Q How many? I don't know what you're talking about. How many?
A I told you the one time in the kitchen.
Q Right.
A And there you go.
Q So one time?
A Yeah.
Q Okay. Just say one then; that's the answer. So the question is, how many times have you been to Paul's house since his accident? It's one time, right?
A Yeah.
Q Is that a yes?
A Yes.
Q Okay. So the times that you've seen anything that he's done with his garden, have you ever visited him to see what he does in the garden?
A No, I didn't witness him working in the

garden.
Q Okay. So what you're saying is the testimony you just gave about him tending the garden is what you have had that one conversation when you were at his house that one time after the accident, right?
A Yeah.
Q And that was a conversation you had with him and he said, Hey, look at what I do when I tend my garden?
A Yeah. I was figuring maybe the dog helped him, you know.
Q You know, I'm not trying to be funny. I'm just trying to get the facts, okay? Because what you say might -- you might not understand but it leaves a lot of inferences. I'm trying to finish -- find out exactly what you mean as far as so I don't have to infer what you mean, okay?
A Okay.
Q So I'm not trying to be funny about it. You were there at his house one time after the accident, right?
A Yes.
Q And that was the time four months after the accident?

A Yes.
Q Okay. And that's the information then that you got about him tending his garden, correct?
A Yes.
Q Okay. You've never seen him tend his garden since the accident, have you?
A Picking fruit, tending? Yeah. I mean, are you talking about tilling soil? Are you talking about walking in the garden in the sense --
Q Have you seen --
A What are you saying is tending?
Q All right.
A I don't understand.
Q Okay. I understand that.
A Okay.
Q How many times have you seen him in his garden since the accident?
A We'll say ten times driving by his house, going into the neighborhood that I used to live in, no conversations, not stopping by, not talking to him.
Q I got the answer, ten times.
A But I'd usually seen him in his garden.
Q During those ten times you've seen him in his garden since the accident, what things have you seen

him do?
A Harvesting vegetables.
Q Picking vegetables?
A Yes.
Q Okay. With his hands?
A Yes.
Q Putting them in some type of basket or something?
A Yes.
Q Okay. And you would see him just by passing by so it'd be a matter of a couple seconds you would see him, right?
A Yes.
Q For each of those ten times, right?
A Yes.
Q And those are ten separate dates?
A Yes.
Q Over a course of a summer?
A Over the course of since this occurrence.
Q Okay. So that would be two summers?
A So two summers, right.
Q Okay. Very good. Let's talk about that renovation work then. The renovation work that you're talking about isn't something you saw him do, it's

something that somebody else told you that he has done, right?
A Yes.
Q And who is the individual, what's his name?
A Mike Thomas.
Q Mike Thomas?
A Yeah.
Q He's the homosexual you were talking about?
A Yes.
Q And he lives in where?
A He lives in Twin Lakes.
Q Okay. Are you friends with him?
A No.
Q Okay. So you don't know personally what Paul did, if anything, at Mike Thomas's house, you just know what Mike Thomas told you, correct?
A Correct.
Q Okay. So whether he actually did renovation work, meaning Paul, you don't know; fair enough?
A His basement was renovated.
Q Whether Paul did the work or not, you don't know; fair enough?
A I was told that he did the work.
Q Right, and so now I'm asking do you know if

Paul did the work or just through what you were told?
A I was informed that Paul had done the work inadvertently without asking for me to be revealed that someone -- someone had told me that I know this person.
Q All right. Here, let me say it a different way.
A I know, you're trying to work it your way.
Q I'm not trying to work -- I'm just trying to get the basis of what you're saying and you didn't see him do the work, right?
A No, I didn't see him do the work.
Q So you don't know if he really did the work, do you, other than what somebody told you, correct?
A That's a fair assumption.
Q And Mike is the only person that told you he did the renovation work, right?
A That is correct.
Q And what part of the renovation work you don't know; fair enough?
A That's a fair assumption.
Q Okay.
MR. MAST: That's all I have. Thanks.

FURTHER EXAMINATION
BY MR. CALLAHAN:
Q I hate to do this but one more question. Have you seen Mr. -- In the time you've seen Mr. Dulberg after the accident, have you seen him working on his computer?
A I've seen him working on his computer, yes.
Q All right. And he seems to be able to use both hands on the computer?
A He's always on his computer, yeah.
Q Okay.
A That's what he does.
MR. CALLAHAN: That's all I have. Thank you.
MR. MAST: Now I've got to ask you that. All right.
FURTHER EXAMINATION
BY MR. MAST:
Q How many times have you been to Paul's house since the accident, just that one time?
A Yes.
Q Is that the only time you've seen him operate his computer after the accident?
A That was the time that I've seen him, yeah.
Q Okay. Fair enough.

MR. MAST: All right.
MR. CALLAHAN: Signature reserved.
(Witness excused.)

COUNTY OF COOK)

I, Margaret Maggie Orton, Certified Shorthand Reporter and Registered Professional Reporter, do hereby certify that on February 4, 2013, the deposition of the witness, DAVID A. GAGNON, called by the Plaintiff, was taken before me, reported stenographically, and was thereafter reduced to typewriting under my direction.

The said deposition was taken at the offices of Thomas J. Popovich, 3421 West Elm Street, McHenry, Illinois; and there were present counsel as previously set forth.

The said witness, DAVID A. GAGNON, was first duly sworn to tell the truth, the whole truth, and nothing but the truth, and was then examined upon oral interrogatories.

I further certify that the foregoing is a true, accurate, and complete record of the questions asked of and answers made by the said witness, DAVID A. GAGNON, at the time and place hereinabove referred to.

The signature of the witness, DAVID A. GAGNON, was reserved by agreement of counsel.

The undersigned is not interested in the within case, nor of kin or counsel to any of the parties.

Witness my official signature on this 9th day of December, 2019.

MEMORANDUM

TO: File

FROM: Hans

DATE: April 13, 2012

SUBJECT: **PAUL DULBERG - RECORDED PHONE STATEMENT FROM DEFENDANT, DAVID GAGNON**

Recorded statement saved under "Dulberg file - starts 9:16 to 6:03.

I was turning _____ so that the back was going to cut and an easier go at it. Therefore, the branches that came down, I guess I can say "we" without saying "me" opted to stand the branches up and proceeded to cut. We done this many times, basically scalding off the small branches to make in size of 2 or 3 inch diameter pine needles left, nothing of real value to something to clean up. So, in doing so we had cut probably, I don't know, have a cord of little tiny pieces and had some left and we got to one where I didn't change position, and just so you it was the way that I was operating the saw and it cheeked, in other words, I wasn't free wheeling it out in front of me, always in position and we got to a branch that maybe we shouldn't have tried to cut, it was a little flimsy, so when I hit the crotch it flexed. At that time, yes I was handling the saw, but Paul at the same time and just because we know each other so well, I assumed it would be ok to support it. In doing so, I was already into the cut and the crotch just _____ and I just nicked his arm. So I am wondering at this point, I was there in the operating room I looked into his flesh I was there weeping with him not accepting negligence or responsibility in full but certainly feeling my friend's pain, calling my mother of course she is concerned, she provided for all of the information and such for his medical bills and whatever to be paid and paid for his medication that day for pain and actually gave him some money for, you know, doing the work. I think _____ and he worked and he probably had intentions of getting something and actually I am wondering what is the premise that he is suing on and to what extent if you can answer those questions for me because I have known Paul for a long time, ok, I am going to tell you something else, he helped me roof my roof this summer, he did renovation work for a guy over here in Twins Lakes and ironically we talked and you know and I'm like yeah I know that guy, his name is Mike Thomas and, I mean, what is the premise that is he suing on?

Hans - I would be happy to tell ya, I mean, I don't know if you know this, our lines are recorded, but I don't have to keep it if you don't want me to.

No, I don't care, everything I am saying is the truth and that's the way that I operate and I'm glad that it is recorded and that we are both verified and so continue.

Hans - I don't expect you to tell me anything but the truth anyway, so as long as that is a good deal then fine.

What he said, you know, is that, we can make a lot of money in this, and I said we? I said Paul, I'm still thinking about your arm and getting home and getting your meds and he say ah, we'll talk about it later. So, once again, per law I understand that he is entitled to something but there should be

need why it should be hyped, pumped, exaggerated it and what I just told you was the truth, ok, as far as his injury my face was right in there. I mean he was all... and got pain medication and their____ filing away at his flesh, but when it came down to it, I'm not a doctor, but I can tell ya the facia is a white membrane underneath your, separates your muscle from your fatty tissue of your epidermis, that is how deep it went. Now, we are not to judge or to say how bad it is, but as far as I'm concerned and anyone there, he had 7 stitches I think, 2 inside and then 6 outside, it was a deep superficial gouge and cutting the nerves, tendons, muscle.

STATE OF ILLINOIS)
) SS
COUNTY OF MCHENRY)

IN THE CIRCUIT COURT OF THE TWENTY-SECOND JUDICIAL DISTRICT
McHENRY COUNTY, ILLINOIS

PAUL DULBERG, Plaintiff(s), vs. DAVID GAGNON, Individually, and as Agent of CAROLINE MCGUIRE and BILL MCGUIRE, and CAROLINE MCGUIRE and BILL MCGUIRE, Individually, Defendant(s).	CASE NO. 12LA000178

ANSWERS TO CO-DEFENDANT INTERROGATORIES

The Defendant, DAVID GAGNON, in response to the Interrogatories propounded states as follows:

1. State the full name, present residence address and birth date of the person answering these Interrogatories.

ANSWER: David A. Gagnon, 39010 90th Place, Genoa City Wisconsin 53128
DOB: 4/3/1697

2. State your marital status on the date of the occurrence in question and, if married, your spouse's name and age on said date.

ANSWER: Married; Pamela Gagnon, 39010 90th Place, Genoa City Wisconsin 53128.

3. State the full name and present or last known address (indicating which) of each person who:

(a) Witnessed or claims to have witnessed the occurrence in question.
(b) Was present or claims to have been present at the scene immediately before said occurrence.
(c) Was present or claims to have been present immediately after said occurrence.
(d) Otherwise has or claims to have any knowledge of the facts or possible causes of the occurrence to include any damages or injuries alleged to have resulted from said occurrence.

ANSWER: David A. Gagnon, 39010 90th Place, Genoa City Wisconsin 53128; Paul Dulberg, 4606 Hayden Ct, McHenry Illinois 60050; Carolyn McGuire, 1016 W. Elder

EXHIBIT

PENGAD 800-631-6989

Avenue, McHenry Illinois 60051; William McGuire, 1016 W. Elder Avenue, McHenry Illinois 60051.

4. State specifically and with certainty the personal injuries and property damage, if any, sustained by PAUL DULBERG as a result of said occurrence.

ANSWER: Defendant has no knowledge regarding the plaintiff's personal injuries and/or property damage claims.

7. State whether PAUL DULBERG was hospitalized or had suffered any illness or personal injury prior to or subsequent to the date of said occurrence, and if so, state the nature and date of each such hospitalization, illness or personal injury.

ANSWER: I do not know.

8. State whether PAUL DULBERG suffered any permanent scarring as a result of the accident alleged in the complaint. If so, state the location of such scar, the width and length of such scar or scars. (Pursuant to Supreme Court Rule 214, please attach any photos of any such scar to your answers hereto.)

ANSWER: I do not know.

9. State whether prior to the accident alleged in the complaint PAUL DULBERG suffered any physical disability or impairment of any kind whatsoever. If so, state the nature of such physical disability or impairment and how PAUL DULBERG came to have such physical disability or impairment.

ANSWER: I do not know.

10. State the location of the alleged occurrence, pinpointing such location in feet, inches and direction from fixed objects or boundaries at the scene of the occurrence.

ANSWER: The accident occurred in ~~front~~ BACK of my parent's home at 1016 W. Elder Avenue, McHenry Illinois 60051.

11. State with particularity the nature of the alleged defect, object substance or condition which caused the alleged occurrence giving the exact dimensions and physical description of such including the size, shape, color, height, length and depth of such defect or object.

ANSWER: Chainsaw, EFCO, Model # MT3500, 2.38 Cubic Inch, 16" blade.

12. State with particularity what PAUL DULBERG was doing at the time of the accident alleged in the complaint.

ANSWER: He was helping me trim a tree by holding a branch.

13. State with particularity what DAVID GAGNON was doing at the time of the accident alleged in the complaint.

ANSWER: I was cutting through a branch with the chainsaw.

14. State with particularity the address for David Gagnon on June 28, 2011.

ANSWER: 39010 90th Place, Genoa City Wisconsin 53128.

15. State with particularity all the reasons why PAUL DULBERG was present on the premises known commonly as 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois on the date of the alleged occurrence.

ANSWER: I asked him to help me trim the tree at my parents' home.

16. State with particularity all the reasons why DAVID GAGNON was present on the premises known commonly as 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois on the date of the alleged occurrence.

ANSWER: I was trimming a tree for my parents.

17. State with particularity your basis for alleging that David Gagnon was working under the supervision and control of Defendants Bill McGuire and Carolyn McGuire at the time of the occurrence, as asserted in your answer to Plaintiff's Complaint.

ANSWER: N/A

18. State with particularity your basis for alleging that Defendants Bill McGuire and Carolyn McGuire instructed and/or advised David Gagnon in the use of a chain saw on or before the date of the occurrence, as asserted in your answer to Plaintiff's Complaint.

ANSWER: N/A

19. State with particularity your basis for alleging that David Gagnon was under the supervision and control of Defendants Bill McGuire and Carolyn McGuire and working as their apparent and actual agent on the date of and at the time of the occurrence, as asserted in your answer to Plaintiff's Complaint.

ANSWER: N/A

20. State with particularity any and all defects associated with the chain saw you believe or claim was involved in the occurrence alleged in Plaintiff's Complaint.

ANSWER: None.

21. State whether any photographs or videos were taken of the scene of the occurrence or of the persons, objects or premises involved, and if so, state the number of photographs or videos taken, their subject matter and who now has custody of them.

ANSWER: No.

22. Pursuant to Supreme Court Rule 213(f), furnish the identity and addresses of witnesses who will testify at trial and the following information:

(a) For each lay witness, identify the subjects on which the witness will testify.

(b) For each independent expert witness, identify the subjects on which the witness will testify and the opinions the party expects to elicit.

(c) For each controlled expert witness, identify:

(i) the subject matter on which the witness will testify;

(ii) the conclusions and opinions of the witness and the bases therefor;

(iii) the qualifications of the witness; and

(iv) any reports prepared by the witness about .the case.

ANSWER: David A. Gagnon, 39010 90th Place, Genoa City Wisconsin 53128— This witness is expected to testify to any dangerous or defective condition that he saw and/or was aware of; his insurance policy and coverage; maintenance, repair and inspection of the chainsaw; as to any dangerous or defective area on the premises. This witness is also expected to testify regarding his observations of the plaintiff before, during and after the alleged occurrence; his understanding as to the facts of the accident; his observations of the scene and he is expected to testify as to any conversations which took place between the parties and witnesses. This witness is also expected to testify consistent with any testimony he may have given and/or may give at a discovery deposition.

Paul Dulberg, 4606 Hayden Ct, McHenry Illinois 60050—This witness is expected to testify to any dangerous or defective condition that he saw and/or was aware of; his relationship to the tenants of the building; his observations prior, during and after his alleged injury; the nature of his injury, medical bills, medical records and recovery; his understanding of his injury and recovery. This witness is also expected to testify to his understanding as to the facts of the accident; his observations of the scene and he is expected to testify as to any conversations which took place between the parties and witnesses. This witness is also expected to testify consistent with any testimony he may have given and/or may give at a discovery deposition.

Carolyn McGuire, 1016 W. Elder Avenue, McHenry Illinois 60051; William McGuire, 1016 W. Elder Avenue, McHenry Illinois 60051— These witnesses are expected to testify as to their ownership of the property in question; their insurance policy and coverage; their knowledge of the area, chainsaw and tree; maintenance, repair and inspection of the chainsaw; as to any violations the premises; as to any dangerous or defective area on the premises. These witnesses are also expected to testify regarding their observations of the plaintiff before, during and after the alleged occurrence; their understanding as to the facts of the accident; their observations of the scene and they are expected to testify as to any conversations which took place between the parties and witnesses. These witnesses are also expected to testify consistent with any testimony they may have given and/or may give at a discovery deposition.

Under penalties as provided by law pursuant to 735 ILCS 5/1-109 of the Code of Civil Procedure, the undersigned certifies that the statements set forth in this instrument are true and correct, except as to matters therein stated to be on information and belief and as to such matters the undersigned certifies as aforesaid that he/she verily believes the same to be true.

David A. Gagnon

9. None.

I, Perry A. Accardo, regarding my letter to Ronald A. Barch, Attorney(s) at Law, dated January 31, 2013, state that it is complete and in compliance with Supreme Court Rule 214 in disclosing discovery material in my possession requested by the Production Notice propounded on 10/1/2012, by Ronald A.Barch.

Sincerely,

Perry A. Accardo

PAA

Defendants.	)	

Discovery deposition of PAUL R. DULBERG, taken on behalf of the defendants, Caroline McGuire and Bill McGuire, in the above-entitled action in the offices of Attorney Thomas J. Popovich, 3416 West Elm Street, in the City of McHenry, Illinois, on the 24th day of January, 2013, commencing at 12:17 p.m., as reported and transcribed by Angela D. Oldenburg, Certified Shorthand Reporter in and for the State of Illinois.

APPEARANCES:

ATTORNEY THERESA M. FREEMAN
Law Offices of Thomas J. Popovich
3416 West Elm Street
McHenry, Illinois
Appeared on behalf of the plaintiff.

ATTORNEY RONALD A. BARCH
Cicero, France, Barch & Alexander
6323 East Riverside Boulevard
Rockford, Illinois
Appeared on behalf of the defendants, Caroline McGuire and Bill McGuire.

ATTORNEY PERRY A. ACCARDO
Law Office of M. Gerard Gregoire
200 North LaSalle Street
Chicago, Illinois
Appeared on behalf of the defendant, David Gagnon.

PAUL R. DULBERG,
being first duly sworn, was examined and testified as follows:
EXAMINATION BY MR. ACCARDO:
Q. Sir, would you please state and spell your name for the record?
A. Paul Dulberg, D-u-l-b-e-r-g.
MR. ACCARDO: Let the record reflect this is the discovery deposition of Paul Dulberg taken pursuant to notice and continued from time to time, taken in accordance with the Rules of Civil Procedure of McHenry County and the Rules of the Supreme Court of the State of Illinois and any other applicable local court rules.
Good afternoon, Mr. Dulberg. My name is Perry Accardo. I'm going to be asking you some questions today.
MR. BARCH: Is this your notice?
MR. ACCARDO: Did you issue the notice? I thought I did. If you want to do it, that's fine.
MR. BARCH: Well, I mean, if you issued one --

5

MR. ACCARDO: (Interrupting) I'm not sure whose notice it is.
MR. BARCH: I thought it was mine.
MR. ACCARDO: I'm sorry, I assumed it was mine, but if you want to do it.
MR. BARCH: I mean, sooner or later we both need to ask the questions.
MR. ACCARDO: If you want to do it, that's fine.
MR. BARCH: Let's go forward.
MR. ACCARDO: All right.
MR. BARCH: We'll pick up where Mr. Accardo left off. We're taking this deposition pursuant to an agreement of the parties, a notice and in accordance with the Illinois Code of Civil Procedure.
We're going to do what is a called discovery deposition. I'm sure your attorney talked to you about it. It's a fancy word for a question-and-answer session. Hopefully we will ask questions that you hear and understand. And then if you do hear and understand the question, it's our expectation you answer truthfully. All right?

6

THE WITNESS: Yes.
MR. BARCH: Couple of things to keep in mind as we go along. There is a lady over there to your left taking everything down that we're saying, so it will be important when we do have a conversation that we use words. Here in Midwest we use a lot of uh-huhs, uh-uhs and shoulder shrugs. During conversation it's easier to interpret face to face, but it doesn't translate well to a record. Okay?
THE WITNESS: (Indicates affirmatively.)
MR. BARCH: So if you happen to do that, one of us in the room may ask you to clarify what you mean. All right?
THE WITNESS: Okay.
MR. BARCH: And the other thing to do is some of the questions that come out may be easy to interpret or anticipate, and witnesses, for whatever reason, have a tendency to want to get the answers out and may start talking over the question. You may not do that, but if you happen to start talking or giving an answer before the whole

7

question is out, I may ask you to stop, okay, so I can get the whole question out and then we'll give you a chance to get your whole answer out. All right?
THE WITNESS: (Indicates affirmatively.)
MR. BARCH: The same is true of me. If I start a question before you finish your answer, please tell me. I want to give you a chance to get your whole answer out. Fair enough?
THE WITNESS: Yes.
MR. BARCH: You might hear the word objection at some point. That would come from one of the attorneys not asking you questions. If you hear the word objection, you should stop your answer or don't even begin one and then look to your attorney for direction as to how to proceed. Okay?
THE WITNESS: Yes.
MR. BARCH: This is not an endurance test. If you need to use the restroom, get a drink of coffee, whatever you need to do, just let us know. Okay?
THE WITNESS: Yes.

8

EXAMINATION BY MR. BARCH:
Q. Could you please state your full name for the record?
A. Paul Dulberg.
Q. Middle name?
A. Raymond.
Q. Where do you reside?
A. 4606 Hayden Court.
Q. Did you say Hayden?
A. Hayden.
Q. How do you spell it?
A. H-a-y-d-e-n.
Q. And that's in McHenry?
A. Yes.
Q. The incident we're here to talk about did not take place on your property; is that true?
A. True.
Q. Where is 4606 Hayden Court in relation to 1016 West Elder?
A. They are in the same neighborhood.
Q. Are they adjacent properties?
A. No.
Q. Are we talking like houses away? Blocks away? Miles?

9

A. Less than a minute and a half by car.
Q. Can you see the 1016 West Elder property from your property?
A. No.
Q. Okay. And what is your date of birth?
A. 3-19-70.
Q. And the incident that we're here to talk about, do you recall it happening on June 28, 2011?
A. I believe that's the date.
Q. How old were you then?
A. 41.
Q. Are you married, sir?
A. No.
Q. Have you ever been married?
A. No.
Q. Back in June of 2011 did anybody reside with you at the Hayden Court property?
A. Yes.
Q. Who?
A. My mother and a friend, Mike McArtor.
Q. Mom's name?
A. Barbara Dulberg.
Q. And the friend that was living there?
A. Mike McArtor.

10

Q. How do you spell McArtor?
A. M-c-A-r-t-o-r.
Q. Does Mike still reside with you and your mom?
A. Yes.
Q. Tell me a little bit about your educational background. Did you finish high school?
A. Yes.
Q. Where?
A. Johnsburg.
Q. When did you finish?
A. 1988.
Q. Did you move on to college?
A. Some college.
Q. Tell me a little bit about that.
A. I took a few years. I never finished.
Q. Where did you enroll?
A. MacMurray College.
Q. Was that a community college or a four-year?
A. Private college down in Springfield, Illinois.
Q. You say you took a few years. Could you be more specific if you can? One? Two? Three?
A. Two.
Q. Did you acquire an associate's degree?
A. No.

11

Q. What was your major?
A. I believe it was political science.
Q. And any particular reason you left?
A. I had to go home.
Q. What was the reason you had to go home? To care for your mom?
A. Family.
Q. What was that?
A. It was family.
Q. And you never went back?
A. No.
Q. Was that immediately after high school?
A. No.
Q. When was it in relation to high school?
A. It was about three years after high school.
Q. So early '90s?
A. Yes. You made me think about that.
Q. Besides the course work that you participated in at MacMurray College, have you had any other college courses at any other school local?
A. I remember once I took a course over here at MCC.
Q. What course was that?
A. I believe it was college algebra.
Q. Was it before or after MacMurray?

12

A. Before.
Q. Since leaving MacMurray have you taken any additional college level course work?
A. No.
Q. Have you had any vocational training of any kind?
A. Yes.
Q. What is the nature of that?
A. Heidelberg Academy.
Q. What is that Heidelberg Academy?
A. It's to learn how to run printing presses.
Q. Where is Heidelberg Academy located?
A. When I took it, it was in -- I don't know. It was down in the city, a suburb.
Q. Suburbs of Chicago?
A. Yes.
Q. Tell me about that course. Is that just -- is that pretty short? Long? Is it intensive? What is it?
A. It's intensive, but it's short.
Q. When you say short, is it a day? A month? A year?
A. However long you want to pay to go until you're comfortable running.
Q. How long did you go?

13

A. Two weeks. It was more of a certificate for me.
Q. Did you take the vocational training in operating printing presses for a particular employer?
A. Yes.
Q. Who was that?
A. Intermatic, Incorporated.
Q. Okay. And did you say you received a certificate of some sort?
A. Yes.
Q. How would you describe the certificate that you received?
A. I'm trying to picture it in my head. It's a form that says that I completed the work. I haven't looked at it in years.
Q. The training for a particular printing press?
A. Yes.
Q. And what was the name of the printing press?
A. It was an SM 74.
Q. All right. Besides the training certificate for the SM 74 have you had any additional vocational training of any sort?
A. Yes.
Q. And why don't you tell me about that.
A. I had several courses in graphic design.

14

Q. Rocket design?
A. Graphic design.
Q. Okay. Where did you take those?
A. Various locations throughout the suburbs.
Q. Are we talking like one-week seminar-type programs, or is this a --
A. (Interrupting) Some were seminars. Some were personal where a company hired a teacher to come in and teach us the new aspects of the program.
Q. If I'm hearing what you're saying, you were trained on how to operate graphic design software?
A. Yes.
Q. Was that for a specific employer of any kind?
A. Intermatic, Incorporated.
Q. So the graphic design software training and also the printing program. What else? Anything else that brings to mind?
A. That's it.
Q. When did you have the -- I guess strike that question. When were you employed at Intermatic?
A. I believe it was 1998 through 2008, 2009, somewhere in there. I don't remember the exact.
Q. Are you employed today?

15

A. No.
Q. When was the last time you were employed, starting from today and working backwards?
A. May of 2011.
Q. So if I'm hearing what you just said, you have not had a job since this incident on June 28, 2011?
A. Correct.
Q. And where were you working? What was the job you had that ended in May of 2011?
A. It was for Juskie Printing.
Q. Juskie Printing?
A. Yes.
Q. How do you spell that?
A. J-u-s-k-i-e Printing.
Q. And that ended in May of 2011?
A. Yes.
Q. When did you start at Juskie?
A. Years earlier.
Q. Was it a transition directly from Intermatic to Juskie?
A. Not directly, no.
Q. So it would have been sometime after 2008 and 2009 when you started at Juskie?

16

A. Yes.
Q. Was there any other employer in between those two companies?
A. I had my -- I did a side business.
Q. Tell me about the side business.
A. Its name was Sharp Printing, Incorporated.
Q. Sharp?
A. Printing, Incorporated, or Inc.
Q. Okay. When were you running Sharp Printing?
A. Yes. I started that in 1999, and I ended it the year this happened.
Q. So you ended it in 2011?
A. Yes.
Q. Did you end it before or after the incident on June 28, 2011?
A. I ended it just before.
Q. So I take it then you're not blaming the demise or the dissolution of the Sharp Printing, Inc. company on this occurrence?
A. Correct.
Q. Okay. And then was there a period of time where the Sharp Printing, Inc. business overlapped with your work at Juskie Printing?
A. Yes.

17

Q. And as you sit here today can you get any closer in terms of your period of employment at Juskie other than sometime after 2008 or '9 and then May of 2011?
A. I had -- it was a 1099, and I had done work for Mark prior to me leaving Intermatic and after. It was an ongoing-type thing.
Q. Okay. So you weren't actually employed then by Juskie? You're not on their payroll, I take it?
A. I was 1099. So, no, I guess not.
Q. When you say 1099, are you saying that you were an independent contractor?
A. Yes.
Q. So you would do work for them, and they would pay you, and you would report the income based upon the gross payment?
A. Correct.
Q. And did you record that income then and report it through Sharp Printing?
A. No. That was a self-employment.
Q. Okay. The position you had at Intermatic, was that the 1099 position, or were you actually employed?
A. It was 1099. After I left Intermatic.

18

Q. So prior to 1998 to 2008/2009, whenever you actually left, you were an employee?
A. Yes.
Q. And after that you still did work for them on an independent contract basis?
A. Yes.
Q. Okay. Now, the work that you did at Intermatic, what was the nature of your business, your work?
A. When I was running the printing presses or when I was doing the graphic design?
Q. Whatever you want to tell me about first.
A. When I was running the printing presses, it's exactly what it is. I ran a printing press.
Q. How long over that period of 1998 to roughly 2008/2009 were you running the printing press?
A. Until I think it was 2003 or 2004.
Q. And did you stop working the printing press position to take on some other role?
A. I was a -- yes, in the office.
Q. And what was that role you took on?
A. Graphic designer.
Q. And that could encompass a lot of things for a layperson. When you say you were a graphics designer for Intermatic, what kind of work were

19

you doing for them?
A. I did catalog design, package design, collateral, signage, brochures. Everything from business -- everything their company needed.
Q. For Intermatic?
A. Yes.
Q. So you were in-house -- you were doing in-house graphics design work for Intermatic?
A. Correct.
Q. You weren't in commercial graphic design or anything where your sole business was to do that for other companies?
A. No.
Q. And did you take -- did you hold -- did you have a name for that position?
A. Graphic designer.
Q. Did you hold that position then with Intermatic until you left?
A. Yes.
Q. And the graphic design work that you did, was it all computer-assisted?
A. It was all computer graphics.
Q. Is it all mouse entry, or is it keyboard entry --
A. (Interrupting) Mouse and keyboard, yes.

20

Q. -- or a combination? And is that the software training that you would get from time to time --
A. (Interrupting) Yes.
Q. -- that you mentioned earlier?
A. Yes.
Q. If there was a new program that came on or new version of the program, you would go get trained on it?
A. Yes.
Q. I don't want to oversimplify this, but is that what you're talking about?
A. Yes.
Q. And then there was a period of time where you were doing 1099 work for Intermatic and also for Juskie Printing?
A. Yes.
Q. Doing the same type of stuff?
A. Yes.
Q. When you worked at Juskie, was that also work for Juskie itself, or was it for customers of Juskie?
A. Juskie is a print broker, so it was for its customers. I worked for him, but . . .
Q. All right. And since June 28 of 2011 I take it you have not done any graphic design work

21

whatsoever?
A. I have tried.
Q. When you say you have tried, what did you try?
A. I tried using a keyboard and a mouse.
Q. And when in relation to June 28, 2011 did you attempt to use a keyboard or mouse to do graphics design work?
A. I would say probably two or three months after that incident.
Q. Was that for Juskie?
A. No.
Q. Who did you try and do work for?
A. I'm trying to remember his name. New person. Mike Thomas.
Q. What kind of business does Mike Thomas have?
A. I can't recall the name of the business right now but I can tell you the type of business. He did scratch-off game pieces.
Q. For like a lottery company or something?
A. Yes. But it wasn't lottery. It was where companies wanted to give away a TV to their employees, and they'd give them all scratch cards and see who won, stuff like that. Promotions.
Q. When you say you tried to do some work for Mike

22

Thomas, what did you attempt to do?
A. I tried to do the graphic design for the scratch cards.
Q. Okay. And if you could elaborate on that more, are you actually coming up with a concept or a picture that is going to be printed on the card?
A. Yes.
Q. And were you given parameters as to what they wanted it to look like, and you were trying to draw it, replicate it?
A. I would get the parameters, what size they wanted me to do it, and it was my job to come up with the concept and the design. They had input on what they thought they wanted it to be.
Q. And, again, I'm not trying to oversimplify what you were doing, but I get the impression as a layperson you're trying to come up with a picture that would be on the computer screen that would then be a concept you could flow past the customer to see if it would work for the scratch game?
A. Correct.
Q. And that's the program you used to do that which requires a series of key entries and mouse

23

clicks?
A. Key entry and mouse, yes.
Q. What was it about -- two or three months after this incident what was it that you were unable to do?
A. Type. I could finger peck. I couldn't type anymore. Grabbing a mouse isn't exactly working either.
Q. Okay. And so you were only able to finger peck after this? That was one impairment or impediment to the job, correct?
A. Yes.
Q. And then you said something about the mouse. What is it about the mouse that is the problem?
A. Grabbing it.
Q. All right. So you tried that two to three months after the incident, correct?
A. (Indicates affirmatively.)
Q. What is it exactly -- which hand are you complaining about, by the way?
A. My right hand.
Q. Right hand. And what is it about the right hand that impedes your ability to type with it?
A. It doesn't work right. It hurts.

24

Q. And you're saying it doesn't work right and it hurts. Is that the same problem that affects your ability to use a mouse?
A. Yes.
Q. Is your left hand problematic in any way?
A. It is, yes.
Q. What is wrong with your left hand?
A. They call it tennis elbow or something.
Q. Okay. What have you been told this tennis elbow is?
A. He said it's something about a tear in the muscle or ligament or something.
Q. And which part of your arm?
A. Elbow.
Q. And are you connecting that to the events of June 28, 2011?
A. They said that it is the natural -- what is the word he used -- the doctor used? He said it's perfectly natural that because of having to use my left arm for everything, that it's overused.
Q. When did you begin having problems with your left arm?
A. About two months ago. It got real acute about two months ago. I was having little issues

25

building up to it, but then it got real acute.
Q. When you say "acute," it became real problematic?
A. Strong, yes.
Q. What kind of symptoms did you get with the left hand two months ago? What flared up exactly?
A. That side of my elbow (indicating), the outside (indicating).
Q. Just for the record, you held your left arm across your body and pointed to the outside part of your elbow?
A. Yes.
Q. Is that a fair description?
A. Yes.
Q. And was it painful?
A. Yes.
Q. Do you still have the range of motion? It's just painful?
A. It's the range of motion that hurts when you extend it out or pull it all the way in like you're going to eat.
Q. So it's painful as you're going through range of motion?
A. The center range is fine. It's the extensor all the way out and all the way in.

26

Q. When you try to extend your arm straight out, it hurts?
A. Yes.
Q. And when you try and pull it in as far as it will go, it hurts?
A. Yes. In between it's pretty good.
Q. You have seen some doctors concerning your left elbow?
A. Yes.
Q. Who have you seen on the left elbow?
A. Dr. Sagerman.
Q. Where is Dr. Sagerman located?
A. He has two offices; one in Vernon Hills and the other in -- it's down near Northwest Community. I don't know the name of the town.
Q. What is Dr. Sagerman's first name?
A. Scott.
Q. And have you seen anybody else for the left elbow tennis elbow problem you have just explained to us?
A. No.
Q. What kind of treatment have you had on the left elbow?
A. I just started physical therapy.

27

Q. All right. You have seen a doctor concerning the left elbow then. Have you ever heard the doctor use the word extension?
A. He uses words I don't understand all the time.
Q. Flexion? Have you ever heard the word flexion?
A. He may have.
Q. But that doesn't register for you, though, what those mean?
A. No. I showed him where it was. He knew right away. He just -- that's . . .
Q. So far you have talked about --
A. (Interrupting) He ran a couple of tests. He said, "This is what you have."
MS. FREEMAN: Wait for the question.
Q. You talked about you extending your arm and pulling it back toward you. That hurts at the extreme ends, correct?
A. Yes.
Q. What about turning the wrist palm up and palm down? Does that hurt in the elbow area?
A. In the extended, yes.
Q. And which position makes the elbow hurt? Is it palm up or palm down or both?
A. Palm down, fingers up.

28

Q. Have you heard the phrase supination, pronation?
A. Those words I don't know.
Q. Okay. So other than with your arm straight out at full extension and palm down, that is when you describe it hurts, correct?
A. Fingers up (indicating).
Q. So you have to -- you're closing your hand?
A. Fingers up (indicating).
Q. So the wrist is pointed up as well?
A. Yes.
Q. All right. So you have got your arm out at full extension and your wrist tilted with your fingers reaching upward?
A. That hurts.
Q. That hurts?
A. Yes.
Q. And can you think of any other part of the range of motion of the elbow or I guess in combination with the hand that causes pain?
A. There are so many things that happen that I do that sets it off. Just from putting on your jacket to all sorts of -- I mean, grab a coffee cup and bend the wrist the wrong way when you turn it. I can't explain.

29

Q. Okay. What are you wearing on your left wrist today?
A. They gave me a splint to wear.
Q. And is it something that it's hard plastic where you can't move your wrist, or is it a band of some sort?
A. It's got a metal plate in here. I think it's metal -- metal, plastic.
Q. The metal or plastic plate goes from the palm to the wrist?
A. Yes. It holds the wrist up at an angle.
Q. Does it prevent you from putting your wrist down?
A. Down or up.
Q. Or up. Has anybody talked to you about carpal tunnel syndrome?
A. They said that it's -- that this is like that. The tendons are torn or something. I don't know.
Q. Okay. And how soon after June 28, 2011 was it before you started noticing symptoms with your left arm? Because this is the first notice -- I haven't seen it in any of the records I have received.
A. It started bothering me this past fall, and I didn't really -- I didn't even think about it

30

until -- I mean, it bothered me, but I said something to Dr. Sagerman two visits ago and/or -- sorry -- yes, I think it was two visits ago, and he ran me through range of motion tests and did some stuff, and he said this is perfectly natural. It can be treated. This is what, you know, it is.
Q. When you say last fall, we're talking about the fall of 2012?
A. Yes.
Q. Other than the physical therapy, have you had any injections in the elbow?
A. No.
Q. On the right arm you went and had an EMG study where they check the nerves that go through your arm?
A. Yes, they did some tests.
Q. Did they do the EMG test on the left arm as well?
A. No.
Q. What test do you recall them doing on the left arm other than just taking it through range of motion and touching it and doing things of that nature?
A. That was it. It's new, so we're going to hope

31

physical therapy does it, you know.
Q. And so based upon what he saw, this Dr. Sagerman then, so far he's put you on physical therapy?
A. Yes.
Q. Are you on any medications for the left elbow --
A. (Interrupting) No.
MS. FREEMAN: Paul, I just want to remind you to wait until he gets his question out, okay, and then just listen to the question. Okay?
Q. So that is where we're at now with respect to the left elbow? It's been diagnosed as tennis elbow, as far as you recall, and is being treated with physical therapy?
A. Yes.
Q. And has the doctor given you a prognosis in terms of when that may go away, if at all?
A. He said it takes time.
Q. That is all you can tell me right now is it takes time?
A. I think he is hoping to see the -- I can't say what he's hoping to see. I don't know.
Q. Okay. I want to go back to the attempts two to three months after the event when you tried to do

32

some graphics design work. The left elbow wasn't a problem at that time --
A. (Interrupting) No.
Q. -- correct? So it was the right arm that would have been a problem?
A. Yes.
Q. And what was it about the right arm that you were unable to do the graphics design work?
A. What was it?
Q. Yes.
A. I think it was the fact that a chain saw went through the muscle group.
Q. Well, I'm not trying to be a smart aleck. I'm asking symptomwise what was it about your right arm that prevented you from doing graphics design work two to three months after the event?
A. It hurt.
Q. What part of your arm hurt, starting with your fingertip up to your shoulder?
A. These two fingers (indicating) through to the elbow.
Q. All right. For the record, you have pointed to -- we call it the pinky finger?
A. Yes.

33

Q. And then what some people may refer to as a ring finger?
A. Yes.
Q. And the middle finger, index or the pointer, and the thumb were not painful?
A. The thumb hurts when I pull it in.
Q. Is this how it was back two to three months after the event? That is the period we're talking about now.
A. It was on fire back then.
Q. The pinky, the ring finger and the thumb?
A. Yes.
Q. Painful and on fire?
A. Yes.
Q. All right. Now, you also said that the pain went up your arm to your elbow?
A. Yes.
Q. And which part of your arm? Like the underside? The top? Which part?
A. Next to the bone on this side (indicating).
Q. Okay. So no question it was painful in those fingers, the two fingers you described, and the thumb, and also running down the forearm -- the underside of the forearm to the elbow?

34

A. Yes.
Q. That was painful, correct?
A. Yes.
Q. And you say it was on fire. Is that the way you described the pain, or was there some other symptom?
A. It was a burning sensation. Along with tingles, along with cold.
Q. So cold bothered it?
A. Cold bothers it immensely.
Q. You had tingles and a burning sensation?
A. Yes.
Q. Anything else you can think of in the fingers you have talked about and the forearm?
A. The forearm I have -- it's not the same thing. It is not the same -- I don't know. The muscles hurt when I try to type or try to grab things.
Q. Okay. So with respect to the typing then, moving the fingers and thumb, did that enhance or increase the burning, tingling and pain?
A. Yes.
Q. In the fingers and thumb and the arm? Or just all those areas?
A. It was from here to here (indicating).

35

Q. And then you say when you grab things, too?
A. Yes.
Q. You grab and try to pick things up?
A. Yes.
Q. That would also exacerbate these complaints you talked about; the burning, tingling and --
A. (Interrupting) Yes.
Q. Other activities -- any activity involving grabbing or using the fingers would create problems then?
A. Yes. I don't even know where to begin on that list.
Q. All right. And certainly using the keyboard or grabbing the mouse, those are two activities that you described are part and parcel of the graphics design work?
A. Yes.
Q. And those two activities would create, if I'm understanding your testimony, the pain?
A. Yes.
Q. What about if your right arm was just resting and your hand was resting? Was it painful at rest?
A. Yes.
Q. Was it tingling at rest?

36

A. Yes.
Q. Was it burning at rest?
A. At times.
Q. All right. So that was two to three months after the event, correct, when you tried the graphics design work?
A. Yes.
Q. Yes?
A. Yes.
Q. Have you tried it again since then?
A. I have a computer at home and once in a while I sit down and try to do some stuff. I can't get in more than ten minutes.
Q. Okay. So if I'm hearing your testimony then, since this happened you have not been able to utilize your right arm and hand for computer work for more than ten minutes?
A. Correct.
Q. You have not been able to -- after ten minutes you're no longer able to bear the symptoms then that arise?
A. It starts ramping up, and I have to quit.
Q. Have you applied for disability?
A. Yes.

37

Q. Did you get it?
A. I am in the application process.
Q. When did you first apply?
A. I think it was January of last year, so about a year ago.
Q. Where does the process stand? Did you apply and get rejected, or are you appealing?
A. The first thing I was told, they rejected the first, and now I'm in -- they call it an appeal process I think.
Q. What was the nature of the rejection, if you recall?
A. They recognize that I was severely impaired but not disabled. That's what the letter said.
Q. Okay. All right. Since then, June 28 of 2011, you have not -- I know there was a job that you referenced in your Interrogatory answers that you had applied for and received an offer of employment?
A. I was working for Mike -- you're referring to Mike Thomas?
Q. No. AMS Screw or something?
A. I was due to start AMS Screw prior to the incident. I was due to start it the week after

38

the incident.
Q. What were you going to do there, as you recall?
A. I was going to do material handling part-time.
Q. What does material handling mean to you?
A. Moving material.
Q. What kind of material?
A. Steel.
Q. Were you going to use -- were you going to use your hands to lift it or operate a forklift? What?
A. Well, from what I understood, the job was you take -- they make screws, so you take these little things of screws, you put them into bigger buckets. You take the bigger buckets, put it on a rack, and then roll the rack down to where they wash them or something.
Q. You understood it then that the machine was going to be pouring all the screws into a bucket, the screws that are being made?
A. It dumps them into this -- they showed it to me. It dumps it into a stringer thing.
Q. So they were going to -- you were going to be at a machine that was dumping screws into a small holding device of some sort, and you were going

39

to put that into a larger bin?
A. Yes.
Q. Which was on some kind of a movable cart?
A. Then from there you had to put it on the movable cart.
Q. So you were going to -- the screws were going to pour into some smaller container, you were going to pick that up, dump it into a larger one, fill that up and then put that onto a cart?
A. Yes.
Q. What was going to be the weight of those?
A. I was told approximately 70 pounds.
Q. 70 pounds for the bigger one that you would be moving to the cart?
A. Yes.
Q. What leads you to believe you actually had a position other than applying for it?
A. They told me to start that following Monday.
Q. Was this all oral?
A. No -- well, yes. They already had me on the books. I had done work for them in the past.
Q. When did you do that?
A. The year earlier.
Q. So that was something in addition to the 1099

40

work you were doing?
A. That -- yes, yes.
Q. All right.
A. I forgot all about that.
Q. Tell me --
A. (Interrupting) Yes.
Q. -- when did you start doing this work, the material handling work for AMS Screw?
A. 2009 or 2010, somewhere in there. I'm not sure exactly when.
Q. Was it just a part-time deal?
A. It was. I was hoping it would lead to something more stable, yes.
Q. Was it on a temp basis directly through AMS Screw or through an agency of some sort?
A. It was directly through them.
Q. And how would you know when to come in and when not to come in when you were doing the temp work?
A. The supervisor would call me and say, "We have a spot for you. You want to come in?"
Q. And it was just -- those were temporary stints?
A. They were. And he was working with me to try to make it full-time, so I was doing all of these part-time hoping to get the full-time.

41

Q. And the work you were doing, the part-time work while you were waiting for hopefully full-time work, was it the same job you were telling us about a minute ago?
A. Yes.
Q. The one where you'd take the screws, pour them into the bigger container and move them onto a cart?
A. Yes.
Q. And then you were going to start you say the following Monday after this happened?
A. I believe it was the following -- it was the following week. It was -- it was right before the Fourth, so I don't remember. I would have to look at a calendar.
Q. So relatively soon after this happened it was your expectation you were going to begin employment with AMS?
A. Yes.
Q. Was it going to be more than just one of these part-time stints that you were talking about?
A. It was scheduled to be either a week or two weeks. I don't remember. And Joe, the guy who runs it, said he is going to try to get me in

42

there by fall full-time. But whether that ever flew or not, I -- it never happened.
Q. Okay. Prior to this happening you would get calls from your supervisor saying "Look, we have some part-time work for you"?
A. Well, what would happen -- I can kind of explain this. What would happen is I would call Joe. He's the guy that runs it.
Q. What is Joe's last name?
A. Groves.
Q. Groves?
A. Groves, G-r-o-v-e-s. And I would say, "I have a couple of weeks open. Do you have anything?"
Q. Okay.
A. And then he would keep that in mind and then get back to me when he did.
Q. So Joe Groves knew that you were available? If circumstances on his end warranted it, he would just call you?
A. I wasn't available all the time.
Q. Right. He would call you. If you were available, you would go in?
A. Yes.
Q. And that happened how often prior to June 28 of

43

2011?
A. I think twice. I don't remember exactly. I think twice.
Q. Okay. And then the situation, whether it was going to be the next day or within a week after this occurrence, you were planning to go participate in one of these temporary stints after this event, correct?
A. Yes.
Q. Do you believe that the stint that was planned after the event was any more or was different in any way than the prior stints?
A. No.
Q. If you understand the question.
A. No.
Q. It was the same?
A. Yes.
Q. It was your hope that the more you did these temporary stints, the more likely you would have a chance to get full-time employment?
A. Yes.
Q. Would you agree that as of June 28, 2011, though, you had not had a promise of full-time employment?

44

A. I had no promise of full-time employment.
Q. Have you tried to go back at any time since June 28 of 2011 to I guess fill one of these temporary stints that you have done in the past?
A. No. They called.
Q. When you say "they," Joe called?
A. Yes.
Q. So Joe Groves called when in relation to June 28, 2011?
A. A few months after.
Q. And what happened on that event where he called to see if you were interested?
A. Yes.
Q. What happened?
A. He knew what had happened. He said, "Do you think you can do it?" And I said, "I don't think so."
Q. Is that the only time there was an exchange over possibly taking another temporary stint?
A. He actually came out to my home. He knew where I lived, and he came out to my home, and he knew right away I couldn't do what they were asking to be done.
Q. So you have tried going back to the graphics

45

design work?
A. Yes.
Q. And that's too painful to do because of the keyboard entry and the mouse function?
A. Yes.
Q. And then you kind of self -- you made a decision on your own, given your situation, it was unlikely that you could do the work for AMS Group; is that right?
A. Oh, I knew I couldn't do it.
Q. Right. You decided that?
A. I don't think I decided it. I think my body decided it.
Q. Okay. So your body was telling you that you couldn't do that job?
A. I couldn't pick up those buckets, no.
Q. Other than those two potential avenues of employment or income, have you undertaken any other effort to find a job?
A. Yes. I went on several different interviews.
Q. For what kind of jobs?
A. Graphic design.
Q. I thought you said you can't do that.
A. When you got bills, you try.

46

Q. Okay. So you went for some interviews for a couple of graphics design positions?
A. Yes.
Q. To do similar things to what you were doing before?
A. Yes.
Q. And did you get either one of those jobs?
A. No.
Q. Why is it, if you know?
A. I'm not sure.
Q. Did they have you sit down at a computer terminal and try and generate any work?
A. Yes.
Q. And were you able to do it?
A. They saw the shaking of the hands and whatnot. Basically said "We can't use you."
Q. Where were these two companies that you sat for and attempted to do graphics design or at least illustrate your abilities?
A. One of them was on the northwest side of the city. I only went in there once.
Q. The name of it?
A. I'm trying to remember. I can go back through my e-mails and find the name where they contacted me

47

through. I don't know it offhand. They were kind -- they told me that they found somebody more compatible.
Q. So there was one company, and you said it was on the northwest side of the city, meaning Chicago?
A. It's the suburbs.
Q. Okay. Northwest suburbs. And you would try, if we asked your attorney, to locate the name of that company?
A. I can try if I still have the contact.
Q. And you said there was a second one as well. Where was that?
A. I'm pulling a blank.
Q. There was one, but you're drawing a blank on it?
A. Yes.
Q. Is it possible that your computer database at home would have some information that might refresh your memory?
A. It may. I haven't used that computer in so long anymore, I don't even know if it will boot up. But, yes, it may.
Q. And at least one of these companies you went to you had to sit down and illustrate your graphic design abilities?

48

A. Yes.
Q. Did you have to do that at both or just the one, if you recall?
A. Just one.
Q. All right. For the graphics design positions, you have at least tried to get two others since then, right?
A. Yes.
Q. Were you going to be doing 1099 work for them or actually be employed by those two companies?
A. I was trying to be employed.
Q. And then besides these two attempts at graphics design positions, any other attempts of employment since June 28, 2011?
A. No.
Q. Do you remember signing Interrogatory answers saying that you would be making a claim for lost earnings?
A. I don't know what you mean by Interrogatory answer.
Q. There is some written questions that we sent to your attorney to have you answer. And I don't want to get into what you and either your attorney here or Mr. Mast may have talked

49

about --
A. (Interrupting) I remember he asked me some stuff.
Q. Take a look at the last page -- nope, not the last page. It will be the fourth from the back. Is that your signature?
A. Yes.
Q. I should say for the record I tendered to you Exhibit No. 1. That is your signature on the fourth-to-the-last page?
A. Yes.
Q. Question No. 6 asked about whether you would be claiming any lost income as a result of the injuries, including wages and salaries, and then there is this listing of AMS Screw Products. Do you see that?
A. Yes.
Q. And Joe Groves, that's the guy you mentioned that would call you from time to time?
A. Yes.
Q. Is that the hourly rate you would get for your temporary work?
A. Yes.
Q. And then when we talk about being hired but not able to pursue employment due to the accident,

50

you were unable to do that temporary stint that you had lined up?
A. Right.
Q. How many days or weeks was that planned for when you were working?
A. I don't remember, but it was one or two. I know that.
Q. One or two days or weeks?
A. Weeks.
Q. All right. So if it was a 40-hour week, it would be 40 times the $10 hourly rate?
A. Yes.
Q. And if it was the two weeks, it would be that 80 hours at ten bucks an hour?
A. Yes.
Q. Past that have you made any other calculations on your end I guess pursuant to what you believe you have lost in the form of income?
A. The biggest loss I suffered was not being able to renew with Juskie later on.
Q. Renew in what sense -- so, first of all, with respect to AMR, other than that one to two-week stint, from your vantage point are you claiming that you have lost more income that you could

51

have received through AMS Screw?
A. With Juskie Printing the contract that he had was up in May prior to this incident. That is why I was looking for other work to fill, pending Juskie getting a new contract with his customer, okay, which would have extended my work there as well.
Q. Okay. So your hope at the time this happened was not to go full-time with AMS Screw? You were hoping that Juskie renewed their contract so you could continue 1099 work?
A. I was hoping to get work anywhere I could get it.
Q. Well, I know that turned out to be the case; but heading into this event on June 28, 2011, was it your hope that you would be able to do the 1099 work for Juskie or leave that --
A. (Interrupting) It was my hope I could do both.
Q. All right. So your hope was to continue to do 1099 work for Juskie, and also as needed, fill in at AMR, potentially get a full-time job?
A. AMS.
Q. AMS. Let me start the question over then. So heading into this event that happened on June 28, 2011, were you not actively doing work for Juskie

52

because their contract had ended?
A. Yes.
Q. And you were doing temporary work periodically for AMS?
A. Yes.
Q. And that was on an as-needed basis when Joe Groves called?
A. Yes.
Q. That was your hope moving forward, that there would be a new contract for Juskie and that you could do some 1099 work, correct?
A. Yes.
Q. And then also as-needed fill in at AMS?
A. Yes.
Q. And hopefully get a full-time job at AMS if that ever arose?
A. Yes.
Q. And when you were doing 1099 work for Juskie, what did that mean to you in terms of gross receipts?
A. I can tell you what I made that year from him in five months. You can do the math from there.
Q. Okay. Well, what did you make?
A. It was 18,000.

53

Q. The first five months of 2011 you made 18,000 as a 1099 worker for them?
A. Yes.
Q. And you would have to take all of your expenses out of that?
A. Yes.
Q. And then at AMS do you have a recall what you may have made at AMS during that first --
A. (Interrupting) Not much more than that, the $10 an hour. They didn't pay.
Q. And there was two or three stints where you worked for them, as you recall?
A. Yes.
Q. And those might have been a week or two each?
A. Right.
Q. All right. And do you know, did Juskie get that contract?
A. Yes, he did.
Q. Who was your contact person at Juskie?
A. Mark.
Q. What is his last name?
A. I know his last name, and I'm drawing a blank. I know his last name well.
Q. Maybe it will come to you later. Tell me if it

54

does. How did you learn that Juskie actually got the contract that may have been able to provide you with more 1099 work?
A. He told me.
Q. Mark did?
A. Yes.
Q. Did he call afterwards and say, "Hey, we're ready for you"?
A. Yes.
Q. And you had to tell him you couldn't do the work?
A. I couldn't do anything at that point.
Q. Is that when you tried -- you said two to three months afterwards you tried to do the work and you couldn't?
A. Mark called not long after the incident, within a month, and I couldn't do anything at that point. You didn't see me come out of my house.
Q. So he called within a month of this thing happening and you told him there is no way you can do it?
A. Yes.
Q. Did he ever revisit the possibility of doing work for Juskie with you?
A. I have known Mark for a lot of years. We talk on

55

and off about various things.
Q. Does that mean he did or he did not? I don't know.
A. Yes. He's probed. He knows it's done.
Q. So periodically he will inquire about it, and each time you have told him no, I take it?
A. (Indicates affirmatively.)
Q. Is that a yes?
A. Yes.
Q. Juskie -- what is the full name of that company?
A. Juskie Printing, Inc.
Q. Where is it located?
A. The last, it was down on Chicago Avenue out near -- I used to take -- I know how to get there. I don't know the town it's in. I used to take 355 down, get off in --
Q. (Interrupting) Do you have a phone number for Juskie?
A. I have it at home.
Q. Okay. So other sources of income that you had before the incident besides Juskie that we have talked about and then AMS? Were there any others that stick out in your mind?
A. That was it.

56

Q. And you have not had any income from either of those two sources --
A. (Interrupting) The only other place I was getting income prior to that was Intermatic when they needed work, and that was -- that was less than Juskie.
Q. Did you get any work from Intermatic in the five to six months in 2011 that preceded this event?
A. (Indicates negatively.)
Q. I take it then you haven't done any projections of lost income?
A. No.
Q. Have you ever been in the union?
A. No.
Q. Ever been in the military?
A. Yes.
Q. Which branch?
A. Army National Guard.
Q. Were you active service Army or just National Guard? I'm not diminishing it, but I'm trying to distinguish those two.
A. Two weeks out of the year you're active service. The rest of the time you're National Guard.
Q. Okay. And so what period of time were you Army

57

National Guard?
A. Oh, from the time I was 18 or 19 until the time I was 22 or 23. Somewhere in there.
Q. Did I ask you -- have you ever been married?
A. Yes, I think so.
Q. Have you?
A. No.
Q. All right. I'm going be -- I'm going to shift over to the event that is the subject of the lawsuit. Where did this happen?
A. At Caroline McGuire and Bill McGuire's house.
Q. That is listed in the Complaint as 1016 West Elder?
A. That sounds like it.
Q. Did you know the McGuires prior to this happening?
A. Yes.
Q. How is it that you knew the McGuires?
A. Grew up in that neighborhood.
Q. There is another fellow that is named in the lawsuit, Dave Gagnon?
A. Yes.
Q. Is he connected to the McGuires, if you know?
A. Yes.

58

Q. What is the connection?
A. He is Caroline's son.
Q. Are you and David grade school buddies? Middle school buddies?
A. High school.
Q. At Johnsburg?
A. Yes.
Q. Were you and he like close socially in high school?
A. More right after high school.
Q. How was it that the two of you became connected more so after high school? You knew who he was in high school, I take it?
A. I think we knew all the same people.
Q. So there was a common group of acquaintances through high school?
A. Yes.
Q. And then describe the relationship as it evolved. I mean, did you see each other socially? Recreationally? I mean how?
A. It was we would do dumb things together, you know. Socially, recreationally.
Q. You ever work together?
A. On the job?

59

Q. Anywhere.
A. Like as employment, no.
Q. Okay. What kind of social or recreational activities would you participate in from time to time with him? Bowling leagues? Golf leagues?
A. Did a bowling league together. He was into restoring cars, and he did it in his mom's garage, and everybody kind of kicked in a hand to help him.
Q. Okay. Is he married, if you know?
A. He is.
Q. Did you go to their wedding?
A. Yes, I did.
Q. Do you know if he has any children?
A. No children -- oh, wait. He might have -- I don't know. That's . . .
Q. Did he have any back in June of 2011, if you know?
A. He may have. I'm not sure.
Q. I take it you're not like a godfather or anything to his child?
A. No.
Q. I mean, I can keep asking more and more questions that come into my mind about how you might have

60

-- or what your relationship with Gagnon may have been before this. I was hoping to hear from you how you describe it.
A. Well, it was just friends hanging out after years of high school.
Q. How often would you see him then I guess on a monthly basis?
A. Recently or --
Q. (Interrupting) Before this happened.
A. How long before this happened?
Q. Let's go with the first two years immediately preceding this incident. How often would you see him?
A. Oh, not that often. Once or twice a year maybe.
Q. Okay. Was there a higher frequency immediately after high school?
A. Oh, yes.
Q. Apparently it waned over time?
A. Yes.
Q. So in the two years or so before this happened, June 28, 2011, you would only see him once or twice a year?
A. Maybe three or four. A few times a year. I mean, I'm not sure of the exact number.

61

Q. Okay. And this is an estimate, correct?
A. Yes.
Q. And would this just be in passing, or was it set plans to see him?
A. For -- well, for some reason or another he would want to see Mike, who was living with me, or another friend of ours, and he would say, "I'm going over here. I'll meet you there," you know, and we would run into each other, you know.
Q. So it would be the contact you had with him then in recent years prior to the event was more just happenstance, overlapping of friends and acquaintances?
A. Yeah. Well, if he needed help or I needed help, you know, I think that that was a given.
Q. Okay. I asked you if you ever worked together. You guys never worked for a company or an employer where you were both on payroll there together, correct?
A. Correct.
Q. Now, obviously there is this incident on June 28 of 2011 where you were with him, correct?
A. I was on the property, yes.
Q. And then you mentioned that you guys would help each other from time to time as needed?

62

A. Yes.
Q. Okay. What kind of stuff do you recall over the years helping David with or him helping you with?
A. I remember pulling his car out of the ditch when it snowed and he called me. I remember approximately ten years earlier him helping me fix my roof after a storm. Earlier than that I helped him numerous amounts of time with sanding body parts to a car when we were in our 20s.
Q. Okay. What about -- obviously we're going to need to talk about chain saw usage prior to June 28, 2011. Had you ever been anywhere with David Gagnon where a chain saw was involved?
A. Yes.
Q. Okay. Where was that?
A. It was on Carol's property.
Q. All right. Anywhere else besides Caroline McGuire's property?
A. I'm not sure. I don't think so.
Q. Put Mr. Gagnon aside. Have you ever used a chain saw --
A. (Interrupting) Yes.
Q. -- personally?

63

A. Yes.
Q. Prior to this day, June 28, 2011?
A. Yes.
Q. How many times do you think you might have been on Caroline McGuire's property prior to June 28, 2011 where you were engaged in any activity involving a chain saw?
A. I vividly remember once.
Q. One other time?
A. Yes.
Q. And how and when in relation to June 28 of 2011 was that?
A. A few weeks prior.
Q. Okay. And other than that one that you actually recall and then June 28, 2011, that is the extent as you sit here today you can recall?
A. Yes.
Q. Did you ever work with a chain saw in combination with David Gagnon on any other person's property?
A. Not that I remember.
Q. Before June 28 of 2011 did you personally have an appreciation for any risks that might be presented by a chain saw?
A. Say that again.

64

Q. Sure. I want to know if you had -- heading into June 28 of 2011 if you had any understanding as to any hazards that might be associated with chain saw use.
A. Yes. It's dangerous.
Q. What is dangerous? What was dangerous about it from your vantage point?
A. A chain saw is dangerous, period.
Q. Okay. I mean, if it's just sitting there not running, is it dangerous?
A. I'm not sure what you mean.
Q. Okay. You mentioned that you had used chain saws before?
A. Yes.
Q. And you have used them without David Gagnon being present?
A. Yes.
Q. Can you give me any estimate as to how many times you might have used a chain saw prior to June 28, 2011?
A. Myself?
Q. Yes.
A. Hundreds. Maybe not hundreds, but enough where I can't count.

65

Q. All right. And during those periods where you were using a chain saw, you formed the view that chain saws can be dangerous?
A. Very.
Q. And what type of dangers did the chain saw present from your experience using it?
A. It cuts through things very rapidly.
Q. So the operator could be cut?
A. Yes.
Q. And you knew that before June 28 of 2011, correct?
A. Yes.
Q. Did you ever use a chain saw in tandem with anybody else helping you prior to June 28, 2011?
A. Yes.
Q. This fellow that lives with you and your mom, what is his name again?
A. Mike.
Q. Mike. What is his last name?
A. McArtor.
Q. Did Mr. McArtor ever assist you while using a chain saw?
A. Yes.
Q. I mean, is that multiple times in the past you

66

and Mr. McArtor may have been involved in projects where a chain saw was used?
A. Yes.
Q. And in those situations would you be the operator, or would you be the helper?
A. I would be the helper.
Q. Did you ever have a situation where he was helping you and you were operating a chain saw then?
A. Where Mike McArtor was helping me and I was operating it?
Q. Yes. Correct.
A. Yes.
Q. Are you able to count how many times that occurred?
A. I'm not sure, but it's more than a few.
Q. On those few -- well, were there other people from time to time that helped you as well while you were using a chain saw?
A. Yes.
Q. And on those occasions where it was somebody else or maybe it was Mr. McArtor, did you form any opinions about the potential hazards or risks to the people that were helping you that a chain saw

67

might present?
A. Yes.
Q. What kinds of risks are those to the other people?
A. Keep them as far away from it as possible.
Q. And the risk to the helper is also --
A. (Interrupting) If they are too close, yes.
Q. -- being cut --
A. (Interrupting) Yes.
Q. And at any point in your lifetime prior to June 28 of 2011 had you ever been trained by somebody who was a skilled chain saw operator?
A. No.
Q. Had you ever had a job where your primary purpose was to use a chain saw?
A. No.
Q. All your experience with a chain saw, would you agree, would be just personal use and experience?
A. Just backyard trimming down limbs.
Q. Kind of on-the-job training?
A. Just my house.
Q. Do you recall ever sitting down any time prior to June 28, 2011 on those occasions where you were using a chain saw and reading an operator's

68

manual?
A. Oh, yes.
Q. You have read an operator's manual for a chain saw?
A. When I was younger, yes.
Q. We're going back to like immediately after high school?
A. We're going back to eighth grade.
Q. Eighth grade?
A. Yes.
Q. So this was going back when you first started using a chain saw?
A. Yes.
Q. When you first started using a chain saw, did you take it upon yourself to read the manual and begin using, or did some adult help you with that process?
A. Somebody helped me.
Q. Who was it? Your dad?
A. Yes.
Q. Is he still alive?
A. No.
Q. And I know this is going back a ways. What do you recall your father telling you about chain

69

saw operation when he first taught you how to do it?
A. Same thing he told me about all power tools.
Q. What was that?
A. Handle them with extreme care.
Q. So you should handle any power tool with extreme care?
A. Yes.
Q. Do you recall any specific instructions or admonitions about chain saw usage?
A. He taught me the maintenance. He taught me how to use it, how to -- what side of the blade to cut with, things like that, yes.
Q. So he demonstrated it for you?
A. Yes.
Q. Besides the risks, are you -- strike that question. Are you aware of any other known risks associated with a chain saw other than cutting from the chain?
A. No.
Q. And I'm not -- I'm not even saying there are any. I'm just asking you what other risks that you're aware of that might be associated with a chain saw other than the actual blade injuries to a

70

user or helper.
A. Heat.
Q. Heat?
A. Yes.
Q. Anything else you can think of?
A. Fragments. The wood chips, you know.
Q. The saw dust and debris that might fly off --
A. (Interrupting) Yes.
Q. -- during cutting?
A. Yes.
Q. Okay. Anything else that brings to mind?
A. I'm trying to think back of -- way back when he taught me that.
Q. If something comes up, let me know. Have you heard the phrase of binding or blade bind?
A. I know what binding is, yes.
Q. What does it mean to you?
A. It means the blade bound. It froze up. It may have overheated, you know. Lack of lubrication, something along those lines. There are many things that could happen.
Q. Blade binding to you then is something where the blade just stops, the motion of the blade stops?
A. No.

71

Q. Okay. You said it has something to do with overheating or lack of lube?
A. Well, you can bind anything, any power tool, when you're cutting something either by bending it. I would guess I have -- I had a blade bind once on me.
Q. A chain saw blade?
A. Yes.
Q. And what happened?
A. It bent the bar that the chain rides on.
Q. Okay. All right. So I need to get a little more detail about what you understand binding or blade bind might be. It can happen, you said, if the blade overheats?
A. Yes.
Q. If I understand, the chain just goes around on that blade, correct?
A. Yes.
Q. There is a long metal blade that comes out from the power portion of the chain saw, right?
A. Correct.
Q. And there is a groove where the chain goes around in a circular fashion?
A. Yes.

72

Q. And the motor propels that blade? That's a simple description of it, but that is how it works?
A. Yes.
Q. And when we talk about binding, are you talking about the blade getting bent?
A. That is the way that I have had it bind.
Q. So if the blade that has the groove that the chain operates on, if that bends, the chain wouldn't move?
A. Correct.
Q. Or if part of it needs to be lubed, to get a good free flow of that chain, the chain needs some lubricant as it glides around on that blade, correct?
A. Yes.
Q. And if there is no lubricant, that can affect the ability of the blade to -- I'm sorry -- the chain to spin on that blade?
A. Yes.
Q. And if there is inadequate lubricant, then the blade can actually heat up?
A. Yes.
Q. And at that point can the motion of the chain

73

just stop because it's overheated?
A. Yes.
Q. Have you ever heard the phrase binding or blade bind used in connection with an actual cutting operation?
A. Yes.
Q. As the cut is occurring, the pressure of the log or tree that is being cut can pinch against that blade?
A. I can see that happening, yes.
Q. Are you aware of that? Is that a risk that you know of or knew of before June 28, 2011?
A. Yes.
Q. Have you ever heard of a kickback?
A. Yes.
Q. What is a kickback, as you understand it?
A. It's usually when something other than what you're intending to cut is in the way, and like you actually hit a second log, okay, and it will kick back because you're trying to cut through two different items. That's my understanding of it. I may not be technically right, but . . .
Q. Okay. Are you aware -- maybe you have never heard this -- there is a kickback zone associated

74

with part of that blade?
A. Yes.
Q. And what is the kickback zone, as you understand it?
A. I don't know what technically it would be, but I wouldn't want to be in the way of it.
Q. All right. So you don't have a specific understanding heading into June 28 of 2011 what the kickback zone may be, correct?
A. No.
Q. But you were aware that there is such a thing as a kickback?
A. Have I heard of that? Yes.
Q. And have you ever seen that happen prior to June 28 of 2011?
A. I've felt it happen when I have operated a chain saw when I was younger.
Q. And have you ever seen it happen to somebody else?
A. No. I'm usually the one that operates. It's very rare that I'm standing assisting.
Q. The kickback, that is the situation, in layperson's terms, where the blade actually comes back toward the operator?

75

A. (Indicates affirmatively.)
Q. Yes?
A. Yes.
Q. And you said you experienced that once?
A. Yes.
Q. Where the blade actually kicked back toward you? Or were you holding it such that it wouldn't?
A. In my case the blade kicked forward. It pulled the saw. It didn't kick back. I was kind of reversed.
Q. You have never experienced where it actually came back toward the user?
A. I have never had the type of debris around that would cause that, I don't think.
Q. Have you ever read any manuals or been taught as to ways to avoid kickback?
A. Remove all the debris surrounding the area.
Q. Okay.
A. I was warned what kickback was when I was first taught it. You don't want anything in the way other than what you're cutting. My understanding of kickback, the way that I was taught, it usually requires hitting a second object.
MS. FREEMAN: Wait for the question.

76

Okay?
THE WITNESS: All right.
Q. In terms of how to hold the chain saw, as you recall, what was the training you received in how to hold the chain saw?
A. Both hands.
Q. Okay. Where would your dominant hand be?
A. On the trigger.
Q. And then you would use the right hand on the trigger?
A. Yes.
Q. Left hand on the bar that is on the top of the chain saw?
A. Yes.
Q. Have you ever personally experienced a situation where you were cutting a branch or a limb of some sort that had pressure on it that was bending it?
A. Yes.
Q. Yes?
A. Yes.
Q. And were you taught or did you learn any risks that might be associated with doing that activity, cutting a branch that had downward pressure on one end of it?

77

A. I was taught to attack the pressure from the other side so that you didn't get the bind in there.
Q. And to avoid binding, if you cut right into the pressure area, the pressure zone, what could potentially happen that you're trying to avoid?
A. The weight of the limb will pinch the chain and thus bending the bar.
Q. And if the blade of the chain saw gets pinched, I guess it gets in combination, the chain is also likely to be pinched?
A. Yes.
Q. Now, we talked about your connection to Mr. Gagnon before the June 28, 2011 incident, seeing him a few times a year during that last two years leading up to it, correct?
A. Yes.
Q. What about since this happened? How often do you see him?
A. Immediately after I saw him. He came over and wanted to see how I was doing. But since -- I want to say I don't know how long it's been now, but it's been at least six months, maybe a little longer that he hasn't talked to me at all.

78

Q. Okay. So you haven't talked to him at all for the last six months?
A. No.
Q. And that takes us into the middle of 2012. There is still like a whole year in there between the accident and when the communication stopped. What was the frequency of contact over that year before all the communication stopped?
A. Right after the incident he was coming by every couple of weeks for about a month and a half, two months, three months maybe. And I even went up to his place once or twice.
Q. What happened a year out that stopped all the communication, if you know?
A. He got a letter from an attorney's office.
Q. Did he call you to talk about that letter?
A. Yes.
Q. Okay. What do you recall the substance of the conversation -- strike that. That's a bad question. Do you recall the conversation you had with him once he got that letter?
A. I recall, yes.
Q. Tell me what you recall talking to him about. Who called who?

79

A. He wanted to know what it was.
Q. He called you?
A. Yes.
Q. Tell me about the conversation, what he said and what you said.
A. He said, "Why am I getting letters at my home when it happened at my mom's house?"
Q. Did you share with him any thoughts on that?
A. I said, "It's from my attorney."
Q. Did you talk about the day of the event when he called you?
A. Not so much. He was upset. And from what I gathered out of the whole thing, he may not have told his wife the entire truth about it, and she is the one who got the letter.
Q. Okay.
A. He was real upset.
Q. What is it that you believe he didn't tell his wife?
A. That there may be any aftermath.
Q. Did he share something with you that caused you to believe that, or is that just your supposition?
A. He kind of said -- well, he basically said, you

80

know, his wife didn't know, and he didn't appreciate the letters coming to his house. He wanted my attorney to stop sending them.
Q. Okay. Other than him calling to ask why the letters were coming and you telling him that it was your attorney sending it and whatever discussion occurred that caused you to believe his wife didn't know about it, any other discussion or any other subjects that you recall being discussed during that phone call?
A. Yes.
Q. What?
A. May I confer with her for a minute? Can we have a break?
Q. Was your attorney there for that telephone call?
A. No. But he was e-mailed right thereafter the same day.
MR. BARCH: Well, I don't want to deprive you of a chance to talk to your attorney. Go ahead.
(At this time a short recess was taken.)
CONTINUED EXAMINATION BY MR. BARCH:
Q. Mr. Dulberg, I was asking you about the phone conversation you had with Mr. Gagnon, the one

81

that precipitated the break-off of communications. Okay? And we have talked about him calling wanting to know why he was getting letters, your view that maybe his wife was upset with him. And I'm paraphrasing, of course.
A. Uh-huh.
Q. And you also mentioned that you did not really talk about what happened on June 28, 2011. And then I asked the question I thought about -- I thought I asked whether or not there was anything else that you recall being discussed that day during that phone conversation. And then I thought that was the impetus to your request to meet with your counsel. Does that get us back to where we were?
A. Yes.
Q. Okay. And it may be difficult to talk about, you know, this breakdown in communication between you and Mr. Gagnon because you have known him for years, but it's important to me to know what you guys talked about. So to the extent it doesn't involve your attorney, I would like to know what you guys discussed.
MS. FREEMAN: No conversations between you

82

and Hans or me. Your conversations with the defendant.
MR. BARCH: That's right.
A. Okay. He was just very upset that he was receiving all of this stuff at his house. Can you repeat where you were at?
Q. I'm just trying to figure out if there was anything else you and Mr. Gagnon discussed that last phone call you had together besides him being mad about getting letters, your belief his wife might not have known the whole story, and also him being upset about the whole thing.
A. Yes. He was very upset. I'm not going to tell you some of the profanity, but he was very upset.
Q. I take it then he was very upset that he was being sued?
A. He didn't understand why he was responsible at all if it happened on his mom's property. That was his big . . .
Q. Did you and he talk about the idea that he was running the chain saw?
A. I said, "Yeah, you are responsible," and I said, "It's time you have to tell people about this. You know, they are going to want to know." And

83

he did not want to do -- he said he was tired of the whole thing. He had heard from his mom about it for months, and he did not want to hear it anymore, and he is sick of it, and he went on, and he was ranting.
Q. During this rant and your effort to explain to him why he was getting letters, did you and he ever discuss the subject of what happened?
A. I think we both know what happened.
Q. Did you actually discuss it that day during the call?
A. No. Not the details of what happened, no.
Q. No comments about "Well, you were running the saw," or "You were holding the limb"? Nothing along those lines? No details about what happened?
A. I said, "You're the one who was operating the chain saw. Of course the lawyers are going to want to talk to you. They are going to send you papers."
Q. And in response did he make any comments to you about your involvement that day?
A. He just went on about how he did not want to hear it.

84

Q. Okay.
A. That was the gist of it.
Q. All right. So you have known David for a long time prior to this. And then Mr. and Mrs. McGuire, Caroline and Bill, they are married, of course?
A. Yes, I believe so.
Q. How often would you encounter the McGuires?
A. In recent years I would actually encounter the McGuires more than I would David.
Q. How is it you would have more contact with them than David?
A. Caroline worked with me at Intermatic for ten years. Not side by side, but she worked there.
Q. Is it Intermatic did you say?
A. Yes.
Q. Different jobs?
A. Yes.
Q. Just worked for the same employer?
A. Yes.
Q. Did you guys have lunches together or anything like that?
A. No.
Q. So other than seeing her in passing, did you even

85

really talk to her?
A. If I had some downtime and she was working near me, I would go over and say, "Hey, how's it going?"
Q. Just general pleasantries?
A. Yes.
Q. You did not see Caroline and Bill on a social basis?
A. No.
Q. And outside of your contact with her at Intermatic over the ten years leading up to this event, how often would you see either her or Bill?
A. Outside of work, couple of times a year at the grocery store or something. I mean, just say hi. In fact, I just ran into Bill two weeks ago.
Q. So would it be fair to characterize your contact with the McGuires during the -- and putting your contact with Caroline at Intermatic aside, but outside of work, your contact with the McGuires would just be happenstance, bumping into them?
A. Yes.
Q. There was no reason for you to go over there and visit with them?

86

A. No.
Q. They didn't have you over to parties or anything?
A. I should correct that. I did go over there a couple of times just to see Caroline right after Intermatic did their big layoff. That was more about work.
Q. When did the big layoff occur?
A. It went on for a couple of years. They've phased down. It was between 2007 or '8 and 2010. I think they are still laying off. They are probably going to go out of business.
Q. The visit or two that you had at her home during the layoff would have been sometime during this period you were talking about, 2008 to 2010?
A. Yes, somewhere in there. When I heard that she lost her job, that is when I stopped over.
Q. Just to basically express your sympathy or what have you, empathy?
A. (Indicates affirmatively.)
Q. All right. Prior to June 28 of 2011 had you ever been to the McGuires' house to perform any type of function around their house; repair, maintenance, handyman work, anything?
A. Prior to it?

87

Q. Yes.
A. Mostly it was years earlier, and it was body restoration in her garage with her son David. I don't think I ever repaired anything around there in the house or anything. I may have helped shovel the driveway once as a kid.
Q. All right. So we have got the -- you have mentioned that early on right after high school you would help David with the restoration of old cars?
A. Yes.
Q. That was done in the garage at the McGuires'?
A. Yes.
Q. Putting that activity -- and that was years ago, correct?
A. Yes.
Q. But we're talking like more than five or ten?
A. Oh, yes.
Q. And then you mentioned that you might have helped David shovel when you were kids?
A. Yes.
Q. All right. But let's get into like the last five to ten years. Did you ever go over to the McGuires' house to perform any type of

88

maintenance function at their home, any repair function at the home?
A. No.
Q. Or any kind of handyman work of any kind?
A. The closest thing to that I think was she needed to go to Menards to get some wood, and I had a truck and a trailer, and I took her over there, her and her son, and got the wood and drove her back home. And that was it. I didn't actually perform any function.
Q. And when was that in relation to 2011?
A. Wait. Wait. I stand corrected. The month or two prior to this incident I took down a shed. It wasn't just me. And we didn't take it down. They just unbolted it from the bottom, and we all just carried it out to the front of the yard and put it on my trailer. They needed as many hands as they could get, and I happened to be free.
Q. Okay. So a month or two before this event there was a shed that was removed from the property?
A. Yes. I don't even know if it was a month. Maybe four weeks.
Q. Sometime before?
A. Just right before, yes.

89

Q. It still would have been 2011?
A. (Indicates affirmatively.)
Q. Yes?
A. Yes.
Q. This shed, you say it was just unbolted from its foundation?
A. Yes. It was one of those flimsy steel sheds.
Q. Steel deal?
A. Real light.
Q. How big was it?
A. It was a big one.
Q. You're talking 10 feet by 9? I mean, how big? Do you recall?
A. I would guess -- and I don't know. They know what size it was. It was a bigger one. Probably 10 by 12.
Q. That is an estimate, right?
A. Yes.
Q. And then did you say a group of people picked it up whole and put it onto a trailer?
A. Yes.
Q. Was it placed on like a flatbed trailer or something?
A. Yes.

90

Q. What happened to -- it was your trailer?
A. Yes.
Q. Where did it go?
A. It went around the block to my house, and then I took it over to the scrap place.
Q. Did you use it for a period of time?
A. It sat there. I threw some hoses in there when I got more stuff to go to the scrap guy. Took it all over.
Q. When did you dispose of it?
A. This year. No. 2012.
Q. So you had it through the winter of 2011-2012?
A. Yes.
Q. So you used it about a year and then got rid of it?
A. Yes. It was just sitting there. I didn't want to use it. It wasn't --
Q. (Interrupting) When you were there -- when you were there to have this thing put onto your trailer, who else was there besides you?
A. David, Bill and Carol.
Q. So did all four of you then lift this thing up?
A. You need one on each corner.
Q. Okay. Besides helping them get the shed off the

91

property, do you recall any other work that you may have done or assistance you may have offered around the property prior to June 28 of 2011?
A. Recently. That's about it.
Q. Did Mr. or Mrs. McGuire -- I'm going to use them in combination. If one or the other did something, tell me. But did either of the McGuires ever train you on how to use a chain saw?
A. No.
Q. Did either of the McGuires ever demonstrate how to use a chain saw for you?
A. No.
Q. Did you ever help Bill or Caroline cut trees down prior to June 28, 2011?
A. Once.
Q. And when was that?
A. Again, it was a few weeks prior. About the same time we took the shed.
Q. Okay. So there was another occasion where you were out there tending to trees?
A. No. Her son David called me and asked me if he could borrow my chain saw.
Q. Okay.

92

A. And I brought it over.
Q. So David called you for a chain saw?
A. Yes.
Q. And other than bringing it over, did you help David at all?
A. I picked up some sticks on the ground. He did all of the cutting except for I did cut one thing, and it was -- when it was all done and cleaned up, they had a stump, and I tried to make it as close to the ground as possible, and that was it. That's the only cutting I did.
Q. When you say you picked up some branches --
A. (Interrupting) Yes.
Q. When you say picked up branches, what are you talking about? Bundles? A couple twigs?
A. It was an apple tree. So they were small, and David cut it. He cut the whole tree down, and Bill and I were standing there talking, and we were taking them over to where they were -- their garden area.
Q. So on this occasion David cut down the entire apple tree?
A. Yes.
Q. With the exception of that stump that you tidied

93

up?
A. Right. About four inches of stump sticking up, yes.
Q. And the assistance that you gave, you helped get that stump to a more presentable condition closer to the ground?
A. Yes, I did.
Q. And then you helped Bill move some of the branches to a different area on the property?
A. They were already cut up, so yes.
Q. Were they tied in bundles, or did you --
A. (Interrupting) They were just loose.
Q. Loose. Did you just pick them up and carry them?
A. Yes.
Q. Did you get paid by the McGuires?
A. No.
Q. Do you know if David was paid by the McGuires to take down that tree?
A. Which tree?
Q. The apple tree.
A. I don't know.
Q. Did you get any kind of remuneration or consideration or gifts of any kind for helping that day with your chain saw?

94

A. I got pop.
Q. Pop. Were you expecting money?
A. No. I wasn't there to do any work.
Q. And you don't have any insight as to the connection between David -- strike that. You don't have any insight as to the arrangement between the McGuires and Mr. Gagnon on that day when he was taking down the apple tree?
A. No.
Q. For all you know it could have been a favor for his parents?
A. Yes.
Q. Or perhaps he was paid? We don't know? You don't know?
A. Right.
Q. When you said that David was the one that took the tree down by himself that time, the apple tree --
A. (Interrupting) Yes.
Q. -- do you happen to know, prior to David setting out to do the tree, whether Mr. McGuire or Mrs. McGuire gave him any instruction on how to use a chain saw?
A. Not to my knowledge.

95

Q. Do you know if they were even out in the property -- out in the yard when he was doing that work?
A. Yes, they were.
Q. They were there as he was cutting or afterward?
A. Both.
Q. You saw the McGuires present when David was using the chain saw?
A. Yes.
MS. FREEMAN: Counsel, are we talking about the apple tree?
MR. BARCH: Yes, the apple tree.
Q. And while you were there -- I guess you were present, I take it, then, when the McGuires were on the property and David was using the chain saw to cut the apple tree apart?
A. Yes.
Q. Do you recall over hearing or seeing Mr. McGuire or Mrs. McGuire instructing David on how to use that chain saw while you were there?
A. Not how to use the chain saw. Just what they wanted gone.
Q. So they were telling him which parts of the tree they wanted gone?
A. They wanted the whole tree gone.

96

Q. So anything beyond that, saying take the whole thing down?
A. The two of them were bickering back and forth about all different things. They were talking about all different trees they wanted -- I didn't keep up with --
Q. (Interrupting) The two of them meaning Mr. and Mrs. McGuire?
A. Yes. And her son. I didn't get into any of that. That is whatever they wanted to do.
Q. So there is some banter, bickering, whatever you want to call it, over which trees needed to come down?
A. Right.
Q. Besides identifying the trees that they wanted either trimmed or removed, do you recall Mr. McGuire or Mrs. McGuire telling David how to go about taking down the tree with the chain saw?
A. I think Bill and Dave talked about that a little bit, how they were going to do it.
Q. Okay.
A. I didn't have anything to do with it.
Q. What did you overhear David saying to Bill or Bill saying to David with respect to the apple

97

tree?
A. Well, the only thing that I did anything about, I remember Bill was complaining that it was sticking up out of the ground, and I was putting the chain saw away in the case so I could take it home, and I took it back out of the case and said, "I'll take the four inches off for you," because David was already gone or he was in the house doing something, and I just wanted to get it done and head out of there. I didn't want to wait for him, so I did that. But as far as them instructing each other, they were mostly talking amongst each other.
Q. What I'm driving at is you recall hearing them discuss/bicker over --
A. (Interrupting) I do remember. I do remember.
Q. Hold on. You do recall hearing them bicker or discuss which trees needed to come down totally or which ones needed to be trimmed? That is something you recall them bickering about, correct?
A. Yes.
Q. And you recall Mr. McGuire being dissatisfied with the way the stump looked after David left?

98

A. Right.
Q. You don't recall Mr. McGuire telling David how to use the chain saw, though? That didn't happen in your presence?
A. No.
Q. Correct?
A. Correct.
Q. And you don't recall Mr. McGuire demonstrating the chain saw for Mr. Gagnon that day either, correct?
A. No -- yes, that's correct.
Q. David was just using the chain saw in his presence? Is that how you recalled it?
A. Yes.
Q. Now, you were going to say you do recall something else that happened as we were asking questions about it.
A. You were asking about instruction, and Caroline was worried because part of the tree was over the house, and she was telling him to take it -- they were talking about the way to take the tree down without any of it touching the house at all; and they worked it out and did it, you know.
Q. All right. So that is something that sticks out

99

in your mind? There was a tree -- part of the tree is over the house, and there was a concern about damaging the house?
A. I remember that, yes.
Q. And there was a discussion as to how to get the tree removed without hurting the house?
A. Yes.
Q. Was it successful? Did they do it?
A. Yes.
Q. Did anybody get hurt, as far as you know, that day with the chain saw?
A. No.
Q. And you had no connection to any of the cutting that day, correct?
A. Other than picking up the sticks and cutting the stump, that was it.
Q. That's right. I take it back. You did cut the stump closer to the ground?
A. Yes.
Q. But in terms of the work, David did the actual severing of the branches and cutting the limbs and things? You were not helping him do that?
A. I was just taking the cut branches over to the pile where they were going to burn it or whatever

100

they wanted to do with it.
Q. Let's go to June 28, 2011 then. Did Mr. or Mrs. McGuire ask you to come over?
A. David did.
Q. So Mr. and Mrs. McGuire did not call you up and ask you to come over?
A. No.
Q. So your involvement started with a call from David?
A. Yes.
Q. What do you recall him saying when he called you?
A. He said he was taking down another tree for his mom. And I said, "Do you need the chain saw?" And he said, "No." And I was like "Oh." He said, "Do you want the wood?" "Well, I'll come over and see what you got." Because he was trying to explain to me which tree it was, but I wasn't sure. So I said, you know, "I can come over and take a look in the morning."
Q. I forgot to ask you. Did you take any of the wood that was cut down of the apple tree wood?
A. No.
Q. Okay. So you agreed to come over and take a look at the wood that was being -- I guess the tree

101

wood that was -- strike that -- the remains of the tree that was being taken down on June 28?
A. Right.
Q. And heading over there was it your plan or did you anticipate helping him?
A. Not with -- he said he had a chain saw, and he does it all himself. So I anticipated just getting the wood, you know, if I wanted it.
Q. Okay. And prior to arriving at the property did you call the McGuires?
A. I don't think so, no -- you know what, I -- strike that. I don't remember if I called to make sure he was there before I left in the morning or not. I don't remember. I may have.
Q. So he called you not on the day of, but some other point to alert you he would be there on that day?
A. Yes.
Q. So you may have checked just to see if he was there?
A. Yes.
Q. Do you recall that being the case, or it's just a possibility?
A. It's a possibility.

102

Q. And so when you went to the McGuires' that day, I take it you didn't bring anything with you?
A. Just my truck.
Q. Just your truck?
A. Yes. And my dog.
Q. Your dog did you say?
A. Yes.
Q. Did you have a pickup truck?
A. Tahoe.
Q. What were you going to do -- where were you going to put the wood if you did take some?
A. I was going to go back home and get a trailer.
Q. You weren't even sure you were taking wood at that point?
A. Yes, exactly.
Q. You went out there in your personal vehicle with your dog?
A. Yes.
Q. At that point you were not planning to assist him; just to check the wood to see if you wanted it?
A. Correct.
Q. On arrival who was there?
A. David, his mom Caroline, Bill. And at some point

103

in there his sister showed up.
Q. Bill's sister?
A. No, David's sister Diane. She was there. I don't remember when she came and went. She was there.
Q. And on arrival are they all in the house, or is the cutting ongoing and they are all outside? What do you recall?
A. David was -- he came walking around the side of the house as I pulled up -- they must have seen me -- and said, "Hey, how's it going," you know, and I said, "Morning." He wanted to show me what he had.
Q. So you went around back and looked?
A. Yes.
Q. How much of the tree was down at this point?
A. None.
Q. What kind of tree was it?
A. Pine.
Q. We're talking like a Christmas tree type, or the big one with all the ugly branches?
A. They all have big ugly branches. It was the Christmas tree type.
Q. How tall was this thing?

104

A. We all guessed at that. I think around 60 feet.
Q. And that's an estimate, correct?
A. Yes.
Q. None of it had been trimmed up at that point?
A. Correct.
Q. All right. And now you and David are back there looking at it, correct?
A. Bill came out. Carol came out. They were all out there.
Q. That is what I was going to ask next. Who else was back there with you when you were looking at it before the work started?
A. Everybody.
Q. Okay. And at some point the cutting began?
A. Yes.
Q. All right. Between the time you arrived and you went back with David to look at the tree -- and I think you said Bill and Carol were there, too?
A. Uh-huh.
Q. Yes?
A. Yes.
Q. Between that point in time and the time the tree cutting actually started what discussions do you recall about this project?

105

A. They showed me the new chain saw they bought.
Q. Okay.
A. After that I was joking around with Bill a little bit. He was telling me about his vacation. Did a lot of talking about his vacation. We talked about that all day.
Q. Okay.
A. I was playing with the dog. Carol loves my dog. Just simple pleasantries. Nothing -- it wasn't really about the work.
Q. Do you recall any discussion about the work between the time you went behind the house to look at the tree and the time David started work on the tree?
A. David was talking about the work that he was going to do, where he was going to drop it, how he was going to take it down. He was telling Bill and Carol how he was going to do this.
Q. Do you recall during that process Caroline McGuire trying to override any decision that David had?
A. Yes. But not about that tree. About other trees.
Q. Okay. Well, what do you recall Caroline's --

106

A. (Interrupting) They bicker like cats and dogs.
Q. You have used that phrase "bicker." When you say bicker --
A. (Interrupting) Discuss.
Q. Was she telling him she wanted certain trees down and he did not want to take those down or --
A. (Interrupting) Yes.
Q. -- he wanted some down that she did not want down?
A. Both ways.
Q. Okay. So other than identifying which additional trees had to be trimmed or cut down versus, you know, left alone, do you recall any other discussion between David and Caroline prior to him undertaking the effort to actually cut things?
A. She was telling him about she -- the putting oil in the chain saw. And he was like "I know. I know, Mom," you know. Because it was brand-new. They had just bought it. It was all little things. And a lot of the discussion didn't have anything to do with the tree. We're talking about other things like other kids in the family and -- you know.

107

Q. When David explained his plan for taking down the tree, you heard part of that?
A. Yes.
Q. Okay. Do you recall Caroline disagreeing with him about how to go about taking down that tree?
A. Not too much, no.
Q. What about Bill?
A. Bill just stood -- Bill wanted to make sure it wouldn't hit the pool or the garage. Same thing with Caroline. They did not want any damage to their property other than it falling on the grass.
Q. That would seem to be any property owner's concern is that they didn't get other damage.
A. Sure.
Q. But in terms of how to go about doing that, other than alerting Mr. Gagnon that they did not want the house hurt or the pool damaged or anything like that, do you recall any comments from either Mr. McGuire or Mrs. McGuire as to how to go about doing that, or was that a decision that -- or a plan that Paul -- I'm sorry -- Mr. Gagnon came up with, from your vantage point?
A. He came up with it. He said what he was going to

108

do, and he did.
Q. Okay. In terms of discussions then leading, I guess, from the time you got behind the house to the point in time where David started working on the tree -- and specifically I'm talking about conversations you overheard with the McGuires and Mr. Gagnon -- there was concern about not damaging the house or pool?
A. Uh-huh.
Q. And there was also discussion over which tree should be cut and which tree should not be cut --
A. (Interrupting) Uh-huh.
Q. -- correct? And then you remember them talking about the chain saw being new and Mrs. McGuire concerned about making sure there is oil in it?
A. Yes.
Q. Anything else you can recall?
A. That's about it. I'm sure there were other things.
Q. Did David consult with you about how to get the tree down?
A. Not much. He asked me how tall I thought it was. But he knew how to measure out pacing or something, some trigonometry thing. He figured

109

out how tall it was.
Q. So, I mean, did it appear to you that he looked like he knew what he was doing?
A. Oh, yes.
Q. You say you saw him actually measuring things?
A. Yes.
Q. Like just walking it off in feet, or did he have a tape measure out there?
A. No. He paced it off. He was estimating the height of the tree from where it would fall.
Q. Okay. Any other preparations that you observed him undertake before he actually began cutting?
A. Preparations? Getting the chain saw ready. He ate breakfast in between. He's the kind of guy that would work for 10 minutes and then take a 20-minute break and work for 10, you know.
Q. Okay. So at some point the chain saw gets fired up, I take it?
A. Yes.
Q. And are the McGuires still out in the yard?
A. I believe so.
Q. From the Interrogatory answers it looks to me like they were not present in the area when you actually got hurt?

110

A. No.
Q. At what point between the time they started cutting to the point where you were hurt did they leave?
A. Well, Bill was in and out of the house getting things to drink and whatnot and talking to Caroline. I don't know when he disappeared that last time. But Dave's sister was in the pool, and she disappeared, too. I think she went home. I don't know what happened to her. But, yes, it was -- he was in and out, you know.
Q. Okay. Why don't you tell me about the work you saw David do between the time he started it and the time you actually started helping him with any aspect of it.
A. He was taking off the lower branches of the pine tree.
Q. Okay. So you're just standing there watching this?
A. Oh, yes.
Q. And so the first task that you saw him undertake, he was using the chain saw to cut some of the lower branches off of this pine tree?
A. Yes.

111

Q. And that was from the ground level?
A. Pretty much the first lower branches, you know.
Q. Okay.
A. And then he worked his way up, you know.
Q. Got you. How far along with the cutting process was he before you did anything to assist him?
A. He was pretty high in the tree. Probably 25 -- well, 20 feet. I'm getting -- his chain saw died on him. He had a rope. And he lowered it down, and he asked for me or Bill to restart it for him, and I restarted it. And then he raised it back up in the tree and pulled it back up there and then just kept going.
Q. Okay. And so how is he getting up the tree?
A. He's climbing.
Q. He's climbing the tree?
A. Yes.
Q. Does he have little spikes on his shoes?
A. I didn't see spikes, no.
Q. So is he cutting the branch and using the stump as a step?
A. Yes. He had some sort of belt he had wrapped around the tree. I have never done anything like that, so I -- that's not -- I have -- not that

112

skilled.
Q. You have never cut a tree down the size of this one?
A. No.
Q. And you have never used any straps or belts or harnesses to ascend the tree?
A. I wouldn't climb into a tree like that, no.
Q. Now, I mean, you're watching him do it?
A. It looks scary.
Q. You're watching him do this?
A. Yes.
Q. How many branches do you think he cut, I mean, up to this point where --
A. (Interrupting) There was a lot of branches. I mean, I was surprised how many branches are on a pine tree. So I can't guess the number, but there was a lot.
Q. And he's got some kind of a strap holding him to the tree, and he's using his feet as support?
A. Standing on the stumps that he had cut for it, yes.
Q. And and then the chain saw is attached to a rope of some sort?
A. Yes. He had tied a rope around the handle of the

113

chain saw and had it up in the tree with him.
Q. And is Mr. McGuire out there for this?
A. Yes.
Q. Mrs. McGuire, too?
A. At times.
Q. Are they doing anything other than watching him?
A. Bill was talking to me. He really liked his vacation, and he was -- he had story after story.
Q. So he's really kind of a spectator more than anything, and he's having conversations with you?
A. Both of us were, yes.
Q. He's not directly assisting David up there in the tree?
A. Bill did -- yes, exactly.
Q. Did Bill ever climb the tree?
A. No.
Q. All right. So he's about 20 to 25 feet up when he -- did it run out of gas or something?
A. I think it just died.
Q. It died. He needed somebody else to start it?
A. (Indicates affirmatively.)
Q. He didn't try to start it himself up in the tree?
A. No. He said it was dangerous. He said, "I'm going to lower it down to the ground. Start it

114

for me. I'll pull it back up."
Q. You believe it stalled, and he lowered it down to have somebody else start it?
A. Yes.
Q. Did you recall him saying, "It's too dangerous to start up here on my own"? Is it just something you assumed?
A. I assumed it. I would think it would be too dangerous.
Q. So you did restart it?
A. Yes.
Q. And so when it goes up on the rope, it's running, but the blade is not turning, obviously?
A. Correct.
Q. You have to use the trigger to get the chain to move?
A. Correct.
Q. And I presume the rope is not going through the trigger area?
A. No, it's not.
Q. There is a --
A. (Interrupting) It's tied around the bar.
Q. Got you. So it gets back up to him. Does he continue on with the cutting?

115

A. Yes.
Q. And what is the next involvement of any sort that you had?
A. Bill wanted to get some of the sticks that he was cutting down off the ground and into a pile so he started doing that. And then my dog went and grabbed some sticks because he sees sticks, you know. So I went over, and I was helping Bill put the sticks into a pile next to the garden. They were just laying on the ground. We were standing there doing nothing.
Q. Okay. So you were basically just helping Bill move some of the debris over into a pile?
A. Yes.
Q. The smaller stuff?
A. Well, the long --
Q. (Interrupting) The limbs?
A. Yes.
Q. And what was the plan for those, if you know? Were they going to be chipped up?
A. Well, Bill wanted to burn then. In fact, he started a fire and was burning them.
Q. Okay.
A. And somewhere along the way David wanted to save

116

them.
Q. All right. So all you're doing is taking the stuff that has fallen off the tree and dragging it into a separate area at this point?
A. Yes.
Q. All right. And did Bill ask you to help, or you were just there and you decided to help him?
A. I just decided to help him.
Q. Did you at that point discuss, you know, payment for doing this?
A. No.
Q. Did you consider yourself doing him a favor by just helping?
A. Yes.
Q. Was it your plan to maybe -- had you decided at that point to take any of the wood as firewood?
A. No. I told him I didn't want it.
Q. None of it?
A. None of it. It's pine.
Q. Even the trunk of it once it was done?
A. None of it is any good for burning in a fireplace.
Q. So once you got back there and saw it was going to be a pine tree coming down, you knew you

117

weren't going to be taking advantage of any of the wood?
A. Correct.
Q. It wasn't your chain saw, correct?
A. Right.
Q. What purpose other than talking to Bill did you have for staying?
A. Well, Carol talked to me about -- it was just social. Carol was talking about old people that worked at Intermatic. Bill was telling me about his vacation. And it was just talk, you know. I didn't plan on staying that long at all, but they just keep talking. I didn't have anything else to do that day, so I just . . .
Q. What day of the week was it?
A. I don't recall offhand.
Q. Was it a weekend?
A. No, it was not a weekend.
Q. All right. So you decided you weren't going to take any wood, and it was really by -- you were kind of hanging out socializing with the McGuires, if I'm understanding what you're saying?
A. Yes.

118

Q. For a good portion of time?
A. Yes.
Q. At some point Bill started dragging these branches to a different area, and you lent a hand?
A. Yes.
Q. You didn't do that anticipating any payment of any sort, correct?
A. Correct.
Q. And then how long does this go on where you're moving branches?
A. Well, some time. David, he took some good long breaks. So a few hours. At least a couple. I mean, we weren't moving branches for two hours. You move them for two minutes and you're done for 20 minutes, you know.
Q. Until there is some more down?
A. Yes.
Q. Because you're not standing under there as they are dropping down?
A. Right.
Q. So it's off and on for a couple of hours you're moving these branches?
A. Yes.

119

Q. At some point does David get the whole -- the whole trunk, it's eliminated with -- all the smaller branches are gone?
A. He got it pretty far up. And when he came down, he looked pretty scared. I was like "I wouldn't want to do that. I have to give it to you because I wouldn't climb up like that."
Q. Did he get all the way to the top, very top of that, 50 or 60 feet high?
A. No, no.
Q. So at some point he comes down, and there is still some of the triangular part of the tree with the branches?
A. Yes. There was a good -- better than a third of it, maybe a little more, left.
Q. So roughly two-thirds of it is free of the limbs?
A. Between a half and two-thirds, yes. Somewhere in there.
Q. And then he comes down. Is that when he falls the tree?
A. No.
Q. Did he ever cut the tree and see it fall over?
A. No.
Q. Did you get injured before that happened?

120

A. Yes.
Q. So he comes off of the tree having cut down half to two-thirds of the limbs?
A. Uh-huh.
Q. Right?
A. Uh-huh.
Q. Is that a yes?
A. Yes.
Q. All right. And then during that period of time while he was up there, that is when you and Bill were dragging some of these branches over to a different area?
A. Yes.
Q. And at what point is it that you're involved in any activity which resulted in your injury?
A. When David came down, he took a good long break. He was tired. He was climbing the tree. He was tired. I think he ate something for lunch. I was offered a pop. You know, I sat there and drank a pop, was playing with my dog. After lunch Dave went back over there to do some more work. He started trimming on the tree next to it. Wasn't even the same tree. Same thing, taking off the lower branches. And it was when

121

he was doing that, when he was done with trimming that tree, that is when he asked me to come over and hold something for him.
Q. So after lunch he stopped working on the tree that you saw him work on all morning, correct?
A. Uh-huh.
Q. And started working on an adjacent tree?
A. Uh-huh.
Q. He was at ground level again just cutting off branches?
A. Uh-huh.
Q. That was the first time he directly asked you for help?
A. Yes -- well, other than start the chain saw earlier.
Q. Yes. So up until that point in time I take it you had not offered David any thoughts about how to proceed with the tree trimming, whatever he was doing? You're just watching?
A. Yes.
Q. You didn't offer him any comments on how to do this, the way he was going about getting this stuff done?
A. I have never seen it done, that big of a tree

122

like that, no.
MS. FREEMAN: Just answer the question.
A. No.
Q. All right. So now David needed some help with something. What was it, as you recall? What did he need help with?
A. He had accumulated a very large pile of, you know, the long pine branches. He asked if I could help him for a few minutes. I said sure. He says, "I need you to hold these while I cut off the things on them." And he showed me what he wanted, showed me where to stand. And I said, "Yeah, I can do that," you know. And -- yes.
Q. All right. So I guess from what I envision, he's cut all of these limbs off of that pine tree. Now there is a big pile of them; one you guys weren't able to move, you and Bill?
A. He had another pile from the tree right next to it, yes.
Q. And what was he going to do? Trim some of the smaller branches off the limbs?
A. That's what he wanted to do. He wanted to save the center part for firewood or something like that for campfires or something. I don't know.

123

Q. So by cleaning off the smaller branches, then there would be some logs that could be cut up that would be suitable for firewood?
A. Correct.
Q. Did you and he actually -- did he tell you what his plan was or what he was going to do?
A. He told me exactly what to do. He knew what he was doing. You know, seemed that way to me.
Q. And he told you what he wanted you to do?
A. Yes.
Q. And what did he tell you to do?
A. Took the branch, pull it over here so it's away from the rest of them. Hold the one end up, and he would cut the smaller stuff off the other end. And when that was done, put it down, grab the next one, put it up and -- you know, yes.
Q. So I'm understanding, you're taking a limb that had been cut off the tree, you're holding it upright?
A. No.
Q. No?
A. Can I do -- I don't know how it translates.
Q. We'll explain it on record. But if that straw will help you orient us as to what you were

124

doing --
A. (Interrupting) The branch would be like this (indicating) to the ground.
Q. All right. So the heavier -- the thicker part of the branch is laying on the ground?
A. Actually, the thinner part was. That is the way he wanted it.
Q. So you're holding the heavier part of the limb?
A. Yes.
Q. The long part of it?
A. Yes.
Q. And he's trimming off the smaller branches?
A. Yes.
Q. Off his limb?
A. Yes.
Q. Does he start at the end and work his way closer to you?
A. Yes.
Q. And how long are these limbs?
A. They're pretty long. I would only be able to guess. I would have to say 20 feet. Pretty big. Especially the lower ones off the pines, you know.
Q. Okay. So how many of these things do you think

125

you were able to accomplish before you were injured?
A. We did quite a few.
Q. And are you able to quantify that in any way? More than one, obviously?
A. Yes. More than a few. Maybe a few dozen. Maybe a little more. We did it -- you know, we did that for about I would say a good -- you know, it was a while. I don't know exactly. I didn't have a watch.
Q. Are we talking a half hour or more?
A. Yes.
Q. All right.
A. It wasn't --
Q. (Interrupting) A dozen? At least a couple of dozen of these things you have gone through this process trimming all these branches off in the way he told you to do it, you hold the end and he's going to work his way up?
A. Right.
Q. Once all of those little branches are off there -- is it kind of a longer log?
A. Yes.
Q. Did he then cut that into smaller pieces?

126

A. That's what he wanted those for is to cut it in smaller pieces.
Q. Did he do that task, too, each time you --
A. (Interrupting) I think he did the first few, and then we just started taking the other ones, the longer things off. He dictated what he wanted. Some of them he wanted -- you know, he wanted to see what he could get out of it first.
Q. All right. So the first couple you trimmed the branches up and then cut them into smaller logs immediately?
A. Yes.
Q. Did you hold the longer limb as he cut it into smaller sections?
A. No. He had set up a -- from the apple tree he set up two logs and was able to set it on there and just (indicating).
Q. So you didn't hold the log as he was trimming them into smaller pieces?
A. The middle part, no. I was there when he took off the little pieces.
Q. So the first couple of these he trimmed it down and then immediately made them into logs?
A. Yes.

127

Q. And then after a while he decided he was going to trim all the branches off while you were there to help?
A. Yes.
Q. And you were doing it with a couple of dozen of these before you got hurt?
A. Yes.
Q. All right. So he told you how he wanted -- he basically told you he wanted you to hold the end --
A. (Interrupting) Yes.
Q. -- while he trimmed those up?
A. Yes.
Q. And did he tell you to do anything other than stand there and hold up the one end?
A. When they were done they had to be put over here and then grab a new one, you know, bring it over to this spot so he could start again.
Q. He would stay there, and you would drag the log to a pile and then drag a new branch over?
A. Yes.
Q. Prior to undertaking this trimming did he offer you any instructions beyond "Here, hold this"? Did he say, "Keep your hands free. Stay away"?

128

A. He said, "Stand here. Hold it here and don't move." He said don't allow it to move because it would roll, you know, so you had to hold it tight.
Q. So other than telling you where to stand and how to hold it and not let it spin, did he give you any warnings that were safety-oriented like "Keep your hands free. When I get close to you, keep your hands to you," anything --
A. (Interrupting) No.
Q. Anything about that -- obviously, to the point you got hurt, did anything about that task concern you from a safety standpoint?
A. He was far enough away from me it wasn't . . .
Q. So up until you were actually hurt he kept a certain amount of distance away from you?
A. Yes.
Q. How close was the nearest he got to you prior to when you got hurt?
A. Maybe three or four feet, maybe five feet, somewhere in there. There was a good chunk of those branches that were next to the trunk that didn't have anything on them, you know. They didn't have the growth. The growth was out in

129

the ends.
Q. All right. And during this 20 or 24 more limbs that you guys trimmed up before you were hurt, was Mr. McGuire out there?
A. Yes -- wait a minute. I was working, so I wasn't paying attention at that point. I was helping hold the limb. You know, I was paying attention to what I was doing. I stopped paying attention to Bill and Carol, so I don't know where they were. You know, I know they were coming in and out of the house.
Q. Okay. So whether they were there or not during the trimming part you're not sure?
A. Yes.
Q. It could be? Maybe not?
A. Yes.
Q. That being the case, I take it you don't recall either one of the McGuires intervening, saying, "Hey, that doesn't look safe," or "Be careful," or anything like that during the trimming part?
A. No.
Q. And you recall Mr. Gagnon telling you where to stand and how to hold the branches. Did either of the McGuires give you any instructions during

130

that phase of the job?
A. No.
Q. Did you at that point believe you were taking instruction from Mr. Gagnon?
A. Yes.
Q. You were doing what he told you to do?
A. Yes.
Q. Did you think you were taking instructions from the McGuires at that point?
A. They didn't say much.
Q. And the entire time you're trimming -- during this phase where the branches are being trimmed off the limbs, I take it Mr. McGuire wasn't there helping you holding these limbs?
A. No. We were -- it was getting into the afternoon after -- like after lunch, and I think he was getting tired. That is the way I feel. He was older.
Q. The particular phase of the project, the trimming of the limbs, that was you and Mr. Gagnon?
A. Yes. I remember Mr. McGuire saying that he wanted to burn the limbs, and David wanted to save them.
Q. And at no time that day did you run the chain

131

saw?
A. I started it.
Q. But you didn't run it --
A. (Interrupting) No.
Q. -- and apply it to any limbs or logs?
A. No.
Q. All right. Why don't you get to -- we have got to the dozen or two dozen or so of these limbs before you were hurt. Tell me, as you can recall, what happened.
A. Do you mean the actual incident?
Q. Actual incident. You have done a couple of dozen of these without incident?
A. Right.
Q. And then what happened?
A. He walked towards me, and the chain saw came up, and it cut me. I tried to get out of the way, but . . .
Q. Were you guys actually working on trimming a limb at that point?
A. I was holding a limb up, yes.
Q. You were holding a limb?
A. Yes.
Q. With which hands?

132

A. My right hand.
Q. So you're able to hold these with one hand up in the air?
A. They were only this (indicating) -- you're talking logs. I call them sticks.
Q. Okay. I didn't ask that question so I'm glad you clarified. The limbs that we're talking about, what was the diameter on average?
A. The side that I was holding?
Q. Yes.
A. Maybe -- I don't know what you consider that (indicating). Three inches. Your guess is as good as mine.
Q. Okay. Well, it's certainly not the full width of your fingers?
A. No. I can hold it with one hand.
Q. It's about the width of a pop can -- diameter width of a pop can?
A. Coffee cup there, yes.
Q. They were like three to four inches?
A. Yes.
Q. And that was how all the other ones were, too?
A. Yes.
Q. And then you were strong enough, and at least at

133

that point you were healthy enough to hold it with which hand?
A. Right here (indicating).
Q. Right.
A. Right.
Q. And you're right hand dominant?
A. Yes.
Q. So you could hold those out?
A. Yes.
Q. And so you would hold it kind of horizontally, and the rest of it would stretch out towards Mr. --
A. (Interrupting) Yes. Go down along the ground there.
Q. And then you say Mr. -- you described it as Mr. Gagnon walking towards you with the chain saw and then you just got cut. Can you elaborate on that a little bit? He didn't just -- you were actually -- he was actually working on trimming a tree branch, correct?
A. Yes.
Q. And so I take it he was trimming, getting closer and closer to you?
A. Before it, yes.

134

Q. Before you got hit with the saw?
A. Yes.
Q. And I take it unlike the other branches, there may have been a branch closer than the four to five feet?
A. No. He stopped cutting the limb, chain saw went down, went to idle. You know, he walked toward me, and I thought he was going to say something like next instruction, what to do, okay, and I don't know what he was thinking or what he was doing or what, but the chain saw started coming up, and the gas went on, and I tried getting the hell out of the way and -- yes.
Q. So it wasn't during a cutting process that you were hurt?
A. Yes, you're right.
Q. He disengaged from trimming the branch, if I'm understanding your testimony, and the chain went into an idle position?
A. The motor went to idle.
Q. And the chain is not even moving, and he's holding it down to his side?
A. Both hands.
Q. With both hands. But the chain is not moving?

135

A. Yes.
Q. And he closes the gap between you and him in terms of space?
A. Right.
Q. And you were still holding the branch at this point?
A. Yes.
Q. And somehow the chain, it gets activated?
A. When I heard the chain saw, the motor speed up and I saw with my eyes it start to come up, I dropped the branch, tried to get the heck out of there because it's coming up between me and the branch. "What the fuck are you thinking?" I don't know how to say -- you know, I screamed. Whether he was going after something he thought he saw coming off the branch, I don't know.
Q. Okay.
MS. FREEMAN: Wait for a question.
Q. So you're holding the branch with your right hand just like you had done on the two dozen or more before. He's trimming branches off this thing and stops trimming, correct?
A. Yes. He was done.
Q. And then he --

136

MS. FREEMAN: (Interrupting) Wait until he finishes.
Q. And he then walks toward you holding the chain saw in a position where he might be able to cut if the chain was moving?
A. It was pointed downward.
Q. Pointed downward?
A. Yes --
Q. (Interrupting) But the chain is not moving --
A. -- towards the ground.
Q. The chain is not moving?
A. Right.
Q. And he gets close enough to you to reach you, obviously?
A. (Indicates affirmatively.)
Q. Then you hear the chain saw, the rpms ramp up?
A. Oh, yes.
Q. And when you heard it ramp up, was it a concern of yours that the chain might be moving at that point?
A. It was an instant high alert on my part, yes.
Q. Did you see the chain saw blade with the chain moving at any point before it made contact with your arm?

137

A. Oh, yes.
Q. So you heard it ramp up in terms of rpms and looked?
A. Oh, yes.
Q. Are you still holding the branch at this point?
A. I was letting go.
Q. And as you hear the thing fire up, you turn to look at it, correct?
A. I was looking at it while I was watching him. You know, I never turned away.
Q. And so it's pointed down, and then the rpms ramp up, and you see the blade coming toward you?
A. Uh-huh.
Q. And you let go of the tree?
A. Yes.
Q. But the blade, nonetheless, still makes contact with your arm?
A. Yes.
Q. Did it ever make contact with the tree branch?
A. No.
Q. From your vantage point was it -- well, strike that. Did Mr. Gagnon tell you what his plan was when he got near you and turned the saw on and had lifted the blade toward you?

138

A. I had no idea, and I went into panic mode.
Q. All right. And so I think you said you had released the branch before the saw came in contact with your arm?
A. (Indicates affirmatively.)
Q. Is that right?
A. Yes.
Q. And did you turn your body?
A. Uh-huh.
Q. Describe for me this point in time where you see this blade coming up with the saw moving and all of a sudden -- and then at that point where your arm is hit. What did you do?
A. I let go of the branch, and I tried bringing my arm up and away from the saw blade and out and around to get away. It was coming right up, you know, and it was coming up. It was fast.
Q. All right. So you tried to get your arm out of the way. The blade is coming up, but you didn't get it away fast enough?
A. Obviously got it away enough to keep my hand and my arm. I'm lucky to have that.
Q. And then at this point where your arm is actually injured, do you believe that either one of the

139

McGuires was present to see that?
A. No. I know they weren't. They said they weren't.
Q. All right. So if I'm understanding your testimony then, at the time the blade made contact with you, you were not actively assisting him by holding a branch? You had, in fact, released the branch?
A. Oh, yes.
Q. And there was no dialogue from Mr. Gagnon as he approached with the blade as to what his intention was at that point in time where the saw became I guess --
A. (Interrupting) Pointed downward.
Q. -- pointed downward and began moving upward?
A. Right.
Q. There was no statement out of him at all?
A. No. I was looking to see if he was going to say something to me because it looked like he was approaching me to say something; he wanted me to do something else, or, you know, I thought there was an instruction coming.
Q. But ultimately there was no additional comment made by him prior to the rpms on the chain saw

140

ramping up and the blade coming up toward you?
A. Correct.
Q. And so this isn't a situation where the blade and the saw -- I'm sorry -- the blade and the chain made contact with the branch and kicked it toward you?
A. No.
Q. This isn't a situation where the blade was cutting through a branch and caught the very tip of the saw and fired back at you?
A. No, it's not.
Q. There was no cutting actually involved of a branch when you got struck with the blade?
A. Correct.
Q. After this happened did you ask Mr. Gagnon what he was trying to accomplish at that point in time?
A. After I screamed my head off, that was the first thing that came out of my mouth was -- excuse the expletive -- "What the fuck are you thinking?"
Q. Did he have a response for you?
A. He became immediately I think distraught would be the word, confused. "Oh, my God." Panic, yes.
Q. So he didn't make any comment to you about what

141

he was trying -- the task he was trying to accomplish? It was more shock and stunned about this scene having happened?
A. Yes.
Q. Since that point in time where you got hit with the blade and now did he ever tell you in his words what he was specifically trying to do at the time this happened?
A. In the emergency room he used the word kickback, but I didn't understand what he meant or how, you know. And they are going in to sew me up and put the muscles back together, you know, as best they can. I don't know what happened there.
Q. All right. So you definitely recall him in the ER using the phrase kickback?
A. Yes.
Q. All right. But from your vantage point this idea of a kickback, it wouldn't have anything to do with a kickoff of a branch or a log or a limb that was being cut?
A. No. It had nothing to do with that.
Q. And you didn't see the saw come onto a tree branch, that tree branch you were dropping, and then kick toward you? You didn't see that?

142

A. No.
Q. So he may have a different version of what kickback means, but the kickback definition or your impression of a kickback that you described earlier, that is not what you recall happening?
A. Correct.
Q. If I'm hearing what you're saying, he might have been trying to get toward that branch to cut it but he never got there? He got to your arm before he made any contact with the tree?
A. Well, I was holding the end of the branch. There was no branch beyond my hand.
Q. And that's what I'm getting at is from your recollection of what went down, regardless of what his intentions were, he lifted up the chain saw, the rpms ramped up, and the chain is moving. You tried to get out of the way of the blade, but you were not able to get out of the way in time?
A. Correct.
Q. That is what happened?
A. Correct.
Q. And other than him mentioning something about a kickback when you're in the emergency room, as we sit here today have you ever discussed the

143

dynamics of what happened in a situation where he explained what he was trying to do?
A. Of course I asked him, and I don't remember at what point I asked him, and he could never explain it. He just (indicating). You know, I don't think he knows. I honestly don't think he knows.
Q. So as you sit here today, regardless of how many times you asked him -- and it's more than once, I take it, correct?
A. Oh, yes.
Q. In your mind, he's never articulated specifically what he was doing at the point in time where the blade made contact with your arm?
A. Correct.
Q. Other than referencing a kickback in the ER?
A. Yes.
Q. Okay. With respect to the McGuires, at what point in time was your first notice that Mr. McGuire or Mrs. McGuire were aware of you being potentially hurt?
A. Immediately. They heard me scream.
Q. Okay. Do you believe they came from inside the house?

144

A. Yes.
Q. And when they came out, was there any discussion between you and Mr. Gagnon about what had happened?
A. No.
Q. Would it be fair to describe the post injury part on the premises as being more concern about how you were doing than what happened?
A. It was pretty important to me.
Q. Right.
A. Yes, it was very important. Carol was very concerned. She come out yelling. "I heard it. I knew my son cut you." She came out screaming, you know, and -- yes -- yes.
Q. Did either of the McGuires ever make any comments to you to suggest or pursuant to which you formed the impression that they saw what happened?
A. No. They said they didn't. She said she heard it. She heard the screams. She heard what was said right after. She heard all of that. She was right there in the kitchen.
Q. She heard the screams, and her thought was somebody was cut?
A. (Indicates affirmatively.)

145

Q. How soon after this happening did you move on to the emergency room?
A. I don't know timewise. I was in shock. It seemed like it took forever. So I can't tell you whether it was five minutes or ten minutes. I am not capable of doing that for you. I can tell you that I started giving orders at that point. First time all day. And I needed a towel, I needed something to put on it, I needed to tie it off. We needed to go to the emergency room now, and there was no waiting.
Q. So once you got hurt, you became more focused about getting the care you needed?
A. Yes.
Q. Up until --
A. (Interrupting) I was quite vocal.
Q. Up until the point where you were cut with the chain saw had the situation ever turned from a volunteer situation like you described early on to an employment situation were you thought you were going to be compensated?
A. No.
Q. Did the McGuires ever promise to pay you anything?

146

A. No.
Q. Did Mr. Gagnon ever tell you he was going to pay you anything?
A. No.
Q. Did he ever make any comment to you that he was being paid to get this done by his parents?
A. He did say he was getting something for it. I don't know what. I don't know the terms. I remember something in there he was referring to he had to do this because he owed his mom money or something. I don't know.
Q. And I take it Gagnon didn't promise to share payment he may have been receiving with you?
A. No.
Q. Did you consider yourself a volunteer out there?
A. Yes.
Q. But obviously you felt you were taking directions from Gagnon but you were volunteering?
A. Yes.
Q. You didn't expect to get anything out of this?
A. No.
Q. Certainly not an injured arm?
A. Definitely not this, no. Maybe a pop, you know.
Q. All right. So we have all of your medical

147

records but I want to go through this a little bit. At the emergency room they evaluated your arm, correct?
A. Yes.
Q. They cleaned out the wound?
A. Yes.
Q. Did they do some X-rays at the ER?
A. Yes.
Q. Did they tell you that it didn't reach the point where it hit any of your bones?
A. No, it did not.
Q. Initially was it the impression, as you understood it, that it was a tear through the skin and into the muscle?
A. Yes.
Q. There was no belief there was nerve involvement initially?
A. You know, once they gave me the painkiller, I don't -- I was in la-la land.
Q. To the best of your understanding, did they do anything else in the emergency room other than clean it and then stitch it up?
A. Yes. They did the stitches and closed it up and, you know, X-rays. I don't remember what all.

148

Q. In the emergency room did they have you use your hand and move it to see if you were still functioning?
A. Yes.
Q. And was it still functioning at that point?
A. Parts, yes. They didn't really check it. I did that. I wanted to know what would work, and I am moving my hand around to see what is going on. And once the pain medicine they gave me kicked in, you know, I was able to move a little bit but not a whole lot.
Q. Once the pain medicine kicked in, I take it the injury itself felt a little better?
A. Oh, I went (indicating). It was --
MS. FREEMAN: (Interrupting) Just answer the question.
Q. It did?
A. Yes.
Q. And then how long was it before -- well, strike that. Eventually did you have to go somewhere and have the stitches out?
A. Yes.
Q. And who did that?
A. Dr. Sek.

149

Q. Where is Dr. Sek?
A. He's right here on Elm Street.
Q. He's still operating here?
A. I have known him since I was five years old.
MS. FREEMAN: Just answer the question.
Q. We have sent a records request for him several times and there has never been a response. He's still working here somewhere in McHenry?
A. Yes.
Q. He took the stitches out?
A. Yes.
Q. Over the first month or two or three did you do any physical therapy?
A. I was told by Dr. Sek give it some time, it's going to take time. He did not send me to physical therapy or anything else.
Q. And I know from the record that, as you have explained already, when you tried to use the computer, that you continued to have some symptoms with the right arm and hand even after I guess the laceration had healed?
A. Right.
Q. All right?
A. Right.

150

Q. And even today you're still having problems?
A. Yes.
Q. Sometime I think later in 2011, maybe it was early 2012, you had an EMG study done on your right arm?
A. I think I had a few of those.
Q. Nerve conduction study?
A. Yes.
Q. And there was something done early on with the Shoulder to Hand Clinic, Dr. Talerico or something like that?
A. I remember Talerico. I did go see him.
Q. That doctor had evaluated the EMG study, and he evaluated you, didn't feel there was any nerve impairment. Do you recall that?
A. He said -- well, I left Dr. Talerico because I don't think he knew who he was talking to. He started yelling at me about asking for pain medication, and I never even got anything from that man ever in my life. And I left seeing him because I don't think he -- there was something wrong there. And I only saw him twice, and I was out of there.
Q. Do you recall him giving the opinion that he

151

didn't think there was anything surgically he could do for you?
A. Not at that point. He did say time will tell.
Q. Okay. And then you left Dr. Talerico?
A. Yes.
Q. And did you go somewhere else?
A. Yes.
Q. Because my records stop at the very beginning of 2012.
A. Dr. Sagerman.
Q. Where is Dr. Sagerman?
A. I gave you his address earlier, or his place, Vernon Hills.
Q. Oh, that's right. And when did you start seeing Dr. Sagerman?
A. I don't remember the date. I'll be honest with you.
Q. He was after Dr. --
A. (Interrupting) Talerico.
Q. -- Talerico?
A. Yes, yes.
Q. All right. And then did Dr. Sagerman do anything for your right arm different than what Dr. Talerico did?

152

A. He continued the physical therapy.
Q. All right. And anything beyond the physical therapy?
A. He ordered up a new EMG.
Q. And then what?
A. More physical therapy. It was a lot of physical therapy.
Q. Has anybody done any surgeries on your arm?
A. Yes. He did.
Q. When did he do that?
A. July of this year.
Q. As you understand it as the patient, what did Dr. Sagerman do to the right arm?
A. Removed a ton of scar tissue, he said. And he said -- and what they call -- it's a neurosis or -- I don't know the words he used.
Q. I don't know either. I don't have any of these records.
A. Okay.
Q. So there was some kind of a surgery. Which parts of your arm did he work on?
A. Forearm and the elbow.
Q. All right. And that was in July?
A. Yes.

153

Q. Have you had any more surgeries since then?
A. No.
Q. Are there any planned?
A. No.
Q. Are you still doing physical therapy?
A. Not for my right arm anymore but for my left.
Q. How is the right arm now since this procedure done by Dr. Sagerman?
A. It's better in the sense the pain level is down.
Q. Okay. Same; the pinky, the ring finger and the thumb?
A. Those are the most affected, yes.
Q. What about the index and the middle fingers? Are those impacted as well?
A. Yes.
Q. Are the ones that are affected the worst the pinky, the ring finger and the thumb on your right hand?
A. All of the fingers are affected in the sense of a grip. The ones that feel numb are the pinky and the ring finger.
Q. So there is a weakened grip overall?
A. Oh, yes.
Q. And then the pinky and the ring finger are numb?

154

A. Yes.
Q. Earlier on you described the pain that was with the tendinitis, the forearm and everything. Is the forearm implicated on the right?
A. On the right?
Q. Yes, in terms of pains or sensation?
A. I get a pain right next to the bone. There is a big lump of scar tissue, you can feel it, and it hurts there when I try to grab too much stuff that is heavier or anything with weight.
Q. So if you strain the right arm, you will realize some pain right where the laceration was?
A. Yes, it will burn a little.
Q. So then with respect to the right arm, you described the numbness in the pinky and the ring finger, a weakened grip and then occasional shooting pain where the laceration was with heavy strain. And what else do you notice about the arm today, the right arm?
A. You play with the scar tissue ball that is forming in there, and it burns under the elbow. It's like a direct link. If you pinch it, it's (indicating).
Q. And is there any further recommended treatment

155

for the right arm or any of the symptoms that are lingering?
A. Yes. I am on medication for it.
Q. What do you take?
A. Gabapentin.
Q. Is that an anti-inflammatory or pain med?
A. It's a type of pain medication, I believe.
Q. Okay. Besides taking that, anything else?
A. I take an anti-inflammatory.
Q. Is that for the left arm or the right arm?
A. It's all right. I take -- I'm trying to think now. Well, I have, in case I need it, and I try not to take them, but Tramadol and hydrocodone, but I try not to take those.
Q. Okay. So that's the medicine that you're still taking. Is there anything -- and there is no physical therapy with respect to the right arm currently?
A. No. We're pretty much done with that.
Q. And then in terms of function, you have mentioned there is weakened grip?
A. Yes.
Q. And you have the numbness in the pinky and ring finger. What other limitations can you

156

appreciate with respect to the right arm?
A. Pinky.
Q. What about it?
A. It wouldn't go in.
Q. So you can't --
A. (Interrupting) I can't (indicating).
Q. You can't move the pinky so it abuts the index finger?
A. Or the ring finger.
Q. The ring finger?
A. Correct.
Q. And anything else? Do you still have the full range of motion in your hand?
A. Yes. As long as I do it controlled and slow. If I start forgetting and -- you know, because I feel good and I start doing things fast, it's like all of a sudden I'll get -- it will burn here (indicating), burn under here (indicating), and it will like pang all the way down. It will start tingling real bad again.
Q. So in terms of the shoulder movement, fine?
A. Shoulder is fine.
Q. Elbow movement fine?
A. No. The elbow is a bit sore. I think it's

157

because of the surgery he did in there. He had to do a nerve release or something. It was tight.
Q. And did the doctor tell you whether that nerve release in the elbow was somehow related to the injury to the mid forearm?
A. He said that it's natural. You know, the way he explained it to me, it tore through the middle. It's not a cut, it's a tear. Things got pulled from both ends, you know, and that's the next spot that will be affected from the pull. So that's the way it was kind of explained to me. He said it's natural with what happened, with this type of thing that happened.
Q. Okay. The elbow is sore when you're moving it. Is that all the time or just periodically?
A. It's sore pretty much all the time.
Q. And you can still move it in all directions, though?
A. Yes. As long as I'm careful.
Q. And then the hand, with respect to the movement of -- it is a weakened grip, but in terms of moving it, with the exception of the pinky, it still moves the same?

158

A. Yes, yes. The pinky and the ring finger and the thumb is -- I have a problem with the thumb coming in here (indicating). Not like this (indicating), but this way (indicating). And my hand shakes.
Q. Has the doctor told you -- that would be Sagerman -- when you can expect any further improvement, or is this what you're going to have?
A. He said nerve damage takes a long time to heal especially as we get older. He wouldn't rule out a full healing. He wouldn't say I was going to be stuck like this forever. He just said time will tell.
Q. So we don't know yet, and he doesn't know for sure?
A. Right.
Q. I'm going to show you what I'm going to mark as 2.
A. He knows more about it than I do.
MS. FREEMAN: There is no question pending.
THE WITNESS: Got you.
Q. I think I know the answer to this, but this is medical expenses as of March 19, 2012, $7,333.04.

159

There is more medical expenses we don't have?
A. Right.
Q. The surgery in July and the physical therapy and --
A. (Interrupting) Yes.
Q. I take it you're making a claim for the tennis elbow as well?
A. You know, they tell me it's a natural part of it because of the not using this arm (indicating) and using this thing (indicating) for everything from drinking to driving to everything that I do. And they -- yes.
Q. So there may be expenses associated with the left arm that we don't have?
A. It's a result of.
Q. You have had medical expenses for the treatments and care of the left arm?
A. Yes, minimal.
Q. We don't have those as part of this as well, correct?
A. Right.
Q. I just want to go through some photos here. This is a photo of your arm after the chain saw injury, obviously, correct? 2A?

160

A. This is a long time after, yes.
MR. BARCH: Now I need to make that medical expense summary Exhibit No. 3. Sorry.
(Exhibit No. 3 marked for identification by Mr. Barch.)
MR. BARCH: I shouldn't have premarked the other ones.
Q. The other questions I was asking you when I was referring to Exhibit 2, it's now 3. The answers would be the same? We don't have all the medical expenses?
A. Right.
Q. 2A, that is your forearm after the chain saw injury?
A. Yes.
Q. Is that how it looks today?
A. No.
Q. What is that --
A. (Interrupting) No.
Q. What is going on now?
A. It's now got a scar that crosses it where they went in.
Q. Okay. So that is the second surgery, though?
A. Yes.

161

Q. The second procedure. So these are all pre --
A. (Interrupting) Pre the July surgery, yes.
Q. The July, 2012. This is what it would have looked like, I take it then, had you not had the additional surgery?
A. Correct.
Q. Same thing with 2D and 2E?
A. Yes. These are all from pre.
Q. Now we go over to 2F. There is an additional photo with some more of I guess an incision that runs up and down your forearm?
A. Yes.
Q. And there is also one -- that's the July, 2012 stuff?
A. Yes.
Q. You have scars now on your arm from those as well?
A. Yes.
Q. 2F, G, H show the arm after that July, 2012 surgery?
A. Correct.
Q. What is I? This came from your counsel, too, 2I.
A. That's David.
Q. That's Mr. Gagnon?

162

A. Yes.
Q. Where is this?
A. That's at his home.
Q. When did you take that?
A. That phone conversation you asked me I talked to him about, I went up there to get his address for his house for Hans, and he was outside.
Q. Oh, so when your attorney needed his address, you went up there to get it?
A. I knew where he lived. I didn't know the address, so I just drove past.
Q. And did you shoot this from the car or something?
A. As I drove by the house, yes.
Q. Did he know you were taking that?
A. Yes. I showed it to him.
Q. And then I guess 2J, this was just part of the records. Is this before the second -- before the July surgery or --
A. (Interrupting) This is the X-ray from the emergency room.
Q. Okay.
A. Kind of shows --
MS. FREEMAN: (Interrupting) There is no question pending.

163

THE WITNESS: Sorry.
MR. BARCH: I think's all I have for now.
EXAMINATION BY MR. ACCARDO:
Q. For your left arm and left elbow, you had injured those before 2011; is that right?
A. Excuse me?
Q. You had injured your left arm and your left elbow before 2011?
A. Correct.
Q. And that was in a car accident?
A. Yes.
Q. And that took place when?
A. Ten years ago.
Q. What type of injury did you suffer in that car accident?
A. I suffered a broken neck, and I had to have an ulnar nerve transposition done.
Q. Okay. And where was that done?
A. That was done I think late -- what did they call that? That was a long time ago at the hospital, Lake Forest Hospital.
Q. Do you remember which doctor performed that?
A. The same doctor.
Q. The same doctor as what?

164

A. Sagerman.
Q. Okay.
A. That's why I knew him.
MS. FREEMAN: Just answer the question.
Q. And after the surgery after the automobile accident about ten years ago did you still have trouble with the left arm?
A. Still do today.
Q. From the time of the car accident up until the time of the accident with the chain saw in June of 2011 did you have trouble with the left arm and the left elbow?
A. Yes.
Q. And has that changed since the accident in June of 2011?
A. Yes.
Q. How so?
A. The other side of the elbow hurts.
Q. Okay. Which side of the elbow hurt before?
A. This side (indicating) was from the car accident. It's like the funny bone.
Q. We're talking about more of the inside of your elbow?
A. Yes.

165

Q. All right.
A. Where this is out up here (indicating).
Q. Okay. And by "out here" (indicating), you're talking about the outer part of the elbow?
A. Yes.
Q. You still have trouble with the inner part of the elbow?
A. Yes. Cold days.
Q. The time when you were working with David on the apple tree --
A. (Interrupting) Yes.
Q. -- was that the only time you had worked with him where there was a chain saw involved before June of 2011?
A. With him with the chain saw, yes. There was a tree down in the front yard, but I don't know who did it. I assumed he did.
Q. I'm just talking about you working with him with the chain saw before 2011.
A. Yes.
Q. Was it just the apple tree?
A. That was it.
Q. During the cutting of the apple tree did you have any criticism with the way that David used or

166

employed the chain saw?
A. No.
Q. And before the accident the day you were cutting down the pine tree did you have any criticism with the way David was using or employing the chain saw?
A. No.
Q. Was there any alcohol involved in the June, 2011 incident?
A. Possibly on Bill's part, Bill McGuire, but neither of us.
Q. Not on David's part?
A. No.
Q. Any reason to believe that David was under the influence of any type of drugs or alcohol at the time of the accident?
A. No.
Q. At any point before the actual accident took place when you were cutting down the pine tree did you express any displeasure or any concern over the process that David had set up for trimming the limbs?
A. No.
Q. You didn't see any problem with it?

167

A. He seemed like he knew what he was doing.
Q. My question to you was did you see any problem with it, though?
A. No. I wouldn't know.
Q. Now, I just want to go back to right before you got cut and talk a little bit about the saw because I am a little confused. When David started walking towards you, was the chain still going or had it already been put into idle at that point?
A. He was cutting, stopped, came up, took the finger off the trigger because the whole thing went down, you know -- I think it stopped. The chain pretty much stopped.
Q. Okay. And then he starts walking toward you?
A. Right.
Q. And at any point did you see his finger hit the trigger?
A. I didn't see his finger hit the trigger, no.
Q. You just heard?
A. Yes.
Q. And then you saw the chain --
A. (Interrupting) Yes.
Q. -- start to speed up?

168

A. Yes.
Q. Or you actually saw the chain engage?
A. Yes.
Q. Okay.
A. Start to move.
Q. About how much time elapsed from the time he put the saw into idle or took his finger off the trigger until you heard or saw the chain engage again? Was it just a matter of seconds?
A. Yes, it was seconds.
Q. And then about how much time elapsed from the time you saw or heard the chain engage until the time you were actually cut?
A. Split seconds. It came fast.
Q. After the chain or saw engaged right before you were cut, did you see David move in any particular way?
A. Say that again. I lost you in the middle.
Q. After you saw the chain and the saw engage before you were cut, did you see David's body move in any particular way? Did you see any type of jerking movement or anything like that?
A. No. He started walking towards me.
Q. But at some point I think you said you saw the

169

saw coming up?
A. Yes.
Q. Okay. How high was the saw when it cut you?
A. It was my eye height. My eyes.
Q. And how was David holding it at that point?
A. (Indicating).
Q. Okay. You're showing me --
A. (Interrupting) Saw pointing up.
Q. Saw pointing up. One hand would have been on the bar?
A. Yes.
Q. The safety bar?
A. Yes.
Q. And then the other hand where?
A. Down on the trigger.
Q. Okay. And the actual saw was pointed straight up in the air?
A. No. It was maybe a 45 it went to.
Q. When you heard and saw the chain engage, where was the saw pointing?
A. Down toward the ground at about a 45.
Q. So from the time you heard or saw the chain engage up until the time you were cut, David moved it from about 45 degrees to the ground up

170

pointing towards the sky about 45 degrees?
A. Yes.
Q. And how would you describe the manner in which he did that? Was that something that was --
A. (Interrupting) Just raise it.
Q. Was that something that was fast? Was it slow? Was it sudden?
A. It was very sudden and fast.
Q. Did it look like he had lost control of the saw, or did it look like he did it on purpose?
A. No, it looked like he was in control, but I don't know -- I have asked him. I don't know if he tripped over something --
Q. (Interrupting) I'm not -- I'm just asking you if --
A. -- or what. I don't know the answer to that.
Q. Okay. You said you were holding the branch with your right arm or your right hand, right?
A. Uh-huh.
Q. Okay. And you were facing with your body towards David?
A. Yes.
Q. Okay. And then when you heard and saw the chain engage, you dropped the branch?

171

A. Yes.
Q. And then you I think motioned -- you said you turned your body it would have been to the right and up and away?
A. Yes. First I went up, and then I was trying to get up and out of the way because that saw blade came up to a 45, and I had to get the heck out of there.
Q. Where was your arm when it actually got cut, and in what position was it?
A. Can I stand up and show you so I can describe it?
Q. Yes.
A. It was -- I was turned like this (indicating), and it cut me right here (indicating).
Q. Okay.
MR. ACCARDO: So let the record reflect that Mr. Dulberg's right arm was basically parallel with his nose and eyes.
Q. Is that about right?
A. Yes, it was. Yes.
Q. And your body was turned about --
A. (Interrupting) I was in the middle of pivoting to get away.
Q. Okay. After the chain and the saw engaged did

172

David keep walking towards you, or was it just more of a movement with his hands and arms?
A. Say it again.
Q. After you saw the saw and the chain engaged did David keep walking towards you, or was it simply a motion with his hands and arms?
A. It was a motion up.
Q. So he had stopped walking or moving towards you?
A. I think that there were still forward momentum going on, yes, because it started, and it came up -- yes, there had to be. I don't know. There had to be, though. My eyes were on the blade at that point.
Q. And now I know you said when you were in the emergency room that David said something about kickback?
A. I asked him -- the emergency room staff asked what the heck happened, and that was his response.
Q. Did you overhear what he told to the people at the emergency room?
A. Yes.
Q. What did he tell the people at the emergency room?

173

A. He said kickback or something. I just don't know . He took his hands, put them on the head and put them between his knees and just stayed there and did not say nothing.
Q. Did they ask him more than once what happened?
A. Yes, a couple of times, and I just looked at the emergency room staff, and I said, "I think it's an accident. Let's just get this done."
Q. When they asked him the second or the third time what happened, what was his response?
A. At that point he had his head between his knees, and he just goes "I don't know what happened. I just don't know."
Q. At any point did you have a conversation with David in the emergency room, outside of the presentation of the emergency room personnel, about what happened?
A. No.
Q. Now, I know that when you were asked before about some discussions or attempts at discussions about what has happened from the time of the accident up until today's date, I think you sort of just -- sort of made some noises and said David did not want to talk about it. I want you to tell

174

me, if you know, what specifically has David told you about what he thinks happened on the date of the accident?
A. He doesn't know.
Q. Has he offered any type of explanation as to what happened?
A. No. I think he's afraid to. I don't know.
MS. FREEMAN: There is no question pending.
Q. Why do you think he's afraid to?
A. Because I don't think he knows.
Q. As you sit here today do you think this is something he did on purpose or intentionally?
A. I think he screwed up and had a brain fart.
Q. So the answer to my question would be no?
A. Right.
Q. At any point while you were in the emergency room did you ever have a discussion with David where you indicated to him that you thought that both of you could make a lot of money off of this? Did that conversation ever happen?
A. No.
MR. ACCARDO: I don't have anything else.
MR. BARCH: Only question I have in

175

follow-up -- just one.
EXAMINATION BY MR. BARCH:
Q. You mentioned that you and Mr. Gagnon were not drinking that afternoon, correct?
A. Correct.
Q. And you said Bill. I guess you're referring to Bill McGuire may have been drinking?
A. He's been known to.
Q. Okay. As you sit here today do you believe that if he had consumed beer or something that day, that that played some role in what happened to you with the chain saw?
A. It played no role.
MR. BARCH: That's all.
MR. ACCARDO: Nothing else.
MS. FREEMAN: I think we will waive signature.
(The deposition of this witness came to a close at 3:33 p.m.)

CERTIFICATE OF SHORTHAND REPORTER

I, Angela D. Oldenburg, a Certified Shorthand Reporter in and for the State of Illinois, do certify that, pursuant to the agreement hereto annexed, there came before me on the 24th day of January, 2013, at 12:17 p.m., the following-named person, to wit: Paul R. Dulberg, who was by me duly sworn to testify to the truth and nothing but the truth of his knowledge concerning the matters in controversy in this cause; that he was thereupon examined on his oath and his examination reduced to writing under my supervision; that the deposition is a true record of the testimony given by the witness and that the reading and signing of the deposition by the said witness were expressly waived.

I further certify that I am neither attorney or counsel for, nor related to or employed by any of the parties to the action in which this deposition is taken, and further that I am not a relative or employee of any attorney or counsel employed by the parties hereto or financially interested in the action.

Dated this 28th day of January, 2013.

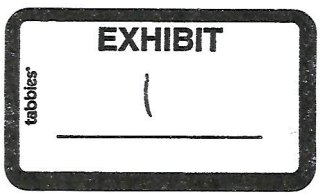
IN THE CIRCUIT COURT FOR THE TWENTY-SECOND JUDICIAL CIRCUIT
McHENRY COUNTY, ILLINOIS

PAUL DULBERG, Plaintiff, vs. DAVID GAGNON, Individually, and as Agent of CAROLINE McGUIRE and BILL McGUIRE and CAROLINE McGUIRE and BILL McGUIRE, Individually, Defendants.	)	No. 12 LA 178

PLAINTIFF'S ANSWERS TO INTERROGATORIES

1. State the full name, present residence address, birthdate, birthplace and Social Security number of the person answering these Interrogatories; and state PAUL DULBERG's full name, present residence address, birthdate, birthplace and Social Security number.



ANSWER: Paul Dulberg
4606 Hayden Ct.
McHenry
DOB: 3-19-70
SS: 323-76-4001
Born: Elk Grove Village

2. State your marital status on the date of the occurrence in question and, if married, your spouse's name and age on said date.

ANSWER: Single

3. State the full name and present or last known address (indicating which) of each person who:
   (a) Witnessed or claims to have witnessed the occurrence in question.
   (b) Was present or claims to have been present at the scene immediately before said occurrence.
   (c) Was present or claims to have been present immediately after said occurrence.
   (d) Otherwise has or claims to have any knowledge of the facts or possible causes of the occurrence to include any damages or injuries alleged to have resulted from said occurrence.

ANSWER: Plaintiff and Defendant Gagnon. McGuires were on the premises.

4. State specifically and with certainty the personal injuries and propeity damage, if any, sustained to PAUL DULBERG as a result of said occurrence.

ANSWER: Objection, requires medical narrative. Without waiving, Plaintiff suffered deep laceration of right arm with nerve involvement. Investigation continues.

5. With regard to said injuries, state:
   (a) The name and address of each treating and/or consulting practitioner.
   (b) The name and address of each hospital or clinic where PAUL DULBERG was treated and the date or inclusive dates on which each hospital or clinic rendered PAUL DULBERG service.
   (c) The amount to date of their respective bills for services.
   (d) Those from whom you have written reports. (Pursuant to Supreme Court Rule 214, please attach a legible copy of said report to the answers hereto.)

ANSWER: See attached Medical Expense Report. Additional bills and records to be obtained from Drs. Marcus Talerico (Mid America Hand to Shoulder) and Karen Levin/Mitchell Grobman (Associated Neurology), Biofora/Sagerman (Hand Surgery Associates) and Fox Lake Dynamic Hand Therapy.

6. As a result of said personal injuries to PAUL DULBERG, are you claiming any loss of income including, but not limited to, wages or salaries? If so, state:

   (a) The name and address of your employer at the time of the occurrence.
   (b) The dates or inclusive dates on which you were unable to work and the amount of income loss claimed.

ANSWER: AMS Screw Products, High View, Spring Grove, Illinois.
Supervisor: Joe Groves
Approx. $10 per hours. 40 hours a week.
Was hired but could not pursue employment due to accident.
Investigation continues.

7. State the name and address of each witness or defendant from whom you have obtained statements, indicating whether such statements are written or oral, who has possession of such statements, and pursuant to Supreme Court Rule 214, attach legible copies of any written statements hereto.

ANSWER: Gagnon gave a statement to Plaintiff's counsel and it will be transcribed and produced.

8. State the name and address of PAUL DULBERG's family practice physician.

ANSWER: Dr. Sek, 4601 W. Rt. 120, McHenry

9. State whether PAUL DULBERG was hospitalized or had suffered any illness or personal injury prior to or subsequent to the date of said occurrence, and if so, state the nature and date of each such hospitalization, illness or personal injury.

ANSWER: Prior: Last 20 years. Involved in auto accident in 2002, I suffered neck injury and left arm. Treated with Northern Illinois Medical Center and left arm surgery with Dr. Sagerman and Grobman (Libertyville).
Since: no

10. State whether PAUL DULBERG suffered any permanent scarring as a result of the accident alleged in the complaint. If so, state the location of such scar, the width and length of such scar or scars. (Pursuant to Supreme Court Rule 214, please attach any photos of any such scar to your answers hereto.)

ANSWER: Yes. On right arm. Investigation continues.

11. State whether prior to the accident alleged in the complaint PAUL DULBERG suffered any physical disability or impairment of any kind whatsoever. If so, state the nature of such physical disability or impairment and how PAUL DULBERG came to have such physical disability or impairment.

ANSWER: Yes, as it concerns my above auto accident. The degree of any disability is to be determined by my physician.

12. State the location of the alleged occurrence, pinpointing such location in feet, inches and direction from fixed objects or boundaries at the scene of the occurrence.

ANSWER: Behind the garage of the Defendant's home - as alleged.

13. State with particularity the nature of the alleged defect, object substance or condition which caused the alleged occurrence giving the exact dimensions and physical description of such including the size, shape, color, height, length and depth of such defect or object.

ANSWER: Objection, irrelevant - improperly worded. Defect is Gagnon's conduct. See Complaint.

14. State with particularity what PAUL DULBERG was doing at the time of the accident alleged in the complaint.

ANSWER: Holding a branch at the request of Mr. Gagnon.

15. State with particularity your basis for alleging that on or about June 28, 201 1, David Gagnon living and/or staying at the premises known commonly as 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois.

ANSWER: He was at his mother's residence.

16. State with particularity all the reasons why PAUL DULBERG was present on the premises known commonly as 1016 W. Elder Avenue, City of McHenry, County of McHenry, Illinois on the date of the alleged occurrence.

ANSWER: Dave invited me.

17. State with particularity your basis for alleging that David Gagnon was contracted and/or hired by Defendants Bill McGuire and Carolyn McGuire to cut down, trim and/or maintain the trees and brush at their premises. as further alleged in Plaintiffs Complaint.

ANSWER: Dave told me.

18. State with particularity your basis for alleging that David Gagnon was working under the supervision and control of Defendants Bill McGuire and Carolyn McGuire at the time of the occurrence alleged in Plaintiffs Complaint.

ANSWER: He was working at their property under their control.

19. State with particularity your basis for alleging that Defendants Bill McGuire and Carolyn McGuire instructed and/or advised David Gagnon in the use of a chain saw on or before the date of the occurrence alleged in Plaintiffs Complaint.

ANSWER: It was the McGuires chain saw.

20 State with particularity any and all defects associated with the chain saw you believe or claim was involved in the occurrence alleged in Plaintiffs Complaint.

ANSWER: Unknown

21. State whether you have any information indicating or otherwise suggesting that Defendants Bill McGuire and/or Carolyn McGuire knew or should have known that PAUL DULBERG was about to assist or was assisting David Gagnon with tree cutting and/or trimming on the date and in the location of the occurrence alleged in Plaintiff's Complaint. If your answer is in the affirmative, further state with particularity the bases for your contention that Defendants Bill McGuire and/or Carolyn McGuire knew or should have known that PAUL DULBERG was about to assist and/or was assisting David Gagnon with tree cutting and/or trimming on the date and in the location of the occurrence alleged in Plaintiff's Complaint.

ANSWER: The McGuires saw me with Mr. Gagnon.

22. State whether any photographs or videos were taken of the scene of the occurrence or of the persons, objects or premises involved, and if so, state the number of photographs or videos taken, their subject matter and who now has custody of them.

ANSWER: Not on the date in question, but I will be produced photos of my injury.

23. Pursuant to Supreme Court Rule 213(f), furnish the identity and addresses of witnesses who will testify at trial and the following information:

(a) For each lay witness, identify the subjects on which the witness will testify.
(b) For each independent expert witness, identify the subjects on which the witness will testify and the opinions the party expects to elicit.
(c) For each controlled expert witness, identify:
  (i) the subject matter on which the witness will testify;
  (ii) the conclusions and opinions of the witness and the bases therefor;
  (iii) the qualifications of the witness; and
  (iv) any reports prepared by the witness about the case.

ANSWER: PLAINTIFF'S RESPONSE TO 213 INTERROGATORIES

Plaintiff will testify to all matters concerning the circumstances of the accident and injury including, but not limited to, all matters set forth in any discovery responses, affidavit, statements and/or deposition testimony, and to those matters and opinions naturally flowing from their personal knowledge and involvement in this matter, and will testify to matters including, but not limited to the following: date, time and location of accident, observations at the accident scene, *weather,* defendant's negligence in X; *continuing medical care to date; medical expense as set forth in updated Medical Expense Reports*; payment of bills; lack of prior related symptoms, treatment; need for past and future treatment including, if applicable; pain and suffering and disability; lost time at work, including rate of pay, time lost, income and benefits lost; ongoing treatment during pending case including **recent exam** by treating physician(s); all other foundational requirements for admitting photos and medical bills into evidence.

Barabara Dulhberg, s/a/a to testify to the pain and disability experienced by the Plaintiff due to injuries suffered in the accident and the lack of prior symptoms or disability, inability to work, hours and wage history and loss of income from work as a result.

Defendants, each of them, will be called as an adverse witness pursuant to Section 2-1102 of the Illinois Code of Civil Procedure, to testify to matters involving the accident.

All witnesses identified by Defendant and/or deposed, on matters so identified or testified to.

Court Reporters present during evidence and/or discovery depositions of those parties and witnesses now or in the future deposed in this or any similar cause to testify to the accuracy of the transcripts and testimony stated therein by each witness including exhibits marked and testified to during the deposition.

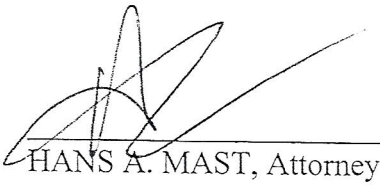
All other independent witnesses disclosed by answer to previous interrogatory will testify to those matters and opinions naturally flowing from their personal knowledge and involvement in this matter and those matters specifically disclosed and or to be disclosed in the future.

Drs. Marcus Talerico (Mid America Hand to Shoulder) and Karen Levin/Mitchell Grobman (Associated Neurology), Biofora/Sagerman (Hand Surgery Associates), are intended to be called as opinion witness(es) to testify to the care and treatment of the Plaintiff to the extent allowed under Rule 213 and to all matters expressly and/or impliedly set forth in the patient's chart including matters flowing therefrom, including, but not limited to, history, exam, diagnostics/findings, exam/findings, diagnosis, treatment, physical therapy, medication, follow-up and continuing treatment through to trial; the nature and extent of injuries sustained by Plaintiff as set forth above and in deposition including injuries, and that such injuries were caused/aggravated by the underlying trauma; that the treatment for such injuries was/is reasonable and medically necessary and causally related to underlying accident, and any other opinions or matters set forth or described in the patients medical file or hospital chart, in addition to any matters and/or opinions naturally flowing from the witnesses work or personal knowledge and involvement in this matter, in addition to testimony and opinions on the following issues:

- Plaintiff suffered and is diagnosed as having the above injuries, not limited to: traumatic injury to right arm including numbness, neuropathy, scarring, and branch nerve involvemnt;
- Plaintiff's injury is consistent with mechanism of injury/history;
- Plaintiff's injury was caused/aggravated by the underlying accident based upon history and findings and experience;
- Plaintiff's injury is confirmed through exam and diagnostics;
- Plaintiff will require ongoing and continual treatment for the injury(s);
- Plaintiff's conservative treatment did not resolve symptoms, requiring surgery and chronic pain;
- Plaintiff's symptoms and disability are permanent;
- Review and interpretation of all diagnostics;
- Plaintiff may require surgery to correct the condition(s);
- Plaintiff's surgery and costs is medically necessitated and causally related to the accident;
- Plaintiff's symptoms are disabling from activities;
- Plaintiff's injury is pain producing;
- Plaintiff's injury limits and will limit in the future Plaintiff's activity at home and at work;
- Plaintiff's injury disabled him/her from work for a period of time causing a loss in income;
- The charges or expense for the medical treatment received from each and every treater or facility referenced by Plaintiff in deposition or by Medical Expense Report was/is customary, reasonable, and medically necessary and due to the auto

accident based upon his/her expertise and experience and knowledge of the billing/charges for the same or similar treatment;

- Plaintiff is susceptible to re-injury in the future due to injury sustained in case, requiring future care and treatment, surgery and expense;
- Plaintiff will require future medical treatment and care and expense due to injury, estimate of $10,000 annually;
- That Doctors' practice involves treating patients with similar injuries under similar settings and causes;
- The witnesses report(s) are contained in medical records produced in discovery;
- This witnesses opinions are based upon the witnesses expertise, experience, education, treatment of same and similar injuries, review of history, records of all treating physicians and care providers, films/reports, and exam - all which is customary for the witness to rely upon in his/her practice.
- Foundational matters for purposes of admission of medical records into evidence;
- The testimony is also based upon a **recent exam** conducted before arbitration and/or trial.



Plaintiff expressly reserves the right to withdraw and/or not to call any 213 witnesses heretofore disclosed (or fewer than those disclosed) depending on counsel's legal determination at the time of trial and his judgment on the necessity of such testimony given the issues and evidence to be presented at the time of trial.

The accounts/financial services/billing representatives (any or each of them) from each of the facilities whereat the Plaintiff treated, as set forth in his discovery and deposition and Medical Expense Report(s) produced in discovery, including { } will each and themselves testify that based upon their experience and customs and practices and the practices of their internal office and those on their behalf, in their opinion the charges pertaining to Plaintiff's medical treatment in this case, as outlined in the Medical Expense Report, are reasonable and customary in the industry within the area. No one individual has been identified by the facility to testify, but if the defense wants to depose a specific individual before the evidence deposition of the representative is taken, Plaintiff will then designate a person for this purpose, otherwise the evidence deposition notice may simply designate the "representative with knowledge of the customary charges for such treatment" at each facility.

The records keepers from each of the facilities whereat the Plaintiff treated, as set forth in his/her discovery responses and deposition and Medical Expense Report provided throughout the course of this case, will each themselves testify to all foundational matters and requirements for admission of such records into evidence, including testimony as to the custody of the records kept in the ordinary course of business, and history provided by the patient and reliance upon such in the treatment or care of the plaintiff.

Plaintiff reserves the right to update these disclosures in the future in accordance with the order of the court, to add or delete witnesses as may be appropriate and in accordance with the court's order and reserves the right not to call a witness above as may be

appropriate at trial.

* * * *

THE REPORTER: Sir, can you raise your right hand, please?

MICHAEL McARTOR,

after being first duly sworn, deposeth and saith as follows:

EXAMINATION

BY MR. MAST:

Q. All right. Would you please state your name?

A. Michael McArtor.

Q. How do you spell the last name?

A. M-C capital A-R-T-O-R.

Q. Okay. All right.

MR. MAST: This is the discovery deposition of Michael McArtor, taken pursuant to subpoena with notice. Mr. McArtor, I am going to ask you some questions regarding what you may or may not know about a chain saw incident that involved my client Paul Dulberg and the other parties in this case. Let's see if I have a date of accident I can reference. Anybody have the date of accident?

MR. BARCH: I think it's June 28th of 2011 was the date.

BY MR. MAST:

Q. Okay. Do you recall that date as being the

approximate time of Paul's accident?
A. Yes. Summer of '11.
MR. MAST: Okay. What I am going to do and maybe the other attorneys are going to ask you some questions regarding just some matters regarding Paul, my client, and just the incident and things that arose from the incident. Please let me finish the question and I will let you answer it. Let's try not to talk over each other and we will go from there, okay?
THE WITNESS: Okay.
BY MR. MAST:
Q. You have probably never given a deposition before I take it?
A. No.
Q. Okay.
A. Never been in a lawyer's office really.
Q. Well, that's actually good. So let's start with your address.
A. 4606 Hayden Court, McHenry, Illinois 60051.
Q. Hayden, H-A-Y-D-E-N?
A. Correct.
Q. All right. And who do you live with?
A. Paul and his mom.
Q. What's his mother's name?

A. Barb.
Q. And is this a single family residence?
A. Yes. There is two. It's like two floors. I live on the bottom.
Q. Do you like live in an apartment?
A. No. It's one house. We share a kitchen. Everything else I have is my own. You know, I have my own bathroom and everything.
Q. So it's kind of --
A. It's kind of like a duplex.
Q. This is the problem we are going to have is when I start talking and when you start talking. You got to let me finish my question and then I will let you say whatever you want to say, okay? All right?
A. Yep.
Q. So although it's a single family house, you use it in kind of sections where you have a place that you use and then the second floor they use?
A. Yes.
Q. Okay. So does Paul live in the area where his mother lives?
A. Yes.
Q. And then you live alone in the area of the first floor?

A. Yes.
Q. Okay. See, that's better. That makes it a little bit easier. All right. What's your date of birth?
A. 9/3/70.
Q. Okay. And what do you do for a living?
A. I am unemployed right now.
Q. How long have you been unemployed?
A. About five years.
Q. Is that by choice or for some reason?
A. I was fired.
Q. Well, that was five years ago, though. Are you staying -- Hold on. Are you staying unemployed by choice or for some season?
A. Oh, no. Not by choice. It's just hard to find a job.
Q. So you haven't been able to find a job?
A. Right.
Q. What is it that you do that you are looking to find work in?
A. I do printing.
Q. Okay. How long have you lived at that address with Paul and his mother?
A. About seven years.

Q. How long have you known Paul and his mother?
A. My whole life. Since I was like three.
Q. So you grew up with Paul?
A. Yes.
Q. Did you go to school with him as well?
A. Yes.
Q. What -- Did you go to grade school with him?
A. Yes.
Q. What grade school?
A. All of them, Johnsburg, Ringwood.
Q. What high school did you go?
A. Johnsburg.
Q. Same with Paul?
A. Yes.
Q. So is it fair to say since maybe 3 or 4 years old you and Paul have been friends?
A. We have known each other.
Q. Okay. How long would you say you and Paul have been friends?
A. Probably since '80.
Q. Okay. What started that friendship?
A. Just we live two roads away from each other.
Q. Okay. How is it that you began to live with Paul?

A. We originally had a business together.
Q. What kind of business?
A. T-shirt business.
Q. A what?
A. T-shirt printing.
Q. How did that carry on to living together?
A. We pretty much needed somebody there all the time and he was working at Intermatic and I wasn't really working at the time.
Q. Is it out of the home?
A. Yes.
Q. Okay. Is that something you are still doing with Paul?
A. No. We are not doing that anymore.
Q. So do you do anything to earn any income right now?
A. No.
Q. Okay. When did the T-shirt business stop, end?
A. Roughly about 2011.
Q. Okay. And was it -- Was it run out of the home?
A. Yes.
Q. Do you pay rent?

A. No.
Q. Or do you do anything in exchange for living there?
A. I clean. I cook.
Q. Okay. For everyone?
A. Yes.
Q. Oh. Are you a good cook?
A. Yes.
Q. Good.
A. I think so.
Q. Do you have anything beyond high school? Any type of college?
A. No.
Q. Okay. How about David Gagnon, do you know him?
A. Yes.
Q. How long have you known Dave?
A. Since probably 1984.
Q. Has he been a friend since then?
A. He was an acquaintance at that time. Probably about 1986 we probably became friends.
Q. Okay. So almost as long as with Paul but not quite?
A. Yes. Right.

Q. Okay. What began your friendship with Dave?
A. Once again, we lived in the same neighborhood. We knew each other.
Q. Okay. And up until Paul's incident in 2011 with the chain saw -- You are familiar with that incident, right?
A. Yes.
Q. Up until then, were you -- from '86 until then, were you friends with Dave?
A. Yes.
Q. Okay. And friends can mean a lot of different things. Some friends are very close and they see each other every day and go out and socialize and stuff. Other people can be friends. They see each other once a year, so how would you describe before Paul's accident your friendship with Dave?
A. I'd say I saw him probably four times a week at least.
Q. Any type of social activities together?
A. No. We just go to his house and play like hacky sack.
Q. Did Dave live alone?
A. No. He lived with his mom and Bill.
Q. Mom and who?

A. Bill.
Q. Who is Bill?
A. McGuire.
Q. I'm sorry?
A. Carol and Bill.
Q. His parents you are saying?
A. It wasn't his parents at the time. Bill was not his dad. They weren't married at the time.
Q. So Bill is like his stepfather?
A. Bill would be his stepfather, yes.
Q. Does Dave still live with them?
A. No.
Q. Is he married now?
A. Yes.
Q. Does he have children?
A. No.
Q. How long has Dave lived -- I imagine Dave lives with his wife now?
A. Correct.
Q. How long have they lived together, if you know?
A. Oh, probably it was at least probably six years.
Q. Okay. Up until then -- up until he got

married and started living with his now wife, he lived with his mother and Bill?
A. Yes.
Q. Okay. And is that the same address where she lives today?
A. Yes.
Q. What street is that?
A. Oakleaf I think.
Q. Is that in McHenry?
A. They have a McHenry mailing address, yes.
Q. And so the time that you would see Dave four times a week at his mom's house on Oakleaf that would be before Dave got married and moved out obviously?
A. Correct.
Q. Okay. So for six years -- for the past six years, have you had a friendship with Dave?
A. I would see him every now and then. I wouldn't see him as much, no.
Q. And the reason you saw him it looks like significantly less is because he got married and moved in with his wife and moved?
A. They moved away. They moved to Wisconsin.
Q. Is that where they are living now?
A. Yes.

Q. So once Dave got married and moved up to Wisconsin to live with his wife, that's when your connection with him got a little bit less?
A. Yes.
Q. But you still had a friendship with him?
A. Yes.
Q. Okay. Okay. And then if you would, you described now your relationship friendship with Dave over the years. How about now with Paul? You have lived with him for the past six years. I am assuming you socialize with him from time to time?
A. Sure.
Q. Is that on a frequent everyday basis or what?
A. Yeah.
Q. Okay. So you still have a close relationship with Paul then?
A. Yes.
Q. All right. Are you -- Do you have a close relationship with his mother then as well?
A. Yes.
Q. What's his mother's name?
A. Barbara.
Q. Anybody else that lives in the house?
A. No.

Q. Do you know Dave's mother and stepfather?
A. Yes.
Q. Okay. Does he have a -- Is his natural father still living?
A. No.
Q. Okay. What's his mother's name?
A. Carol.
Q. Carol. Since Dave moved out of their house like six years ago, have you maintained any type of contact with Carol and Bill?
A. I have talked to them a couple times, not much.
Q. Okay. With regard to Paul's accident, the chain saw that we are here about today, June, 2011, other than -- and we will get to your communications or what you have overheard with regard to Dave and Paul, but other than Dave and Paul, have you had communications with anyone else regarding that incident?
A. No.
Q. Okay. So all of the information you know about the chain saw accident with Paul has all come from either Paul or Dave?
A. Well, and Carol. Carol. Carol is the one

who called me the day it happened.
Q. That's what I was trying to find out.
A. Yes.
Q. So it's just three people then you have learned about the chain saw accident, Carol, Dave and Paul?
A. Yes.
Q. Okay. You have never talked to Bill about it then?
A. No.
Q. Okay. Before the -- Before the accident occurred with Paul -- You know it happened over at the McGuire's house, right?
A. Yes.
Q. Before it happened, did you know what Paul was doing that day?
A. No.
Q. Did you know he was going to be using a chain saw or working around a chain saw?
A. No. No.
Q. Okay. Did you know what Dave was going to be doing that day?
A. I had no idea what any of them were doing.
Q. Okay. Okay. Obviously they don't have to

report to you what they decide to do, right?
A. Right.
Q. And you don't know every day what they're doing?
A. No.
Q. All right. So your first notification of what happened in Paul's chain saw accident was when Carol called you?
A. Yes.
Q. Okay. Was it the day of the incident?
A. Yes.
Q. What time did she call you?
A. Probably five, six hours after it happened.
Q. Okay. So Paul had already been to the hospital I am assuming?
A. Yes. He was at the hospital when she called.
Q. Okay. All right. So let's start with that telephone call then. What did Carol say to the best you can paraphrase for us?
A. Carol called and told me why she didn't want to call earlier. She didn't want to talk to Barb because she was afraid what she would say because Dave cut Paul's arm with the chain saw.
Q. Were those her words?

A. Those were her words.
Q. She didn't want to call earlier because she didn't want to talk to Barb?
A. She didn't want to put Barb in stress until she found out what was going on.
Q. About the injury?
A. Yes.
Q. Okay. And she described it as Dave cut Paul's --
A. Paul with the chain saw.
Q. With the chain saw. Okay. All right. What else did Carol say?
A. Come get your dog.
Q. Why was your dog over there?
A. Paul had the dog over there.
Q. Okay. And what kind of dog was that?
A. A German Shepherd.
Q. So apparently when Paul was going over to the house to help Dave, he brought your dog with?
A. Well, it's both of our dog.
Q. He brought the dog with?
A. Yes.
Q. And I guess that's something he does from time to time, right?

A. Yes.
Q. So not unusual?
A. No.
Q. Did she say anything else in the phone call?
A. No.
Q. So it was about a minute or two phone call?
A. Yes.
Q. What did you do -- So I imagine she said Paul was in the hospital?
A. Yes.
Q. Okay. Did she tell you what type of injury or how severe it was?
A. No. No. She just said it was a chain saw cut.
Q. On the arm?
A. Yes.
Q. Okay. So what did you do after hanging up with Carol?
A. Walked over to their house and got the dog.
Q. How far away did they live?
A. A couple blocks.
Q. And that is from the place where you are living today --
A. Yes.

Q. -- when you were living with Paul at the time?
A. Yes.
Q. And you went and got the dog, brought him home and what did you do next?
A. Waited to find out about Paul.
Q. So you were waiting for someone to call you?
A. Waiting to find out what was going on. You know, Dave was with him at the hospital.
Q. So you were assuming one of them was going to call you?
A. Well, I was assuming that he was going to show back up after he was done with the hospital.
Q. Right. So either they were going to call you or somehow show up at the house and then you were going to find out what happened?
A. Yes.
Q. Okay. So you weren't going to do anything yourself until somebody contacted you?
A. Yes.
Q. Okay. So you just waited at home?
A. Yep.
Q. Okay. What's the next thing that happened then?

A. A couple hours later Paul came home.
Q. Do you remember what time that was?
A. No.
Q. Can you give me an estimate, like after 7:00, before 7:00, something like that?
A. Oh, it was before that.
Q. Before 5:00, somewhere around there?
A. Maybe around there.
Q. So around 5:00 p.m.?
A. I suppose. I am not really sure on the time.
Q. Okay. It wasn't late evening, though?
A. No. It was not pitch dark out, no.
Q. Was it still light out?
A. Yes. It was still light out.
Q. And who -- So your first -- the next thing that happened then is Paul arrived home?
A. Yes.
Q. Did he arrive home with anyone?
A. Well, Dave brought him home.
Q. Okay. Did Dave just drop him off and drive away or did he come into the house?
A. Dave did not come into the house.
Q. Did you speak to Dave?
A. No.

A. Well, no, not really. He was on pills. You really can't have much of a conversation at that point.
Q. What was his demeanor or how was he acting at the time?
A. Sore.
Q. In his arm?
A. Yes.
Q. Okay. Was his arm bandaged?
A. Yes.
Q. Do you remember which arm?
A. It was the -- I believe it was the right arm.
Q. Okay.
A. Or left arm.
Q. Left arm. No words exchanged or just hi, how are you doing? That type of thing and you went to bed?
A. Just, oh, my God. I can't believe that happened.
Q. All right. Did Paul at this point -- and, again, we are going to go step by step -- but did Paul describe to you what had happened?
A. Not at the time, no. He was -- Like I said he was on pills, so there wasn't much talking. I mean, he pretty much wanted to sleep.

Q. Did you see Dave?
A. No.
Q. Okay. You just know he got dropped off because somebody had to drop him off?
A. Well, because they took him to the hospital so they brought him home.
Q. Where was Paul's truck at the time then?
A. Dave drove Paul's truck to the hospital.
Q. Okay. And then Dave drove Paul home?
A. Yes.
Q. And then Dave took Paul's truck away to his house?
A. I don't think so.
Q. What -- How did Dave get home?
A. He could have walked. It's only two blocks away.
Q. I am just trying to find out.
A. I have no idea.
Q. So as far as you know, Dave probably left Paul's truck there and just walked home? That's probably what happened?
A. Yeah.
Q. Okay. Okay. So Paul came in the house and did you have a conversation with him?

Q. Okay. So after the hi and, oh, my God, what happened, then he just went to bed?
A. Yeah.
Q. Okay. Okay. Did you see Paul the next morning then?
A. I saw him the next day, yes.
Q. Did you have a conversation with him more now about the incident and what happened?
A. Yes.
Q. How did Paul describe what happened?
A. He said he was holding the branch for Dave and the next thing he knows Dave came up and -- too high and cut him in the arm.
Q. Those are his words?
A. Yeah.
Q. Okay. Did he say anything else? And, again, I know this has been some time but I need to go through everything and make sure you said everything you recall so did he say anything else regarding how it happened?
A. No. He was just there helping Dave hold some branches while he cut them.
Q. Okay. Anything else discussed that you recall the next morning?

A. No.
Q. Okay. Are you the kind of -- Again, I don't know. You guys live together. Did you know when Paul was receiving medical treatment and all that or did you not kind of stay up on that?
A. I try not to. I don't want to get into too much stuff with him so no. I didn't really pay much attention to it.
Q. He obviously had some issues with the arm later on, right?
A. Yes. I have to help him do a lot of things.
Q. I am not going to go and belabor it. If they want to, they can but what did you notice over the next we are going on two years so let's say over the next few months after the incident, what did you notice about -- if anything, about his injury and how that affected his day-to-day activities?
A. Well, he couldn't do a lot of things. He can't open a jar. He can't do lots of things. He can't, you know, type on a keyboard for more than maybe 20 minutes. He lost a lot of movement basically in his arm. The grip and everything.
Q. And when you notice from day to day it was causing him pain, so you would notice some visual

issues in his face that would show that he is having some problems or not?
A. Well, when you see him work with his hands, yes. You can see him -- stress in his face.
Q. Okay. And was that something that you would see on a day-to-day basis because you saw him every day or would it be more once a week, once a month? How often would you notice these things about him?
A. If he uses his hands, it happens all the time.
Q. So it depends on how active he is trying to be?
A. Yes.
Q. How about outside of the house? Were there things he was having difficulties doing because of his left hand/left arm issues?
A. Like mowing the lawn, things like that?
Q. Yes. Yes. Whatever he does outside.
A. Yes. Yes.
Q. Before this accident, was he kind of an outdoors guy or indoor guy?
A. Outdoors.
Q. What did he like to do outdoors?
A. Camping. We used to cut wood, gardening.

Q. Was he able to do any of that after the accident that you noticed?
A. No, not really. He would plant a few seeds in the garden but, you know, that's not really doing anything.
Q. Okay. Okay. All right. Have you -- I will just make this all kind of in one question and if they want to go into more particulars, they can but since the accident, have you noticed over now we are a year and a half to two years, have you noticed any improvement or him being able to be more active such as he is getting better over the years or has he gotten worse or has he pretty much stayed the same?
A. It definitely hasn't gotten better.
Q. Okay. His limitations if you compare them today versus in the months after the accident, are they about the same or have they improved or gotten worse?
A. Probably the same.
Q. Okay. So you haven't really noticed any significant changes since the months after the accident until today? It's about the same?
A. On the cut arm?
Q. On his arm, yes.

A. No. It's about the same.
Q. Have you noticed something on the other parts of his body?
A. Well, he had an accident on the other arm a few years before that and now he has to use that arm a little bit more and it's taken a toll on that arm.
Q. What was that accident?
A. A car accident.
Q. And he hurt his right arm?
A. Yes.
Q. Now that he has to use his right arm because he can't use his left arm, that's making difficulties using the right arm?
A. Yes. He had to have the ulnar nerve moved from --
Q. From his right arm?
A. Yes.
Q. Because of that auto accident?
A. Yes.
Q. Did he have any prior problems with the left arm where he had the saw accident?
A. No.
Q. Okay. Since you see Paul frequently, I don't want to go into every time you see him, but this is

what I am trying to get at: Since the day after the accident when you had the conversation a little bit more particular about what happened, have you had additional conversations with Paul over the years about more specifically how it happened or has it always been him saying pretty much what you already told me?

A. On how it happen? That's pretty much what it's always been.

Q. Yes. So although he said it a few times over the years, he has pretty much said the same thing?

A. Yes.

Q. Had there been any other versions you heard from Paul other than what you described for us about how the incident occurred?

A. No.

Q. Okay. All right. Have you told us then everything that Paul has told you since the accident and again over the years about how the accident occurred?

A. Yes.

Q. Is there anything else about the accident that he has told you that you have not told us?

A. About him?

Q. About the accident. About how it happened.

A. No. That's how it happened.

Q. Okay. You were not -- obviously not a witness to the accident?

A. No.

Q. Okay. Other than Dave and Paul, are you aware of any other witnesses to the accident?

A. No.

Q. The chain saw accident.

A. No.

Q. Okay. Do you know if Carol or her husband were present at the time the incident occurred?

A. They told me they were inside.

Q. Okay. And when did they tell you they were inside?

A. When I went to pick up the dog.

Q. All right. And so I didn't talk to you about that conversation, so let's go back to that. That's with Carol?

A. Yes. Carol.

Q. Okay. So let's go back then because I want to cover as much as I can. When you went to pick up the dog after Carol called you the day of Paul's accident and said pick up the dog, you went to pick it

up. You walked over there?

A. Yes.

Q. And did you have to go inside?

A. No. It was outside.

Q. Okay. You picked up the dog. Did you talk to Carol?

A. Carol came out.

Q. Did you only talk to Carol?

A. Carol and Bill came out.

Q. Did you talk to Bill and Carol?

A. Yeah.

Q. All right. What was said between you?

A. Pretty much that what happened. Dave cut Paul with the chain saw and they were waiting to hear back.

Q. Okay. That was it then?

A. Yeah.

Q. Have you ever talked to Carol or her husband since that time up until today any more about this incident?

A. No.

Q. Okay. All right. All right. How about Dave? Now let's talk about Dave. After the accident, how long, how many days was it when you first spoke

with Dave or heard Dave talk about the incident?

A. Dave didn't really want to talk about the incident.

Q. Okay. Well, when is the first time -- how long after the accident was the first time you even were around him where you noticed he didn't want to talk about it?

A. When we went up to try to get his insurance policy number.

Q. How many days, though, later?

A. Oh, I don't know.

Q. Was it a week?

A. Maybe a month.

Q. Okay. I just need to get a timeframe so I know what we are talking about. So approximately one month after Paul's chain saw accident, you and Paul went over to Dave's house?

A. Yes.

Q. Okay. And, again, that's when he is with his wife up in Wisconsin?

A. Yes. In Powers Lake.

Q. Do you remember his wife's name? I don't know if I asked you.

A. Pam.

Q. Pam. Okay. And why did you go up with Paul?
A. Because he wanted me to drive him.
Q. Because he is not able to drive with his injury?
A. Well, he can drive. I mean, it's just too much turning, you know, and his hand gets sore.
Q. Okay. So the only reason you accompanied Paul up to Dave's house a month after his accident is because he needed you to help him drive?
A. I told him I would drive, yes.
Q. Okay. All right. And how long were you at Dave's house that day?
A. Half hour, maybe an hour.
Q. And was it a sit-down meeting or is it just kind of walking around talking a little bit?
A. Went into his garage, he showed us his cars, things he is working on.
Q. What does Dave do for a living, do you recall?
A. Auto body.
Q. Okay. Does he do it out of his house?
A. Yeah.
Q. Okay. Do you know if he has any other work other than auto body out of his house?

A. That's all that I know of.
Q. In the entire time that you were at Dave's house the month after the accident was Paul and Dave and all three of you together?
A. Yes. We were in the garage.
Q. Okay. So whatever was said all three of you would overhear presumably?
A. Yes.
Q. It's not like Paul or Dave went off somewhere and talked to somebody else. You all three were there together for that half hour to an hour?
A. Yes.
Q. So let me just to your knowledge, if Paul or Dave said something during that half hour or hour visit, you would have heard what they had to say because you all three were together, right?
A. Yes.
Q. Okay. There was never a time during that visit that Paul and Dave were alone without you around?
A. No.
Q. Okay. Can you attempt to describe what was talked about during that half hour to an hour visit up at Dave's house one month after the accident with you

and Paul present?
A. Well, he first wanted to start to talk about the cars he is working on and Paul wanted to know about the insurance policy.
Q. How did Paul say it?
A. He asked if he can get his insurance policy number.
Q. His home insurance?
A. Yes. Homeowner's insurance.
Q. And what did Dave respond?
A. He didn't.
Q. He didn't even talk?
A. He didn't say yes or no.
Q. Okay. Did he say anything else in response?
A. About that, no.
Q. Okay. Anything else discussed about the incident?
A. Yes. He wanted to know what he was going to get out of it, Dave did.
Q. Okay. Was that brought up out of the blue or was that brought up in response to what Paul asked of him?
A. After Paul asked about the insurance policy, Dave wouldn't answer him and Dave wanted to know what

he was going to get out of it if he did.
Q. And, again, I know you don't have it recorded or know the exact words but can you give me kind of a paraphrasing of his response?
A. What am I going to get out of this?
Q. Okay. Did he define what he meant by that statement?
A. Not really.
Q. All right. What did Paul say in response to that?
A. What's there to get out of this?
Q. And, again, give me the back and forth. What was said then?
A. Basically, he wanted to know -- you know, Paul wanted the insurance policy, Dave -- like I said Dave didn't give us an answer. He wanted to know what he was going to get out of it and Paul said there is nothing to get out of this. It's insurance. I want my arm fixed and Dave is like, well, if my insurance goes up a penny, the chain saw cut is going to be the least of your worries. You haven't seen me mad yet. Exact words.
Q. Okay. Anything else discussed?
A. At that point I said let's go.

Q. And you left?
A. Yes.
Q. Okay. So, again, I got to say this then: Have you told me now, and if you have to add anything, now is the time to add it, have you told me now pretty much as you can remember it everything that was said during that half an hour to an hour meeting regarding the chain saw incident, the injuries, anything related to that incident?
A. Yeah. That was it.
Q. Okay. So you suggested, hey, Paul, let's go?
A. Yeah. I saw this was going nowhere.
Q. Okay. Was the whole trip -- What was the whole point of the trip up to Dave's house?
A. To get his homeowner's insurance policy number.
Q. Why couldn't you have called him?
A. We tried.
Q. Okay. I didn't know that. So Paul had tried?
A. Paul tried.
Q. Paul said I can't get ahold of him or I can't get the info so let's just drive up there?
A. He wouldn't give it to him so we just drove

up there.
Q. Got you. Did Dave ever describe -- Let me strike that.
That was your first meeting with Dave since Paul's accident, right?
A. Yes.
Q. Did Dave ever talk about how the incident occurred?
A. No.
Q. Okay. Have you been with Dave or overheard Dave in any way say anything else more about how the incident occurred or anything more about these -- the conversation we just heard from you?
A. No. No.
Q. Have you ever been around Dave since that first meeting?
A. I have seen him once since then.
Q. How long ago was that?
A. Probably six months after that last meeting there.
Q. And under what circumstances?
A. He stopped over at the house.
Q. At Paul's house?
A. Yes.

Q. Do you know why?
A. To visit I suppose.
Q. Okay. Was that -- and maybe you don't know this. Was that before this suit in this case was filed to your knowledge?
A. I have no idea.
Q. Okay. So it would approximately have been sometime at the end of 2011 or early 2012?
A. It was wintertime, so.
Q. So sometime in the winter of 2011, 2012?
A. Yes.
Q. Okay. And how long was Dave over?
A. 15 minutes.
Q. And, again, we are going to go through the same exercise. Can you tell me what was said during that conversation?
A. He came in and wanted to talk about him.
Q. What do you mean?
A. Just talk about what Dave is doing, you know.
Q. Oh, he wanted to tell you guys what he is doing?
A. Yeah. Nothing about this accident, no. It had nothing to do with the accident. As a matter of fact, Dave said he didn't want to hear anything about

it; and he said this is done with. You are fine, there is no big deal and that was it.
Q. Do you know what he meant by you are fine?
A. He said there is nothing wrong with you.
Q. I see. Okay. To Paul?
A. Yes.
Q. Okay. And obviously in your view and Paul's view that wasn't accurate?
A. I don't see how nothing is wrong with you when you get cut by a chain saw.
Q. All right. Now, you have been seeing Paul, what, every day since the accident pretty much?
A. Yeah. I live with him, so.
Q. Have you ever heard Paul say anything about trying to get rich from this claim?
A. No.
Q. Or that he may not have to work the rest of his life?
A. No.
Q. Did you ever hear Paul suggest that either Dave or somebody else needs to testify to help him win big in this claim?
A. No.
Q. Other than from Paul, have you heard anybody

else's version of how this incident occurred?
A. No. Besides what Carol told me about Dave cutting him with the chain saw on the phone, that was it.
Q. Very good. And you have only seen Dave twice since Paul's accident, right?
A. Yes.
MR. MAST: Okay. That's all I have.
MR. ACCARDO: I don't have anything.

EXAMINATION

BY MR. BARCH:
Q. So just to backtrack a little bit, my name is Ron Barch. I am here for Carol and Bill McGuire. With respect to the living arrangements over at 4606 Hayden Court, you have been I guess a housemate with Barbara and Paul for six years?
A. Yes. Six or seven years, yes.
Q. And you have known them your whole life essentially?
A. Yes.
Q. Both of them?
A. Yes.
Q. And this is a sensitive question, please don't take offense, but are you and Paul, are you a

couple?
A. No.
Q. Okay. You are just friends?
A. Yes.
Q. And in terms of people that work in the house, Paul was not working when this accident happened, correct?
A. Well, he was doing part work -- consulting work for Intermatic.
Q. Okay.
A. And at Juskie's Printing he was doing some work.
Q. That was prior to the accident?
A. Yes.
Q. And since the accident has he ever had another job since?
A. No. Just partially working for Juskie's trying to see if he can do things and obviously he couldn't too well.
Q. And Barb, is she retired or does she work?
A. She is retired.
Q. She retired when Paul was injured?
A. No. She was retired.
Q. She was already retired?

A. Yes.
Q. And your last job was years before this happened?
A. Yes.
Q. And how does everybody coexist there with nobody working?
A. Well, Barb pays the bills.
Q. Barb does?
A. Yes.
Q. And when you say you were in printing, what does that mean? What were you doing?
A. T-shirt screening. Printing T-shirts.
Q. Okay. There is a lot of different printing. In fact Paul testified he did a different type of printing, correct?
A. Yes. He did paper printing.
Q. Okay. But you were actually --
A. I did like this stuff, printing on T-shirts. (Indicating.)
Q. Silk screening?
A. Silk screening, yes.
Q. Got you. And have you tried to go get another job for someone else?
A. Have I?

Q. We got to stop talking over each other. Let me get the whole question out.
A. Sorry.
Q. In the last five years, have you gone anywhere else that does silk screening or printing on shirts and things?
A. Yes, I have tried.
Q. Nothing locally?
A. No.
Q. You mentioned that there is a dog of some sort that stays at the house with you?
A. Yes.
Q. Do you still have the dog?
A. Yes.
Q. And it's a -- what's the dog's name?
A. Duke.
Q. Duke. And that's co-owned by you and Paul?
A. Well, it's his -- Technically it's in his mom's name.
Q. Is that a dog -- Is it a pure breed or something?
A. Yes.
Q. So there is some papers associated with the dog?

A. We don't have papers.
Q. But it's actually if there was -- somebody was to look up the ownership of this dog, there is some paper declaring her the owner?
A. Yes.
Q. But the three of you guys treat it as your own?
A. Yes.
Q. Is there anything else that you guys consider joint or is that pretty much it?
A. That's pretty much it.
Q. All right. Now the conversation -- Strike that.
Going back to your first notice that something had happened to Paul, that was the phone call from Carol McGuire, correct?
A. Yes.
Q. And what she described to you was that she was -- she wanted to call later and not speak to Barb?
A. Yes.
Q. Did she explain why she didn't want to speak to Barb?
A. She didn't want to get Barb all worried until she found out what was wrong with Paul.

A. That's all that she said.
Q. There was no discussion as to what they were doing, how they were doing, anything like that?
A. No.
Q. And then when you did go back to get the dog, you said you walked over there and got the dog?
A. Yes.
Q. When you did meet up with Bill and Carolyn to retrieve the dog, did -- was there any additional description offered to you as to how Paul was injured?
A. No.
Q. That same comment roughly?
A. Yes. That -- She didn't even make the comment at that point. I came to pick up the dog and that was about it. I mean, they were inside when it happened is what they told me.
Q. There was no further discussion about how Paul got injured or what happened to him when you got the dog?
A. No.
Q. There was a comment, though, that neither one of them claimed to have been outside when it happened?
A. They were inside, yes.
Q. Did they talk about anything else that had

Q. And at that point she was unclear as far as she told you as to what the situation was with Paul?
A. As far as to what the extent of the injury was?
Q. Yes.
A. Yes.
Q. The only thing that she was able to report to you is that he was still at the hospital?
A. Yes.
Q. And that he had an injury with the chain saw?
A. That Dave cut him with the chain saw.
Q. She reported to you that he was injured by a chain saw?
A. She reported that Dave cut Paul with a chain saw.
Q. So you knew that he was injured or believed based on that that he was injured by a chain saw?
A. Yes.
Q. All right. So now with respect to what she said about how, the only thing you can recall right now is that Dave cut Paul with a chain saw?
A. Yes.
Q. Any other detail at all that you can remember?

happened on the premises that day leading up to when Paul was hurt?
A. No.
Q. It was a pretty short conversation then?
A. Yes. I was there to get the dog and leave.
Q. All right. And Paul had not returned at that point yet, correct?
A. No.
Q. Did you at any time over the last several weeks talk to Paul about his deposition in this case?
A. No.
Q. No conversation at all?
A. None.
Q. Did you even know he gave a deposition?
A. I thought it was a few months ago.
Q. Okay. However long it has been --
A. We did not discuss any of it.
Q. And you see him every day and didn't talk about it?
A. Yes.
Q. And in terms of that description that Paul gave you the morning after, and I am paraphrasing what you said, but generally he was holding a branch and the next thing he knows is Dave came up with the saw

and cut him?
A. Yes.
Q. All right. Does that capture what you recall telling us a few minutes ago?
A. Yes.
Q. All right. Has Dave -- I'm sorry. Has Paul ever given you any more background on what they were -- the tasks they were doing and how long they had been, any detail around what happened?
A. They were just cutting a tree down.
Q. Okay. So as best you can recall in terms of the details of who was doing what, where they were positioned, how Paul was positioned when he was injured, no details on that from Paul?
A. No. All I know is he was holding a branch.
Q. Okay. Whether he was holding a branch with the stump on the ground, holding it straight up and down, whether he was holding the stump if the branch was horizontal to the ground, no discussion about that?
A. No.
Q. And specifically how many branches they may have cut or how or what technique they were using to cut those branches, no detail?

A. Well, they were cutting for quite awhile. That's all I know.
Q. So it had been going on for awhile?
A. Yes.
Q. Did Paul ever share with you that he was concerned about the approach that David Gagnon was using to cut the branches up?
A. No.
Q. Did he share with you any concerns he had right up until the very point where he was cut?
A. No.
Q. Nothing. And when you -- And you and David have never talked about what happened?
A. No.
Q. You said prior to the injury Mr. Dulberg was an outdoors guy. He would do gardening. He would cut wood. He would also go camping.
A. Yeah. Canoeing. Pretty much any outdoor activity.
Q. And since this accident June of 2011, has he gone out camping or canoeing?
A. We have gone camping.
Q. Okay. And how is he different now when he is out camping versus what he was like before?

A. He doesn't do anything. He sits in his chair and that's about it. He can't really go do anything.
Q. So he still goes but his activities are more limited?
A. Very. He basically just sits in the chair.
Q. Where do you guys typically camp?
A. Up in Wisconsin. Boulder Junction.
Q. Now you said one of the things he used to do before this is cut wood. What do you mean by that?
A. We have a fireplace so we got to split wood.
Q. And when you cut wood and split wood, do you use a chain saw?
A. Log splitter.
Q. A log splitter?
A. Yes.
Q. Have you ever used a chain saw?
A. We use a log splitter. Yes. He has used chain saws.
Q. Have you seen him use chain saws?
A. I have seen him use a chain saw, yes.
Q. And this was before he was ever injured?
A. Yes.
Q. Do either you or Paul or Barbara own a chain saw?

A. Paul does, yes.
Q. And did you ever observe Paul using a chain saw in a way where you were concerned about him possibly getting injured?
A. No.
Q. Had you ever helped Paul cut up the wood?
A. Yes.
Q. Did you ever hold any branches for him while he was cutting?
A. We never cut branches. We cut the big stumps. The main tree, the main trunk.
Q. Where -- How would you get to the point of having I guess a log to split?
A. How do we get it?
Q. How did you get to the log before it was a branch I guess?
A. Well, you cut the tree down and let it fall down.
Q. So you and Paul I guess you guys would cut down an entire tree?
A. Yes.
Q. And then you would trim off the branches off the logs?
A. He would.

Q. He would?
A. I wouldn't.
Q. All right. And then those -- the logs would get cut into small sections where they could then be split?
A. Well, like I said for the most part we only wanted the main branch.
Q. What happened with all the little branches, though, I guess?
A. They got left behind.
Q. You didn't even take them with you?
A. No. Too small to burn.
Q. Okay. Did you ever see Paul -- Well, sometimes the limbs can be big enough to burn as well.
A. Yes, but we were going -- we were going to like farm fields and taking -- we have a buddy that has farm fields and they remove trees so we go and take trees that they knock down or cut down.
Q. Did you ever see Paul removing branches off of a limb?
A. Yes.
Q. Okay. And then you would -- obviously you would see him. You seen it yourself where he cut up the trunk into logs where they could be split?

A. Yes.
Q. And some of the larger pieces of limbs those would be cut then and split as well?
A. Yes.
Q. And in a situation where there was a limb, sometimes the limbs don't have branches for quite a ways. Sometimes there is branches throughout the limb; would you agree?
A. Yes.
Q. As a general proposition?
A. Sure.
Q. Did you ever see him working on a limb that was sizable that could be a log where he was cutting branches off those, off the limbs?
A. Yeah.
Q. Did you ever help him do that?
A. No.
Q. How did he go about -- When you did see him doing it, how did he go about getting all those branches off the limbs before he was able to chop the limb into some series of --
A. The tree would be on the ground and he would walk up and just hack at it. Just cut them right off right where the stump is and the branch.

Q. So the times where you saw Paul doing it he would do it while the limb was on the ground?
A. Yes.
Q. Did you ever see anybody help him by standing the limb upright or holding the limb off the ground so he could get at those?
A. No. There is nobody there to help.
Q. You were just watching?
A. Yeah. I would move the logs once he cut them.
Q. All right. So when he did it --
A. I'd load them on the trailer.
Q. When you saw Paul doing this trimming branches off of a limb, he would do that solo?
A. Yes, because we were the only two there.
Q. So if I'm understanding your testimony, as you sit here today, there was never an occasion where you would hold the limb off the ground so that Paul could have an easier time cutting the branches off the limb?
A. I didn't, no.
Q. Okay. Did you ever see anybody else help him in that position?
A. No, because we were the only ones that went.

Q. Okay. Did you and Paul ever do anything with the cut wood other than use it yourself? For instance, did you ever sell it?
A. No. We burned it in our fireplace.
Q. Okay. And then the source of the wood would be a friend of yours that has a farm?
A. Or we'd find people who chopped a tree down and it's laying down in the yard and we'd go and pick up the pieces that they had cut already.
Q. Who is the fellow that you know that has the farm and might let you take some --
A. His name is Jason.
Q. Jason, last name?
A. Madeus.
Q. How do you spell that, sir?
A. M-A-D-E-U-S I think.
Q. And where does he reside?
A. Out by Woodstock. I don't know the little town name.
Q. Is he an acquaintance of yours?
A. He used to live across the street. We all lived in the same neighborhood.
Q. All right. Would he be somebody that you would have a cell phone number for him?

A. I don't have the number. He is not really my friend. He was one of Paul's friends.
Q. All right. Just in followup to some questions that Mr. Mast had, you never -- you did not go to the hospital with David and Paul, correct?
A. Correct.
Q. You didn't go up there anytime?
A. No.
Q. So the conversation -- You would not have direct personal knowledge of any conversations that occurred between Mr. Gagnon and Mr. Dulberg at the hospital or in the parking lot of the hospital?
A. No.
Q. And with respect to -- Strike that.
If someone was to claim that you were present for a conversation during which Mr. Dulberg said this could be the best thing that ever happened to me, I might not have to work again, you would deny hearing a comment like that?
A. Yes. That never happened.
Q. And there was a conversation when you went to get the insurance information from Mr. Gagnon and if I heard your testimony correctly, Dave had asked what would be in it for him if he gave the insurance

information; is that how you recall it?
A. Yes. Yes.
Q. So if Mr. Gagnon was claiming actually the reverse was the situation, that Mr. Dulberg posited to him that it could be to his advantage that if he helped him, that's not your recall as to that conversation?
A. No. What I recall is Dave saying what am I going to get out of this? I can go the easy way or the hard way.
Q. So to answer the question then, your recall of that conversation you didn't take away from it that Mr. Dulberg was implying that he would -- that Mr. Gagnon could get money out of this, too?
A. No.
Q. Do you know anything about the training that Mr. Dulberg may have received as to how to use a chain saw?
A. I have no idea.
Q. Had you ever seen David Gagnon using a chain saw at any time prior to this?
A. Have I? No.
MR. BARCH: I think that's all I have.
MR. MAST: I don't have anything.

MR. ACCARDO: I don't have anything else.
MR. MAST: As a witness, you have a right to review the transcript if it's transcribed of this and review it and sign off on it or you can waive that right and just rely on the accuracy of the court reporter taking this down.
Most people just waive it and rely on the court reporter but you do have a right to see it if you want to see it.
THE WITNESS: She seems like a good typer.
MR. MAST: So you are going to waive?
THE WITNESS: I am good.
MR. MAST: Very good. You are done.
(FURTHER DEPONENT SAITH NOT.)

C E R T I F I C A T E

I, Paula Ann Erickson, Certified Shorthand Reporter, Registered Professional Reporter and Notary Public, do hereby certify:

That the witness in the foregoing deposition named was present at the time and place therein specified;

That the said proceeding was taken before me as a Notary Public at the same time and place and was taken down in shorthand writing by me;

That this transcript is a true and accurate transcript of my shorthand notes so taken, to the best of my ability.

I further certify that I am neither counsel for nor related to or employed by any of the parties to this action and that I am not a relative or employee of any counsel employed by the parties hereto or financially interested in the action.

THE REPORTER: Sir, can you raise your right hand, please?

WILLIAM McGUIRE,

after being first duly sworn, deposeth and saith as follows:

EXAMINATION

BY MR. MAST:

Q. Please state your name, sir.

A. William McGuire.

MR. MAST: This is the discovery deposition of William McGuire, taken pursuant to notice, in accordance with the applicable rules.

BY MR. MAST:

Q. Mr. McGuire, what's your address?

A. 1016 West Elder Avenue, McHenry, Illinois 60051.

Q. Okay. And you live with Carolyn?

A. Yes.

Q. She is your wife?

A. Yes.

Q. How long have you been married?

A. I am not remembering very good. '91. Since '91.

Q. Okay. And you have always lived at that

address?
A. Let's see.
Q. I meant during your marriage.
A. I moved in in '89.
Q. At the Elder address?
A. Correct.
Q. Before you were married?
A. Yeah. Yes.
Q. Okay. Do you have any prior marriages?
A. No.
Q. Okay. Any children?
A. No.
Q. Okay. Okay. And Carolyn has three children, two daughters and a son, correct?
A. Yes.
Q. And the son is David Gagnon?
A. Yes.
Q. Okay. And have you known Dave -- Well, let me ask this: How long before you were married did you know --
A. I have known Dave since 1984.
Q. How did you meet Dave?
A. Through his mother.
Q. So you have known Carolyn since '84 as well?

A. Correct.
Q. Okay. Is that when you started kind of dating, that type of thing?
A. Yes.
Q. Where did you meet? Through what kind of --
A. Where did I meet Carolyn?
Q. How did you meet Carolyn? I'm sorry.
A. I met Carolyn at a marina.
Q. Okay. And are you retired?
A. Yes.
Q. What is your work -- Before you retired, what were you doing?
A. Carpenter.
Q. Okay. When did you retire?
A. '06.
Q. Is that because of the disability?
A. Yes.
Q. Okay. Are you -- What's your injury? What's your disability, back?
A. Correct.
Q. Okay. So you are not able to do heavy type work; is that correct?
A. No.
Q. Is that correct?

A. Yes.
Q. Okay. So you have some type of permanent chronic back problem?
A. Yes.
Q. All right. I am sure you have used a chain saw in your life, correct, or not?
A. No.
Q. So you never used a chain saw?
A. No.
Q. Okay. Although we have a chain saw here on the table that I am understanding you and Carolyn purchased --
A. Correct.
Q. -- the same year as Paul's accident at your house?
A. Yes.
Q. Okay. And I might be wrong but I am taking this from what Carolyn said but Carolyn said that sometime early 2011 before Paul's June 2011 accident you two purchased this chain saw that's here on the desk today?
A. Yes.
Q. And it's a red bodied chain saw and it's a gas chain saw, correct?

A. Yes.
Q. From Efco, E-F-C-O, MT, 3500. That's what I am reading off of it; is that right?
A. Yes.
Q. Yes?
A. Yes.
Q. Okay. Who purchased it?
A. I did.
Q. Okay. Where did you purchase it from?
A. Menards.
Q. And since you have never used the chain saw before and I am assuming because of your injury you weren't planning on using this one, why did you purchase it?
A. Well, I was wondering if we had a storm come through and some trees come down I would learn how to use it. I am a carpenter.
Q. Okay.
A. And I pick up things very quick but if I don't have to use it, I don't want to use it.
Q. Okay. So you got it in case?
A. Emergency, correct.
Q. Okay. And you got it for your use, not anybody else's?

A. Yes.
Q. For yours, I mean, you physically?
A. Personally. Personally in case we have trees come down or any of that problems.
Q. But for you to use, correct? Not for you to have somebody else use. You got it for you to use; is that correct?
A. Basically I bought it if one of the kids wanted to borrow it, I would let them borrow it.
Q. I understand the options there, but I am asking the reason you bought it is for you to use, not somebody else to use?
A. Yes.
Q. There is options, anybody can use it. I get that.
A. Yes.
Q. But you bought it for yourself to use, though, correct?
A. Yes.
Q. All right. How long have you known Paul Dulberg?
A. I probably met him in the '80s because David and him were probably friends and, you know, kids come over and come and go and that's probably when I ran

across him the first time.
Q. All right. Before -- I think Paul's chain saw accident at your house was sometime June 2011; is that your understanding?
A. Yeah.
Q. Okay. Did you know Paul to ever use a chain saw before his injury at your house in 2011?
A. Yes. He was on the property and David used the chain saw.
Q. Are we talking the day of his accident?
A. This is prior.
Q. Okay. Go ahead.
A. Because you were asking if Paul -- I ever saw him operate a chain saw.
Q. You are right.
A. And he was at the house. David cut down an apple tree in the backyard and I saw Paul use the chain saw on an apple -- the stump, the apple stump, to try to get it closer to the ground. That's the only time I ever seen him use the chain saw.
Q. Fair enough. Was that in the same year of his accident at your house?
A. That was prior.
Q. Same year, though?

A. You know, probably -- I believe it was. I believe it was.
Q. Carolyn seemed to think the apple tree cutting was sometime in May of that year.
A. You know, she was probably right. It was before the pine tree.
Q. The evergreens or --
A. Well, I call them evergreen, pine tree.
Q. Same thing. Right. Before Paul's accident?
A. Yes.
Q. Right. Okay. So according to you, sometime in May 2011 when the apple tree was being cut down by Dave, Paul was also there to help and he used it to cut the stump?
A. The stump, the tree stump.
Q. Down lower?
A. Yes.
Q. Okay. And that's the only time -- So the only time you ever saw Paul use a chain saw before his accident in June 2011 was the one time at your house when he cut the stump off that apple tree?
A. Yes. He got the stump lower to the ground.
Q. Is that true? What I just said, is that true? I will say it again because you interrupted me

by adding on. Let's just answer what my question is.
Okay. My question is: The only time you ever seen Paul use a chain saw before his accident at your house in June 2011 was when he cut the stump down a little bit lower from the apple tree that was at your house in May of 2011?
A. Yes. The one David Gagnon cut down and he got the stump down lower, yes.
Q. Is what I just said true?
A. Yes. Yes.
Q. All right. Because you keep adding. Just answer -- If you don't understand my question, I will reword it, but try to answer what I am asking instead of adding on to what my question is, all right?
A. Okay.
Q. Got me?
A. Yeah.
Q. Did you see Paul doing anything with the use of the chain saw that you thought dangerous or unsafe before his accident?
A. No.
Q. Did you know that Paul -- and I'm not sure he was but I have to ask you. On the day of Paul's injury at your house in June 2011, you know, with Dave

there, do you know if Paul was ever even using the chain saw that day?

A. No.

Q. Do you know? You don't know?

A. I don't know if he was using the chain saw.

Q. That's what I am asking. Okay. Let me ask you a couple questions and today -- Well, let me ask it this way: When is the last time you spoke or saw Paul?

A. Probably three weeks ago in a grocery store.

Q. Did you speak to him or just see him?

A. Said hi.

Q. Did he say hi to you?

A. Yes.

Q. Was that it?

A. Correct.

Q. Did you see him carrying anything?

A. No.

Q. Okay. Did you see him do anything that would suggest he wasn't having problems with his arm that he cut in this chain saw accident at your house in 2011?

A. I did not see him doing anything but walking with his mother.

Q. Okay. Before Paul's accident in June 2011 at

your house, were -- did you consider him a friend, just a friend of your stepson's? How did you -- What was his status with you?

A. I considered him a friend of my stepson.

Q. Okay. So more of an acquaintance to you then? He wasn't somebody you'd socialize with outside of your son or something then?

A. Correct. If he wasn't around for my son, he didn't come around.

Q. So he wasn't like your buddy or anything?

A. No. No.

Q. Okay. So you were on good terms with him because he was obviously on good terms with your son before this accident occurred, right?

A. Yes.

Q. Did that change at all at least in your mind? Now Dave has spoken his peace so we don't even need to go into what Dave thinks, but in your mind has your feelings about Paul changed today versus before his injury at your house?

A. Yes.

Q. Okay. Good, bad, indifferent, what?

A. Well, I think he is a fibber.

Q. Okay. Fair enough. You are just being

honest. Okay. Why do you think he is a fibber?

A. You know, it should be cut and dry. I mean, it was an accident.

Q. Right. All right.

A. And that's all I know.

Q. Is it -- So I am reading into this, you can tell me if I am wrong, but is it because a lawsuit was filed; is that why?

A. Duh. Yes.

Q. Well, listen, I have to ask these questions, sir. Let me just go through this and make it easy for me, all right?

A. I'm sorry. Yes.

Q. You are making it hard. The fact that a lawsuit was filed and you are part of that lawsuit has that made you feel that he is a fibber?

A. Well --

Q. Or I am trying to find out.

A. Basically, since the lawsuit was filed and, you know, it wasn't cut and dry, I just probably don't want nothing to do with him now, so.

Q. Okay. So let me -- again, I have -- because some of the words you have used, I have to ask you about it. Do you feel he is a fibber or you just

don't like the fact that he filed a lawsuit against you?

A. I don't like the fact that he filed a lawsuit.

Q. Okay. So fibber meaning liar, you are not calling him a liar?

A. No. No. No. I'm sorry. Just because he filed a lawsuit.

Q. All right. So let me -- Again, I got to clear that up now. Do you believe in your mind that Paul is a fibber or a liar or don't you know?

A. I don't know.

Q. Okay. And I meant more about this lawsuit obviously. You don't know if he is lying or fibbing about the lawsuit because you don't know what happened, right?

A. Yes.

Q. Fair enough?

A. Yes.

Q. Okay. So you would not characterize him as a fibber for filing the lawsuit because you don't know if he is or not, true?

A. True. True. Yes.

Q. Before the accident occurred at your house in

June 2011, did you believe Paul was a credible, honest soul, person?

A. Yes.

Q. Okay. Did you have any reason to believe that he would fib prior to this accident?

A. No.

Q. Okay. All right. Have you heard -- Well, let me put Dave aside for a minute. Other than through Dave, have you heard that Paul was trying to make more out of this accident than was warranted other than -- I'm sorry. Let me --

MR. BARCH: Other than David or his attorney.

BY MR. MAST:

Q. Yeah. Other than through Dave or Dave's attorney or your attorney I guess, have you heard either from Paul or anybody else --

A. No.

Q. -- something to the effect that Paul was trying to make more out of this claim or accident than he should?

A. I have not heard nothing, no.

Q. Okay. Have you ever heard Paul suggest since his accident that he was trying to get people to say things to make this case worth more than it is?

A. No.

Q. Have you ever heard Paul since his accident or anybody -- Strike that.

Have you ever heard Paul since his accident ever suggest that he may never have to work again in his life or he is going to be able to be rich or anything like that, those issues, since this accident?

A. No.

Q. Okay. Have you heard those through Dave?

A. No.

Q. Dave has not even told you those things that Paul has said supposedly?

A. David has told me that he is not telling the truth.

Q. Okay.

A. That's what he told me.

Q. All right. So Dave told you Paul is not telling the truth about the accident.

A. Correct.

Q. But has Dave ever told you since the accident that Paul was trying to get him to lie or get him to say things so that they can retire?

A. Dave --

Q. Hold on. Let me finish the question -- so he can retire or make a lot of money out of this case? Has he said that?

A. No. Dave has never told me that.

Q. Okay. Okay. So I just want to make one other question on that just to make sure I covered everything.

Is it fair to say then other than maybe through your attorney you have never heard any allegation or suggestion whether by Paul or anybody else, Dave, Paul, anybody, that Paul was trying to make more out of this case than was justified and/or trying to get people to talk in favor of him in return for anything? Have you ever heard those things?

A. Other than David's comments or maybe my attorney a little bit, I haven't heard nobody else say a word.

Q. Okay. Including Paul, correct?

A. Oh, yeah.

Q. Okay. So what did Dave tell you in that regard?

A. Dave was saying that somehow the accident happened different than when the way Paul was describing it.

Q. Okay. And that's not quite what I asked so let me go back because we are going to get into that. Okay.

Let me -- My question was framed more to other than your attorney, have you heard from anyone including Paul, including Dave, anyone, that Paul was trying to get people to fabricate or lie to his favor in this case or to help him recover in this case?

A. No. Nobody told me that.

Q. Not Dave, not Paul, nobody, right?

A. The only thing I am saying is the question you are asking me is the same question I am saying is if it's got to pertain to the accident, David didn't agree with the way Paul stated the accident happened. Other than that --

Q. And I understand there is two versions of the accident. I understand that.

A. Correct.

Q. My question was different, though. My question was: Have you ever heard, other than through your attorney, that either Paul or Dave suggested that Paul was wanting people to lie for him or to fabricate anything?

A. Other than Dave and my attorney, no. Nobody

has told me anything about --
Q. I am including Dave in that. What did Dave tell you about Paul wanting him to fabricate or lie? Did he say that?
A. As far as Paul telling David to change the story or fabricate?
Q. Yeah. Did he do that?
A. David never mentioned it to me like that, no.
Q. Okay. So all right. So let me say the question again then. Is it fair to say, and putting your attorney's comments to you aside, okay, I am not asking you about your attorneys, but with regard to anybody else, you have never heard anyone suggest that Paul was trying to get Dave to lie, fabricate about this case, fair enough?
A. Yeah.
Q. Okay. You never heard that?
A. No.
Q. All right. As I understand it, there are two evergreens in your backyard back in June 2011 that you guys wanted cut down so you could put a storage shed back there, right?
A. Yes.
Q. Okay. And as I understand it, I don't

remember if it was you or your wife, but one of you asked Dave to do that work -- help with that work, right?
A. Yeah. Knock some lower branches down.
Q. Right. Who asked him to do that?
A. You know, I don't remember.
Q. Okay. It was either you or your wife?
A. Correct.
Q. And I think your wife said she was going to pay Dave something for his gas or whatever, right?
A. Basically, she'd give him a pair of pants. I don't know. They are always mothering the son, you know.
Q. Right. So what their arrangement was as far as money or --
A. Some kind of gift.
Q. Listen, you are going to make this last twice as long as -- I'd like to get you in and out of here as quick as possible but because I have to keep repeating the question, it's going to make it difficult so I am just trying to tell you we can probably get out of here real quick but I am going to have to keep backing up. So let me try to move forward but let me finish my question, okay?

A. Uh-huh.
Q. All right. So whatever the arrangement was between Carolyn and Dave as far as what he would get in return for doing this work, you don't know; fair enough?
A. Yes.
Q. Okay. And what was Dave's experience, if you know, in use of a chain saw before this accident with Paul at your house?
A. Stuff I have heard, a project he worked on through the course of me living there and physically seeing him prune the trees on the property with a chain saw.
Q. Okay.
A. That's about the extent of it.
Q. With a chain saw?
A. Correct.
Q. With your chain saw?
A. No. We didn't have it then.
Q. Okay. With his chain saw on his property?
A. No. Back when David lived at the house.
Q. With you?
A. On our property when David lived there --
Q. Right.

A. -- I don't know where he got the chain saw but he had a chain saw and he done some pruning on the property and that I have seen him do.
Q. Okay. Okay. And how often was that? Just the one time or was it repeatedly?
A. I would say a handful of times.
Q. Okay. Over the course of several years?
A. Yeah. Correct.
Q. And that was while he was living with you?
A. Yeah.
Q. And that's the only time you have known him to use a chain saw other than in 2011?
A. This goes back in, you know, in say in the mid '80s, in the '90s, you know, whenever he would go around the yard and prune stuff up with the chain saw.
Q. Did you have a chain saw at the house at that point?
A. Not mine. You know, he might have borrowed one from a friend or he might have had one. I don't know.
Q. Okay. In 2011 other than the two evergreen trees he was going to take some of the branches down off of, did he do -- did Dave do any other work with the chain saw on your property in that year?

A. Cut the apple tree down.
Q. Okay. Anything else?
A. No.
Q. Okay.
A. You know, he did a little chain saw work. No. That was about it. That was about it that I remember.
Q. Okay. So the apple tree and the two evergreens, those are the only chain saw work he was doing at your house in 2011, correct?
A. That I remember. You know, I'm trying to remember because I know Paul took some scrap from the front yard from a maple tree.
Q. Yeah. Your wife said just to --
A. And --
Q. Go ahead.
A. And I don't remember if he used the chain saw to cut them pieces up a little further but I don't remember that.
Q. What your wife said was a tree company took that tree down.
A. Yes, they did.
Q. Let me finish. And left some stumps or sections and Paul and Dave cut those sections up so

Paul could have firewood. That's what she said.
A. I --
Q. You don't know?
A. I know Paul took the wood, the bulk of the wood.
Q. Who cut it up, you don't know?
A. No.
Q. Okay. So the only time you know that Dave used a chain saw on your property in 2011 was the two evergreens that he was cutting branches off at the time Paul was hurt and the one apple tree?
A. Yes.
Q. Okay. I think Paul's accident was June 28, 2011. Do you know that to be true or not?
A. You know, it sounds -- but I don't know.
Q. Do you know what day of the week it was?
A. No.
Q. Okay. You were retired so you would have not been working. Would you have been home at the time?
A. Yes.
Q. What were you doing at the time of Paul's injury?
A. I was in the house.
Q. Doing what?

A. Watching TV.
Q. Okay. Was that -- Do you know about what time Paul's accident occurred that day?
A. I don't remember.
Q. If you were watching TV when his accident occurred, would that have been pretty much what you were doing for most of the day prior to leading up to his accident or were you doing other things in the house?
A. I was in the house. I am trying to remember -- I might have walked around a little bit, you know, and then I was in the house.
Q. Did you ever go outside the house while Paul and Dave were in the backyard working?
A. No.
Q. So would it be fair to say that day of Paul's accident before his injury, you don't know who was doing what type of work, where, when or how?
A. That's true.
Q. Okay. And you never viewed at any time prior to Paul's injury what they were doing back there in the backyard, correct?
A. That's correct.
Q. Do you know what -- I know that you said Dave

was going to cut down some limbs from the two evergreens, right?
A. Yes.
Q. And I think Carolyn then said ultimately once the limbs were down, you were going to have the tree company come out and cut the big base of the tree down, right?
A. Yes.
Q. So Dave's task was really just to take the branches off the base of the tree, right?
A. Yeah.
Q. All the way up?
A. No. No. It was too high.
Q. So just up to a certain level?
A. Yes. Yes.
Q. Okay. How high, do you know?
A. You know, I want to say, I don't know, 15, 20 some feet. You know, I don't know. It was tall trees. That's all I am saying.
Q. And the limbs at the bottom are bigger than the limbs at the top, right?
A. Yes.
Q. How wide -- if you have an estimate, how wide are the limbs, the branches, coming off the evergreens

at the bottom of the trees?
A. Oh, they had to be -- in the base of it had to be, I don't know, four or five feet, something like that.
Q. How wide around?
A. Oh, wide around, inch and a half in diameter.
Q. Okay. All right. And do you have any idea of how many total branches needed to be cut down by Dave?
A. No.
Q. Okay. Was it more than 20?
A. Oh, yeah. Probably.
Q. There was a lot of them?
A. Probably, yes.
Q. Do you know when he started this work in relationship to the day of the accident?
A. The day before.
Q. Okay. Do you know how many hours he worked the day before?
A. Maybe an hour and a half, a couple hours I think. I really don't remember.
Q. Okay. So after working the day before, there would have been branches already on the ground, right?
A. Correct.

Q. And did you know Paul was coming over to help out?
A. No.
Q. Did you know who invited him over?
A. No.
Q. Okay. Did you even know he was on your property when --
A. Yes.
Q. Let me finish the question. Did you even know Paul was on your property by the time he got hurt?
A. Yes.
Q. How did you know he was on the property?
A. Because I seen him out in the yard. I petted his dog.
Q. You mean when he arrived?
A. Sometime through the course when he was there.
Q. Oh, because I asked you before if you ever saw them work during the process of their work and you said no, so.
A. I didn't see them working but I petted his dog.
Q. Oh, so you knew he was there because his dog

was there?
A. Yes.
Q. You didn't know he was there by seeing him?
A. Yes. I seen him on the property.
Q. All right. When he got there or during the course of the day?
A. I don't know when the exact time he arrived but I looked out in the yard and there was him and his dog.
Q. Okay. And did you go outside when you saw him there?
A. Maybe I was outside or something. I don't remember coming in and out but --
Q. This is what I am trying to understand, you said you never saw what they were doing.
A. Right.
Q. Paul and Dave, so I am assuming what did the dog come inside and that's when you petted him or when did you pet the dog?
A. They were working behind the garage and I didn't go behind the garage where they were working but if you come up to the back -- the back of the house, before you go around the garage, that's where I saw David, Paul and the dog. I went outside, petted the

dog, said hi to Paul and I went back in the house.
Q. All right. So you were only outside a minute or two?
A. Yeah. Not long.
Q. Okay. And you went out there specifically to pet the dog and say hi to them or for some other reason?
A. You know, I might have been taking out a bag of trash. I don't remember.
Q. Okay. And where you saw Paul and Dave, were they engaged in the tree work at the time or had they taken a break? What were they doing?
A. No. No. Just chitchatting.
Q. Okay. So this is before they began work that day, during the midst of their work, do you know?
A. I couldn't tell you.
Q. Okay. What time was this, do you know?
A. No. I don't remember.
Q. Do you know how long Paul was at the property already by the time you went back to pet the dog and say hi to him?
A. No.
Q. Okay. Where you saw them was that in the area that they would have been working to cut the tree

down --
A. No.
Q. -- or was that somewhere else?
A. It was in -- It was like by the driveway and the work was in the back of the -- towards the back of the yard. They were in the -- by the -- say around the back door of the back porch.
Q. Of the house.
A. Correct.
Q. Why were they there in relationship to the work they were doing? Do you have any idea?
A. No. I don't know what they were doing. They were standing there talking and the dog was sitting there.
Q. All right. Your wife was inside?
A. Yes.
Q. Did you know your wife ever to go outside while they were working that day?
A. She might have -- Go ahead.
Q. Did you know if your wife was ever outside that day of Paul's injury before his injury?
A. I don't keep track of her.
Q. So the answer is you don't know?
A. I don't know.

Q. Okay. All right. So when you went outside, you met up with them kind of at the rear of the house?
A. Yes.
Q. But they were not engaged in the work at the time, right?
A. Right.
Q. And you pet the dog and went back inside?
A. Yes.
Q. Okay. And that's the extent of your time outside the house prior to Paul's injury to your knowledge?
A. Yeah.
Q. Okay. So you don't know who was doing what that day, when and how, fair enough?
A. Yes. I don't know.
Q. As far as Dave and Paul, you don't know who was doing what -- whose tasks were what tasks or what they were doing, fair enough?
A. I don't know. I don't know.
Q. Is that fair enough then?
A. That's -- I don't know. Correct.
Q. Okay. What is your first knowledge or notice of Paul's accident then?
A. I heard some commotion and I ran outside and

they were getting in the vehicle to go to the -- to get patched up.
Q. To go to the hospital?
A. Yeah.
Q. Okay. So was Paul's arm already wrapped?
A. You know, I am trying to remember if my wife was getting him a towel or something like that. I don't know but all I know is they were beelining it for the -- a vehicle.
Q. Okay. So they were on their way from the house to the car?
A. Yeah. Yeah. So I might have caught a glimpse of them by the back door going to the -- I am trying to remember and then something about -- oh. Yeah. I did hear him say from the vehicle please watch my dog.
Q. Okay. Paul said that?
A. Yes. Yeah.
Q. It was Paul's dog?
A. Yes and I believe he was already in the vehicle when he yelled out the window that.
Q. Okay. So they were already basically gone --
A. Yeah.
Q. You didn't have a chance to talk to them,

right?
A. I did not talk to them.
Q. So by the time they were leaving for the hospital in the car that you saw, you didn't know what happened other than there must have been some injury?
A. Correct.
Q. Did you know who was injured?
A. Yes. Paul.
Q. How did you know that?
A. My wife said Paul is injured.
Q. Did she say how he got injured?
A. No.
Q. Okay. After he left, Paul left with Dave to the hospital, when did you next see Paul and Dave?
A. When they came back from the hospital.
Q. How many hours later?
A. It seemed like three, four.
Q. And did you speak to Paul and Dave?
A. Yeah.
Q. What did they say?
A. Well, they weren't talking too much. I asked Paul how he is feeling. He said I am a little sore and I asked David, you know, and Dave says not too good. You know, he says -- weren't in a very talkative mood.

Q. Not too good meaning Paul wasn't too good or what?
A. Well, Paul basically just came back and he -- I am trying to figure out how he got home. Maybe Mike --
Q. I am not evening asking that right now.
A. Okay.
Q. My question is: What did Paul and Dave say when they arrived home at the hospital? You said Paul said I am sore. Then David --
A. David really wasn't talking at all.
Q. Did either of them discuss how the accident occurred with the chain saw?
A. No. No.
Q. How long were they back at the house? Short -- Were they only there for a short period of time?
A. Yes. Yes.
Q. And did they both leave again?
A. I am trying to remember how he got home.
Q. I'm not asking how anybody got home. I am asking once they arrived home with Paul and Dave, they then left again or don't you know that?
A. You know, I don't remember if he came back to

our house or he came back to his house.
Q. Who is "he"? Who, Paul?
A. After the emergency room.
Q. Who?
A. Paul.
Q. Who is "he"? Okay.
A. I don't remember if he came back to our house or I don't remember if David drove him directly home to his house. I don't remember that. I am trying to remember that.
Q. Okay. All right. So when -- You would not have talked at least --
A. Wait a minute. I do remember now. He did come back to our house and I asked him how you doing and he says okay. And then --
Q. Who is "he"? I don't know who you are talking about.
A. Paul, the guy that got hurt.
Q. Paul said I am okay?
A. I asked him how are you doing? Paul said I am okay.
Q. Okay. Did he say anything else?
A. No.
Q. And then what did Dave say?

A. Dave didn't really talk.
Q. Okay. How long did they stay home?
A. A minute or something. He was collecting on the dog.
Q. Okay. Then what did they do?
A. Let's see. Mike McArtor picked the dog up. Maybe he took Paul, too. I don't remember.
Q. All right.
A. I don't remember.
Q. At least what Carolyn says is that Dave and Paul drove away to fill his prescription and then Dave came back alone.
A. You know, they could have. They could have.
Q. So you don't know that?
A. Right.
Q. Okay. All right. So by the time Dave returned home, whether Paul was with him or not, you don't know?
A. I don't know.
Q. Okay. Did Dave tell you -- now this is still the same day of the accident? Did Dave tell you how the accident occurred?
A. No.
Q. Has Dave ever described for you how the

accident occurred?
A. Yeah.
Q. When? First time.
A. Probably a day or so later.
Q. What -- So a day or so after the accident, Dave had a conversation with you?
A. Yeah.
Q. What did he say?
A. He says -- How did it go? He stuck his arm --
Q. Who is "he"? I need names so I know who you are talking about.
A. Hang on. Hang on. He said that Paul stuck his arm --
Q. Wait. Stop. Dave said that Paul --
MR. BARCH: Try to use names when you are referring to the people. That's all he is asking.
THE WITNESS: Okay. David said that when working with Paul, somehow Paul did something wrong and got his arm cut.
BY MR. MAST:
Q. Did he explain what he did wrong?
A. No. He really didn't.
Q. Did he say that he got his arm cut on the

chain saw?
MR. BARCH: "He," David?
MR. MAST: You got me.
THE WITNESS: David said he got his arm -- Paul got his arm cut on a chain saw.
BY MR. MAST:
Q. But David didn't specify how or what he did to get cut?
A. No. No.
Q. Okay. Did Dave ever specify to you at any other conversations about what Paul did and why it caused him to get cut by the chain saw?
A. No.
Q. So other than that first conversation with Dave where he just described generally that Paul did something wrong to get cut --
A. Yeah.
Q. -- did you have any other conversations with Dave about how the incident occurred?
A. No.
Q. Was that the only time?
A. Basically, yeah.
Q. Okay. Dave never got more specific than that?

A. No.
Q. All right. So any time you have talked to Dave it's always been, well, Paul did something wrong to get cut but he didn't specify anything more than that?
A. No.
Q. Is that correct?
A. Yes. He didn't want to talk about that, and he wasn't --
Q. Is that correct what I just said?
A. Correct.
Q. Okay. Did you ever talk to Paul about how the accident occurred?
A. No.
Q. Since the accident, have you ever talked to Paul?
A. Yes.
Q. How many times?
A. Maybe -- I am trying to think here. That may be once since the accident happened I have seen him in the grocery store.
Q. Is that the one you talked about earlier today?
A. Correct.

Q. Where you just said hi to him?
A. Correct.
Q. So since Paul's accident at your house with the chain saw, you have only spoken to him once and that was at the supermarket when you said hi to him and he said hi to you and that was it, right?
A. You know, I think he did come over. I don't remember. I think he did come over and I asked him, you know, how you doing or something like that and it was probably a week or so after.
Q. Okay. Let me go back then. My question was how many times have you spoken to Paul since the accident. Your answer is twice, right?
A. Probably twice.
Q. Okay. The first time is one week after the accident where Paul came over to the house, correct?
A. Yes.
Q. And who was present?
A. My wife.
Q. Okay. And Paul?
A. Yes.
Q. Okay. And what -- How long was Paul there?
A. A couple minutes with his dog.
Q. And what did Paul say to you or either of

you?
A. Well, you know, basically said I am going along. Everything is fine and, you know, my wife said how you doing and exchanged pleasantries and that was about it.
Q. Okay. Now, this is kind of what I'm wanting to find out. Paul has obviously -- at least to me obviously, has had some follow-up treatment and has had some difficulties with his arm because of this accident. Okay. Are you aware of that or not?
A. I have heard that, yes.
Q. Okay. So when you say a week afterwards that he said I am doing fine, are you saying that everything is great? He is not having --
A. Well, he seemed to be --
Q. Let me finish the question. Are you saying that he related to you that everything is great, he is having no problems or was he just trying to exchange pleasantries and say yeah, everything is okay?
MR. BARCH: I just object to the form of the question but go ahead if you understand it.
THE WITNESS: When the guy said he is fine, I thought he was healing well and meant I am doing fine.

BY MR. MAST:

Q. Okay. Did he describe for you what he meant by fine other than use the word --

A. No. No. No.

Q. -- other than use the word fine in response to your inquiry?

A. No. He didn't describe fine.

Q. Okay. Did he say I am pain free?

A. No.

Q. Did he say I am back to normal or anything in that regard?

A. No.

Q. Okay. Did he ever describe for you, again Paul, how the specifics of his accident occurred?

A. No.

Q. After that couple minutes at your house, he left and you only saw him one other time, that was at the supermarket where you exchanged hi's and that was it?

A. Yes. Yes.

Q. And that was the one you described earlier on in this deposition when you met him at the grocery store?

A. Yes.

Q. Okay. And you never spoken or talked to Paul other than those two times since the accident, correct?

A. Yeah.

Q. All right. I think I am -- Oh, wait. I wanted to ask you since I got these photographs, I might as well get these marked. I will just mark one of them because they are all the same.

(Whereupon, Deposition Exhibits 1, 2 and 3 were marked and dated.)

BY MR. MAST:

Q. Okay. I just marked three exhibits. The first one is a photograph we took today of the chain saw that's on the table in front of you, correct?

A. Uh-huh.

Q. Yes. I need you to verbalize the answer yes.

A. Yes.

Q. Okay. Is that the chain saw you have talked about over the course of your deposition today? That's the chain saw that Dave was using at the time of Paul's accident?

A. Yes.

Q. And that's the chain saw that you purchased

earlier in the year new from Menards, correct?

A. Yes.

Q. Okay. And Exhibit 2, is that a true and accurate copy of the manual for that same chain saw you purchased?

A. I believe so.

Q. And Exhibit 3 I believe is some additional paperwork that came with it as well as the receipt on the top, correct?

A. I assume so, yes.

Q. Well, take a look. I need you to make sure. Is that what that is? Just take a look through all of those documents in Exhibit 3 just to make sure those were all documents that came with the purchase of the chain saw.

A. Yes. They came with the chain saw.

Q. So all of the materials, Exhibit 2 and 3, all those materials came with the purchase of the chain saw, correct?

A. Yes.

Q. Okay. And they are all accurate copies of those documents, correct?

A. Yeah.

MR. MAST: Okay. Thank you. That's all I have.

MR. ACCARDO: I do not have any questions.

EXAMINATION

BY MR. BARCH:

Q. Just earlier when Mr. Mast was asking you about what you knew about Dave's experience with a chain saw, you mentioned that he did some pruning of trees. You saw him do that around your home?

A. Uh-huh.

Q. Yes?

A. Yes.

Q. Then you also said you heard some stuff about him using chain saws?

A. Yes.

Q. And when you say you heard some stuff about him using chain saws, what were you referencing?

A. I was referencing to him through the course of the years when he was living there when I was living there when he was out helping friends and coming back home and saying something like I did some work for -- pruning some trees on some people's property or, you know, helping a friend out.

Q. Okay. So -- And to the extent David may have had some experience with a chain saw away from your home, you wouldn't know about that, you weren't there;

is that fair?
A. True.
Q. And at any time prior to Mr. Dulberg being injured on June 28, 2011, did you have any reason to be concerned about the manner or method that David was using the chain saw?
A. No. I had no concern.
Q. At any time that day or the day before, did you go out there and tell him how you wanted him to use the chain saw?
A. No.
Q. Did you tell him how you wanted him to go about tending to the trees, the pruning of the trees?
A. No.
Q. Is it fair to say that you left all the cutting and the decisions on what to do and how to do it up to David?
A. Yes.
Q. And with respect to what David and Paul may have talked about, if anything, that day, how they were going to go about using the chain saw, what they were going to do with respect to those trees, you weren't part of any of that?
A. True. I was not part of any of it.

MR. BARCH: That's all I have.
MR. ACCARDO: I don't have anything.
MR. MAST: All right.
MR. BARCH: We are going to -- We are just going to reserve. Carolyn is going to look at her transcript. I will give you a chance to read it, too, before it's final.
THE WITNESS: Okay.
(FURTHER DEPONENT SAITH NOT.)

IN THE CIRCUIT COURT
FOR THE 22ND JUDICIAL CIRCUIT
McHENRY COUNTY, ILLINOIS

PAUL DULBERG,
Plaintiff,
vs. No. 12 LA 178
DAVID GAGNON, Individually, and as Agent of CAROLINE McGUIRE and BILL McGUIRE and CAROLINE McGUIRE and BILL McGUIRE, individually,
Defendants.

I, WILLIAM McGUIRE, being first duly sworn, on oath say that I am the deponent in the aforesaid deposition taken on March 20, 2013; that I have read the foregoing transcript of my deposition, and affix my signature to same.

IN THE CIRCUIT COURT OF THE TWENTY-SECOND JUDICIAL CIRCUIT
MCHENRY COUNTY, ILLINOIS

PAUL DULBERG,	)	
	)	
Plaintiff,	)	
	)	
vs.	)	No. 17 LA 377
	)	
THE LAW OFFICES OF THOMAS J. POPOVICH, P.C., and HANS MAST,	)	
	)	
Defendants.	)	

DEFENDANT THE LAW OFFICES OF THOMAS J. POPOVICH, P.C. 'S ANSWER TO PLAINTIFF'S FIRST SET OF INTERROGATORIES TO DEFENDANTS

NOW COMES Defendant, The Law Offices of Thomas J. Popovich, P.C. ("Popovich"), by and through its attorneys, KARBAL, COHEN, ECONOMOU, SILK & DUNNE LLC, and for its Answer to Plaintiff's First Set of Interrogatories, states as follows:

DEFINITIONS

1. The term "Document" as used herein shall mean and refer to all written and graphic matters of any kind or description, however, produced, reproduced, or transcribed whether draft, revision or final, original or reproduction, and also tangible or intangible from which written or graphic matters may be generated, produced or transcribed, including, but not limited to, all advertisements, affidavits, agreements, announcements, appointment records, assignments, balance sheets, bills, books, books of account, bulletins, cable grams, catalogues, certificates, charters, charts, checks, communications, computations, computer printouts, computer tapes, discs or other data-storage devices, contracts, correspondence, data processing materials, delivery records, diaries, drafts, drawings, estimates, field notes, financial analysis, financial statements, interoffice and intraoffice communications, instructions, invoices, itemizations, jottings, journals, letters, licenses, lists, manuals, meeting reports, memoranda, memoranda of all conversations including telephone calls, microfilm, minutes, notes, notations, notices, opinions, pamphlets, papers, permits, photocopies, photographs, plans, proofs, publications, receipts, reportings, statements, statistical records, studies, summaries, tapes, telegrams, telex messages, transcripts, writing or work papers and all non-identical copies thereof which are in your possession, custody or control or which are in the possession, custody or control of your attorneys, accountants, or any of your agents or of which you have knowledge of current or former existence. The term "Document" also includes any copies of a Document if the copies are in any way whatsoever not identical copies of the original, by reason of additional writing notations or otherwise.

2. As used herein, one thing shall "Relate" or be "Related" to another if the former constitutes, contains, embodies, evidences, reflects, identifies, states or refers to, or is in any way legally, logically or factually relevant to, or connected with, the latter.

3. "Identify," as used herein with respect to a natural person, shall mean state such person's name, residence address, business address, employment and job title, both at the time of the events and at the present time.

4. "Identify," as used herein with respect to an entity, shall mean state the entity's name, address, principal place of business, and its legal structure (*i.e.,* corporation), registered agent and identify all individuals acting on its behalf.

5. "Identify" as used herein with respect to a communication, shall mean to state the date of that communication, the identity of the person who were parties to that communication, the identity of the person who were witnesses (other than the parties to the communication) to the communication; whether the communication was face-to-face and/or over the telephone or other telecommunications, and if face-to-face, the location of the communication, and the identity of any documents that pertain to that communication.

6. "Online" shall mean electronic information transmitted through telecommunications lines or networked lines, including but not limited to web pages, blogs, web postings, electronic mail systems, instant messenger systems, or twitter.

7. "You" shall mean Defendant Hans Mast, Defendant Law Offices of Thomas Popovich as well as any attorney, paralegal, staff, or other agent acting on his/her/its behalf. If an agent is acting on your behalf, identify the agent.

8. The term "Defendant" refers to Defendant Hans Mast, Defendant Law Offices of Thomas Popovich, and any attorneys, paralegals or staff persons who worked on their behalf or on the Dulberg Matter, as defined below.

9. The term "Dulberg Matter" refers to the case of Paul Dulberg v. David Gagnon, Caroline McGuire, and Bill McGuire, *12 LA 178*, filed in Circuit Court of the Twenty Second Judicial Circuit, McHenry County, and any ancillary legal representation of Paul Dulberg related to that filed case, the arbitration, and/or all legal services provided to Paul Dulberg regarding the facts alleged in the case that was filed.

INSTRUCTIONS

1. In answering these Interrogatories, you are required to furnish all information that is available to you or subject to reasonable inquiry by you, including information in your possession, or in possession of your attorneys, experts or other person(s) directly or indirectly employed by, or connected with you or your attorneys, and anyone otherwise subject to you or your attorneys' control.

2. The singular shall include the plural and the plural shall include the singular.

3. A masculine, feminine or neuter pronoun shall not exclude the other genders.

4. Separate answers are required to be given for each interrogatory, responses to separate interrogatories should not be joined together, nor should they be joined with Responses to Document Requests.

5. If any response calls for information that you claim is privileged or otherwise protected from disclosure, you shall comply with the requirements contained in Supreme Court Rule 213.

6. If you object to any interrogatory, you shall indicate which portion of the interrogatory is objected to and the basis of this objection, and answer the portion of the interrogatory that is not objectionable.

7. These interrogatories are continuing in nature with answers to be supplemented as you obtain or locate further information.

8. In accordance with Supreme Court Rule 213, attach an affidavit attesting to the completeness and accuracy of your answers.

9. Unless otherwise identified, the time frame for this request is April 1, 2012 to the present.

INTERROGATORIES

1. Identify the person or agent of an entity responding to these interrogatories.

ANSWER: Thomas J. Popovich.

2. Identify any person or agent of an entity who assisted in answering any discovery requests in this case, including the specific request that was responded to and the information provided.

ANSWER: Thomas J. Popovich with assistance of counsel, George Flynn of Karbal, Cohen, Economou, Silk, & Dunne, LLC.

3. Identify any person or agent of an entity who provided information in responding to any pleading in this matter.

ANSWER: Hans Mast and Thomas J. Popovich.

4. Identify any person or entity that has information related to the facts alleged in the complaint and/or affirmative defenses in this matter, along with the subject of the information.

ANSWER: It is likely that the plaintiff Paul Dulberg has information related to the facts alleged in the complaint, as well as both defendants, Hans Mast and Thomas J. Popovich.

5. Identify any person likely to have discoverable information that you may use to support any claims or defenses in this matter, along with the subject of the information.

ANSWER: As for the underlying matter, it is likely that the fact witnesses who were deposed, including Paul Dulberg, Bill McGuire, Carolyn McGuire, Michael McArtor, and David Gagnon likely have discoverable information relating to the claims or defenses in the matter. It is also likely that Dr. Marcus Talerico, Dr. Scott Sagerman, Dr. Apiwat Ford, and Dr. Kujawa possess information regarding Dulberg's injuries.

6. Describe in detail any legal services requested of you by Plaintiff.

ANSWER: Generally, Hans Mast of the Law Offices of Thomas J. Popovich, P.C. was primarily responsible for prosecuting personal injury claims on behalf of the plaintiff in connection with his alleged injury of June 28, 2011.

7. Describe in detail all legal services, including advice to settle, provided to Plaintiff and the basis for that advice.

ANSWER: Objection. Interrogatory is overly broad and unduly burdensome, and calls for a narrative response more appropriate for a deposition. Notwithstanding and without waiving said objections, and pursuant to Illinois Supreme Court Rule 213(e), please see all correspondence between Mast and Dulberg in connection with the underlying case, produced in response to Plaintiff's request for the production of documents.

8. Describe in detail all investigation conducted regarding the Dulberg Case.

ANSWER: Written discovery was exchanged with the defendants in the underlying matter, and discovery depositions of all those witnesses identified in response to interrogatory no. 5, were conducted. Counsel for defendants has ordered and is possession of copies of the transcripts of Paul Dulberg, David Gagnon, Carolyn McGuire, Bill McGuire, and Michael McArtor.

9. Describe in detail on[sic] discovery performed on this case.

ANSWER: See answer to interrogatory no. 8.

10. Describe in detail all communications, correspondence, and discussions with any expert retained by You or Plaintiff in this case.

ANSWER: None at this time. Defendants reserve the right to identify expert witnesses at the appropriate court mandated time.

11. Do you maintain any insurance policy or insurance agreement under which an insurance business may be liable to satisfy all or party of a possible judgment in this above captioned action or to indemnify or reimburse for payments made to satisfy the judgment? If yes, please identify the insurance business and policy limits.

ANSWER: Yes. See attached declaration page. Premium and Deductible information have been redacted.

12. Have you notified the insurance business which may be liable to satisfy all or party of a possible judgment in this above captioned action or to indemnify or reimburse for payments made to satisfy the judgment of the pending claims?

ANSWER: Yes.

Respectfully submitted,

/s/ George K. Flynn

DEFENDANT HANS MAST 'S RESPONSE TO PLAINTIFF'S FIRST SET OF DOCUMENT REQUESTS

NOW COMES Defendant, Hans Mast ("Mast"), by and through his attorneys, KARBAL, COHEN, ECONOMOU, SILK & DUNNE LLC, and for his Response to Plaintiff's First Set of Document Requests, states as follows:

DEFINITIONS

1. The term "documents" is defined to include all written, typed, printed, transcribed, filed, or graphic matter of every kind and description, including originals, copies of originals or copies of copies, drafts, carbon copies, printouts, including, but not limited to, letters, reports, memoranda (including those of telephone or other conversations), emails, text messages, instant messaging (such as GChat or Facebook Messenger), minutes, communications, plans, specifications, blueprints, drawings, job site logs, shop drawings, agreements, working papers, financial statements and records, accounting data, property records, travel records, purchase orders, invoices, receipts, checks, checkbooks, bank accounts, legal documents, stenographic notes, photostats, photographs, microfilms, summaries, discs, reels, tapes, computer programs, computer printouts, films, or other forms of mechanical or electrical transcription of information, tables, diary entries, schedules, desk calendars or pads, or advertisements.

2. "And" as well as "or" are to be construed either disjunctively or conjunctively so as to bring within the scope of this request any matters which otherwise may be construed as outside its scope.

3. Whenever appropriate, the singular form of a word should additionally be interpreted in the plural and the plural form of a word should additionally be interpreted in the singular.

4. The term "relating to in any way" means in any way logically or factually connected with the matter set forth.

5. The term "pertaining to" means. without limitation. embodying, mentioning, relating to. or concerning directly or indirectly, in whole or in part the subject matter identified.

6. The terms "refer to" or "relate to" mean the following inclusive: (i) constitute, (ii) contain, (iii) support, (iv) modify, (v) contradict, (vi) criticize, (vii) discuss, (viii) mention, (ix) describe, (x) evaluate, (xi) arise from, or (xii) make in connection with.

7. The term "person" shall include all natural persons and corporations, partnerships, limited partnerships, joint ventures, sole proprietorships, trusts, associations, firms, companies, business styles, clubs or other business or legal entities of any kind.

8. "In your possession, custody or control" includes all documents held or controlled by you in *any* capacity including, but not limited to, your capacity as officer, director, trustee. or agent for your own account or the account of others, and includes your present or former attorneys, accountants, officers, employees, directors, trustees, agents, or other persons purporting to act on your behalf in any capacity.

9. "Communication" means a transfer, attempted transfer, or request for a transfer of information by a person including, without limitation, transfers, attempted transfers, or requests for transfer of information between parts or divisions of a person other than a natural person, or any file thereof.

10. Plaintiff is not seeking any communications between Defendant and its counsel of record.

11. The term "Defendant" refers to Defendant Hans Mast, Defendant Law Offices of Thomas Popovich, and any attorneys, paralegals or staff persons who worked on their behalf or on the Dulberg Matter, as defined below.

12. The term "Dulberg Matter" refers to the case of Paul Dulberg v. David Gagnon, Caroline McGuire, and Bill McGuire, *12 LA 178*, filed in Circuit Court of the Twenty Second Judicial Circuit, McHenry County, and any ancillary legal representation of Paul Dulberg related to that filed case, the arbitration, and/or all legal services provided to Paul Dulberg regarding the facts alleged in the case that was filed.

DOCUMENTS AND COMMUNICATIONS FOR WHICH PRIVILEGE IS CLAIMED

If any document called for herein is not produced by you on the ground that it is privileged or otherwise protected against discovery by any rule of law, provide the following information in writing at the time and place specified for production of documents with respect to each such document:

1. Identify the document by stating the title of the document, the identity of the author(s) and recipient(s) of the document, the length of the document, and detailed description of the contents of the document;

2. Identify the present location and possessors of the original and each copy of the document and state the date or approximate date on which said recipient(s) received such original or copy;

3. Identify all other persons to whom the contents of the document have been disclosed, state the date such disclosure took place and the means of such disclosure, and identify all persons involved in the disclosure; and

4. State the privilege or other rule of law relied upon by you and the facts supporting your position with respect thereto.

DOCUMENTS TO BE PRODUCED

1. All communications, correspondence, emails or text messages from between Plaintiffs and Defendants.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

2. A copy of Defendant's complete file for the Dulberg Case, including all pleadings, orders, discovery, settlement documents, billing records, arbitration pleadings, correspondence, emails, text messages, memoranda and notes whether in handwriting or transcribed.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

3. Any and all communications, correspondence, emails or text messages to any third-party witness, including expert witnesses, concerning the Dulberg Case.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

4. All drafts concerning the Dulberg Case, including any drafts of interrogatory answers or expert disclosures.

RESPONSE: None other than those documents ultimately served or filed in the underlying matter.

5. All internal memoranda or notes concerning the Dulberg Case.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

6. All invoices concerning the Dulberg Case.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

7. All time entries concerning the Dulberg Case.

RESPONSE: None.

8. A copy of any insurance agreement under which an insurance business may be liable to satisfy all or part of a possible judgment in the action or to indemnify or reimburse for payments made to satisfy judgment.

RESPONSE: See declarations page, bates labeled POP 000001 through POP 000002. Note that premium and deductible information has been redacted.

9. A copy of any documents, electronically stored information, and tangible things that the Defendant may use to support any claim or defense.

RESPONSE: None other than those documents being produced herewith, bates labeled POP 000001 through POP 001455, including transcripts of the depositions from the underlying case in defendant's counsel's possession (Paul Dulberg, David Gagnon, Carolyn McGuire, Bill McGuire, Michael McArtor). Investigation continues.

10. A copy of all documents identified in your response to the Complaint, 213 discovery responses, or other pleadings or discovery responses in the above captioned case.

RESPONSE: None other than those produced herewith bates labeled POP 000001 through POP 001455.

DEFENDANT HANS MAST 'S ANSWER TO PLAINTIFF'S FIRST SET OF INTERROGATORIES TO DEFENDANTS

NOW COMES Defendant, Hans Mast ("Mast"), by and through its attorneys, KARBAL, COHEN, ECONOMOU, SILK & DUNNE LLC, and for his Answer to Plaintiff's First Set of Interrogatories, states as follows:

DEFINITIONS

1. The term "Document" as used herein shall mean and refer to all written and graphic matters of any kind or description, however, produced, reproduced, or transcribed whether draft, revision or final, original or reproduction, and also tangible or intangible from which written or graphic matters may be generated, produced or transcribed, including, but not limited to, all advertisements, affidavits, agreements, announcements, appointment records, assignments, balance sheets, bills, books, books of account, bulletins, cable grams, catalogues, certificates, charters, charts, checks, communications, computations, computer printouts, computer tapes, discs or other data-storage devices, contracts, correspondence, data processing materials, delivery records, diaries, drafts, drawings, estimates, field notes, financial analysis, financial statements, interoffice and intraoffice communications, instructions, invoices, itemizations, jottings, journals, letters, licenses, lists, manuals, meeting reports, memoranda, memoranda of all conversations including telephone calls, microfilm, minutes, notes, notations, notices, opinions, pamphlets, papers, permits, photocopies, photographs, plans, proofs, publications, receipts, reportings, statements, statistical records, studies, summaries, tapes, telegrams, telex messages, transcripts, writing or work papers and all non-identical copies thereof which are in your possession, custody or control or which are in the possession, custody or control of your attorneys, accountants, or any of your agents or of which you have knowledge of current or former existence. The term "Document" also includes any copies of a Document if the copies are in any way whatsoever not identical copies of the original, by reason of additional writing notations or otherwise.

2. As used herein, one thing shall "Relate" or be "Related" to another if the former constitutes, contains, embodies, evidences, reflects, identifies, states or refers to, or is in any way legally, logically or factually relevant to, or connected with, the latter.

3. "Identify," as used herein with respect to a natural person, shall mean state such person's name, residence address, business address, employment and job title, both at the time of the events and at the present time.

4. "Identify," as used herein with respect to an entity, shall mean state the entity's name, address, principal place of business, and its legal structure (*i.e.,* corporation), registered agent and identify all individuals acting on its behalf.

5. "Identify" as used herein with respect to a communication, shall mean to state the date of that communication, the identity of the person who were parties to that communication, the identity of the person who were witnesses (other than the parties to the communication) to the communication; whether the communication was face-to-face and/or over the telephone or other telecommunications, and if face-to-face, the location of the communication, and the identity of any documents that pertain to that communication.

6. "Online" shall mean electronic information transmitted through telecommunications lines or networked lines, including but not limited to web pages, blogs, web postings, electronic mail systems, instant messenger systems, or twitter.

7. "You" shall mean Defendant Hans Mast, Defendant Law Offices of Thomas Popovich as well as any attorney, paralegal, staff, or other agent acting on his/her/its behalf. If an agent is acting on your behalf, identify the agent.

8. The term "Defendant" refers to Defendant Hans Mast, Defendant Law Offices of Thomas Popovich, and any attorneys, paralegals or staff persons who worked on their behalf or on the Dulberg Matter, as defined below.

9. The term "Dulberg Matter" refers to the case of Paul Dulberg v. David Gagnon, Caroline McGuire, and Bill McGuire, *12 LA 178*, filed in Circuit Court of the Twenty Second Judicial Circuit, McHenry County, and any ancillary legal representation of Paul Dulberg related to that filed case, the arbitration, and/or all legal services provided to Paul Dulberg regarding the facts alleged in the case that was filed.

INSTRUCTIONS

1. In answering these Interrogatories, you are required to furnish all information that is available to you or subject to reasonable inquiry by you, including information in your possession, or in possession of your attorneys, experts or other person(s) directly or indirectly employed by, or connected with you or your attorneys, and anyone otherwise subject to you or your attorneys' control.

2. The singular shall include the plural and the plural shall include the singular.

3. A masculine, feminine or neuter pronoun shall not exclude the other genders.

4. Separate answers are required to be given for each interrogatory, responses to separate interrogatories should not be joined together, nor should they be joined with Responses to Document Requests.

5. If any response calls for information that you claim is privileged or otherwise protected from disclosure, you shall comply with the requirements contained in Supreme Court Rule 213.

6. If you object to any interrogatory, you shall indicate which portion of the interrogatory is objected to and the basis of this objection, and answer the portion of the interrogatory that is not objectionable.

7. These interrogatories are continuing in nature with answers to be supplemented as you obtain or locate further information.

8. In accordance with Supreme Court Rule 213, attach an affidavit attesting to the completeness and accuracy of your answers.

9. Unless otherwise identified, the time frame for this request is April 1, 2012 to the present.

INTERROGATORIES

1. Identify the person or agent of an entity responding to these interrogatories.

ANSWER: Hans Mast.

2. Identify any person or agent of an entity who assisted in answering any discovery requests in this case, including the specific request that was responded to and the information provided.

ANSWER: Thomas J. Popovich with assistance of counsel, George Flynn of Karbal, Cohen, Economou, Silk, & Dunne, LLC.

3. Identify any person or agent of an entity who provided information in responding to any pleading in this matter.

ANSWER: Hans Mast and Thomas J. Popovich.

4. Identify any person or entity that has information related to the facts alleged in the complaint and/or affirmative defenses in this matter, along with the subject of the information.

ANSWER: It is likely that the plaintiff Paul Dulberg has information related to the facts alleged in the complaint, as well as both defendants, Hans Mast and Thomas J. Popovich.

5. Identify any person likely to have discoverable information that you may use to support any claims or defenses in this matter, along with the subject of the information.

ANSWER: As for the underlying matter, it is likely that the fact witnesses who were deposed, including Paul Dulberg, Bill McGuire, Carolyn McGuire, Michael McArtor, and David Gagnon likely have discoverable information relating to the claims or defenses in the matter. It is also likely that Dr. Marcus Talerico, Dr. Scott Sagerman, Dr. Apiwat Ford, and Dr. Kujawa possess information regarding Dulberg's injuries.

6. Describe in detail any legal services requested of you by Plaintiff.

ANSWER: Generally, Hans Mast of the Law Offices of Thomas J. Popovich, P.C. was primarily responsible for prosecuting personal injury claims on behalf of the plaintiff in connection with his alleged injury of June 28, 2011.

7. Describe in detail all legal services, including advice to settle, provided to Plaintiff and the basis for that advice.

ANSWER: Objection. Interrogatory is overly broad and unduly burdensome, and calls for a narrative response more appropriate for a deposition. Notwithstanding and without waiving said objections, and pursuant to Illinois Supreme Court Rule 213(e), please see all correspondence between Mast and Dulberg in connection with the underlying case, produced in response to Plaintiff's request for the production of documents.

8. Describe in detail all investigation conducted regarding the Dulberg Case.

ANSWER: Written discovery was exchanged with the defendants in the underlying matter, and discovery depositions of all those witnesses identified in response to interrogatory no. 5, were conducted. Counsel for defendants has ordered and is possession of copies of the transcripts of Paul Dulberg, David Gagnon, Carolyn McGuire, Bill McGuire, and Michael McArtor.

9. Describe in detail on[sic] discovery performed on this case.

ANSWER: See answer to interrogatory no. 8.

10. Describe in detail all communications, correspondence, and discussions with any expert retained by You or Plaintiff in this case.

ANSWER: None at this time. Defendants reserve the right to identify expert witnesses at the appropriate court mandated time.

11. Do you maintain any insurance policy or insurance agreement under which an insurance business may be liable to satisfy all or party of a possible judgment in this above captioned action or to indemnify or reimburse for payments made to satisfy the judgment? If yes, please identify the insurance business and policy limits.

ANSWER: Yes. See attached declaration page. Premium and Deductible information have been redacted.

12. Have you notified the insurance business which may be liable to satisfy all or party of a possible judgment in this above captioned action or to indemnify or reimburse for payments made to satisfy the judgment of the pending claims?

ANSWER: Yes.

DEFENDANT THE LAW OFFICES OF THOMAS J. POPOVICH, P.C.'S RESPONSE TO PLAINTIFF'S FIRST SET OF DOCUMENT REQUESTS

NOW COMES Defendant, The Law Offices of Thomas J. Popovich, P.C. ("Popovich"), by and through its attorneys, KARBAL, COHEN, ECONOMOU, SILK & DUNNE LLC, and for its Response to Plaintiff's First Set of Document Requests, states as follows:

DEFINITIONS

1. The term "documents" is defined to include all written, typed, printed, transcribed, filed, or graphic matter of every kind and description, including originals, copies of originals or copies of copies, drafts, carbon copies, printouts, including, but not limited to, letters, reports, memoranda (including those of telephone or other conversations), emails, text messages, instant messaging (such as GChat or Facebook Messenger), minutes, communications, plans, specifications, blueprints, drawings, job site logs, shop drawings, agreements, working papers, financial statements and records, accounting data, property records, travel records, purchase orders, invoices, receipts, checks, checkbooks, bank accounts, legal documents, stenographic notes, photostats, photographs, microfilms, summaries, discs, reels, tapes, computer programs, computer printouts, films, or other forms of mechanical or electrical transcription of information, tables, diary entries, schedules, desk calendars or pads, or advertisements.

2. "And" as well as "or" are to be construed either disjunctively or conjunctively so as to bring within the scope of this request any matters which otherwise may be construed as outside its scope.

3. Whenever appropriate, the singular form of a word should additionally be interpreted in the plural and the plural form of a word should additionally be interpreted in the singular.

4. The term "relating to in any way" means in any way logically or factually connected with the matter set forth.

5. The term "pertaining to" means. without limitation. embodying, mentioning, relating to. or concerning directly or indirectly, in whole or in part the subject matter identified.

6. The terms "refer to" or "relate to" mean the following inclusive: (i) constitute, (ii) contain, (iii) support, (iv) modify, (v) contradict, (vi) criticize, (vii) discuss, (viii) mention, (ix) describe, (x) evaluate, (xi) arise from, or (xii) make in connection with.

7. The term "person" shall include all natural persons and corporations, partnerships, limited partnerships, joint ventures, sole proprietorships, trusts, associations, firms, companies, business styles, clubs or other business or legal entities of any kind.

8. "In your possession, custody or control" includes all documents held or controlled by you in *any* capacity including, but not limited to, your capacity as officer, director, trustee. or agent for your own account or the account of others, and includes your present or former attorneys, accountants, officers, employees, directors, trustees, agents, or other persons purporting to act on your behalf in any capacity.

9. "Communication" means a transfer, attempted transfer, or request for a transfer of information by a person including, without limitation, transfers, attempted transfers, or requests for transfer of information between parts or divisions of a person other than a natural person, or any file thereof.

10. Plaintiff is not seeking any communications between Defendant and its counsel of record.

11. The term "Defendant" refers to Defendant Hans Mast, Defendant Law Offices of Thomas Popovich, and any attorneys, paralegals or staff persons who worked on their behalf or on the Dulberg Matter, as defined below.

12. The term "Dulberg Matter" refers to the case of Paul Dulberg v. David Gagnon, Caroline McGuire, and Bill McGuire, *12 LA 178*, filed in Circuit Court of the Twenty Second Judicial Circuit, McHenry County, and any ancillary legal representation of Paul Dulberg related to that filed case, the arbitration, and/or all legal services provided to Paul Dulberg regarding the facts alleged in the case that was filed.

DOCUMENTS AND COMMUNICATIONS FOR WHICH PRIVILEGE IS CLAIMED

If any document called for herein is not produced by you on the ground that it is privileged or otherwise protected against discovery by any rule of law, provide the following information in writing at the time and place specified for production of documents with respect to each such document:

1. Identify the document by stating the title of the document, the identity of the author(s) and recipient(s) of the document, the length of the document, and detailed description of the contents of the document;

2. Identify the present location and possessors of the original and each copy of the document and state the date or approximate date on which said recipient(s) received such original or copy;

3. Identify all other persons to whom the contents of the document have been disclosed, state the date such disclosure took place and the means of such disclosure, and identify all persons involved in the disclosure; and

4. State the privilege or other rule of law relied upon by you and the facts supporting your position with respect thereto.

DOCUMENTS TO BE PRODUCED

1. All communications, correspondence, emails or text messages from between Plaintiffs and Defendants.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

2. A copy of Defendant's complete file for the Dulberg Case, including all pleadings, orders, discovery, settlement documents, billing records, arbitration pleadings, correspondence, emails, text messages, memoranda and notes whether in handwriting or transcribed.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

3. Any and all communications, correspondence, emails or text messages to any third-party witness, including expert witnesses, concerning the Dulberg Case.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

4. All drafts concerning the Dulberg Case, including any drafts of interrogatory answers or expert disclosures.

RESPONSE: None other than those documents ultimately served or filed in the underlying matter.

5. All internal memoranda or notes concerning the Dulberg Case.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

6. All invoices concerning the Dulberg Case.

RESPONSE: See attached documents bates labeled POP 000001 through POP 001455.

7. All time entries concerning the Dulberg Case.

RESPONSE: None.

8. A copy of any insurance agreement under which an insurance business may be liable to satisfy all or part of a possible judgment in the action or to indemnify or reimburse for payments made to satisfy judgment.

RESPONSE: See declarations page, bates labeled POP 000001 through POP 000002. Note that premium and deductible information has been redacted.

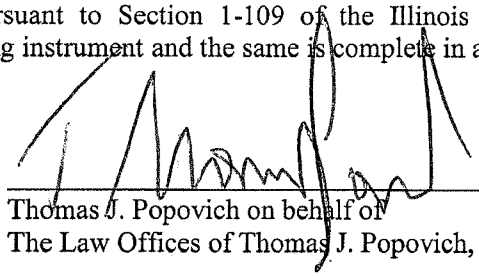
9. A copy of any documents, electronically stored information, and tangible things that the Defendant may use to support any claim or defense.

RESPONSE: None other than those documents being produced herewith, bates labeled POP 000001 through POP 001455, including transcripts of the depositions from the underlying case in defendant's counsel's possession (Paul Dulberg, David Gagnon, Carolyn McGuire, Bill McGuire, Michael McArtor). Investigation continues.

10. A copy of all documents identified in your response to the Complaint, 213 discovery responses, or other pleadings or discovery responses in the above captioned case.

RESPONSE: None other than those produced herewith bates labeled POP 000001 through POP 001455.

Respectfully submitted,



/s/ *George K. Flynn*

DEFENDANTS THE LAW OFFICES OF THOMAS J. POPOVICH, P.C. AND HANS MAST'S ANSWER TO PLAINTIFF'S RULE 213(F) INTERROGATORIES TO DEFENDANTS

NOW COME Defendants, The Law Offices of Thomas J. Popovich, P.C. and Hans Mast (collectively "Popovich"), by and through their attorneys, KARBAL, COHEN, ECONOMOU, SILK & DUNNE LLC, and for their Answer to Plaintiff's Rule 213(f) Interrogatories to Defendants, state as follows:

1. Please identify the name, address, and telephone number of every individual "Lay Witness" who will testify at trial on behalf of the Plaintiff, and identify the subject matter of each witness' testimony.

ANSWER:

A. It is likely that Hans Mast will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v. Gagnon, et. al.*, and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that he will testify consistent with his testimony in the instant matter.

B. It is likely that Thomas Popovich will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v.*

Gagnon, et. al., and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that he will testify consistent with his testimony in the instant matter.

C. Paul Dulberg will be called as an adverse witness pursuant to 735 ILCS 5/2-1102 and IRE 611(c). It is likely that he will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v. Gagnon, et. al.*, and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that he will testify consistent with his testimony in the underlying case, and any deposition ultimately conducted in the instant matter.

D. It is likely that Bill McGuire will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v. Gagnon, et. al.*, and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that he will testify consistent with his testimony in the underlying case, and any deposition ultimately conducted in the instant matter.

E. It is likely that Carolyn McGuire will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v. Gagnon, et. al.*, and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that she will testify consistent with her testimony in the underlying case, and any deposition ultimately conducted in the instant matter.

F. It is likely that Michael McArtor will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v.*

Gagnon, et. al., and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that he will testify consistent with his testimony in the underlying case, and any deposition ultimately conducted in the instant matter.

G. It is likely that David Gagnon will testify regarding the facts and circumstances surrounding the underlying accident and injuries, the prosecution of the case of *Dulberg v. Gagnon, et. al.*, and regarding the nature, scope and representation of Dulberg by Popovich and Mast in the prosecution of the underlying case. It is expected that he will testify consistent with his testimony in the underlying case, and any deposition ultimately conducted in the instant matter.

H. Dr. Marcus Talerico is expected to testify concerning the facts, nature and scope of his treatment of Paul Dulberg's injuries allegedly sustained in the underlying accident, and consistent with his deposition testimony in the underlying case, and any future deposition in the instant case. To the extent that he may be considered a Rule 213 (f) (2) witness, defendants reserve the right to identify him as an independent expert witness at the appropriate time.

I. Dr. Scott Sagerman is expected to testify concerning the facts, nature and scope of his treatment of Paul Dulberg's injuries allegedly sustained in the underlying accident, and consistent with his deposition testimony in the underlying case, and any future deposition in the instant case. To the extent that he may be considered a Rule 213 (f) (2) witness, defendants reserve the right to identify him as an independent expert witness at the appropriate time.

J. Dr. Apiwat Ford is expected to testify concerning the facts, nature and scope of his treatment of Paul Dulberg's injuries allegedly sustained in the underlying accident, and consistent with his deposition testimony in the underlying case, and any future deposition in the

instant case. To the extent that he may be considered a Rule 213 (f) (2) witness, defendants reserve the right to identify him as an independent expert witness at the appropriate time.

K. Dr. Kujawa is expected to testify concerning the facts, nature and scope of his treatment of Paul Dulberg's injuries allegedly sustained in the underlying accident, and consistent with his deposition testimony in the underlying case, and any future deposition in the instant case. To the extent that he may be considered a Rule 213 (f) (2) witness, defendants reserve the right to identify him as an independent expert witness at the appropriate time.

2. Please identify the name, address and telephone number of every independent Expert Witness who will testify at trial on behalf of the Plaintiff, and identify the subject matter of each witness' testimony.

ANSWER: Defendants have not identified all Illinois Supreme Court Rule 213(f)(2) witnesses, and will disclose same at the appropriate court mandated time.

3. Please identify the name, address, and telephone number of every Controlled Expert Witness who will testify at trial on behalf of Plaintiff, and for each Controlled Expert Witness, please identify:

1. the subject matter on which the witness will testify;
2. the conclusions and opinions of the witness and the bases therefor;
3. the qualifications of the witness; and
4. any reports prepared by the witness about the case.

ANSWER: Defendants have not identified Illinois Supreme Court Rule 213(f)(3) expert witnesses, and will disclose same at the appropriate mandated time.

Respectfully submitted,

/s/ George K. Flynn
