Dr. Sagerman and Dr. Biafora did the procedure at Northwest Community Hospital Building #3 675 W. Kirchoff, Arlington Heights, IL.

Their practice is located at the following two locations;

515 West Algonquin Road Suite 120
Arlington Heights IL 60005

565 Lakeview Parkway # 140
Vernon Hills IL 60061-1839
United States

Paul. although we talked about this before, please remind me of the Drs name and address and the facility where the surgery took place. Thanks

Hans

Hi Hans and Janet,

Just thought I'd let you know the surgery on Monday went well. I'm still under heavy medication and a bit sore. The surgeon said today that he removed a bunch of scar tissue in my right forearm that bonded the muscles and skin as one. He said its all free to move separate now but the scar tissue will return. He said that getting in physical therapy quickly and with a lot of luck it should help to keep it all from bonding together again. He also had to release the ulnar nerve from compression at the elbow. It seems it bound up was under compression and formed a bit of scarring on the nerve. He did not perform the ulnar nerve

transposition because he said it seemed like it would be stable enough still in the ulnar groove.

Hope that was a good explanation of what happened. I'm not all with it just yet. I should be feeling better in a few days.

Paul
