Hans,
Just spoke with John Choyinski again about talking with you.
I am leaving your number with him as he has agreed to talk with you about David Gagnon.
I believe he will try and call sometime tomorrow.
Paul

Oh and I know that nothing that happened right after the incident makes any difference as to the validity of the injuries but David's conduct immediately after the incident does show his lack of moral values for other humans and what he was willing and was not willing to do to help me get medical help. For his actions towards me or any other human being is enough to sue the shit out him alone. It is the things that happened afterwards that upset me the most.

Subject: Sagerman deposition

Hi Hans,

Reading through the summary of Dr. Sagermans Deposition I'm curious as to whether Dr. Levin has been deposed? The reason for this question is because of the EMG tests. Dr. Levin only conducted both the tests from just above the scar in the right forearm to the right hand and fingers. She never tested the right elbow which most likely would have identified the compression in the ulnar nerve earlier. She told me she didn't see any reason to give a full test beyond the scarred area even though The Dr asked for a full test of the nerve. She did tell me that all of the branch nerves in the forearm were severed but that is considered minor nerve damage and most likely wouldn't repair itself. Those minor nerves that were ripped out is what caused the loss of feeling in the right forearm and loss of fine motor skills in the areas they control. Again, no major nerve damage was found, only minor nerves but they still hurt like hell and play a significant part.

As far as the MRI, I was told the test cannot tell the difference between scar tissue and good tissue by both Dr. Sagerman and Dr Levin and neither expected to see much from the test.

As far as proving the elbow is a direct, indirect or hypersensitive result from the chainsaw, I don't think anyone can prove or disprove this let alone bet their medical license on this. All I can say to this is that it never bothered me before the incident and I didn't have any of the numbness or tingling prior to the incident. It is possible that the compression existed before the incident and that the trauma to the arm aggravated the nerve causing a hyper sensitivity resulting in the sensations or lack of them. I don't know how or when the compression in the elbow happened. I believe it happened during the incident but cannot prove it. I was in panic mode followed by extreme shock following the chainsaw being lifted into my arm. All I do know is it didn't bother me at all prior to the chainsaw incident or I would have seen a Dr. about it.

On another note, Dr. Sagermans comment about sitting in front of a computer all day shows he has no idea how repetitious keyboarding is or how much work a graphic designer does. I'm curious as to the context of the question he was asked to reply this way and why he doesn't see typing as an extremely repetitious task requiring good dexterity. Every time I try to go at the keyboard, mouse or even write I don't get very far without suffering a spasm in the damaged muscles. It affects much more than just typing. My grip is shot as well and I have a lot of trouble doing regular daily activities like cooking, cleaning, driving, etc... Those spasms happen anytime I try to use those muscles for more than a few minutes repetitiously. Sit at your keyboard and type with your right hand and feel the muscles in your forearm at the same place the chainsaw entered, dug deep and tore out a huge chunk of my arm and ask yourself if issues in those muscles would affect your ability to type or use your fingers for anything. This is a no brainer, of coarse they do. I don't believe dr Sagerman gave this much thought or may have been asked this question in a context that would put computer keyboarding as a physically non stressful job overall but did not consider the extreme repetition, dexterity or fine motor control it takes to be a professional keyboardist 40-70 hours a week. If all I did was sit in front of a computer all day his statement would be true but to do my job requires one hell of a lot of keyboarding. Wish I could get paid to just sit in front of a computer and not have to type anything. Lol.

On another note, I did not see anything about the self dissolving stitches the Hospital used the day of the incident that never dissolved and Dr. Sagerman had to remove later. He said that accounted for the feeling of needles poking me in my arm and I believe he was right as those feelings stopped after he removed them. That was over a year of feeling those stitches aggravate the forearm and was a huge relief when they were found and removed. Removing those helped to pinpoint the Dystonia.

As far as the disability claim. This incident is what triggered me to file for disability but is only the piece of straw that broke the camels back so to speak and not the sole reason I filed. Disability looks at the whole body and not just this incident. In no way do I suggest the chainsaw is the sole reason I may or may not get disability. It is a cumulation of serious injuries I have suffered that will be the determining factor.

That's all I have for now but I'm sure more will come to mind as time goes on.

Oh, one more thing... You said a trial is like a theatrical production. If we had to go to trial how much approximately would you need in cash to make an overwhelmingly convincing production happen. Let me know so I have an idea of the ballpark figure and can

secure the funds needed.

Hans, I'm asking that when you consider either a settlement or a trial that you ask yourself what it would be worth to you if you had to suffered this type of injury that profoundly changed your day to day living and career.

Thanks again,
Paul

Subject: Character reference

Hi Hans,

Just spoke with John Choyinski a lifelong friend of myself and David Gagnon.

First off I should mention that John has suffered a brain injury in his youth and did spend a few months in a coma and rehab but that was over 20 years ago and he's improved dramatically since. If you should talk with him you will notice something's off about him and I thought the heads up would help. One important note and you have to take my word for this till you talk to him and realize it for yourself, it is that John is damn near incapable of lying. Ask him anything and he's so darn honest he gets himself in trouble and doesn't know it. He often says way too much and I'm sure that can't be good except its what makes him so darn believable.

John is willing to talk about certain aspects of what David has said to him in confidence. John is extremely hesitant to go against David in fear of retribution and rejection from his lifelong friend and is on guard in his reactions and words but this can easily be avoided by asking him questions that skirt around the issue rather than directly at it until he already answered it.

John explained to me tonight that Dave is not the same person I knew a decade ago. These days Dave is all about himself and he has become money hungry. John told me I would have known that if I hadn't been off working all those years and been around more often. John went on to say that he knows that David is lying about how it happened because David seems to think he will have to pay more for insurance and he's so cheap he'd rather screw Paul over than paying 1 penny more or have to admit he did something wrong for no money. John went on to say that David was upset at having to do his Moms tree, didn't want to be there because he wasn't getting money for it and that he was trying to go too fast, didn't tell Paul what he was doing and that's how it happened. At this point Johnny showed confusion and said "um well I mean Paul moved his arm.... Ohhh whatever, I don't want to talk about it any more."

Hans, Johnny is David's longest lasting friend. These two were the closest of buddies growing up. Johnny said he would be willing to talk with you not to go against David but because he knows the troubles I have doing normal things that I used to be able to do very well.

If you start by asking Johnny about my grip or things I have trouble with like hand shakes or opening jars, writing or typing he will go on and on, he needs to be guided a bit in the right direction and soon you will have what you should need about his conversations with David.

But be forewarned, Johnny can go off on tangents and most of what you hear won't have anything to do with what he is there for and I'm more than positive he will say things that will ruin his own credibility.

When I asked johnny if it was ok for you to speak with him he said yes but to give you his home number and not his cell because he doesn't answer calls if he doesn't know the number. He also went on to say his parents told him to stay out of the issue between Dave and I because of David. They fear David may do something drastic if he feels Johnny went against him.

Best time to call him at home is either early morning before 9 am or at 6 pm but he is in and out all day.

John Choyinski Jr.
Home. (815) 385-8483

Hans, John has issues and may not make the best witness in my opinion but he is Dave's lifelong friend and if handled correctly can't lie or should I say can't keep one up for very long.

Paul

On Oct 30, 2013, at 2:08 PM, Hans Mast <hansmast@comcast.net> wrote:

I understand that Paul. The problem is that you are preaching to the choir. The jury - that will decide this case - doesn't know you or the doctor. If a treating doctor says he doesn't think you were injured badly, they can accept it or believe it. That is the jury's job. And in cases that have complicated medical issues, many times the jury will not be so accommodating and give you the benefit of the doubt. That's why Plaintiff's always have a more difficult time at trial, because they have the burden of proof. And, if the jury doesn't like the evidence they can find against you.

Hans, if your sick and this dr you don't know says your not, do you go see someone else or do you take his word for it and continue to suffer?

Ask dr Talerico that question.

This dr Talerico guy has no intimate knowledge of my injuries other than 2 very short visits that I walked out of feeling like I was waisting my time because there was no real examination.

I don't even agree with paying for his services.

I have been seeing Dr. Levin and Dr. Sagerman for a couple of years now. And I get to choose who is the best dr for me. Not David or his insurance.

Paul, here are my thoughts regarding your case. There are two issues. The first liability, or whether Mr. Gagnon is liable for your injury. If he is not proven liable, then it does not matter how badly you were hurt since he will not be found responsible for your damages. The second issue is your damages, or to what extent you were injured due to Mr. Gagnon's acts.

Both of these issues are strongly contested in your case.

As to liability, there were no witnesses to the accident. So, whether Mr. Gagnon will be held responsible for your damages is uncertain and a gamble. That is because it is your word against his word. Our argument is that you were simply holding a limb when he caused the chain saw to strike you. His argument is that you moved your arm in the path of the chain saw unexpectedly. If the jury determines that we did not prove your "version" of the accident, then they can find against you and in favor of Mr. Gagnon at trial.

As to damages, the issue is complicated. That is because your treating physicians do not all agree on exactly what injury you suffered or whether your had a fully recovery or not.

Dr. Talerico at MidAmerica Hand and Shoulder, saw you twice. The first time was in December, six months after your injury. He was not supportive of your claim in most respects. He didn't really feel there was anything wrong with you - as to the forearm. He said that you complained mostly of pain radiating down the forearm from the laceration site with numbness and tingling. On exam he noted no tenderness and it was mostly a normal presentation. Strength was good. He did not see any nerve problem. He prescribed physical therapy due to a muscular sort of symptomology - not nerve related. Apparently you did only 2 sessions of therapy and returned January, 2012. No new complaints at the time. The EMG was normal. He did not believe you were disabled. He continued you on therapy. He saw no evidence of nerve problems. The only symptoms were subjective - not represented by any abnormal exam finding.

Dr. Sagerman has also been deposed. I will summarize his testimony for your soon. His was more favorable, but still limited in what he related to the chain saw accident. Apparently he does not believe you presently have any symptoms relatable to the chain saw injury.

Think about these issues. I will provide you Dr. Sagerman's summary soon.

Hans

Subject: Medical depositions

Morning Hans,

Wanted to touch base this morning because the call from you about something not being medically linked has been on my mind.

I'm not sure what was said during that deposition with the drs that prompted the call but I have been thinking about what it could be. Most likely it was the right elbow procedure.

During my deposition I remember being asked if the two were linked and I answered yes. Let me explain my answer to you.

If the chainsaw had not gone through my arm then the procedure on my elbow wouldn't have happened. That procedure was exploratory to find what was bothering the arm from the chainsaw. Upon opening up the arm they did find some compressions which from my understanding was nothing unusual for a male of my age and very well may or may not have happened during my retreat from the

chainsaw when I ended up half way across the yard on the ground. Incidental finding or not it still would not have been found if I hadn't had the chainsaw incident. So as I see it they are linked good or bad and cannot be separated. The exploratory procedure was to find and possibly fix issues relating to the chainsaw incident. They also removed a ton of scar tissue in the forearm on the same day during the same exploratory procedure that was a direct result of the chainsaw.

Hope this helps explain things better.

Let me know,

Thanks,

Paul

Quick ?

Are they pitting Dr. Talerico against My other dr's?

He only saw me twice for approx 5-10 minutes and there is a reason I stopped seeing dr Talerico.

Paul, here are my thoughts regarding your case. There are two issues. The first liability, or whether Mr. Gagnon is liable for your injury. If he is not proven liable, then it does not matter how badly you were hurt since he will not be found responsible for your damages. The second issue is your damages, or to what extent you were injured due to Mr. Gagnon's acts.

Both of these issues are strongly contested in your case.

As to liability, there were no witnesses to the accident. So, whether Mr. Gagnon will be held responsible for your damages is uncertain and a gamble. That is because it is your word against his word. Our argument is that you were simply holding a limb when he caused the chain saw to strike you. His argument is that you moved your arm in the path of the chain saw unexpectedly. If the jury determines that we did not prove your "version" of the accident, then they can find against you and in favor of Mr. Gagnon at trial.

As to damages, the issue is complicated. That is because your treating physicians do not all agree on exactly what injury you suffered or whether you had a fully recovery or not.

Dr. Talerico at MidAmerica Hand and Shoulder, saw you twice. The first time was in December, six months after your injury. He was not supportive of your claim in most respects. He didn't really feel there was anything wrong with you - as to the forearm. He said that you complained mostly of pain radiating down the forearm from the laceration site with numbness and tingling. On exam he noted no tenderness and it was mostly a normal presentation. Strength was good. He did not see any nerve problem. He prescribed physical therapy due to a muscular sort of symptomology - not nerve related. Apparently you did only 2 sessions of therapy and returned January, 2012. No new complaints at the time. The EMG was normal. He did not believe you were disabled. He continued you on therapy. He saw no evidence of nerve problems. The only symptoms were subjective - not represented by any abnormal exam finding.

Dr. Sagerman has also been deposed. I will summarize his testimony for you soon. His was more favorable, but still limited in what he related to the chain saw accident. Apparently he does not believe you presently have any symptoms relatable to the chain saw injury.

Think about these issues. I will provide you Dr. Sagerman's summary soon.

Hans

Subject: Medical depositions

Morning Hans,

Wanted to touch base this morning because the call from you about something not being medically linked has been on my mind.

I'm not sure what was said during that deposition with the drs that prompted the call but I have been thinking about what it could be. Most likely it was the right elbow procedure.

During my deposition I remember being asked if the two were linked and I answered yes. Let me explain my answer to you. If the chainsaw had not gone through my arm then the procedure on my elbow wouldn't have happened. That procedure was exploratory to find what was bothering the arm from the chainsaw. Upon opening up the arm they did find some compressions which from my understanding was nothing unusual for a male of my age and very well may or may not have happened during my retreat from the chainsaw when I ended up half way across the yard on the ground. Incidental finding or not it still would not have been found if I hadn't had the chainsaw incident. So as I see it they are linked good or bad and cannot be separated. The exploratory procedure was to find and possibly fix issues relating to the chainsaw incident. They also removed a ton of scar tissue in the forearm on the same day during the same exploratory procedure that was a direct result of the chainsaw.

Hope this helps explain things better.

Let me know,

Thanks,

Paul

Hi Hans,
I'm not sure what you meant by saying there was no medical link from dr Sagermans deposition.
Medical link to what?
Weakness, spasms, loss of feeling, etc...
What has to be linked and why?
Thanks,
Paul

Hi Hans and Janet,

Today I met with Dr. Kathryn Kujawa at Alexian brothers hospital. She diagnosed my right arm as task specific Focal Dystonia and said it can be treated on a temporary basis with Botox injections every 3 months or so. My next appointment is for November 19th at 9:45 am to start the treatments. She said it is definitely caused from the trauma in my right arm. I have included her offices contact info below.

If you need anything else please let me know.

Thanks,
Paul

Hi Hans,

Just spoke with Mike Thomas and he doesn't want to call you because he is afraid of getting caught by the IRS for paying me in cash.

Tried to tell him how he paid me doesn't matter but he's afraid and doesn't want to get involved.

Here is all the contact info I have on him.

To: Janet Douglass <janet@ssdatty.com>
Subject: SSDI

Hi Janet,

Not sure if your the right person to ask this question but thanks in advance for any insight or help you may be able to provide.

Is it ok to file for bankruptcy while applying for SSDI?

If so, do you work with anyone who handles this?

I have been living off of credit cards for over 2 years now since I was injured and my mom was paying the minimum payments for me. The minimum payments are going to exceed what she can afford. She also pays my mortgage payment every month. It's too much and I have to do something. I have never considered bankruptcy before and know nothing about it. I would like to keep my house if it is possible. I don't have anything else of real value. Most of the credit card usage was for gasoline and medical treatment.

Thanks again in advance for any insight or help you may have,
Paul

Hi Hans,

Thanks for the reminder on the bills. Should have new printouts of the totals by next week.

I have scheduled an appointment with Dr. Kathleen Kujawa on November 14th, 2:30pm at alexian brothers hospital for an evaluation/consultation to see if in fact Dystonia affecting the severed muscles and branch nerves in my right arm.

Dr. Sagerman told me to finish physical therapy at home for the left arm and left scheduling another visit up to me if I should need it.

Thanks,
Paul

Subject: Re: Contact info for Mike Thomas

Hi Hans,
Missed your call this morning. I'm here all day so feel free to call when you have time.

I'd suppose they want to know what I did for Mike Thomas.

Here is a brief summary,
I placed an ad to sell off some printing equipment and Mike Thomas came out to see if he wanted anything. This was the first time I met him.
In the process he mentioned that he was setting up a print shop in Richmond IL and asked if we (Mike McArtor and myself) could help. We did help him on and off over the next few months. Mike McArtor still helps out to this day and I do offer them advise when asked. My brother Scott Dulberg and Tom Kost also help Mike Thomas from time to time.

Mike Thomas wanted me to work for him on a regular basis. He offered many different proposals from direct employment, sub contracting, part time, etc... I had to decline after a few months of working with him on and off because I knew I couldn't do that type of work anymore on a regular basis. My arms and hands just can't be relied on.

Working with Mike Thomas taught me what I was and was not capable of doing. I did try to do many things for Mike Thomas that probably was things that I now know I shouldn't do anymore. I had to try, how would I know what i could do if I didn't.

It was a good test to see if I could go back to work on a regular basis. I did try many different types of work for Mike Thomas. It was everything from graphic design to doing little fix it up jobs around his building and even his house in Twin Lakes WI. I introduced my brothers, Scott & Tom, to Mike Thomas to recruit their help with what needed to be done because I wasn't able to do all the things myself anymore. All three, Tom, Mike McArtor and Scott filled in and acted as my hands to get things done.

I did receive compensation in the form of cash for my time. It wasn't much perhaps a few thousand in total but I'm not exactly sure what the exact total was. All the money went to my mother to help out with the bills she was paying on my behalf.

Other than that there isn't anything else I can think of that the defense counsel could hope to get from him.

Feel free to call or I could come in to discuss.

Thanks again,
Paul

Hi Hans,

I dropped off the billing today. There is still dynamic hand therapy and Dr. Sagerman who have more to add to the list.

If you have any questions please let me know.

Thanks,
Paul

Hi Hans,

Just received the medical expense report you sent via us post office.
The total amount of \$40,633.00 is wrong. There are several charges missing.
It will take me a few days to gather all the totals from the various Dr.'s, therapists, pharmacies, hospitals, etc...

The Tennis elbow is being treated by Dr. Sagerman and Dynamic Hand therapy.
Hopefully no surgery will be needed. Keeping my fingers crossed.

Thanks,
Paul

Hans,

Mike is what/who your looking for. He seen and heard David's rant and threat about a lawsuit and any possible monies paid out. I expect him to be off work around 6 pm and I'm sure once he gets your message he will call you.
I'm not sure Mike has even thought about that event since it happened but he doesn't forget things too easily. I'm sure whatever he remembers he would be happy to testify to.

Paul

Every case has different versions of the same accident. Unfortunately, when there are no witnesses, it's hard to know how the jury will decide a case. David's description of the accident made sense to him and he described it in a way that "could have" occurred even though different from your description. I think the only way to prove him wrong is to show him to be incredible in other ways...for instance his assertion that you told him "you could be rich" in front of your room mate. If your room mate will cooperate and say that David is wrong - that you did not say this, this could be a very good way to show him to be wrong. Would your room mate agree to a deposition in the case? if so, have him call me...thanks Paul....

Subject: Reply to David's Deposition

Hans,

In response to your letter about Gagnon's deposition:

In the first place, why would I hold up the very end of a branch with my damaged left arm? And if I did do it as Dave Gagnon said, I would have had my back to him. What he said makes no sense.

In the second place, if you have ever been cut by a chain saw, the last thing on anyone's mind would be making a profit. I was in so much pain that I could not have talked seriously about anything other than stopping the bleeding and getting to a hospital fast.

David did not come into the hospital with me. He dropped me at the door and was parking the car. He was brought into the ER and questioned by the staff that was there. You can check with whoever was working the ER that day. It's not really my word against David's but David's word against those that were working in the ER.

There is one witness as to David talking about making money off of this accident. Mike Mcartor heard David say this to me in David's garage the day I went up to David's house to get his home owner's insurance policy number per your request. Mike Mcartor is a friend that grew up with David and myself and is currently living at my residence.

Will sign and drop off the medical release forms you requested.

Thanks,
Paul

On Jan 17, 2013, at 12:46 PM, Hans Mast <hansmast@comcast.net> wrote:

Thanks for the update. When you are better call my assistant Sheila to schedule another preparation meeting. You are a nice person, but in law, nice people finish last. You need to think a lot about coming in with a more laid back and non-responsive approach. The more you talk in a deposition, the more you are losing the case. I think I want to be more strict with you on the "5 words" rule, and have you get comfortable with not exceeding 5 words in any answer. I'm gonna ask a lot of you, but you need to do this in order to maximize your recovery in the case.

Here are some thoughts and examples of how you need to testify:

Best 3 responses: "Yes" "No" or "I don't know"

Otherwise, answer only that which is asked - no more

If asked for your name - give your name, not anything more (ie. Address...date of birth..)

Give answers 5 or less words in length

Don't use "because" or ever explain your answers.

If asked to explain, say only what is necessary in 5 words or less

Remember, your purpose is not to make sure the other attorney understands what you are saying. This is not your concern. If the attorney does not understand you, it is HIS job to ask the questions to make him understand. Your only purpose is to answer questions. Therefore, you should not be concerned if the attorney is not understanding you. Therefore, do not worry about explaining yourself in the best most understanding way. Just simply answer the questions.

Do NOT speculate about anything. If you do not know something, say so - Don't guess!

The more you talk, the more information you are giving to be used later against you - it doesn't matter if you think you are saying things to help your case since the more information you give the more the attorney will ask questions and delve into matters that may not otherwise come up - ultimately obtaining information that could be damaging to your case.

Your job at the deposition is only to answer the questions asked of you

Your purpose at the deposition is NOT to explain, convince, argue or otherwise defend your case. If the attorney questioning you does not seem to understand something about your case, TOO BAD. Unless asked a specific question on a matter, you are not to explain or clarify things voluntarily.

The attorney's job is to disbelieve you. Don't think you will convince him/her to change his mind. Don't worry about this.

EXAMPLES

Q: How did your accident happen?

BAD RESPONSE: I was walking out of the store and I wanted to get to the car so I walked down the sidewalk and didn't see anything until after I fell.

GOOD RESPONSE: I was walking down the sidewalk.

REASONING: You were not asked what you were intending to do or what you were thinking.

QUESTION: Did you miss any work due to the accident?

BAD RESPONSE: Yes, I did not go back to work for 2 weeks and lost about \$800.

GOOD RESPONSE: Yes.

REASONING: You were not asked how long you missed from work or how much income you lost. Therefore, don't volunteer this info.

QUESTION: Were you injured in the accident?

BAD RESPONSE: Yes, I hurt my head, back and neck.

GOOD RESPONSE: Yes

Get the idea? If not, we can discuss any questions you have. Please call.

Thanks Paul

Subject: Deposition

Hi Hans,

Just wanted to say its a good thing we rescheduled the deposition because I'm simply not doing well today at all after having the hemroids removed yesterday. I wouldn't have been able to make it in today at all and from what the surgeon said, I wont be able to walk or sit very well for 3 to 5 days. Let me know when you want to do another practice session but its probably best to do anytime after this weekend.

Thanks for all your help,
Paul

Subject: SSDI update

Hi Janet,

I met with Dr. Sagerman (hand and arm surgeon) for a follow up on Monday for both my right and left arms. He scheduled another follow up in March and prescribed more physical therapy.

I mentioned a new issue I had to Dr. Sagerman, (hemroids) that I first noticed on Saturday and asked him where I should go. He sent me to Dr. Rosenova an internist. Dr. Rosenovas office had me come in the same day. Dr. Rosenova took one look and sent me to Dr. Daniel Conway a general surgeon to have it removed ASAP.

Dr. Conway took one look and surgically removed the hemroid right there on the spot. I have a follow up with Dr. Conway on February 13th.

I was told by the dr's that hemroids can happen at any age however it usually doesn't happen till after 50 years of age. One of the things that may cause it earlier that seemed to hit home with me as to the cause is stress. With everything I've been through stress makes the most sense to me. Hemroids hurt bad and it's going to take me a few days to recuperate. It hurts to walk, sit, stand, etc...

On another note, I missed my appointment at rosecrance earlier this month because I had a bad neck day and didn't get out of bed all day. I rescheduled with them and will be meeting with them again in February.

I have those forms from SSDI and am going to try and fill them out today and get them to you but i cant promise that i will get it done. The pain meds are simply kicking my butt. With everything that happened this week (hemroid issue) I don't know if I am over the 10 day demand they gave me but I am doing my best. I need to go lay down.

Thanks for everything,
Paul

Hi Hans,

I went to see Dr. Sagerman this morning for a follow up from the surgery on my right arm almost 6 months ago. He wants to see me again in 6 weeks for another follow up.

My Mom, Barb, went with me this morning to make sure I talked to him about my left arm. It has been hurting bad for 3 to 4 weeks now and she wanted me to get his advice. Dr. Sagerman had an X-ray done and said it looks good but I have what is called lateral epicondylitis or tennis elbow in my left elbow. He said it was probably just from over use due to me not using my right arm and could be treated. He said I need therapy for the left arm and prescribed 6 weeks of therapy 2 times a week and would follow up with it at the same time as my next appointment for my right arm.

I went to Fox Lake dynamic hand therapy with the prescription to schedule the appointments. They set the appointment for this Friday at 1:30 pm.

When I got home Dynamic Hand Therapy called. They said they cannot see me because this is not part of the litigation pending from my right arm unless the Dr. says it is. And because I have no insurance it would cost me \$70.00 a visit.

Which there is no way I can afford. I have no income.

Any advice?

Thanks,
Paul

Hi Janet,

Just met with Dr. Sagerman. He suggested that I do physical therapy at home rather than go in to the clinic from this point forward. He set up an appointment to see me in 6 weeks on 12/3/2012.

I told him that I had applied for disability and he said he would fill out any paperwork needed but is still hopeful my arm will regain some strength over time. He also left me on full restrictions.

He had a suggestion for getting my neck looked at. He said to just walk into cook county hospital and have them perform the MRI then take it to a neurologist or Otho to have it read. I told him that Dr. Levin a neurologist offered assistance with my neck once my arm issue was taken care of. He said either way I should get assistance and under a Dr.'s care for it soon.

On another note, Dr. McMasters the psychiatrist suggested therapy and now that I'm not going to physical therapy every other day I'm going to go over and get assistance this week and see how it goes.

That's about it for now. Please let me know if you need anything and thanks for all your help,
Paul

Hi Janet,

I had to go in for more X-rays this past Saturday for SSDI's independent evaluation at physicians North in Lake Zurich. Two Saturdays ago they took several X-rays of my cervical spine and this past Saturday they took 2 X-rays of my lower lumbar spine. Not sure why they need the lower lumbar but I'll do whatever tests they need. I did ask to get a copy of the reports for you and I was told I wasn't allowed to receive any from the dr's office but you could request them from SSDI on my behalf.

Thanks,
Paul

Subject: MedChex question

Hi Hans,

I looked into the MedChex question.

When I called Open Advanced MRI of Round Lake to get the amount owed I was referred to their corporate office. The corporate office had told me my balance was \$0.00. They looked into who paid the bill and mailed me a breakdown of everything they charged, payments made and any adjustments. The corporate office at OPEN ADVANCED MRI did not know who MedChex was. They said it looked like an insurance payment was what paid my bill. Below is a breakdown of the billing from the corporate office at OPEN ADVANCED MRI.

Original charges from open advanced MRI of round lake.

\$1510.00 for the MRI on 02/03/2012
\$75.00 for the injection on 02/03/2012

\$1585.00 total charges from open advanced MRI of round lake on 02/03/2012

MedChex paid

\$800.00 for the MRI on 02/23/2012
\$0.00 for the injection on 02/23/2012

An adjustment was made to the original charges from open advanced MRI in the amounts of

\$710.00 for the MRI on 02/23/2012
\$75.00 for the injection on 02/23/2012

My balance due reads \$0.00

After a bit of searching the web I came across the contact info for MedChex, gave them a call and asked how they came to pay off my bill with OPEN ADVANCED MRI and what their terms were for paying off the bill.

MedChex claimed I owe them \$3,390.00 for the MRI as of 08/22/2012

The customer Representatives supervisor I spoke with at medchex was named Tish.
Telephone number: (866) 959-1100
Extension: 109

Tish would not provide me with the terms or how MedChex came to negotiate and pay off my bill with OPEN ADVANCED MRI. She would simply repeat that they are a service to help those with no insurance and will be receiving a settlement for injuries. She told me that I did not need to worry about the increased amount from the original billing from OPEN ADVANCED MRI because a settlement would be paying for it. She demanded that I fax her a copy of the billing breakdown from Open Advanced MRI at 888-317-0260. She said that I was never supposed to see what the original billing was and that it is just wrong that I have it and that she would not discuss the terms or how MedChex became involved till I sent this copy to her office. That ended the conversation.

Hans, the only person/firm I ever authorized to handle any and all of my negotiations for medical billing is you and your firm. I will

bring in the breakdown from OPEN ADVANCED MRI to your office on Monday along with a few other bills I have collected.

Hi Hans,

Had another Dr's appointment with Dr. Sagerman at hand surgery associates. He read me the findings from the surgery. He said the chainsaw did not cut the ulnar nerve but the nerve was compressed in the ulnar groove at the elbow. Probably from scar tissue growing in the forearm and pulling the nerve tight in the ulnar groove. The scar tissue had apparently grown and attached my muscles to the skin and each other. Dr Sagerman said they managed to separate the muscles and skin.

I have another appointment with Dr.Sagerman in a month and am doing physical therapy.

I will send a few pictures of what the arm looks like 1 month after the surgery as soon as I can get someone to use the camera for me today.

Thanks,
Paul

Hi Hans and Janet,

Just thought I'd let you know the surgery on Monday went well. I'm still under heavy medication and a bit sore. The surgeon said today that he removed a bunch of scar tissue in my right forearm that bonded the muscles and skin as one. He said its all free to move separate now but the scar tissue will return. He said that getting in physical therapy quickly and with a lot of luck it should help to keep it all from bonding together again. He also had to release the ulnar nerve from compression at the elbow. It seems it bound up was under compression and formed a bit of scarring on the nerve. He did not perform the ulnar nerve

transposition because he said it seemed like it would be stable enough still in the ulnar groove.

Hope that was a good explanation of what happened. I'm not all with it just yet. I should be feeling better in a few days.

Paul

Hi Hans,

I couldn't help but to laugh at that. The reason I left Dr. Talerico and went to Dr. Sagerman was because he couldn't listen worth a darn and went on a 20 minute rant about prescribing pain medication to me when I never received any prescriptions from him nor did I ever ask him for any pain medication or any other prescription for that matter. Each time I went there it was as if he confused me with someone else. On my last visit with him he couldn't even remember why I was even there and went on another rant about insurance companies. He never even asked or looked at the X-rays from the hospital and I had to ask him numerous times just to get him to read the physical therapy reports. Honestly, he scarred the heck out of me and we were at odds, so I went to see someone else whom I had more confidence in (Dr. Sagerman). I'm sure Dr. Talerico is a good Dr., just one that I felt was probably over worked, was getting confused between his patients and couldn't give me the attention I needed. In retrospect, it fits that his notes are messed up and confirms my feeling about him and why I went to another Dr.

I just called the libertyville office for MidAmerica Hand and Shoulder Clinic. Talked with Gabby. She told me she could not change the record but would make an addendum to the record to clarify that I was not the one operating the chainsaw. She apologized for the confusion and said that it was lost between the Dr.'s notes and the person who transcribes the records. She is going to call your office and fax over the addendum.

Please let me know if you get the addendum and if it is ok

Thanks,
Paul

Subject: Medical update

Hi Hans,

Wednesday I met with Dr. Sagerman and I signed the papers for surgery on my right arm. They are going to do an ulnar nerve decompression and transposition, and a neurolysis in the forearm. They are also going to explore and repair any other damage they find with the muscles, tendons and remove scar tissue. I am waiting on a call to find out when and where the surgery will be. They said it should be in the next 4 weeks.

I also need to get some sort of medical release signed by my primary care physician for the surgery so I met with Dr. Sek yesterday and he gave me a checkup and signed the forms.

On another note, when we last met you asked if any of the Dr.'s had been paid yet. I answered no but that wasn't true. I have paid Dr. Sek in full for each visit and Dr. Levin has been partially paid. I also had to just sign a form for Dr. Sangerman allowing them to charge my credit card \$40 a month till my bill was paid in full. I asked if they would do the surgery on a lean against a settlement and gave them your name and number to contact you. They said they would but still required I give them permission to charge my credit card.

If you need anything else please let me know.

Thanks for everything,
Paul

Hi Hans,

Just set up an appointment with Sheila for 10:00 AM tomorrow to meet with you.

Just after I set up that appointment with your office my physical therapist called and discharged me until I see the Dr. Said my evaluation was bad and they sent the report to Dr. Sangermans office and for me to call them. After calling the Dr.'s office they bumped up my appointment to Wednesday of this week to discuss surgery.

See you in the morning,
Paul

Subject: Medical Update

Hi Hans,

Today Dr. Levin my neurologist increased my medication of Gabapentin from 300 mg twice a day to 600 mg twice a day. I'm not happy about the increase, it already makes me extremely tired but it's supposed to help with the nerve pain in my right arm.

Not sure if you needed to know this but it is a minor change in the medical condition.

Thanks,
Paul

Subject: I'm nervous about the surgery being covered

Hi Hans,

I'm curious if David Gagnons home owners insurance policy number checked out?

Also, from what I understand this surgery that has been suggested by two different arm specialists, the neurologist and my primary physician is going to run in the neighborhood of \$60,000.00. I want to be sure that it will be covered under the settlement before I decide to do it.

It is a direct result from the chainsaw cut and not anything else. Will it be covered or am I on my own to pay for it?

I am extremely nervous about the cost and getting stuck in bankruptcy and losing my house if it isn't covered.

Thanks,
Paul

Subject: SSDI medical update

Hi Hans and Janet,

I just got back from an appointment with Dr. Sam Biafora, another hand, wrist, elbow & shoulder specialist at hand surgery associates. He did what seemed to be a very thorough evaluation. He dug around pretty deep in my arm and did many different tests on my hand, arm and elbow. He recommended doing surgery to get the scar tissue out of the affected nerve and surrounding area. He said not to have any hope of restoring strength, feeling or reversing the paralyzed muscle that pulls my pinky finger in. But he said that going in and removing the scar tissue from the area will bring relief to the nerve and should stop the pains I get. He said that it will leave a long scar from the back of my elbow to the wrist and they will need to move the ulnar nerve to the inside of the elbow and that it will take approximately 3 months to recuperate. I mentioned the new medication I just started taking that was supposed to help fix the signals from the nerve. He said that all that will do is mask the symptoms for a while and that the only way to actually fix it is to go in and remove the scar tissue and see if any of the cut fibers can be grafted back together. He said that grafting the fibers probably won't work since its been almost a year since they were cut but removing the scar tissue should release the pain and should make a huge difference. He was ready to set up the surgery and I told him I needed a some time to talk with my mom and think about it. He set up another appointment for a month from now so I have time to think it over and said to call Dr. Sagerman if I should decide sooner.

Hi Hans and Janet,

Forgive me for combining this e-mail to both of you but both of you need the same information.

Met with Dr. Levin today at Associated Neurology. She prescribed Neurontin / Gabapentin 300 MG. I am supposed to take it in the evening for 1 week then move to 2 times daily. Then call her in 2 weeks to see how it's going. She said that it is supposed to help correct the signals from the misfiring nerve in my right arm which is causing the pain when I use my hand. And that the dosage may change depending on how and if it's working. This treatment was suggested by Dr. Sagerman to help try and avoid surgery. If it works I think this is a long term treatment because the prescription lasts for a year and the pharmacist said it goes hand in hand with the other medications I'm taking for long term pain management treatment.

I see Dr. Sagerman and his partner tomorrow for an evaluation at Hand Surgery Associates in Vernon Hills. I will let you know what happens.

Thanks to both of you,
Paul

Hi Hans,

Dr. Sagerman said he would call Dr. Levin the neurologist to get a prescription from her for me. She wants a new appointment with me. It is set up for Wednesday.

Also Dr Sagerman said to keep at physical therapy.

Will let you know what happens after Thursday's appointment.

Thanks again for everything,
Paul

Thank you for the information Paul. I have forwarded your message to Margaret. We can send you an application for applying for benefits from Northwestern University.

Feel free to send updated medical information and questions about your claim to this e-mail address. We just ask that you keep your e-mails related to your claim.

Janet

Subject: Update

M. Margaret Bradshaw,

I received the results from the MRI done on my right arm and Dr. Levin said the MRI came up negative. The physical therapist had already told me that this type of damage seldom shows up on an MRI. Dr. Levin said it was all muscle and tendon damage. Dr. Levin and the physical therapist both suggested I see an hand and arm orthopedic specialist.

Today my GP, Dr. Sek, wants me to get an MRI done on my neck. This would not be covered in the lien against the claim for my right arm. So I am at a loss as to how to go about getting this done. While talking to you, I heard you mention Northwestern University. How do I go about applying for this? I would appreciate any help or assistance you may have that will allow me to get this done.

I applied for help at DHS in Woodstock. They received a copy of all my medical records and approved a two month SNAP benefit. Not sure if this will be extended or if they will do any further follow-up. This is a new process for me and I'm not sure how all this works. They said they sent my application for Medicaid to the state and I guess I am waiting for a response.

Thank you for any help you can provide.

Paul

Yes, this is the correct application form. You could go ahead and complete the application yourself and send it in now. Margaret should be sending you some information soon on your claim. We have a process that we have to complete to open new files and we are still working on yours. Once you receive anything, please give me a call if you have any questions or concerns.

Thank you.

Janet

Hi Janet/Margret,

At our appointment you mentioned you could perhaps help me get medical work done thru Northwestern University. I have e-mailed you twice requesting the forms/applications needed to get this medical help. You have not yet responded. I did try to do a search for these forms and came up with the PDF attached to this e-mail. Is this the correct form? Not sure if you want me to contact NU myself or if you are the one that should be handling this for me. Dr. Sek wants to get another look at my neck because he thinks disc bulging may have increased and that there is further degeneration. There is no way I can afford to get this procedure done and you said you would assist me in getting some sort of medical assistance.

The interview we had is somewhat fleeting as I did get extremely tired. I remember something about family services but can't recall what it was I was supposed to do. Please feel free to call me with anything I should be doing.

Thanks again for all your help,
Paul

The Authorization form (SSA-827) is for you to sign, date and return to SSA. Also, if you have a witness, please have them sign also. Thank you!

Hi Meredith,
Today I received a letter for authorization to disclose information to SSA.
The letter was addressed to your office.
Should I sign and return the letter or have you already taken care of this?
Thanks,
Paul

Hi,
Sorry, I forgot to email you back on this.
It was mailed last Saturday.
Thanks,
Paul

Your case is in prehearing review as of 10/28/16. I don't think it will be much longer but we have to wait for the judge's scheduler to call us. It all depends on the judge's schedule and order of cases to be scheduled. They schedule the older cases first. We will notify you as soon as we get a date.

Hi Meredith and Zenia,

Hope both of you had a wonderful Thanksgiving.
Have we heard anything about when the SSDI hearing will be?

Thanks,
Paul
